IMPORTANT NOTICE

Bunker Hill Community College Online is currently transitioning from the Blackboard Vista 8 Learning Management System to a new system called Moodle. Initial launch of Moodle is expected to take place at the beginning of the Spring 2012 semester. Faculty and Staff have been preparing for this changeover since late Summer. A number of courses will be accessed through Moodle before the start of Spring 2012. We expect the transition process to end by late May, 2012. Blackboard will no longer be available after June 30th.

As with any Learning Management System, the transition process requires patience, an eagerness to learn a new system, and an expectation of regular and continued support - which we, the BHCC online staff are most happy to provide! As training opportunities avail themselves to Faculty and Students, please take advantage of them, as they will assist you in learning all about Moodle. Please return to this page often for regular updates on the Moodle Transition!
