MESSAGE FROM THE PRESIDENT

Welcome to Bunker Hill Community College (BHCC)! We are happy you’ve chosen us in your education journey.

As we emerge from the COVID-19 pandemic, we are here to support students on campus and online. It is our number one priority to create a safe learning environment for everyone – one that nurtures a deep sense of place and prepares you for further education and a fulfilling career.

Convenient and affordable, BHCC offers flexible course schedules and start times to help you make the most of your time and schedule. Full time or part-time, choose an option that works for you. In addition to fall and spring semester start dates, BHCC offers many opportunities for you to stay on track with your degree. These include two mini sessions each semester that allow students to complete an accelerated course in seven weeks, six-week summer sessions and an online winter session.

Academic experiences at BHCC are designed to introduce new ideas, concepts, and techniques while maximizing your current skill sets and taking them to the next level. Whether you’re pursuing your first career, advancement in your current career, or looking for an entirely new career, BHCC has a certificate or degree program that will help you meet your individual goals.

At BHCC, you will be challenged to think critically and to carefully evaluate information presented in various formats. Our talented and dedicated faculty and staff are passionate about your future and will help guide you through the coursework that makes up your program. In and beyond the classroom, your BHCC education will provide you with the knowledge, skillset, and real-world experience to thrive in your chosen field of study.

As a BHCC student, you’ll gain free access to tutoring and academic resources through our Tutoring and Academic Support Center (TASC), Language Lab, MathSpace, and The Writing Place, where staff will support you in reaching your educational goals. And, our commitment to you goes well beyond the classroom with access to our on-campus food pantry – the DISH, and the Single Stop office that will connect you with various resources and opportunities to assist with food, housing, technology, financial support, and more.

We know you can meet this challenge with hard work, persistence, and support, and we are looking forward to being with you every step of the way. Welcome to Bunker Hill Community College!

Pam Y. Eddinger, Ph.D.
President
Bunker Hill Community College
ABOUT THE BUNKER HILL COMMUNITY COLLEGE CATALOG

This publication serves the purpose of providing information about Bunker Hill Community College to persons who may be interested in applying for admission; to parents, teachers, counselors and people who work and study at the College; and to the general public.

College Catalog Statement

This publication is neither a contract nor an offer to make a contract. While every effort is made to ensure accuracy, the College reserves the right to make changes at any time with respect to course offerings, degree and program requirements, services provided, cost of attendance or any other subject addressed in this publication. This publication provides information solely for the convenience of the reader, and the College disclaims any liability that may otherwise be incurred.

For the most up-to-date Catalog information including changes to curricula, course descriptions and tuition and fees, visit the BHCC website at bhcc.edu/catalog. Information on the College website supersedes the published PDF version of the 2021–2023 BHCC Catalog.

Bunker Hill Community College Goal and Strategies were developed through a collaborative process, engaging more than 200 campus members and more than 150 community, educational and industry partners. To view current College Initiatives associated with the College’s goals, visit bhcc.edu/initiatives.

**Foster Student Success**
Promote data-informed, high impact innovations in teaching, learning and student development that lead to increased rates of engagement, persistence, retention, completion and transfer.

**Strategies**
- Expand co-requisite models and acceleration of developmental education and English language instruction.
- Implement learner-centered curricular and co-curricular practices, including culturally relevant, collaborative, experiential and multi-modal learning.
- Integrate holistic student development into the curriculum and co-curriculum.
- Deepen student learning outcomes and competency-based assessment models.
- Enhance instructional technology to support digital teaching, learning, and student development online and on-ground.
- Support faculty and staff professional development aimed at fostering the success of all students.

**Strengthen Career, Transfer and Workforce Readiness**
Prepare students for fulfilling 21st century careers that meet Greater Boston’s workforce needs through credentialed, non-credit, stackable and transferable programs.

**Strategies**
- Design programs that promote transfer and workforce readiness, including non-credit to credit pathways.
- Institutionalize demand-driven program development, including the high-growth fields of STEM, health care and the creative economy.
- Expand internship and apprenticeship programs in partnership with businesses, industries and community organizations.
- Create seamless transfer opportunities through alignment and articulation with baccalaureate institutions.
- Support students in developing transferable 21st century skills and capacities.

**Advance Diversity, Inclusion and Equity**
Advance diversity, inclusion and equity in all areas of the College and integrate the cultural wealth of our students, faculty, staff and communities into the life of the institution.

**Strategies**
- Promote diversity in all areas of the College workforce.
- Build a campus community rooted in collaboration, inclusivity and engagement.
- Design culturally relevant and community-engaged curricular and co-curricular learning environments.
- Identify and address disparities in academic achievement among student groups.
- Increase access, persistence and completion rates for underserved student populations.

**Build Partnerships and Pathways**
Foster reciprocal, sustainable relationships with civic, educational and community partners to increase access, promote college readiness and facilitate seamless pathways to post-secondary study.

**Strategies**
- Increase opportunities for enrollment in early college, dual enrollment and bridge programs.
- Deepen partnerships with civic, educational and community-based organizations.
- Design guided educational pathways through meta-majors programming and curricular mapping.
- Leverage the resources and scholarship of local museums and cultural institutions to enrich the College curriculum and expand student access.
- Broaden partnerships with industry and business leaders.
Develop the College's Infrastructure

Develop the College’s capacity to support student success through learner-centered facilities, strategic communication, enhanced information technology and fiscal stewardship.

Strategies

• Stabilize technology to support teaching, learning and student success; improve data integrity and analysis; and facilitate evidence-based decision-making throughout the College.

• Maximize college and community-based resources to ensure facilities well-suited to the needs of students, faculty and staff.

• Closely monitor the sources of funding supporting teaching and learning, general operations and capital projects to ensure long-term sustainability and financial health.

• Support the development of new instructional sites.

• Integrate print and web communications to disseminate accurate, consistent, transparent information to internal and external audiences.

System and Institutional Mission, Vision and Values Statements

Three separate but cohesive mission statements guide Bunker Hill Community College. The first is a comprehensive, system-wide mission statement for Public Higher Education in the Commonwealth of Massachusetts. The second is a mission statement of general characteristics common to all Massachusetts community colleges. The third mission statement contains the specialized and focused component that identifies Bunker Hill Community College’s distinctive characteristics and priorities.

Mission of the Massachusetts of Public Higher Education

Massachusetts Public Higher Education is a system with a distinguished past, increasing and measurable accomplishments, and dedicated to being recognized as having one of the nation’s most outstanding array of institutions. It comprises 15 community colleges, nine state colleges, and five campuses of the University of Massachusetts. The system exists to provide accessible, affordable, relevant, and rigorous programs that adapt to meet changing individual and societal needs for education and employment. The public system is committed to continuous improvement and accountability in all aspects of teaching and learning. The Board of Higher Education, together with each respective Board of Trustees, expects all students, faculty, and staff to be held to exacting standards in the performance of their roles and responsibilities.

Mission of the Massachusetts Community Colleges

The fifteen Massachusetts Community Colleges offer open access to high quality, affordable academic programs, including associate degree and certificate programs. They are committed to excellence in teaching and learning and provide academic preparation for transfer to four-year institutions, career preparation for entry into high-demand occupational fields, developmental coursework, and lifelong learning opportunities.

Community colleges have a special responsibility for workforce development and through partnerships with business and industry, provide job training, retraining, certification, and skills improvement. In addition, they assume primary responsibility, in the public system, for offering developmental courses, programs, and other educational services for individuals who seek to develop the skills needed to pursue college-level study or enter the workforce.

Rooted in their communities, the colleges serve as community leaders, identifying opportunities and solutions to community problems and contributing to the region’s intellectual, cultural, and economic development. They collaborate with elementary and secondary education and work to ensure a smooth transition from secondary to post-secondary education.

Through partnerships with baccalaureate institutions, they help to promote an efficient system of public higher education.

The community colleges offer an environment where the ideas and contributions of all students are respected. Academic and personal support services are provided to ensure that all students have an opportunity to achieve academic and career success. No eligible student shall be deprived of the opportunity for a community college education in Massachusetts because of an inability to pay tuition and fees.

Mission of Bunker Hill Community College

Bunker Hill Community College serves as an educational and economic asset for the Commonwealth of Massachusetts by offering associate degrees and certificate programs that prepare students for further education and fulfilling careers. Our students reflect our diverse local and global community, and the College integrates the strengths of many cultures, age groups, lifestyles and learning styles into the life of the institution. The College provides inclusive and affordable access to higher education, supports the success of all students and forges vibrant partnerships and pathways with educational institutions, community organizations and local businesses and industries.
Vision of Bunker Hill Community College

Bunker Hill Community College empowers and inspires students, faculty and staff diverse in identities, experiences and ideas to make meaningful contributions to our local and global communities. The College embodies a spirit of inquiry, critical thought, inclusive excellence and lifelong learning.

Institutional Values

Bunker Hill Community College Trustees, Faculty, Staff and Students embody the highest academic and institutional integrity through their commitment to:

- Access and Success
- Excellence and Innovation
- Economic and Social Justice
- Inclusiveness and Equity
- Civic Engagement and Service
- Kindness and Respect
- Accountability and Transparency

The Vision, Mission and Values statements were approved by Board of Trustees, Massachusetts Department of Higher Education and Massachusetts Secretary of Education, October 2014.

Institutional Learning Outcomes (ILOs)

BHCC is a learning institution, and we enact our mission, vision and values individually and collectively through a set of Institutional Learning Outcomes.

INQUIRE with intention

- Reflect and think critically
- Explore and define compelling questions
- Locate and integrate information from diverse contexts
- Think creatively
- Synthesize findings

COMMUNICATE with purpose

- Listen actively
- Express ideas and arguments with intention
- Consider audience, situation and intercultural context
- Engage diverse forms of media
- Facilitate inclusive dialogue

ACT to integrate knowledge and practice

- Advance justice and equity
- Collaborate in diverse teams
- Facilitate reciprocal and sustainable partnerships
- Enact innovative solutions to significant problems
- Contribute to community and civic wellness

GROW through continuous learning

- Identify and leverage individual and collective strengths
- Cultivate resilience and agency
- Develop intercultural competence and critical consciousness
- Form personal and global identities
- Empower oneself and others

College Assessment

Implementation, assessment and continuous program improvement are an integral part of the College’s Strategic Plan. Assessment in academics and student development occurs within the learning environment, and is framed by our Student Learning Outcomes (SLOs). Faculty and staff anchor the assessment of student learning with the Student Learning Outcomes Assessment Program (SLOAP). The College’s Institutional Learning Outcomes, adopted in 2016, and General Education Outcomes, adopted in 2018, inform the design of academic Program Learning Outcomes, academic course SLOs, and the SLOs for co-curricular and student development activities. Assessment activities do not affect a student’s grade, academic standing, ability to transfer or ability to graduate. The College considers student privacy to be of the utmost importance and takes all necessary steps to ensure the confidentiality of student records and student work reviewed through this process in accordance with FERPA regulation...

Student Learning Outcomes Assessment Program (SLOAP)

In order to coordinate assessment activities at BHCC, the Student Learning Outcomes Assessment Program (SLOAP) was designed and implemented by full-time faculty during the 2003-2004 academic year. The SLOAP Taskforce, currently composed of faculty and professional staff representatives from each academic and co-curricular department, oversees ongoing assessment of student learning outcomes on the course, program and institutional levels. Faculty and professional staff submit outcome development and assessment proposals to the Taskforce for approval and, once the proposed project is complete, submit a report of their findings to the Taskforce. Participants use data from SLOAP projects to improve learning where assessment projects indicate improvement is needed. All SLOAP data is maintained by individual departments and on the SLOAP ePortfolio page. https://bhcc.digication.com/sloap/home

Equity and Inclusion

Center for Equity and Cultural Wealth (CECW)

BHCC’s Center for Equity and Cultural Wealth draws on the College’s nationally recognized work to design culturally inclusive learning environments that value the strengths of our diverse students, faculty, staff and local communities. The Center engages the campus in culturally relevant scholarship, practice and advocacy focused on achieving equitable outcomes for all students. Through a multifaceted and intersectional campus-wide conversation, the Center explores the ways in which meaningful community partnerships, equity-minded practices and culturally grounded pedagogies can be enacted to foster the success of all students and members of the College community. Learn more at bhcc.edu/cecw
Halting Oppressive Pathways through Education (HOPE)

The HOPE initiative is designed to examine and eliminate the social, institutional and academic barriers that often prevent males of color from achieving their full potential at BHCC and beyond. This Asset-Based, Student-Centered initiative is run by a group of faculty, staff, and students who are focused on three main areas: qualitative and quantitative data collection, analysis and dissemination; assessing and addressing gaps in College programs and services; and affinity-based mentoring. Learn more at bhcc.edu/hope

Undocumented Students

Bunker Hill Community College welcomes applications from Deferred Action for Childhood Arrivals (DACA) and undocumented students. While Undocumented and DACA students are not eligible for state or federal financial aid, they are eligible to apply for institutional scholarships. DACA students are eligible for in-state tuition and fees. Learn more at bhcc.edu/admissions/undocumenteddacastudents

The Mary L. Fifield Art Gallery

Mary L. Fifield Art Gallery
bhcc.edu/artgallery
artgallery@bhcc.edu

The Bunker Hill Community College Art Gallery provides the College and the local community opportunities to view high caliber art exhibitions, exposure to diverse ideas and artistic media and access to forums with emerging and established Boston-based artists. Through its scheduled programming, the Gallery offers an innovative backdrop to teaching and learning.

Statement on Inclusion

The Bunker Hill Community College Board of Trustees endorsed and approved for adoption on June 9, 1997, the American Association of Community Colleges Statement on Inclusion as follows:

Bunker Hill Community College strongly endorses the continued use of admissions policies and employment practices that promote broad diversity in the community college system. The College will be free to pursue standards and policies that allow it to fulfill its diversity mission and vision. The students who are educated will help provide tomorrow's leaders, and their college experience will demonstrate the richness and substance of our diverse, multicultural, and global environment. The College environment will promote understanding and appreciation of others, while encouraging students to grow as individuals.

Bunker Hill Community College reaffirms its commitment to diversity. In accord with this philosophy, the College will evaluate its hiring, admissions, and financial aid policies to ensure diversity and equal access within the institution. The College will ensure that the results of these evaluations conform to the concept of open access — the cornerstone of the College's mission.

BHCC Statement on Civility

Bunker Hill Community College believes that civility in the workplace and classroom is everyone’s right and responsibility. This statement is consistent with the Student Handbook, all collective bargaining agreements and the College’s personnel policies. We understand “civility” to mean respectful language and behavior toward everyone at all times, regardless of the circumstances. These qualities are intrinsic to excellence in teaching and learning, and contribute to the maintenance of a productive workplace and an overall positive campus climate.

Further, we affirm our commitment to behavior that is courteous and respectful in all interactions with members of the BHCC community as well as with members of the larger communities we serve.
Accreditation Statements

Bunker Hill Community College is accredited by the New England Commission of Higher Education (NECHE).

Inquiries regarding accreditation status by the New England Commission should be directed to the administrative staff of the institution. Individuals may also contact: New England Commission of Higher Education, 3 Burlington Woods Road, Suite 100, Burlington, MA 01803; telephone: 781-425-7700; fax: 781-425-1001; email: info@neche.org; URL: neche.org

The Certified Nurse Assistant Program is accredited by the Commonwealth of Massachusetts Executive Office of Health and Human Services, Department of Public Health, Division of Health Care Facility Licensure and Certification, 99 Chauncy Street, Boston, MA, 02111; telephone: 617-753-8000; URL: mass.gov/dph

The Diagnostic Medical Sonography Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Joint Review Committee on Education in Diagnostic Medical Sonography. Commission on Accreditation of Allied Health Education Programs, 9355 - 113th St. N #7709, Seminole, Fl 33775 - 7709, Phone: 727-210-2350, Fax: 727-210-2354; URL: caahep.org.

The Medical Laboratory Technician Program is accredited by the National Accreditation Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Rd. Suite 158, Rosemont, IL 60018; telephone 773-714-8880. URL: naacls.org.

The Medical Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 North Wacker Drive, Suite 2850, Chicago, IL 60606-3182; telephone: 312-704-5300; fax: 312-704-5304; email: mail@jrcert.org; URL: jrcert.org.

The Paramedic Studies Certificate and Associate Degree Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), which can be contacted at: Commission on Accreditation of Allied Health Education Programs, 25400 US Highway 19 North, Suite 158, Clearwater, FL 33763; telephone: 727-210-2350; URL: caahep.org. The Emergency Medical Services/Paramedic program was last granted continuing accreditation upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP), which can be contacted at: Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions, 8301 Lakeview Parkway, Suite 111-312, Rowlett, TX 75088; telephone: 214-703-8445.

The Pharmacy Technician Certificate Program is approved by the Massachusetts Board of Registration in Pharmacy. The Board of Registration in Pharmacy is located at 239 Causeway Street, Suite 500, 5th Floor, Boston, MA 02114; telephone: 800-414-0168; URL: mass.gov/ehhrs/gov/departments/dph/programs/hcpl/pharmacy/about.

The Associate Degree Registered Nursing Program is accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326; telephone: 404-975-5000; fax: 404-975-5020; email: info@acenursing.org; URL:acenursing.org, and approved by the Massachusetts Board of Registration in Nursing, 239 Causeway Street, Suite 500, 5th Floor, Boston, MA 02114; telephone: 617-973-0900; or 1-800-414-0168; fax: 617-973-0984 URL: mass.gov/dph/bhcc/nursing

The Surgical Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs 25400 U.S. Highway 19 North, Suite 158; Clearwater, FL 33763; Phone: 727-210-2350; Fax: 727-210-2354. Please contact Mail@caahep.org if you have any general questions about CAAHEP.

Equal opportunity institution and does not discriminate on the basis of race, creed, religion, color, sex, sexual orientation, gender identity, age, disability, genetic information, maternity leave, and national origin in its education programs or employment pursuant to Massachusetts General Laws, Chapter 151B and 151C, Titles VI and VII, Civil Rights Act of 1964; Title IX, Education Amendments of 1972; Section 504, Rehabilitation Act of 1973; Americans with Disabilities Act, and regulations promulgated thereunder, 34 C.F.R. Part 100 (Title VI), Part 106 (Title IX) and Part 104 (Section 504). All inquiries concerning application of the above should be directed to Nahomi Carlisle, Esq., Associate Vice President, Chief Equity and Compliance Officer, Affirmative Action Officer, and Section 504/ADA Coordinator.

When a student or employee believes s/he has been discriminated against based on race, creed, religion, color, national origin, age, sex, gender identity, genetic information, maternity leave, sexual orientation or disability status, the College’s Policy on Affirmative Action, Equal Opportunity & Diversity provides an informal complaint process and a formal complaint process which may be accessed by any member of the College community. Whether a complaint/grievance is formal or informal, the College will conduct a prompt, thorough, fair and objective investigation, and will take such corrective
Sexual harassment is a form of sex discrimination. It occurs in a variety of situations which share a common element: the inappropriate introduction of sexual activities or comments into the work or learning environment. Often, sexual harassment involves relationships of unequal power and contains elements of coercion, as when compliance with requests for sexual favors becomes a criterion for granting work, study or grading benefits. However, sexual harassment may also involve relationships among equals, as when repeated sexual advances or demeaning verbal behaviors have a harmful effect on a person’s ability to study or work in the academic setting.

For general purposes, sexual harassment may be described as unwelcome advances, requests for sexual favors and other physical or verbal conduct of a sexual nature when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment or education; (2) submission to or rejection of such conduct by an individual is used as the basis for academic or employment decisions affecting that individual or (3) such conduct has the purpose or effect of substantially interfering with an individual’s academic or professional performance or creating an intimidating, hostile or demeaning employment or educational environment.

A student, an employee, or any other person in the College who is found to have engaged in sexual harassment is subject to discipline up to and including termination of employment or expulsion from the College.

When a student, an employee or any other person in the College believes s/he has been the subject of sexual harassment, the complaint/grievance process is a mechanism for redress. Whether a complaint/grievance is formal or informal, the College will conduct a prompt, thorough, fair and objective investigation, and will take such corrective action as is appropriate under the circumstances. Reasonable efforts are made to maintain confidentiality during the grievance process. No student or employee shall be retaliated against for filing a discrimination complaint/grievance or for cooperating with the College’s investigation thereof. For more information, for a copy of the Affirmative Action Complaint/Grievance Procedure, or to file a complaint/grievance, contact the Office of Equity, Diversity and Inclusion.

Sexual Harassment Guidelines

Sexual harassment of a student, an employee or any other person in the College is unlawful, unacceptable, impermissible and intolerable.

Sexual harassment is forbidden by both federal and state regulations. In keeping with these regulations, a concerted effort will be made to protect employees, students and others from sexual harassment as defined.

For the full text of the College’s policy concerning sexual harassment, refer to the Bunker Hill Community College Policy on Affirmative Action, Equal Opportunity & Diversity.

Guidelines Concerning Sexual Violence

Committing an act of sexual violence upon a student, an employee or any other person in the College constitutes a violation of state and federal laws, and a major violation of the College’s Affirmative Action Policy. Sexual violence is absolutely intolerable and totally unacceptable.

Sexual violence is generally defined as any sexual activity where consent is not obtained or able to be freely given, and includes rape (vaginal, oral or anal penetration without consent), acquaintance rape (rape committed by someone who is known by the victim), or any unwanted sexual activity that is forced or coerced by one person on another. It is a criminal offense to have sex with someone who is incapable of giving consent due to being intoxicated, unconscious, mentally incompetent or under 16 years of age.

An employee or student who commits an act of sexual violence may be subject to criminal prosecution and will be subject to disciplinary action by the College, up to and including expulsion and/or termination of employment.

Victims of sexual violence are encouraged to contact the College’s Department of Public Safety at 617-228-2222 or 228-2053, as soon as is practicable under the circumstances. If a victim is more comfortable reporting the alleged sexual violence to a College employee with whom s/he is better acquainted, such as a dean, administrator or faculty member, s/he may do so. Any employee to whom an incident of sexual violence is reported, however, is required to notify the College’s Department of Public Safety and the Affirmative Action Officer and Title IX Coordinator forthwith.

If any student or employee believes that he or she has been the victim of sexual violence, the student or employee also has the right to file an Affirmative Action Discrimination Grievance with the College. For a copy of the Affirmative Action Grievance Procedure or assistance with filing a complaint, please contact Cheryl Cephas, the College’s Interim Affirmative Action Officer and Title IX Coordinator.

Reporting the incident to the College’s Department of

An employee or student who commits an act of sexual violence may be subject to criminal prosecution and will be subject to disciplinary action by the College, up to and including expulsion and/or termination of employment.

Victims of sexual violence are encouraged to contact the College’s Department of Public Safety at 617-228-2222 or 228-2053, as soon as is practicable under the circumstances. If a victim is more comfortable reporting the alleged sexual violence to a College employee with whom s/he is better acquainted, such as a dean, administrator or faculty member, s/he may do so. Any employee to whom an incident of sexual violence is reported, however, is required to notify the College’s Department of Public Safety and the Affirmative Action Officer and Title IX Coordinator forthwith.

If any student or employee believes that he or she has been the victim of sexual violence, the student or employee also has the right to file an Affirmative Action Discrimination Grievance with the College. For a copy of the Affirmative Action Grievance Procedure or assistance with filing a complaint, please contact Cheryl Cephas, the College’s Interim Affirmative Action Officer and Title IX Coordinator.

Reporting the incident to the College’s Department of
Public Safety, the Affirmative Action Officer and Title IX Coordinator, or another College employee does not commit the victim to filing charges. Federal and state laws, however, require the College to investigate such reports. The matter will be investigated both by BHCC Police and separately by the Affirmative Action Officer and Title IX Coordinator. Although every reasonable effort will be made to protect a victim’s privacy, individuals with a need to know may be contacted and information may be shared as necessary to investigate and adjudicate the matter or as public safety requires. A report of the incident will be filed with local police in the event public safety is at risk even if the victim does not intend to report the incident to police or cooperate in an investigation.

The College prohibits retaliation against any person who presents a formal or informal complaint of sexual violence or who testifies or offers evidence connected with a complaint. Retaliation is a violation of the College’s Affirmative Action and Diversity Policy whether or not the underlying claim of sexual violence is confirmed. For the full text of the College’s policy concerning sexual violence, refer to Bunker Hill Community College’s Policy on Affirmative Action, Equal Opportunity & Diversity.

System-Wide Student Policies

Bathroom and Locker Room Use

All students may use bathroom or locker room facilities on campus that are designated as gender-neutral or that are consistent with a student’s sincerely held gender identity. Use of a bathroom or locker room by any student for an improper purpose will result in disciplinary action, up to and including expulsion.

Changing Biographical Data

The following process is followed when any student seeks to change his or her biographical data as provided and maintained in College records.

Legal Name. A student’s legal name shall be used on all College documents, systems and communications external to the College and/or where a legal name is required. Examples include, but are not limited to:

- Financial aid records;
- Student Accounts records;
- Student Personally Identifiable Information;
- Student directory information;
- Payroll records;
- Health records;
- Official transcripts;
- Federal immigration documents; and
- Interactions with government agencies.

In order for any student to change their legal name on College records, a student must present a certified copy of a court order or other legal document indicating a legal name change has been granted.

Preferred First Name. The College recognizes that some students may prefer to use a first name other than their legal name to identify themselves. As long as the use of a preferred first name is not for an improper purpose, the College acknowledges that a preferred first name can and should be used where possible in the course of College business and education. Students may use a preferred first name wherever a legal name is not required on internal documents, communications, systems and web portals. Examples include, but are not limited to:

- Student identification cards;
- Email and calendar entries;
- Class rosters and advisor lists;
- Learning Management Systems; and
- Diplomas, awards and recognitions.

To request a preferred first name, a student should complete the Preferred First Name Change Form available in BHCCselfservice or on the Dean of Students page at bhcc.edu/dos.

Sex Designation. In order for any student to change their sex designation in official College records, a student must provide a certified copy of a court order, or other legal identification, such as a Massachusetts driver’s license, reflecting the change in sex.

Hazing

The Massachusetts Legislature enacted a law in 1985 that prohibits hazing on all college campuses. Students may obtain copies of the law (MGLc269s17-19) from the Student Activities Office.

Annual Security Report Notice of Availability

Bunker Hill Community College’s Office of Public Safety is responsible for issuing crime alerts in compliance with the Clery Act. In the event a situation arises on or about the campus, an alert is issued to keep the campus community informed.

The Annual Security Report Notice of Availability report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Bunker Hill Community College; and on public property within, or immediately adjacent to and accessible from, the campus. The report also contains information regarding campus security and personal safety, including topics such as: crime prevention, law enforcement practices and authority, crime reporting policies, and other matters of importance related to security on campus.

As required by law, Bunker Hill Community College’s Office of Public Safety and Campus Police publishes and distributes this report annually by October 1. To obtain a copy, visit bhcc.edu/PublicSafety/ASR.

</table>
Admissions

Bunker Hill Community College is committed to an open admission policy. This policy enables any person who has earned a high school diploma or HiSET (formerly the GED) and expresses a desire to pursue a college education to be admitted to BHCC. To enroll in a degree or certificate program, students must apply for admission and be accepted to the College. Students choosing this option are referred to as “degree-seeking students.”

To support an optimal environment for learning, BHCC admits students who demonstrate the academic skills needed to fulfill the requirements of their courses and programs, and the ability to adhere to the Student Code of Conduct. Students under the age of 18 may be required to sign a release form supplied by the College detailing the responsibilities of a minor taking courses at BHCC. All documents submitted to the College become the property of Bunker Hill Community College and will not be returned to students.

Prospective students may obtain information about information sessions, tours and applying to a degree program or general college information by contacting Admissions or via the College website at bhcc.edu/admissions.

Deferment Policy

Applicants who have completed the Bunker Hill Community College application process, and are accepted into a program of study, may choose to defer their acceptance. In order to defer acceptance, applicants must not have enrolled in any courses, or attended the college as a matriculated student. Deferment is allowed for a maximum of one year from the semester, or summer session in which acceptance was granted. Applicants who choose to defer their acceptance for one year, will not be considered eligible for the Catalog Year in which they applied and were accepted. The Deferment Form must be completed when the student makes the decision to defer. Applicants who apply and are accepted into any of the college’s Selective Programs are not eligible to use this Deferment Policy. Selective Program applicants should contact selectiveadmissions@bhcc.edu for more information.

NOTE: This deferment policy does not prevent a student from returning early to take classes.

International Admissions

Bunker Hill Community College is certified by the Student and Exchange Visitor Program (SEVP) certified school eligible to enroll F-1 students. The college offers three start dates per academic year: January, June and September. International applicants who wish to attend Bunker Hill Community College must complete the free online application for admission. Applicants must submit proof that they have completed at least high school, have a required language proficiency in English and sufficient funding to support themselves during the first year of study at the College.

To review the list of admission requirements and ways to meet each requirement, applicants are encouraged to contact the International Center.

Criminal Offender Record Information (CORI) and Sex Offender Registry Information (SORI) Checks

For a student to be eligible to participate in an academic, community or clinical program that involves potential unsupervised contact with children, the disabled, or the elderly, the student may be required to undergo a criminal background check, which could include a Criminal Offender Record Information (CORI) check and/or a Sex Offender Registry Information (SORI) check. Students found to have certain criminal convictions or pending criminal actions will be presumed ineligible to participate in such activities. The College is authorized by the Commonwealth’s Department of Criminal Justice Information Services, pursuant to Massachusetts General Laws, Chapter 6, Sections 167-178B, to access CORI records. In addition, for clinical placement in some programs, a National County Background Check may be required in addition to the CORI check.

Sex Offender checks shall be performed pursuant to Massachusetts General Laws, Chapter 6, Sections 178C-178P. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193. In accordance with federal law, the College is required to advise the campus community where information concerning registered sex offenders may be obtained. To access public information pertaining to registered sex offenders enrolled or employed at the College, please contact the Commonwealth of
Deferred Action for Childhood Arrivals (DACA) Process

On June 15, 2012, the Secretary of Homeland Security announced that certain people who came to the United States as children and meet several key guidelines, may request consideration of deferred action for a period of two years, subject to renewal, and would then be eligible for work authorization. Deferred action is a discretionary determination to defer removal action of an individual as an act of prosecutorial discretion. Deferred action does not provide an individual with lawful status. The College requires proof of the C33 card as part of the application process to qualify for in-state tuition rates. For further information please go to U.S. Citizenship and Immigration Services at uscis.gov/childhoodarrivals.

Homeschooling Policy

All home-schooled students without a high school diploma, HiSET or GED are eligible to apply for admission to a degree or certificate program provided they have successfully completed an approved homeschool program in accordance with Massachusetts General Laws or the laws of their home state.

The College determines whether students have participated in an approved home-school program. To determine whether a student has participated in an approved program, the student shall submit, with the application for admission, evidence that the home-school program was approved by the student’s school district’s superintendent or school committee. Additionally, if the home schooled student is under the age of compulsory attendance, which is sixteen (16) years old in Massachusetts, a letter from the student’s school district’s superintendent or school committee is required stating that the student is not considered truant and would not be required to attend further schooling or continue to be home-schooled if the student has completed his/her home school program before the age of sixteen (16). Home-schooled students who have not completed an approved home-school program will not be eligible to enroll in a BHCC degree or certificate program until they have obtained a HiSET or GED.

The College reserves the right to limit or deny enrollment of any student under the age of sixteen (16) in a course or program based on a case-by-case consideration of a variety of factors, including but not limited to the student’s maturity, life experience, placement test scores, prior education, course content, instructional methodology and potential risks associated with participation in a particular course or program.

Immunization

The Commonwealth of Massachusetts, General Law 105CMR 200.600 requires proof of immunizations from the following students:

(a) All full-time students in a Degree or Certificate program (12 or more credits), and

(b) All health science students – both full-time and part-time (note that health profession programs will require additional health records and requirements*) and

(c) All students on a student or other visa – both full-time and part-time (including foreign exchange students and those students visiting or attending classes while on academic visitation or exchange program).

All of the student groups noted must submit proof of immunizations for the following: MRR - measles, mumps, rubella, Hepatitis B, Varicella (chickenpox), Tetanus, diphtheria and pertussis: (Tdap) and Meningococcal.

*Students in the health profession programs must also present evidence of immunity to Meningitis, Influenza Vaccination, screening for Tuberculosis, Physical Exam, and American Heart Associate CPR certification. Health students must submit immunizations and health documents before attending clinical.

Students who fail to present the required information within 30 days of the date of registration may not be allowed to register for subsequent semesters until the immunization form is received by Student Central. Immunization forms become part of the student’s permanent file and cannot be copied, transferred or returned.

Guest Students (Non-Matriculating or Non-Degree Students)

Bunker Hill Community College welcomes Guest Students to enroll in courses at the College. You are a Guest Student (also known as a non-matriculated or non-degree student) if you fall into one or more of the following categories:

- You want to take a course or courses to transfer back to your institution;
- You want to take a course or courses in order to fulfill prerequisites for another college or university’s undergraduate or graduate program; or
- You want to take a course or courses for your own personal enrichment.

Guest students matriculating at other colleges should have their course selections approved by their home institution prior to registration to insure credit transfer. Transferability of courses to a degree program either at Bunker Hill Community College or elsewhere is determined solely by the degree program from the home academic institution.

For additional information visit bhcc.edu/admissions/gueststudents.
Valor Act Credit Evaluation Policy

In accordance with the Valor Act, Bunker Hill Community College uses the American Council on Education (ACE) military program guidelines to the evaluation of educational experience in the Armed Services as the primary method for evaluating and awarding academic credit for military occupation, training, experience, and coursework.

Section 702 of the Choice Act. Section 702 of the Veterans Access, Choice and Accountability Act of 2014 (“Choice Act”), requires VA to disapprove programs of education for payment of benefits under the Post-9/11 GI Bill and Montgomery GI Bill-Active Duty at public institutions of higher learning if the schools charge qualifying Veterans and dependents tuition and fees in excess of the rate for resident students for terms beginning after July 1, 2015. These new requirements will ensure that our Nation’s recently discharged Veterans, and their eligible family members, will not have to bear the cost of out-of-state charges while using their well-deserved education benefits.

STUDENT CENTRAL: FINANCIAL AID, STUDENT PAYMENT AND ACADEMIC RECORDS

BHCC Student Central

BHCC Student Central offers centralized student services related to Financial Aid, Student Payment, Registration and Academic Records. In addition to a physical Student Central location in the Charlestown Campus second floor B-Lobby, students may also visit the Chelsea Campus Student Services Office, or access the Virtual Student Central, providing access to services from home or after business hours. For more information, please visit bhcc.edu/studentcentral.

Financial Aid and Scholarships

Financial Aid Office

The Financial Aid Office at Bunker Hill Community College assists students and their families with meeting the costs of a college education. BHCC participates in a wide variety of federal, state and private financial aid programs.

Students must be aware that all institutions, including Bunker Hill Community College, are subject to changes in funding allocations from both the Commonwealth of Massachusetts and the United States Department of Education. For more detailed information, visit the financial aid section of the College’s website at bhcc.edu/fa.

Through the online services system, students can see and print their Financial Aid award letters, view their current and previous years’ Financial Aid records and check the status of their current Financial Aid application.

Financial Aid General Eligibility Requirements

To be eligible for financial aid, applicants must be United States citizens or eligible non-citizens, possess valid social security numbers, be enrolled in or accepted for enrollment in an eligible academic program and working toward a degree or certificate. Additionally, applicants must maintain satisfactory academic progress (see Satisfactory Academic Progress, listed under Academic Policies and Procedures), comply with Federal Selective Service Law and not be in default on any educational loans or owe a refund on any federal grants or loans to any institution.
Students who have previously obtained a bachelor’s degree or equivalent at any U.S. or foreign institution are not eligible for financial aid grants, but may be eligible for loans. It is important to know that students may lose their financial aid eligibility if they have attempted 150 percent of the credits needed for a certificate or a degree. The College strongly advises students to consult with the Financial Aid Office if they are contemplating a change in enrollment status. For information, go to the Financial Aid Office, or call 617-228-2275.

Financial Aid Application Process: FAFSA

Financial Aid applications must be completed for each new academic year. To apply for financial aid, students must complete the Free Application for Federal Student Aid (FAFSA) and supply all requested documentation in accordance with the priority deadlines. This form can be completed online at fafsa.ed.gov. When completing the application, please note that the BHCC Title IV code is 011210. Students should retain and keep in an accessible place a copy of their FAFSA as well as all other documents used to complete their FAFSA.

Applicants are notified in writing if additional documentation such as tax returns is needed. Returning students and applicants for admission should contact the Financial Aid Office if they have any questions about this process.

Priority Deadlines for Financial Aid

Priority 1, 2 and 3 deadlines are posted online at bhcc.edu/fa. These dates outline financial aid application deadlines to ensure that you are notified of your award in time for registration.

Summer financial aid funds are available on a first-come, first served basis. Summer financial aid applications are available at the Financial Aid Office, at the time of summer course registration.

Financial Aid Policies

Satisfactory Academic Progress for Financial Aid

Students are considered to be achieving academic progress if they complete at least 66 percent or more of the total number of credits that they have attempted at BHCC and are meeting the following minimum cumulative grade point average:

<table>
<thead>
<tr>
<th>Cumulative Credits Attempted</th>
<th>Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 12.</td>
<td>no minimum</td>
</tr>
<tr>
<td>12-30</td>
<td>1.79</td>
</tr>
<tr>
<td>More than 30.</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Finally, you must successfully complete the credits required for your degree within 150 percent of the standard length of your academic major. For example, if you are majoring in an associate degree that requires 60 credits for completion, you must complete your degree requirements by the time you have attempted 90 credits or you would lose your financial aid eligibility.

Unofficial Withdrawals

Per federal regulations, students who stop attending all of their classes without formally withdrawing from the College will be identified and may lose a percentage of or their entire financial aid award for that semester. If a student fails all of his or her attempted credits for a semester, the federal regulations require that the College assume the student stopped attending the College. If the Financial Aid Office cannot obtain proof that the student completed at least 60 percent of the semester, the Financial Aid Office will then prorate and recalculate the student’s financial aid award, which may result in the student owing a balance to the College. For more details, see the Financial Aid Refund Policy.

Withdrawal/Graduation

Students who receive loan funds while enrolled at Bunker Hill Community College must complete an exit loan interview session before leaving the College. The Financial Aid Office notifies graduating students prior to their anticipated graduation date. This notice provides information regarding loan repayment. Students can make individual arrangements for a personal exit interview by contacting the Financial Aid Office.

Appeals Process for Academic Progress

Students have the right to request a one-time, unsatisfactory academic progress appeal if they fail to attain a satisfactory GPA and/or course completion rate and are denied financial aid consideration. If financial aid recipients experience extenuating circumstances that affect their schoolwork, they have the right to appeal the decision. Reasons to appeal may involve, for example, a documented illness of a student or of a spouse. Because it is difficult to define all the possible reasons that could lead to unsatisfactory academic progress, students should contact the Financial Aid Office, for instructions on how to submit a written appeal.

Appeals Process for Financial Reasons

A student’s family’s financial situation may change from that reported on the FAFSA application. At the request of the student, the Financial Aid Office, will review a change in the financial situation of the student to determine if adjustments should be made to the calculation of the student’s financial aid eligibility. Examples of typical appeals include a loss of employment, a reduction of income of a parent and/or spouse or uninsured medical expenses.

Federal Financial Aid Refund Policy

The calculation of the return of Title IV Funds is determined by the date that the student withdraws. Title IV aid and all other aid is earned during the time a student is attending Bunker Hill Community College. The percentage of aid earned, up to a maximum of 60 percent, is determined by dividing the number of days a student was enrolled by the number of days in the semester. If the student withdraws from all courses after 60 percent of the semester is completed, Title IV aid is viewed as 100 percent earned.
Scholarships and Awards

Students applying for scholarships must be:
- Matriculated and enrolled full time (12 credits or more) at BHCC at the time of application, unless otherwise noted in the scholarship eligibility criteria;
- Attending BHCC during the semester they are receiving the scholarship;
- Have no In-Progress (IP) grades at the time of the scholarship application deadline; and,
- Have earned the minimum number of credits and/or cumulative GPA as specified for each scholarship.

When scholarship eligibility criteria require a minimum number of credits or grade point average earned, only college level courses (numbered 100 and above) taken at Bunker Hill Community College and applicable toward a degree or certificate program will be considered.

All students are welcome to apply regardless of status. For a full list of scholarships, deadlines and application forms, please visit the scholarship website at bhcc.edu/scholarships.

Grants

Grants are sponsored by the federal and/or state government and need not be paid back. For a complete list of the grant programs in which BHCC participates, visit bhcc.edu/financialaid/typesoffinancialaid.

Work Study Program

Bunker Hill Community College participates in the Federal College Work Study Program. Eligible students may receive funds from this program as a result of the financial aid application process. Federal program regulations require that a percentage of these funds be earmarked to community service-related work. Check with Student Central for a listing of available Work Study positions.

Cost of Attendance

Tuition & Fees

The Board of Higher Education sets tuition and the College sets fees. Both are subject to change. For current tuition and fees, visit bhcc.edu/costofattendance.

Health Insurance. Massachusetts state law requires that all students taking nine or more credits in the fall semester or nine or more credits in the spring semester have medical insurance. There are no exceptions. For current rates, visit bhcc.edu/costofattendance.

Other fees associated with attendance may include: Special Cost Course Fee; Liability Insurance Fee; Photo ID Replacement Fee; Returned Check Fee; Transcript Fee...
Open Educational Resources (OER)

Bunker Hill Community College offers a number of courses that do not require the purchase of textbooks or course materials. Instead, these courses use Open Educational Resources (OER)—educational materials that reside in the public domain or have been released under a copyright license that permits anyone to freely use and repurpose them. OER courses are available in a variety of subjects.

MA Residency Tuition

Students registering for classes at Bunker Hill Community College who are eligible for in-state tuition must complete the Massachusetts Community College In-state Tuition Eligibility Form. An eligible person is defined by law as a U.S. Citizen, lawful immigrant, permanent resident, or holder of another legal immigration status who has satisfied the duration residency requirement of six months prior to the start of the semester of enrollment, but not more than one year prior to that date and can demonstrate his/her intent to remain in Massachusetts. A member of the armed forces (or spouse or child) on active duty in Massachusetts or any individual using educational assistance under either Chapter 30 (Montgomery GI Bill®-Active Duty Program), Chapter 31 (Vocational Rehabilitation), or Chapter 33 (Post-9/11 GI Bill®), of Title 38, United States Code, and/or the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311 (b)(9)) with the intent to live in Massachusetts while attending Bunker Hill Community College will be charged in-State tuition rate.

The college reserves the right to make any additional inquiries regarding the applicant’s status and to require submission of any additional documentation it deems necessary. Questions concerning residency requirements should be directed to Student Central.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at https://www.benefits.va.gov/gibill.

Tuition Waivers

Several kinds of tuition waivers are available to Bunker Hill Community College students. These waivers include, but are not limited to, National Guard, veterans, senior citizens, Native Americans, state employees and wards of the state. To receive a tuition discount, students must present the waiver at the time of registration.

The Commonwealth of Massachusetts does not fund all courses; therefore, the use of certain waivers for those unfunded courses will be restricted. Students eligible for waivers should obtain clarification from Student Central before making course selections.

Outstanding Financial Obligations

Bunker Hill Community College is responsible for making “diligent efforts” to collect amounts due to the state. Diligent efforts shall include e-bills or written bills at your request, dunning notices and subsequent assignments to a collection agency. The student is responsible for all collection costs and any fees incurred in the collection of debt and for informing the College of any dispute regarding the debt.

The College advises students that their debts may be discharged through the intercept of any Commonwealth and Federal payments that are due to them or scheduled to be paid to them including tax refund. Please be advised
that your student account debt constitutes an “educational benefit overpayment or loan” as defined pursuant to 11 U.S.C section 523(a)(8), and therefore is not dischargeable in bankruptcy.

Payments

Students can register for classes before the semester’s payment due date. At the time of registration, students receive online registration information including their bill, class schedule and information about payment and insurance waiver deadlines. BHCC will send all follow-up communications and statements to your BHCC e-mail address and subsequently to the address on file. Students are required to make payments on time; failure to receive these notices does not excuse late payments. After the payment due date has passed, students must pay for courses at the time of registration.

The College accepts payments online at at https://selfservice.bhcc.edu/Student/Finance. You may pay by credit/debit card, or from a checking or savings account. Money orders, company, or scholarship checks must be mailed to Student Central. International students also have the benefit of making payments in the currency of their choice through the PayMyTuition and Western Union links at selfservice.bhcc.edu/Student/Finance.

The College processes electronic checks through ACI Payments, Inc. When you provide a check you are authorizing conversion the check to an electronic form to be submitted as an ACH debit entry to your account.

The College offers a tuition payment plan to students and families who have needs that cannot be met with federal or state financial aid. You can learn more about the payment plan options and how to sign up at bhcc.edu/autopay. For specific information about the payment plan, contact ACI Payments at 1-866-964-4020 or bhcc.edu/autopay.

Students can access their financial account summaries online at selfservice.bhcc.edu. The account shows both current semester payments received and balances due.

Refund Policy

Students dropping or withdrawing from classes should log into Self-Service and navigate to Academics from the menu in the top left corner. The Withdrawal Form and upload page are located there. Please follow the instructions exactly to submit a valid form.

Failure to officially withdraw results in a grade of F or NA in the course and an obligation to pay in full. The schedule of refunds for tuition and general college fees applies only when proper withdrawal or class drop procedures, as established by the Academic Records Office, are followed. Lack of attendance or course abandonment does not constitute a drop or withdrawal. For specific refund deadlines please refer to the course schedule for the semester or session.

Student Comprehensive Health Insurance Plan

Chapter 23 of the Massachusetts Acts of 1988 requires that all students registered for nine or more credit hours must participate in a comprehensive health insurance plan unless they certify that they are participating in a health insurance plan with comparable coverage. If a student has comparable coverage and wishes to waive participation in the Massachusetts Community Colleges insurance plan, the student must submit waiver information via the Internet by the published due date or at the time of registration. For more information, visit bhcc.edu/healthinsurance.

All questions regarding the Student Health Insurance Program (SHIP) should be directed to MAhealthconnector@state.ma.us or call 1-877-623-6765. Students already on MassHealth should call 855-273-5903.

Health Insurance Refund Policy

Except for medical withdrawal due to covered injury or sickness, students withdrawing from the College during the first 30 days of the period for which coverage is purchased shall not be covered under the policy and a full refund of the premium will be made. Students withdrawing after 30 days will remain covered under the policy for which the premium was paid and no refund will be allowed. Students who do not withdraw completely, but who drop below nine credit hours within the first 30 days, may apply to Gallagher Student Health and Special Risks for a refund of health insurance premiums. Registering for mini-sessions, web courses, and Center for Self-Directed Learning courses later in the fall or spring semester may restore the student’s obligation to carry health insurance.
Campuses and Instructional Sites

Academic Records

The Academic Records Office maintains student academic records, ensures that student rights are protected under the Family Education Rights and Privacy Act (FERPA), and provides many services including registration, schedule adjustment, withdrawals, processing grades, transcript requests, program changes, graduation, personal information changes and verification requests.

Final Examination Schedule

Final examinations take place during a student’s last class for each course enrolled during the semester. The final examination Assessment Period is usually scheduled the next two days after the last day of classes. Students who have more than two exams scheduled in one day may request to reschedule the exam. Students who miss final examinations must notify the appropriate Academic Dean of their program area immediately, stating the reason. The individual faculty member makes the decision regarding makeup of final exams.

CAMPUSES AND INSTRUCTIONAL SITES

Charlestown Campus

Built in 1973, Bunker Hill Community College’s Charlestown Campus is situated on approximately 42 acres in the historic Charlestown neighborhood of Boston. The campus is conveniently located at the MBTA Community College stop. As BHCC’s main campus, the Charlestown location features state-of-the-art classrooms, labs and other facilities for all of the College’s programs, including domestic and international business, hospitality and culinary arts, early childhood development, electronics, and computer applications.

The Charlestown Campus features the 48,000 square-foot LEED Gold Certified Health and Wellness Center constructed in 2009 under version 2.2 of the United States Green Building Council’s green building program. The Center includes the College’s Fitness Center, Gymnasium and locker rooms, which are open to all students, faculty and staff.

The Charlestown Campus also includes the College Bookstore, Food Services, and The Mary L. Fifield Art Gallery.

Bookstore

The college bookstore is operated by Follett Higher Education Group as a service to the students, faculty, and staff. The bookstore is located on the fourth floor, E-Building, and operates all year round. The bookstore offers a large selection of textbooks in a wide variety of formats: Rental, Digital, Used and New to save students money and give them choice. In addition to the bookstore’s multiple textbook options, it has everything from school supplies and reference materials to backpacks, college apparel and snacks to go.

Food Services

The Thomas A. Kershaw Culinary Arts Dining room features lunch and dinner options served in a full-service dining room or to-go from the BHCC Culinary Arts program students. In addition, the campus includes a cafeteria and a café operated by Aladdin.

Chelsea Campus

Providing higher education and job training opportunities to residents of Chelsea, Revere, Everett, East Boston, Winthrop and other surrounding communities, the BHCC Chelsea Campus is actively involved in the community through partnerships with community based organizations, social service organizations, Chambers of Commerce, the City of
Chelsea and the Chelsea Public Schools. Visit bhcc.edu/chelsea for more information and directions to the campus.

The Chelsea Campus offers laboratory science courses in human biology, anatomy and physiology, environmental science and nutrition, and a full array of foundation and elective courses, including mini session courses, which can be completed in just seven weeks. Accelerated certificate programs are scheduled in seven-week mini sessions allowing for completion in half the length of time. Current certificates available in this accelerated format include Early Childhood Education, Entrepreneurship, Computer Support Specialist and PC Hardware.

The Chelsea Campus Health Sciences certificate programs include Medical Assistant, Patient Care Technician, Central Processing and Pharmacy Technician. Courses are also offered in Certified Nurse Assistant (CNA) and Emergency Medical Technician and Emergency Medical Technician (EMT). The Paramedic Studies and Surgical Technology programs offer students an Associate in Science degree.

Several MBTA bus lines as well as the MBTA commuter rail stop within a few blocks of the campus, making it easily accessible by public transportation. The College also provides free shuttle service between the Charlestown and Chelsea Campuses. Approximately 30 designated student parking spaces are also available. The campus also includes a student lounge and easy access to a café.

Chelsea is also home to the College’s Adult Education (AE) program which offers Spanish GED and English GED (through our partner, LARE) as well as Basic English for English Language Learners (ELL) classes during the weekday, evening and on weekends. The program is funded by the Massachusetts Department of Elementary and Secondary Education.

Students are also urged to check the website for the new seven-week mini sessions that allow for the completion of accelerated certificate programs.

Visit bhcc.edu/chelsea for more information and directions to the campus.

Student Services and Support

The Chelsea Campus Student Services Office is the hub where students may register for courses, complete course placement assessments and access advising. The advising staff also offers students a diverse set of workshops that support student success. The Office can be reached at 617-228-2101.

Student Access and Success Center (SASC)

The Tutoring Center offers tutoring primarily in mathematics, English, biology and more. The Center may also offer open lab time and facilitated study groups for laboratory based science classes. Assistive technology, including the Kurzweil Reading System that assists students who are visually impaired or who have reading and related learning disabilities, is available at the Center. Visit bhcc.edu/Chelsea/SASC TC for hours.

Laboratories

The Health Skills Laboratory and the Surgical Technology and Central Processing Laboratory offer simulated settings in which students enrolled in Allied Health and Surgical Technology programs learn and practice specific required skills. A state-of-the-art Paramedic Studies Laboratory with an ambulance simulator offers a simulated setting in which students enrolled in the EMT and Paramedic Studies programs practice specific required skills.

Three science laboratories provide equipment and materials for students enrolled in lab courses delivered at the Chelsea Campus, including human biology, anatomy and physiology, environmental science and nutrition.

A large open computer lab is also available on an extended schedule, including Saturdays, for any student enrolled in a BHCC course.

Satellites and Instructional Sites

BHCC Locations
bhcc.edu/locations

Malden Satellite

The Malden satellite is located at Malden High School, 77 Salem Street, Malden. Established in the fall of 2009, the Malden Satellite offers introductory and college level courses in the day and evening during the fall and spring semesters. Placement testing, advising and registration for these courses are conducted on the BHCC Charlestown Campus. Malden High School is accessible from the Orange Line, Malden Center transit station.

South End Satellite

The South End Satellite, operating in partnership with IBA - Inquilinos Boricuas en Acción, is located at 630 Tremont Street and is a nationally replicable model of a local community college (BHCC) working hand-in-hand with a community based organization (IBA) to establish a college campus directly in the heart of an affordable-housing community (Villa Victoria). The South End Satellite provides Boston residents with the opportunity to complete the HiSET (formerly the GED), take ESL and Basic English courses and to enroll in college-level classes. Free child care services and financial coaching are also available at this location. Prior to the beginning of each semester and throughout the year, the satellite offers a range of student services including academic support, success coaching, financial aid assistance, academic advising, placement testing and admissions and enrollment assistance.

Boston Chinatown Neighborhood Center Instructional Site in North Quincy

Students can also enroll in a limited number of classes at the Boston Chinatown Neighborhood Center’s Quincy site in North Quincy.
Campuses and Instructional Sites

East Boston Instructional Site
The East Boston Instructional Site is located at 250 Sumner Street, East Boston. This instructional site offers a limited number of introductory and allied health courses.

Everett High School Instructional Site
BHCC students can enroll in courses in allied health at Everett High School. While a number of seats in at the Everett instructional site are reserved for Everett High School students as part of the College’s Dual Enrollment/Early College program, additional seats are open to all BHCC students.

Freedom House Instructional Site in Dorchester
BHCC partners with Freedom House, located at 5 Crawford Street in Dorchester, to offer a limited number of courses for dual enrollment students, as well as those that are open to all BHCC students.

Pao Arts Center in Chinatown Instructional Site
BHCC partners with Boston Chinatown Neighborhood Center (BCNC) on the Pao Arts Center, an arts, culture and education space for the community to convene to preserve and celebrate the cultural and creative assets of Boston’s Chinatown. The center, housed within the distinctive One Greenway building, is Chinatown’s first community-based arts center and Boston’s newly dedicated Asian American and Asian immigrant cultural space. A range of BHCC classes are offered at the Pao Arts Center, including theater, visual and media arts and business. Students and community partners also have access to the BHCC mobile language lab at this location. bhcc.edu/pao

Parking and Security

Office of Public Safety and Campus Police
bhcc.edu/publicsafety
Charlestown: 617-228-2053
Chelsea: 617-228-3359
Emergencies: 617-228-2222
BHCCPublicSafety@bhcc.edu

Parking. Student parking is available in Lots 1 and 2 on the Charlestown Campus, 7 days per week, from 6 a.m.-11 p.m. These lots are owned by City of Boston and managed by ABM Parking Services. A limited number of spaces are available at the Chelsea Campus for BHCC Students, marked by brown signs with white lettering that read “RESERVED BHCC Student/Sticker PARKING ONLY.” A valid parking permit is required for all student parking lots.

Students have the option to purchase a semester-long parking permit valid for Lots 1-2 on the Charlestown Campus and for designated student parking spaces on the Chelsea Campus from ABM online through ParkWhiz. Daily parking in Lots 1-2 is also available to students, faculty/staff and visitors for a daily fee, to be paid via the ParkMobile mobile app. More information and the link to purchase a parking pass is available at bhcc.edu/parking.

Security. The Office of Public Safety and Campus Police is dedicated to protecting students, faculty, staff, visitors and property of Bunker Hill Community College. Campus Police

Academic Policies and Information

Attendance

Because poor attendance generally results in poor grades, students must attend all regularly-scheduled classes and laboratory sessions. Students having attendance difficulties should discuss this matter with their course instructors and advisors.

Students who know they will be absent for three or more consecutive class sessions because of a family emergency or personal illness should report the extended absence to the Office of the Dean of Students. The Associate Vice President will notify the course instructors of the absence. Upon returning to class, students are responsible for discussing completion of all course requirements with their course instructors. If the course instructor and student find it impossible to complete all assigned work, the student may need to withdraw from the course.

Students who do not attend classes during the first two weeks of the semester will be withdrawn from the course and may receive an NA (non-attendance) grade. The grade appears on the transcript and is counted toward credits attempted but is not computed in the grade point average. The NA grade designation is not used during the summer semester.

Auditing a Course

Students who want to audit a course must obtain permission from the Registrar or designee. Audit students must pay full tuition and fees. The audit request must be made at the time of registration, and once approved may not be changed to a graded course. An audit course may not be transferred or used toward graduation requirements.

Catalog Year

The term “catalog year” refers to the academic year in which students are admitted and attended the College. Students must fulfill the program requirements listed in the College Catalog in effect for their catalog year. When students reapply to the College after an absence of five or more years, they must fulfill the catalog year/program requirements in effect at the beginning of the semester of re-application. Students may change their program in a given semester, but should do so prior to the end of the schedule adjustment period. If an exception is made to allow students to change their program after the schedule adjustment period, students must fulfill the catalog year program requirements in effect at the beginning of the semester following the date of the change.

Readmission Policy

The readmission policy applies to students who applied and declared a program of study, attended classes, but stopped out for less than five years. Access to the college email system, and myBHCC will be inactivated after two semesters of being inactive. Upon returning to the college, students who declare a new program of study or retain their original program of study with the current catalog year have to be readmitted. Students must complete the Readmission Form. Student whose last enrollment was in any of the college’s Selective Programs are not eligible to use this Readmission Policy. Selective Program students should contact selectiveadmissions@bhcc.edu for more information.

Reactivation Policy

Reactivation applies to students who were in a program of study, attended classes, but stopped out for less than five
years from their original start date and have returned to
the college under the same program of study and Catalog
Year that they were accepted into. Access to the college
email system, and myBHCC will be inactivated after two
semesters of being inactive. Students will need to complete
the Reactivation Form. Students whose last enrollment was
in any of the college’s Selective Programs are not eligible
to use this Reactivation Policy. Selective Program students
should contact selectiveadmissions@bhcc.edu for more
information.

Change of Grades
Students should direct all questions regarding grades to
the course instructor. The instructor will change final grades
only if a clerical error exists. Students must submit a written
request to the instructor for re-evaluation if they feel that
an error exists. The final decision regarding grades rests
with the instructor. Students may initiate grade appeals
no later than 30 calendar days following the last day of
the instructional period for which the grade was granted.
Please refer to the Bunker Hill Community College Student
Handbook at bhcc.edu/handbook for more information.

Clinical Experience Responsibilities
Students enrolled in programs that require clinical
experience must adhere to all stated objectives and
course competencies including those required for the
clinical experience. Students are responsible for their own
transportation to and from the clinical sites. Students
are accountable for their behavior and demeanor during
all clinical experiences and must conduct themselves
in a manner that is in keeping with the College Code
of Conduct, all professional conduct and regulations
outlined by the regulating body, all conduct and behavioral
expectations set forth by the clinical site, and additional
specific requirements as are outlined in the program-
specific student handbook.

Due to the competitive nature of placing students in clinical
sites, students may have to travel long distances. It is
important to note that some of the clinical sites are located
in suburban or rural areas and are not accessible by public
transportation. Therefore, students should consider this
increase in time and cost in planning their transportation
and finances for programs requiring clinical experiences.

The College reserves the right to suspend and/or remove
students from the clinical experience whose behavior is
considered inappropriate. Removal may adversely affect
prospects for completing the requirements of these
programs. Students so removed may appeal in writing
to the Office of Nurse Education and Medical Imaging.
Students participating in clinical experiences should refer
to the Criminal Offender Record Information (CORI) and
the Sex Offender Registry Information (SORI) requirements
listed in the Admissions section of this catalog.

Behavior Policies, Discipline and Grievance
Procedures
Bunker Hill Community College expects students to behave
in a manner that is appropriate to a collegiate environment.
Students are expected to assume responsibility for their
own behavior and learning and to respect the learning
environment of others. Bunker Hill Community College
advocates a learning environment that enhances the
academic, intellectual, cultural and social enrichment of
its students, faculty, staff and the community at large. To
guarantee that no member of the College community is
deprived of this collegiate environment, student rights
and responsibilities are clearly stated and behavior and
discipline codes have been established. Please refer to the
Bunker Hill Community College Student Handbook at bhcc.
edu/handbook for more information.

Course Load
Students who carry 12 or more credit hours in a fall or spring
semester or 6 credit hours in a summer or mini session are
considered full-time students. Students must enroll in a
minimum of 15 credit hours per semester of college level
course work in order to complete an associate degree
program in two years. Students who wish to carry more than
18 credits during a fall or spring semester or 9 credits during
a summer or mini session must obtain written permission from the Dean of their program of study or designee.

**Course Prerequisites**

Some courses require that students meet certain conditions prior to registering. These conditions are known as prerequisites. Prerequisites include completion of lower-level courses with a passing grade, completion of computerized placement tests (CPTs) or formal admission to a specific program of study. To count a course from another college or university as a prerequisite at BHCC, students must bring evidence of completion of that course at the time of registration.

**Dean’s and Merit Lists**

Students with a grade point average of at least 3.00 are named to the Dean’s List, provided that no grade lower than C was earned in any course that semester. Grades lower than C include D, F, NA, W, WA, and IP. For Dean’s List computation, P is not considered a letter grade. Only courses numbered 100 or higher are considered in determining eligibility for the Dean’s List.

Students who are enrolled in at least 6 but less than 12 credits in a given semester, but otherwise have met the same performance level as those on the Dean’s List, are named to the Merit List. The Merit List has the same performance requirements as the Dean’s List. Students must have a GPA of at least 3.00 and no grade lower than a C, and only courses numbered 100 or above are considered.

**Degree and Certificate-seeking Students**

All students admitted to degree or certificate programs may be required to take Computerized Placement Tests (CPTs) in English, reading and mathematics, or may be required to take the ESL placement tests if English is their second language. The tests determine the levels at which students will begin their study. Based upon test results, the College may require developmental or ESL courses, or limit a student’s enrollment in an effort to enhance that student’s ability to succeed. Applicants to health careers and technical programs must comply with specific program entrance requirements and application deadlines.

**Dropping or Adding a Course**

Students may adjust their schedules either during the registration period or during the schedule adjustment period if a seat is opened in the course, all the course prerequisites are completed, and payment is made at the time of registration. After the schedule adjustment period, students may add only those courses offered through the Center for Self-Directed Learning. Refer to the College’s academic calendar for published deadlines at bhcc.edu/academic-calendar. Students registering for courses that have already started must check with the faculty regarding the course attendance policy.

**Credit Hour Policy**

In accordance with the United States Department of Education, Bunker Hill Community College follows the Carnegie Unit for credit. Students are expected to spend a minimum of 45 hours of work for each credit. The most common breakdown for one credit is one hour of class instruction and two hours of homework for 15 weeks each semester. A three credit course demands nine hours each week.

**Appeals Process for Grades**

The Grade Appeal Process is for a student who believes that a recorded final grade does not accurately reflect his/her academic performance in a course. Grades can be appealed in instances where a student believes that an inaccurate final grade has been issued such as arbitrary grade issuance, inconsistent grading practice, or calculation error. For more information visit the Dean of Students at bhcc.edu/dos/gradeappealprocess.
**Fresh Start Policy**

Under the Fresh Start Policy, students may enroll without having to carry a very poor GPA record or low completion rate from years back that could prevent them from ever earning a GPA or completion rate sufficient to lead to graduation or completion of a program. The following conditions apply to the Fresh Start Policy:

1. The student must be a former Bunker Hill Community College student who has credits from BHCC. The students are eligible for Fresh Start if they are returning to BHCC after being away for 5 years or more. Students currently enrolled at BHCC or whose last term of enrollment is within 1-4 years are not eligible for Fresh Start.

2. The credits held by the student must be at least 5 years old. No credits shall have been earned with an assigned grade at BHCC within the past five years. Grades include, W, WA, NA, and A-F, IP, and P.

3. All these credits will be treated as the College treats credits transferred from other colleges. Credit will be granted for a course where a grade of C or better was earned. The courses from the earlier registration that received a grade of C or better will be counted as free electives or as courses fulfilling requirements depending upon the program requirements of the student who is re-entering, just as transfer credits from other colleges are counted. Only grades earned at BHCC after Fresh Start is granted are counted in the GPA. Likewise, only the completion rate of grades earned after Fresh Start is granted will be used to determine progress.

4. This process can be used only once. If the student drops out again and then returns, the student cannot start again with a new GPA or a new completion rate.

5. This process does not affect the need to repeat courses in certain programs where the earlier completion maybe considered out of date (this is frequently the case in science, computer technology, or health programs such as nursing).

6. In all cases where these policies are at variance with federal financial aid policies, the federal policies will determine eligibility for such aid.

**Withdrawal from a Course**

Students may withdraw from a course or the semester only during the semester in which they are registered for coursework and only by the deadline specified for each semester, according to the academic calendar.

The College does not process course or semester withdrawals after the withdrawal deadline date. The College issues no refunds for students who withdraw from a course or the semester.

To withdraw from a course or a semester, students must complete and submit a withdrawal form, which is available at Student Central or online. After students officially withdraw from a course or semester, their transcript will show a grade of W for coursework. The College designates course withdrawals as “uncompleted courses,” which may adversely affect academic standing and financial aid eligibility. Failure to attend or ceasing to attend a class or classes does not constitute official withdrawal and results in grades of F or NA for the course or courses. Failure to withdraw formally may affect students’ academic standing and eligibility to receive financial aid (see Satisfactory Academic Progress).

**Withdrawal from the Semester or the College**

Students may withdraw from the College at any time; however, if currently enrolled, students will abide by the semester withdrawal deadline specified for each semester. If the College withdrawal is received after the semester withdrawal deadline, the withdrawal will not be processed until the semester has ended and final grades have been entered. Students who withdraw from the College are not entitled to a refund. To withdraw from the College, students must complete and submit a withdrawal form available at Student Central or online. Students who are enrolled and withdraw from the College, prior to the semester withdrawal deadline, receive W grades on their transcript.

Failure to attend or ceasing to attend a class or classes does not constitute official withdrawal from the College and results in grades of F or NA for the course or courses. Failure to withdraw formally may affect students’ academic standing and eligibility to receive financial aid (see Satisfactory Academic Progress). Students desiring to be readmitted to the College must submit a new application.

A student can withdraw for any reason according to the posted schedule UNLESS their account is on hold.
due to an Interim Suspension, Suspension, Expulsion or Hospitalization. For more information, please see the Dean of Students website, bhcc.edu/dos, or call the Dean of Students Office at 617-228-2408.

Satisfactory Academic Progress Policy

In order to continue at Bunker Hill Community College and/or receive financial aid, students must make satisfactory academic progress toward a degree or certificate. Satisfactory academic progress is the calculation of the cumulative course completion rate* and grade point average of a student. The College considers students to be achieving satisfactory academic progress if they complete 67 percent or more of the total number of credits attempted and meet the following minimum cumulative grade point average:

<table>
<thead>
<tr>
<th>CUMULATIVE CREDITS ATTEMPTED</th>
<th>CUMULATIVE GRADE POINT AVERAGE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 12</td>
<td>no minimum</td>
</tr>
<tr>
<td>12-30</td>
<td>1.79</td>
</tr>
<tr>
<td>More than 30</td>
<td>2.00</td>
</tr>
</tbody>
</table>

* This includes credits taken at BHCC as well as those officially transferred in.

Academic Warning

The College places students on Academic Warning if they do not meet the criteria for satisfactory academic progress.

Academic Improvement

The College places students on Academic Improvement if they meet the criteria for satisfactory academic progress during their Academic Warning semester or Academic Probation semester, and their cumulative GPA and completion rates do not meet the criteria for Good Academic Standing.

Academic Probation

The College places students on Academic Probation if they do not meet the criteria for satisfactory academic progress during their Academic Warning semester and their cumulative GPA and completion rates do not meet the criteria for Good Academic Standing.

Academic Suspension

The College places students on Academic suspension if during any probationary semester, they do not meet cumulative SAP requirements and one of the following circumstances occur during that semester:

- Student’s semester grade point average is below 1.79. (Student has attempted between 12 and 30 credits to date, including transfer credit accepted and those earned at BHCC) OR
- Student’s semester grade point average is below 2.00. (Student has attempted more than 30 credits to date including transfer credit accepted and those earned at BHCC) OR
- Student has completed less than 67% of the total number of credits attempted in an Academic Probation semester, at BHCC. (Please note that grades of F, IP, N, NA, W and WA count as credits attempted).

Students on Academic Suspension are prohibited from attending the college for a minimum of one semester unless the suspension status is successfully appealed. Following a minimum leave of one semester, students may appeal their academic suspension by meeting with the Associate Dean of Academic Affairs or designee.
Appeals Process for Probation and Suspension

Students placed on academic probation or suspension from the College for unsatisfactory academic progress have the right to appeal. Students who successfully appeal their academic suspension will be placed on academic probation when they return to BHCC. Students should contact the Associate Dean of Academic Affairs for more information. Academic reinstatement does not automatically re-establish eligibility for Financial Aid. Students should follow the Financial Aid appeals process separately from the academic appeals process. See the Financial Aid section of this catalog for information on the appeals process.

Educational Records

The Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. Students are informed of their rights under this act through the College Catalog and the Student Handbook.

They are:

- **The right to inspect and review** the student’s educational records within 45 days of the day the College receives a request for access. Students should submit to the Registrar, dean, head of the academic department or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- **The right to challenge records** and request the amendment of the student’s educational record that the student believes is inaccurate or misleading. Students may ask the College to amend a record by writing to the College official responsible for the record, clearly identifying the part of the record they want changed and specifying why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- **The right to consent to record disclosure** of personally identifiable information contained in the student’s educational records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor or collection agency); a person serving on the Board of Trustees or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her task. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility.

- **The right of complaint**, to file a complaint with the U.S. Department of Education concerning alleged failures by Bunker Hill Community College to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

**Family Policy Compliance Office**
**U.S. Department of Education**
**600 Independence Avenue, SW**
**Washington, DC 20202-4605**

Directory Information

Bunker Hill Community College has designated the following items as directory information: student name, academic program, semesters of attendance, current enrollment status, Dean’s and Merit Lists, degrees or certificates awarded and dates of graduation.

The College may release directory information to a third party requesting such student information without first obtaining the student’s consent.

A student has the right to refuse to permit the College to release directory information. To facilitate this, a student must request that a privacy code be placed on his/her directory information by completing the Request for Non-Disclosure of Directory Information form and submitting to Academic Records. If a privacy code is placed on a student’s record, no directory information will be released in College publications or to third parties, excluding cases in which the Solomon Amendment or lawful subpoenas require the College to release such information by law.

Notwithstanding the College’s definition of directory information, the Department of Defense, pursuant to the Omnibus Consolidated Appropriations Act of 1997, identifies the following additional student information as directory information for Department of Defense purposes: student’s address, age and level of education. This information is available and accessible from student records. Non-consensual release of directory information may be submitted to the Department of Defense in accordance with the Solomon Amendment.
Academic Policies and Information

**Grading and Notation System**
(effective January, 1990)

<table>
<thead>
<tr>
<th>Grades and Notations</th>
<th>Definitions of Grades and Notations</th>
<th>Quality points Per Credit Hour</th>

</tr>
</tbody>
</table>

**Midterm Warning Grades**

Faculty may issue midterm warning grades during week 7-8 of the semester to students who may be in jeopardy of not successfully completing their course. Grades of D or F may be issued to students whose course work is below requirements to earn a grade of C or better in the course. A grade of FX is issued to students who may be in jeopardy of failing the course due to attendance concerns. Midterm warning grades are found in the Grades section under the Academic Profile menu of WebAdvisor on the Portal. Students should speak with their professor immediately to develop a plan to get back on track. A variety of support services are also available to students; please stop by the LifeMap Commons for a referral.

**Computation of GPA**

The Cumulative Grade Point Average (CGPA) is computed by dividing the total number of quality points by the total number of credit hours attempted at Bunker Hill Community College. Grades of AU, IP, P, NA, W and WA are not calculated in the semester, cumulative or graduation grade point average. All grades are used in determining satisfactory academic progress, suspension and probation.

**Program Changes**

Students wishing to change from one program of study to another should consult with their advisors. Students then must complete a change of program form, available at Student Central. A program change may increase the time needed for students to complete program requirements for graduation. Students who receive financial aid should consult with the Financial Aid Office regarding the fiscal implications of program changes. Students may change their program in a given semester, but should do so prior to the end of the schedule adjustment period. If an exception is made to allow students to change their program after the schedule adjustment period, students must fulfill the catalog year program requirements in effect at the beginning of the semester following the date of the change.

**Repeat Course Policy**

This policy addresses courses taken at Bunker Hill Community College.

Students may repeat courses in which they earn a grade of D, F, W, WA, or NA without petitioning. Students can petition to repeat a course when they have obtained a C grade or better. The petition will then be passed on to the appropriate Academic Dean for approval. The process may be used no more than three times for courses with a letter grade of C or better. Repeating a course when the earlier attempt is a C or better is allowed only if the higher course grade is a course prerequisite or program requirement to continue in or enter a specific academic program. The highest grade automatically becomes the official grade for purposes of calculating grade point average and for determining eligibility for graduation. However, students should note that other institutions may have different policies when determining which course to use to calculate transfer credit or grade point average. The grades for each attempt, however, are recorded and always remain on the student’s transcript. Repeating a course may not be allowed in specific programs with outside accreditation.

**Cumulative Grade Point Average (CGPA): 30÷13 = 2.31**

Graduation Grade Point Average is calculated in the same manner but excludes developmental course work (i.e. courses numbered below 100).

**Student Right-to-Know Graduation Rate**

Graduation rates data are available online for all colleges that are required to report this information. This information is reported by colleges and published by the United States Government and available for Bunker Hill Community College at nces.ed.gov/collegenavigator/?id=165112
Graduation Information

Application

During their final semester, students who expect to graduate must apply for graduation. To graduate, students must:

- Complete a minimum of 60 credit hours (exclusive of developmental courses) with a minimum cumulative grade point average of 2.00.
- Attain a minimum of 15 credits of the total number of credit hours through courses enrolled in and successfully completed at Bunker Hill Community College.
- Complete all program requirements.
- Meet all requirements of the College, including payment of any outstanding financial obligations and submission of state-mandated immunization requirements.

Second and Subsequent Degrees

Students may apply to earn additional associate degrees. To qualify, students must complete the required courses for each degree, as well as a minimum of 15 credit hours beyond the first and any subsequent degrees.

Certificates

To qualify for a BHCC certificate, students must complete all course requirements for the certificate with a minimum of 25 percent of the required credit hours successfully completed at the College with a cumulative minimum GPA of 2.00 (exclusive of developmental courses).

Graduation with Honors

Highest Honors: Students who have completed degree requirements with a Cumulative Grade Point Average of 3.90 - 4.00, less developmental credits.

High Honors: Students who have completed degree requirements with a Cumulative Grade Point Average of 3.50 - 3.89, less developmental credits.

Honors: Students who have completed degree requirements with a Cumulative Grade Point Average of 3.30 - 3.49, less developmental credits.

The College gives honors awards for the highest grade point average, less developmental credits, in each program.

The Bunker Hill Community College Alumni Association

Established in 1988, the Bunker Hill Community College Alumni Association contributes to the continued growth of the College by sharing the educational, professional and personal experiences of alumni with the College community.

The Alumni Association provides opportunities for alumni to connect with their alma mater, one another and BHCC students through sponsored programs, networking opportunities and events.

The Bunker Hill Community College Foundation, Inc.

Foundation Office
bhcc.edu/foundation
Marilyn K. Kuhar, Executive Director of Development and of the Foundation
617-228-3290 mkkuhar@bhcc.edu

The Bunker Hill Community College Foundation, Inc., is a non-profit 501(c)(3) organization established to obtain resources to support the College, thereby enabling students with diverse educational, ethnic and cultural backgrounds to benefit from a high-quality, affordable, post-secondary education. The mission is realized by building constituencies and obtaining financial resources from groups and individuals including alumni, business, civic and community leaders.

The Foundation Board of Directors is committed to advancing the mission of the College and works to secure private contributions, planned gifts and other donations from individuals, foundations and corporations through personal solicitations, grant applications and fundraising events.

The Foundation accepts donations of any amount and designated to any purpose that advances the goals and mission of the college. Funding priorities are programs that contribute to student success, including scholarships, emergency assistance, and basic needs. Gifts for current use provide immediate assistance while contributions to the Foundation’s endowment help ensure excellence and accessibility to future generations of students.
Bunker Hill Community College is committed to supporting students in achieving their educational, career and life goals. LifeMap re-imagines the student experience by enabling students to develop an individualized pathway (plan) for goal completion. In partnership with faculty and staff, students use LifeMap tools to create educational, transfer or career plans, connect with support services, participate in social networking and reflect on their learning. By centralizing resources and enlisting faculty and staff in their use in and beyond the classroom, LifeMap enables students to make informed decisions and become more self-sufficient while they create a personalized plan for realizing their goals.

In addition to the LifeMap related activities students participate in within the classroom, the LifeMap Commons serves as a central location on campus to support students throughout their journey with academic, career and transfer advising and referrals to other college support services. Learn more at bhcc.edu/lifemap.

Advising: Academic, Career and Transfer

Advising & LifeMap staff assist students with choosing or changing a major, building an academic schedule, developing an educational plan for degree completion, planning for transfer, utilizing online resources, understanding campus policies and procedures and referring students to additional support services or resources. Information about group advising sessions and student-focused workshops is on the events calendar on the BHCC website and goes out by email to students throughout the year; students should check their BHCC email daily. For more information, please visit the LifeMap Commons or bhcc.edu/studentlife/advising.

Academic Services

Academic advisors are available for all currently accepted certificate and degree-seeking students at BHCC.

New students receive an advisor assignment after the start of their first semester. The advisor assignment depends on class enrollment and program of study (major).

- Faculty Advisor
- Staff Advisor
- an Academic Department, or
- Advising & LifeMap Department.

The name of the assigned advisor or department is on the Advising tab on the Plan & Schedule section of BHCCselfservice.

Career Advising

Career Advisors help prospective, new and continuing student with aligning their career goals with their program of study. When deciding on their program of study, a career advisor will help students in exploring and focusing their
career options and can show how the program at Bunker Hill Community College can lead to achieving career goals.

Students have access to career assessments through Career Coach and MassHire CIS. Taking these assessments will help clarify interests, skills and values and the results will suggest career areas for exploration. After taking career assessments, students should discuss their results with a career advisor. During the advising appointment, students can learn how to research day-to-day duties in their chosen field, what skills or training will be necessary for the career, and future employment trends.

**Career Coach** [bhcc.emsicc.com](http://bhcc.emsicc.com) Students can use Career Coach to match careers of interest with Bunker Hill Community College specific Programs of Study, complete self-assessments, and build their knowledge of career skills, common work activities, and level of education required related to their career of interest.

**Massachusetts Career Information System (MASSCIS)** The MassHire Career Information System, or MassHire CIS, is a free online career resource through the State of Massachusetts. Students can use MassHire CIS to find employment data, learn about average wages, watch videos about daily responsibilities, and more! Students can also use MassHire CIS to complete self-assessments and learn about which Massachusetts colleges and universities offer educational programs that match their career interests.

**Transfer Services**

Transfer Services assists new, current and graduating BHCC students with the transfer process and transfer opportunities to and from the college.

**Transfer In**

Students who have attended another college may apply for transfer credit and advanced standing at Bunker Hill Community College. Official transcripts from all previous colleges should be sent directly to the Academic Records Office at the time the student applies to BHCC. Once the student is accepted and becomes a matriculated (or degree-seeking) student, college transcripts will be evaluated.

Transfer Credit may be awarded if:

- the courses are comparable to those offered at BHCC;
- a grade of C or better is earned from a regionally accredited college or university (programs requiring a C+ or higher are noted on the program curriculum sheet located in the BHCC College Catalog);
- computer courses are not more than five years old;
- Anatomy and Physiology I and II courses are not more than 10 years old for some selective health program applications.

You can use a maximum of 45 transfer credits toward the BHCC associate degree and a maximum of 75 percent of the total number of credits required for certificate programs.

Once an official transcript has been evaluated and you have registered for classes, transferred in courses will appear on your BHCC transcript with a letter grade of TR. TR grades are not counted in your BHCC GPA (Grade Point Average) and are not used to calculate your completion rate. BHCC uses both completion rates and GPA to calculate your academic standing at the College.

Credits earned at colleges that follow a quarter system will be converted to semester-hour equivalents resulting in an adjustment in the number of credits transferred.

**Transfer Appeal Process**

If you disagree with the transfer credit award decision, request a meeting with a Transfer Counselor by emailing transferservices@bhcc.edu. The purpose of this meeting is to give you an opportunity to present evidence such as course descriptions and syllabi to demonstrate that the course(s) in question are either the equivalent or comparable and meet the criteria listed above. The Transfer Counselor will contact relevant Faculty, Department Chair and or the Academic Dean to review course documentation as needed. If the matter is not resolved with the Transfer Counselor, you can appeal in writing to the appropriate Associate Provost of Academic Affairs requesting that the Associate Provost review the materials and findings. The decision of the Associate Provost is final.

**Transfer Out**

Transfer advisors provide students with an overview of the transfer planning process and assistance with completing applications to other colleges.

**Transfer Fairs**

Each semester BHCC hosts Admissions representatives from over 40 colleges and universities. This is your opportunity to collect information and ask questions from a number of colleges all in one place.
Workshops
Transfer Services offers workshops on transfer related topics for BHCC students planning to apply to four-year colleges. A transfer advisor facilitates each session and students will have opportunities to ask questions. Upon registering for a workshop, students will receive an email with a web-link to access and participate during the workshop’s designated time and date. Students may use a computer device with a microphone and internet access or dial in by phone. It is necessary that students with 30 credits or less attend a Transfer 101 Workshop prior to meeting with a transfer counselor.

Virtual College Visits
Virtual college visits are events that allow Bunker Hill students to meet with transfer admission representatives from bachelor degree granting institutions. During these one-hour sessions, students learn about each institution’s academic programs, student engagement opportunities, and the process for applying and transferring to these institutions. Students also have the opportunity to ask their own questions.

Visit bhcc.edu/transfer for upcoming workshops and college visits and additional information

Transfer Partnerships
Bunker Hill is dedicated to developing partnerships with colleges, universities and community-based organizations. Transfer Services offers information sessions, workshops, and individual transfer advising appointments to support students in achieving their academic goals.

Transfer Articulation Agreements
Students complete an Associate’s degree at BHCC, meet all eligibility and admissions requirements, and receive guaranteed admissions into the specified major. All eligible BHCC credits transfer toward the specific Bachelor’s degree.

For a list of current agreements, please visit https://www.bhcc.edu/admissions/transferpartnerships/articulationagreements/

MassTransfer
MassTransfer is a collaboration between the Commonwealth’s community colleges, state universities and the University of Massachusetts. System-wide resources and policies allow for students to transfer seamlessly, stay on track and minimize the time it takes to earn a bachelor’s degree.

General Education Foundation. MassTransfer provides any student in the Massachusetts public higher education system who completes the General Education Foundation with the benefit of satisfying the general education/distribution/core requirements at any other public higher education institution (with the receiving institution able to add no more than six additional credits or two courses)

Visit mass.edu/masstransfer/gened/home.asp to learn more about the MassTransfer Gen Ed Foundation. In addition, please visit bhcc.edu/programs/GeneralEducationRequirements for Bunker Hill Community College’s General Education requirements.

A2B (Associate to Bachelor’s). Beginning your college career at a community college is a smart choice. MassTransfer seeks to reward community college students who complete associate degrees at Massachusetts community colleges before they enroll in mapped or linked bachelor’s programs at Massachusetts state universities or University of Massachusetts campuses. Not only does MassTransfer guarantee full transfer of a minimum of 60 credits but, depending on their final GPA and/or prerequisite coursework, students who complete A2B programs may also receive guaranteed admission and tuition discounts. Visit mass.edu/masstransfer/a2b/home.asp

Commonwealth Commitment. A2B Degree students who attend full-time and earn a 3.00 GPA or higher also have the opportunity to participate in the Commonwealth Commitment. The Commonwealth Commitment (available in “A2B Mapped” programs only) further rewards students with a freeze on tuition and fees for all four years, and 10% end-of-semester rebates. For more information including a complete list of pathway programs and qualifications for eligibility please visit bhcc.edu/commonwealthcommitment or speak with a Transfer Counselor in the LifeMap Commons.

Transfer and Articulation Information for Baccalaureate Programs
Bunker Hill Community College is dedicated to creating partnerships with four-year colleges and universities. Articulation agreements outline the transfer pathway between academic programs at BHCC and other institutions. Articulation agreements are designed to help students make a smooth transition when transferring from BHCC to another institution by ensuring that they understand if and how coursework taken at BHCC will transfer into other programs.

Transfer Services offers a variety of services to students interested in transferring from BHCC to four-year institutions. Students are encouraged to plan early and research and meet with transfer admissions representatives.
from the four-year institutions to properly assess each college or university’s requirements, minimums and expectations, which will help make the best curriculum choices at BHCC.

For a list of current articulation agreements please visit bhcc.edu/admissions/articulationagreements.

Placement Testing and Assessment

Assessment Center
bhcc.edu/assessment
Charlestown Campus: 617-228-2377
Chelsea Campus: 617-228-2101

College Placement:
New students may be required to take English and math assessments before registering for classes.

Students can also obtain placements using high school GPA, or scores from SAT, ACT, GED, HiSET, and other tests.

For complete information on all placement options, or to make an appointment for testing, please visit www.bhcc.edu/assessment.

CLEP: CLEP exams allow students to save time and money by earning credit for what they already know. CLEP testing is available on the Charlestown campus. For complete information visit https://www.bhcc.edu/clepexams/.

TEAS: Test of Essential Academic Skills (TEAS) The Test of Essential Academic Skills (TEAS) is required for admission to BHCC’s Nursing Program and many of the Allied Health programs. For complete information visit https://www.bhcc.edu/assessment/atiteasexam/

HiSET: The HiSET exam is available at BHCC for those who need to earn a Massachusetts high school equivalency credential. For complete information please visit: https://www.bhcc.edu/assessment/highschoolequivalencytestinghisetandged/

Internships and Career Development

Internships
BHCC offers a variety of internship opportunities for students. Find out more at bhcc.edu/internships.

Learn and Earn Internships provide students with paid opportunities in top corporations, small businesses, non-profits and cultural and civic organizations. In addition to working in the field, students take a class that supports their career development and success in their internships.

Academic Internships are those that are required to complete a program of study. These can be paid or unpaid and help students gain relevant experience in their field of study. In addition to working in the field, students take a class that supports their career development and success in their internships.

Research Internships give students in Science, Engineering, Technology and Math (STEM) fields the opportunity to conduct research with top researchers at other colleges and research institutions. Research Experiences for Undergraduates (REUs) are paid opportunities that often happen over the summer and students receive room and board in addition to their stipend.

Career Internships are opportunities students pursue in order to gain more experience in the field. These may be paid or unpaid opportunities. Students who participate in career internships do not take a class, and therefore do not receive academic credit for their internship.

Career Development

BHCC offers all students access to job postings from employers interested in hiring BHCC students and graduates. Students should log in to Handshake at bhcc.edu/internships to view available positions.

In addition to the online system, BHCC hosts employers for career fairs, recruiting events, and other events in order to connect employers with BHCC students and graduates.

Handshake

Handshake is BHCC’s exclusive online career portal where students and alumni can search and apply for jobs, internships and volunteer opportunities, as well as manage the full spectrum of their career search needs. Students and alumni can use Handshake to register for career events and workshops, access our library of workshop materials and sample resumes, easily create resumes, upload cover letters and portfolio documents, search and apply for positions, and sign-up for job or event alerts. Visit bhcc.edu/internships to complete your profile.
EDUCATIONAL OPPORTUNITIES

Academic Innovation & Distance Education (AIDE)

AIDE Support
bhcc.edu/aide
617-228-3427
onlinehelp@bhcc.edu

The mission of Academic Innovation & Distance Education at Bunker Hill Community College is to advance the College’s goals by providing innovative and effective instructional design, digital teaching and learning resources and timely support that helps students and instructors succeed. AIDE promotes inclusive, accessible and collaborative teaching and learning solutions to the BHCC community.

Distance Education

Bunker Hill Community College offers several alternatives to classroom instruction that allow students to complete all or part of their course work online. These alternative modes of instruction include full asynchronous online courses, as well as hybrid courses that are part online and part in class. Academic departments can provide information about their online and hybrid course offerings.

The Commonwealth Honors Program at BHCC

Honors Program Office
bhcc.edu/honors
chp@bhcc.edu

The Commonwealth Honors Program at Bunker Hill Community College is a statewide program overseen by the Honors College at the University of Massachusetts at Amherst. Bunker Hill is one of many of the Commonwealth’s colleges and universities that is a member of this program.

Within the Commonwealth Honors Program, students will find and create opportunities to excel academically in a rich and challenging environment and to become a member of a diverse and inclusive community of scholars, building on the strengths of the college community’s diversity. For admission requirements and benefits, including transfer opportunities and scholarships, visit bhcc.edu/honors.

BHCC Learning Communities

Learning Communities
bhcc.edu/learning-communities
617-228-3248

BHCC Learning Communities provide students with the opportunity to explore contemporary issues in a challenging and supportive environment. Learning Communities foster stronger relationships among students, faculty and staff and offer culturally relevant and active learning experiences.

First-time to-college students pursuing associate degrees and enrolled in nine or more credits are required to take a Learning Community Seminar or a Learning Community Cluster within their first year.

Learning Community Seminars are three-credit college level courses designed to help incoming students identify academic goals and pathways. Seminars engage students in early career exploration and feature integrated support services, including peer mentors and success coach advisors. Most programs of study recommend or require specific Learning Community Seminar courses; for example, students in the Liberal Arts take HUM-120. Students may check their program maps to find recommended seminar courses.

Learning Community Clusters enable students to take two or more courses together organized around a common academic theme. Clusters prepare students to work together in collaborative environments and provide opportunities for students to accelerate progression through developmental English and math.

For more information about BHCC Learning Communities, visit bhcc.edu/learning-communities.

Alternative Learning

Bunker Hill Community College provides a variety of alternative learning options for students who are self-directed learners.

These options address individual learning styles or provide flexible options for those constrained by time and/or distance. Online, weekend, individualized courses through the Center for Self-Directed Learning, and independent studies through the Contract Learning Program provide these types of non-traditional learning opportunities.

Boston Welcome Back Center for Internationally Educated Nurses

Welcome Back Center
bhcc.edu/welcomeback
617-228-ICAN (4226)
welcomeback@bhcc.edu

The Boston Welcome Back Center assists immigrant nurses in obtaining their Massachusetts nursing licensure and re-entering the nursing workforce. Many internationally educated nurses come to Massachusetts and find it difficult to obtain a license to practice here. The process can be complicated and involves working with several different agencies, and sometimes meeting additional educational requirements. The Center incorporates educational case management services, career guidance and group activities to address the educational and vocational needs of our population. The Welcome Back Center’s main office is located at Bunker Hill Community College’s H-Building.
The Welcome Back Center addresses several pressing and systemic needs in healthcare delivery in the Greater Boston region:

- Creating new pipelines into the nursing field to relieve regional workforce shortages.
- Enhancing the racial, ethnic and linguistic diversity of the area’s nursing workforce.
- Building cultural competencies in the nursing workforce and college environment.

The Welcome Back Center offers a range of specially designed, customized and accelerated educational interventions that address participants’ English proficiency needs and nursing/educational skill gaps, thus expediting re-entry into the nursing profession.

**Independent Learning Contracts**

A Learning Contract is an opportunity for students to complete coursework under the individual supervision of a faculty member under specific circumstances including the need for a learning experience to extend beyond the academic program curricular offerings. Learning contracts are generally approved when in the professional opinion of the Dean and Department Chair the student needs this contract in order to complete their degree in the present semester through no fault of their own and there is no other way to meet the requirement.

**Prior Learning Assessment (PLA)**

The Prior Learning Assessment program (PLA) provides a process for evaluation and, when appropriate, awards academic credits for learning acquired outside the traditional college environment. In order to receive PLA credits, students must provide evidence that their prior learning is equivalent to college-level learning and it must correspond to the courses offered at BHCC. The PLA Coordinator assists students in preparing portfolios and documenting credits.

Methods for assessing prior college-level learning include: Advanced Placement examination (AP); military education and experience evaluation; College Level Examination Program (CLEP); credential evaluation; departmental examinations; and portfolio evaluation. Students may apply a maximum of 45 credits toward an associate degree at BHCC.

**Office of Community Engagement**

Bunker Hill Community College’s Office of Community Engagement provides multiple pathways for students to engage as active and responsible members of their communities. BHCC students work with community-based organizations as assigned through their courses, contemplate civic and ethical issues with each other on campus, or simply volunteer in their local communities.

The College partners with a range of Greater Boston community-based organizations, including after-school programs, community centers, environmental advocacy groups, food pantries, and refugee and immigration centers. The College’s Office of Community Engagement supports faculty integration of community engagement projects into the curriculum, coordinates co-curricular volunteer programs, and provides a pathway for local community-based organizations to partner with the College.
Partnerships with Secondary Schools

Dual Enrollment and Early College Program

High school students from Greater Boston area schools can earn high school and college credits simultaneously while gaining familiarity with the college experience through BHCC’s dual enrollment programs. Students may enroll individually, or through partnerships with area schools or districts. The program includes dual enrollment and early college programs offered in partnership with area school districts such as Boston, Cambridge, Chelsea, Everett, Malden, Medford and Revere.

High School Articulation Agreements and Curricular Alignment

BHCC shares articulation agreements with many local high schools, awarding college credit for certain advanced courses taught at high schools. BHCC faculty in Mathematics and English are working with their colleagues in several area high schools to align high school and college curriculum, ensuring students arrive at college ready to take college-level courses.

Massachusetts Distributive Education Clubs of America (DECA)

Massachusetts DECA is a co-curricular career technical high school student organization that operates in over 60 comprehensive and technical high schools in Massachusetts. DECA has been operating on a continuous basis at BHCC since September 1993. madeca.org

Summer Transition Program

Launched in 2012, the Summer Transition Program enables new, transfer, or readmitted students with an assessed need for English Language Learning (ELL), developmental English or math coursework to receive intensive instruction in order to get a head start prior to fall entry (at no cost). The program consists of bridge courses in ELL, developmental writing, and math. Textbooks are provided to students enrolled in the program at no additional cost. Bridge classes enable students to benefit from intensive instruction over the summer, so that they can progress to college-level or upper developmental level courses in the fall.

Student Success Program (TRiO)

BHCC Students must apply and be selected to participate in the Student Success Program. The program’s goal is to assist students in their efforts to be successful in their studies, graduate, and transfer to a four-year college or university by providing comprehensive academic and student support services and transfer assistance. Program participants are known for having an average GPA of 3.0 or higher, successful program completion rates, and strong leadership skills. TRiO Student Support Services Grant is funded by the United States Department of Education.

Workforce and Community Education

The Vision seeks to empower diverse learners with quality education that will advance career achievement and personal goals.

The Mission is to provide opportunities for education and training leading to professional advancement and lifelong learning while meeting the workforce needs of the communities we serve.

Beginner English Language Learning (BELL) programs are offered through our English Language Institute. Basic English Language Studies (BESL) supports students who are preparing to study at the college or require more advanced language skills to succeed in their lives. Intensive English Program (IEP) supports international learners who need to acquire English skills quickly in order to pursue college studies in the United States.

Community Education and Adult Learning Pathways empower personal advancement through market-driven courses designed to achieve students’ personal and professional goals.
Corporate Learning and Professional Development programs provide high quality, industry demand-driven programming to emerging, transitional, and incumbent workers in a corporate setting. Training is customized for businesses, emerging entrepreneurs and to support the professional development needs of individuals.

Small Business and Entrepreneurship partners with businesses, chambers and local government to offer training for small businesses in multiple languages.

The Language Institute offers English Language Learning programs and foreign language learner courses.

Adult Education and Transitions to College Programs

Adult Education

bhcc.edu/adulted
617-228-2286 mrojassu@bhcc.edu

The Adult Education programs at the Chelsea Campus and through our Boston Consortium Partners in the South End of Boston support the adult learner needs of our Greater Boston community. These programs develop English language proficiency, content skills to acquire a high school credential and pathways to post-secondary education or jobs.

Through the Transitions to College program, adult learners are offered a no-cost option to begin their college career. All of these programs are supported by grant funds from the Massachusetts Department of Elementary and Secondary Education (MADESE).

A C A D E M I C R E S O U R C E S

College Connection

bhcc.edu/collegeconnection
617-228-2165 scurranc@bhcc.edu

The College Connection is an academic and intrusive advising support service available to students enrolled in sections of RDG-090, RDG-095 and ENG-090. Some classes have a dedicated Literacy Coach who visits the class on a regular basis and provides individualized tutoring outside of class time, follows up with absent students, connects students to appropriate college resources, and provides advising services. The goal of the program is to improve the retention, pass rates, and reading levels of students enrolled in developmental reading and writing classes, as well as to prepare students to meet college expectations.

Language Lab

bhcc.edu/languagelab
617-228-3440 langlabs@bhcc.edu

The Language Lab provides students a high-tech learning environment along with a knowledgeable tutoring staff to guide them with any aspect of language learning, from speaking, listening and pronunciation to reading, writing, grammar and punctuation. The Lab has several language learning software programs, support staff members and 37 workstations.

Library & Learning Commons

bhcc.edu/library
617-228-2213 BHCCLibrary@bhcc.edu

The BHCC Library & Learning Commons delivers services that include information literacy instruction, quality resources, and an academic learning environment. The library, located on the Charlestown Campus on the third floor of the E-Building, serves all BHCC locations.

For detailed information about the library's resources for students and faculty, hours, ID cards and more, visit bhcc.edu/library.

MathSpace

bhcc.edu/mathspace
617-228-3286 617-228-2283 mathlab@bhcc.edu

The MathSpace is a mathematics resource center that is available to all students enrolled in developmental mathematics courses at BHCC. The primary goal of the MathSpace is to assist students to become independent learners and in achieving academic success in mathematics. For more information and hours, visit bhcc.edu/mathspace.
Tutoring and Academic Support Center (TASC)

The TASC
bhcc.edu/tasc
617-228-3467  tasc@bhcc.edu

The Tutoring and Academic Support Center (TASC) supports and enhances student learning and academic success by offering a variety of traditional and non-traditional services to all BHCC students who are currently enrolled in credit-bearing courses. The TASC provides tutorial assistance, small group workshops and academic support to improve and enhance academic success. Students are offered a wide range of services to support their work in basic academic skills as well as on course-specific work in their programs.

The Writing Place

The Writing Place
bhcc.edu/writingplace
617-936-1948

The Writing Place is a tutoring service sponsored by the English Department. Students come to the Writing Place to work with peer tutors on specific writing tasks, including brainstorming ideas for college writing assignments, organizing rough drafts, revising, editing and doing library research.

STUDENT AFFAIRS AND STUDENT PROGRAMS

Athletics and Wellness

Bunker Hill Community College’s Athletic Department has developed a program of varsity, intramural and fitness programs to support all students at the College. BHCC supports student athletes by providing professional coaches and staff, state-of-the-art facilities, safe equipment and opportunities for student athletes to compete in varsity-level programs with other intercollegiate athletic programs. The Athletic Department sponsors varsity level sports programs in Men’s and Women’s Basketball, Men’s and Women’s Soccer, and Esports. The College varsity programs compete in Region 21, Division III of the National Junior College Athletic Association (NJCAA). Intramurals, open gyms and fitness activities, including a fitness center, are offered on a regular basis to all students.

Counseling, Prevention and Wellness

The BHCC personal counselors are available to students needing emotional support and guidance during difficult times.

Dean of Students

The Dean of Students Office is the primary advocate for students at the College. Located on the Charlestown Campus, the office is here to assist members of the BHCC community in identifying and achieving their education goals. The Division of Student Affairs includes departments and services that support learning outside of the classroom.

Disability Support Services

Bunker Hill Community College has developed a program of support services specifically for students who have learning disabilities, sensory impairments, psychological disabilities or physical conditions. Services may include, but are not limited to, academic and testing accommodations, faculty notification, assistance with adaptive computer technology and accessibility issues, academic/career advising, student support groups, professional literacy instruction and personalized educational coaching. The program is designed to promote interaction among several existing campus resources and personnel. Students are actively involved in decision making regarding their specific needs and are encouraged to work toward increased
independence and self-sufficiency.

**Eligibility.** Students with documented disabilities are eligible for services through BHCC’s Disability Support Services Office (DSS). In accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disability Act (ADA), students seeking reasonable accommodations for a disability are responsible for self-identifying and self-advocating. If you have a documented disability and anticipate needing accommodations, please contact Disability Support Services. Requests for accommodations require dialogue with DSS, medical documentation review and registration with DSS prior to receipt of an accommodation. Accommodations are not retroactive. Students are required to meet each semester with DSS staff to discuss and determine reasonable and effective accommodations and are strongly encouraged to do so prior to the start of each semester.

**DISH Food Pantry**

DISH Food Pantry is to Deliver Information, Sustenance, and Health to the Bunker Hill Community College campus community. The DISH aims to empower those in need to obtain resources so that they may focus on being healthy, happy, and successful at Bunker Hill Community College without the barrier of fighting hunger. The DISH is a student-driven and supported resource that is committed to being a safe, dignified, and stigma-free environment.

**Health Services**

The Health Services Office promotes wellness through health awareness and education. The Health Services Coordinator provides assistance to the College community through emergency first aid, referrals for individual health concerns, and review of immunization clearances for the College’s health related programs.

**International Center**

The International Center provides programs, services and activities supporting the internationalization of the College community.

The Center also assists BHCC students in integrating study abroad experiences into their academic programs, and assists prospective international students with the admission process and issues immigration documents required for F-1 visa application.

International Student Advisors provide programs and individual assistance to international students from more than 100 countries each year. Advisors assist students in maintaining legal immigration status, transferring to other colleges, obtaining work authorizations, addressing academic concerns and/or personal issues such as adjustment to life in the United States. Orientation, social and cultural programs sponsored by the Center help international students learn more about U.S. culture and the educational system.

The Center coordinates the international delegations visits to Bunker Hill Community College.

**Single Stop**

Single Stop is an initiative at Bunker Hill Community College, connecting students to state and federal financial resources and local community services. The aim is to help students surmount economic barriers, continue with their education, and move towards economic mobility with the ultimate goal toward ending cycles of poverty. For a list of services and partners, visit the Single Stop office.

**Student Activities, Clubs and Organizations**

Bunker Hill Community College offers a variety of co-curricular activities that provide students with opportunities to develop leadership skills and to engage in social interaction. Students can serve as leaders of a wide array of clubs and organizations, and work with College staff to administer the programs. The activities are designed to promote intellectual development and cultural awareness and understanding.

The Student Government Association (SGA) is an elected body of Bunker Hill Community College student representatives. Members work in collaboration with the College administration to enhance the quality of student life on campus. The SGA develops a proposed annual budget, derived from student fees, with the Director of Student Leadership and Engagement, which is reviewed by the Dean of Students and approved by the College President. The SGA is also responsible for formally approving student clubs and organizations. Learn more about the SGA at bhcc.edu/SGA.

Clubs and organizations provide the opportunity for students to meet other students, have fun, learn, and
develop organizational skills. Visit bhcc.edu/clubs for a full list of all clubs and organizations.

**Student Handbook**

The Student Handbook includes information about College policies, student disciplinary procedures, student rights and responsibilities and student services. The student grievance procedure for complaints regarding College policies, practices or personnel is detailed in the Student Handbook. Copies are available online through the BHCC website. Direct all inquiries related to College regulations, student conduct and the student grievance procedure to the Office of Dean of Students. View the Student Handbook at bhcc.edu/handbook.

**Study Abroad**

The International Center assists BHCC students in integrating study abroad experiences into their academic programs. Through this program, students have participated in a variety of study and travel experiences in countries around the globe: Argentina, Belize, Costa Rica, the Czech Republic, France, Germany, Greece, Italy, Japan, Senegal, Spain and PR. China. Scholarship opportunities are available to qualified students. For more information, visit the International Center or visit bhcc.edu/studyabroad.

**The Mary L. Fifield Endowed Student Emergency Assistance Fund**

Bunker Hill Community College has established the Mary L. Fifield Endowed Student Emergency Assistance Fund. The purpose of the fund is to provide monetary relief to students for emergencies that occur during the semester and that may cause a student to drop out. Applications will be accepted after the end of the schedule adjustment period for the fall and spring semesters. The fund does not support tuition, fees and books. URL: bhcc.edu/emergencyassistancefund

---

**Veterans Center**

**Veterans Center**

bhcc.edu/veterans

617-228-3213  veteranscenter@bhcc.edu

The Veterans Center is dedicated to serving student-veterans, active duty military, Guard/Reservists and their eligible dependents within the college community. The office provides specialized support in academic advising, military and VA educational benefits assistance, VA Educational Benefit Certification, referrals to College resources and other agencies, verification of pursuit of training, assistance with credit for prior learning, admissions assistance and support and advocacy for the veteran and military affiliated population.

Students who wish to apply for educational benefits must contact the Veterans Center and the VA Certifying Official. Student’s receiving educational benefits are required to attend classes and maintain satisfactory academic progress in order to continue receiving education benefits. Furthermore, students must notify the Veterans Center of any changes made to their enrollment status.

**Virtual LGBTQIA+ Center at BHCC**

**Virtual LGBTQIA+ Center at BHCC**

bhcc.edu/virtuallgbtqiacenter

617-228-2012  wjcribby@bhcc.edu

To support and celebrate the diversity of the Bunker Hill Community College community that is represented within our students, faculty and staff on BHCC’s multiple campus locations, the Dean of Student’s office has worked to provide accessible information and resources for all members of our community.
Degree and Certificate Programs

General Education Requirements
DEGREE AND CERTIFICATE PROGRAMS

Bunker Hill Community Colleges offers more than 100 associate degree and certificate programs.

The Associate Degree is an undergraduate academic credential which includes coursework from three areas: general education requirements, career and/or liberal arts electives, and program requirements. BHCC offers two types of associate degrees:

The Associate in Arts (A.A.) degree is designed to prepare students to transfer to baccalaureate colleges and universities.

The Associate in Science (A.S.) degree is designed to prepare students to enter the workforce. In addition, many associate in science degree programs transfer to baccalaureate colleges and universities.

Associate Degree programs are generally equivalent to the first four semesters of a bachelor’s degree. To facilitate transfer to a baccalaureate college or university, work with an academic advisor to plan your BHCC curriculum.

Certificate programs are designed to provide students with knowledge and skills to enhance their careers. Many certificate programs are “stackable,” allowing students to apply courses completed in the certificate program to an associate’s degree.

First Year Learning Community Requirement
Completion of a Learning Community Seminar or Cluster within the first year is a graduation requirement for Associate in Arts and Associate in Science degree students who are enrolled in nine or more credits in their first semester of matriculation. For more information about Learning Community options, speak with an advisor or contact the Office of Learning Communities.

World Studies Emphasis Certification
Students enrolled in Associate in Arts Degree Programs can obtain the World Studies Emphasis certification with no additional coursework through careful selection of general education and elective courses needed to fulfill their degree requirements. Learn more at bhcc.edu/worldstudies

GENERAL EDUCATION PROGRAM

To better prepare students to thrive in the twenty-first century workforce and to become engaged and informed citizens, the College provides all associate degree-seeking students with a wide-reaching set of General Education Outcomes, which align with our Institutional Learning Outcomes (Inquire, Communicate, Act, Grow) and Mass Transfer General Education Foundation requirements. At BHCC, these skills are incorporated into the curriculum to provide a cohesive education that prepares students to succeed in their chosen fields, in further study and in the roles and responsibilities they take on within their communities.

Students fulfill their General Education Requirements by completing one course from each of the seven General Education areas below. Students should consult their individual Program of Study Curriculum Map for General Education course requirements specific to their major. Some General Education requirements are met by concentration courses. Such instances are noted in Program of Study Curriculum Maps.

To learn more about the General Education and Institutional Learning Outcome alignment, as well as review the “Guiding Questions” for General Education, visit our General Education page in the College Initiatives section on the BHCC website: bhcc.edu/initiatives/generaleducationinitiative
Academic Discourse

College Writing & Composition
- INQUIRE: Connect experiences, insights, and education
- COMMUNICATE: Construct meaning through active listening, reading, speaking and writing
- ACT: Create work of personal and/or public value
- GROW: Develop intercultural knowledge and competence

Course Menu
ENG-111

Research Writing

College Writing & Composition
- INQUIRE: Practice information literacy in diverse applications
- COMMUNICATE: Express ideas with intention
- ACT: Apply theory to practice and practice to theory
- GROW: Demonstrate agency as a learner and contributor to society

Course Menu
ENG-112

Quantitative Problem Solving

Mathematics & Quantitative Reasoning
- INQUIRE: Develop problem-solving skills
- COMMUNICATE: Demonstrate digital and media literacy
- ACT: Use data to pose solutions to real-world challenges
- GROW: Construct knowledge independently and collaboratively

*Selective program with specific prerequisites and start terms. For updated information, please visit the College’s website at bhcc.edu/selectiveprogram. Students enrolling in any A.A. degree program can earn World Studies Emphasis Certification simultaneously. BHCC is fully accredited by the New England Commission of Higher Education.

ELECTIVE COURSES

Electives provide students with flexibility in their programs of study. The elective categories help students make choices beyond the required courses for their respective programs.

Liberal Arts Electives include not only those categorized as Liberal Arts Electives but also the Science/Lab Science, Social Science and Behavioral Science Electives.

Career Electives are courses in the student’s major field or related field approved by the department chair or program coordinator.

**Behavioral Science Electives**
- PSY Psychology
- SOC Sociology

**Humanities Electives**
The Humanities provide students with the knowledge, skills and habits of mind to adapt to any pathway in their educations, careers and lives. Humanities courses challenge students to think critically and creatively, communicate effectively, and make connections across disciplines. The following courses count as Humanities electives:
- All Language Courses any level: ARB Arabic, CHN Mandarin Chinese, FRE French, GER German, ITL Italian, JPN Japanese, POR Portuguese, RUS Russian, SPN Spanish
- All Music Courses: MUS Music
- All Philosophy Courses: PHL Philosophy
- All Religion Courses: REL Religion
- All Theater Courses: THE Theatre
- All 200 level ENG Courses
- All Film Courses: FLM Film
- All History Courses: HIS History
- Honors Seminar: HON-200 Honors
- Selected Interdisciplinary Courses: INT-101 Introduction to Yoga Studies, INT-110 American Culture

**Lab Science Electives**
- PHY Physics
- AST Astronomy
- BIO Biology*
- CHM Chemistry
- ENV Environmental Science

**Liberal Arts Electives**
- VMA Art
- VMA Photography
- FLM Film
- HUM Humanities
- LIT Literature

**All Literature Courses: LIT Literature**
- Selected Visual and Media Arts Courses: VMA-102 Visual Design: Composition and Color, VMA-103 Elements of Form, VMA-104 Drawing from Observation, VMA-106 Digital Imaging for Artists and Designers, VMA111 Introduction to Mass Media, VMA-112 Art History: Prehistoric to Medieval, VMA-113 Art History: Renaissance to Contemporary, VMA-122 Painting for General Education, VMA-123 Watercolor I, VMA-124 Printmaking I, VMA-161 Introduction to Digital Photography, VMA-207 Figure Drawing, VMA-227 Studio Portfolio

**Social Science Electives**
- ENG English
- FRE French
- GER German
- ITL Italian
- MUS Music
- POR Portuguese
- SPN Spanish
- THE Theatre
- HIS 101
- HIS 102
- PHL Philosophy
- HON Honors
- MAT Mathematics
- REL Religious Studies

* BIO111 does not qualify as a Lab Science Elective
## Psychology Concentration

<tr>
<td>Choose one course from the Humanities electives</td>
<td></td>
<td></td>
<td></td>
<td>Sequence courses in a foreign language starting at 102 levels are highly recommended as most four-year colleges require intermediate proficiency in a foreign language.</td>
</tr>
<tr>
<td>Total Credits:</td>
<td>16</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Semester 3 Advising Note**
- Select the career elective from PSY, HSV, or ECE courses. The Department encourages students to take a computer course for one of the three electives.
- Human Growth and Development (PSY-213) does not satisfy the A.A. Psychology concentration requirements. It is offered only to non-Psychology majors.
- Complete a Learn and Earn Internship or Community Engagement activity in any of your Psychology courses
- Upload in ePortfolio required Psychology major courses artifacts

### SEMESTER 4

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
<th>Milestone</th>
<th>GenEd</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elective-1 Psychology Elective</td>
<td>3</td>

<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total Credits:</td>
<td>15</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Semester 4 Advising Note**
- Select the career elective from PSY, HSV, or ECE courses. The Department encourages students to take a computer course for one of the three electives.
- PSY-219 – ePortfolio to be completed and presented
- See an advisor about World Studies emphasis certification
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.  This course has pre/co- requisites.
- Advising note or suggestion regarding this course.  This course satisfies General Education requirement.
UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- A basic knowledge and understanding of the different principles and concepts of Psychology (foundational knowledge)
- The ability to apply learned concepts to the intrapersonal and interpersonal experiences embedded within diverse cultural contexts
- The ability to evaluate, compare and contrast, critique various theoretical perspectives and complex/debatable and current issues as they relate to the various domains of Psychology
- The ability to use learned knowledge to actively engage in and produce scientific research.

CAREER OUTLOOK

Graduates of this concentration should plan to transfer to a four-year college or university because entry-level positions in the general field of psychology require a bachelor's degree. Career positions generally require a master's degree.
# Sociology Concentration

</table>

- **SOC-101 Principles of Sociology** 3 credits
  - ESL-098 or RDG-095 or ELL-103 or placement.
  - This course meets the General Education requirement for Community & Cultural Contexts (Formerly Areas 2 and 3)

- **PSY-101 Principles of Psychology** 3 credits
  - ESL-098 or RDG-095 or ELL-103 or placement.

- **ENG-111 College Writing I** 3 credits
  - ENG-095 and RDG-095, ELL-103 or placement.
  - This course meets the General Education requirement for Academic Discourse (Formerly Area 1)

- **MAT-181 Statistics** 3 credits
  - MAT-098 or MAT-097 or placement.
  - This course meets the General Education requirement for Quantitative Problem Solving (Formerly Area 4)

**Total Credits:** 15

**Semester 1 Advising Note**
- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Attend Behavioral Sciences Group Advising Workshop: Transfer, Job Shadowing / Internship, Educational Planning
- The department encourages students to explore curricular or extra curricular Student and Community Engagement Activities (recommendation: join Behavioral Sciences Club).
- Create Eportfolio and Upload participation.

## SEMESTER 2

</table>

**Total Credits: 16**

**Semester 4 Advising Note**

- SOC-203 – ePortfolio to be completed and presented
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- a basic knowledge and understanding of the different principles and concepts of Sociology (foundational knowledge)
- the ability to apply learned concepts to intrapersonal experiences, social institutions, and social issues embedded within diverse cultural contexts
- the ability to evaluate, compare and contrast, critique various theoretical perspectives and complex/debatable and current issues as they relate to the various domains of Sociology
- the ability to use learned knowledge to actively engage in and produce scientific research

**CAREER OUTLOOK**

Graduates of this concentration qualify for entry-level positions in the general field of Sociology. Students will be able to choose which career track they intend to pursue by taking classes that are relevant to their interest. Graduates may wish to transfer to a four-year college or university, or will be able to work in the community with an associate’s degree.

</tbody>
</table>

**Semester 2 Advising Note**
- Students who are progressing toward their degree with fewer than 15 credits per semester are encouraged to prioritize HIS-121, HIS-151 or HIS-152, and ENG-112.
- Begin exploring transfer options: attend a transfer workshop and the Transfer Fair.
- Meet with an advisor to begin transfer and career planning activities.
### SEMESTER 3

<td></td>
</tr>
</tbody>
</table>

#### Semester 3 Advising Note
- Electives should be based on the career goals and interests of the student. Consider courses in Economics, Environmental Science, Literature, Languages, Philosophy, Political Science, Religious Studies, and/or Sociology.
- Students are encouraged to consider the Honors Seminar and/or internship experiences aligned with their goals to fulfill their electives.
- Complete preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap.
- See an advisor about World Studies emphasis certification.

### SEMESTER 4

</tr>
</tbody>
</table>

#### Semester 4 Advising Note
- Students who changed their major to History after one or more semesters in another degree program will typically apply those courses to fulfill the electives identified here.
- The many free electives in the program are intended to provide flexibility for students who previously were working toward a different degree program (e.g. Business, Biology, Criminal Justice, IT, Nursing, Sociology), so that they could change their major to History without delaying graduation. Students who reach the 4th semester with free electives available are strongly encouraged to select 200-level courses in history, languages, or in other fields relevant to their goals and interests; consult with department advisors to learn about special topics courses, internships, and other possibilities.
- See an advisor about World Studies emphasis certification.
- Apply for graduation.

| Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. | This course has pre/co- requisites. | Advising note or suggestion regarding this course. | This course satisfies General Education requirement. |

### UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:
- Interpret historical artifacts and documents (primary sources) using various specialized techniques.
- Develop historical explanations at multiple levels, from long-range global structures to microcosmic personal experiences.
- Demonstrate distinctive ways of thinking in the study of history, including narrative, causal explanation, and historical imagination.
- Analyze historians’ works in various media, including essays, books, documentary films, and podcasts.
- Contribute to preserving living history (e.g. archiving oral histories of community members).
- Critically analyze how social power, cultural context, and historical position influence the construction of historical narratives.
- Reflect on their ethical responsibilities & community accountability as a historian.
- Communicate with a range of audiences in traditional and innovative ways.
- Produce signature research contributing to historical knowledge.

### CAREER OUTLOOK
- Graduates of this concentration may qualify to transfer to four-year colleges or universities as juniors. The concentration is excellent preparation for careers in law, teaching, government, museums, or similar public service fields.
- A bachelor's degree is the minimum requirement for entry into many of these fields.
- Graduate work may be necessary, as well.
# Political Science Concentration

</tbody>
</table>

**Semester 4 Advising Note**
- Electives should be based on the career goals and interests of the student, e.g. Political Science, International Relations, Public Policy, Pre Law.
- A third Humanities and Fine Arts elective will not be necessary if taken during first semester.
- See an advisor about World Studies emphasis certification
- Apply for graduation

**Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.**

**This course has pre/co-requisites.**

**Advising note or suggestion regarding this course.**

**This course satisfies General Education requirement.**
Political Science Concentration (continued)

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Articulate the legal, ideological, and theoretical basis for different governing systems.
- Interpret what the US Constitution and other foundational documents mean in light of current social issues and debates.
- Exhibit a fundamental knowledge of the dynamics of governmental institutions and politics at the national and international levels.

- Engage in dialogue about contemporary policy issues such as finance, economic development, education, criminal justice, social justice, healthcare, and environmental policy.
- Research the development and implementation of public policy.
- Analyze the dynamics of participatory democracy by engaging the institutions of civil society.
- Explain how the various channels of citizen influence operate at each level of government.
- Generate scholarly arguments about enduring and contemporary political questions.

**CAREER OUTLOOK**

Graduates of this concentration qualify for entry-level positions with an associate’s degree, and are encouraged to transfer to a four-year college or university to earn a bachelor’s degree for further career advancement. Degrees in political science prepare students for careers in fields including public policy, government, journalism, activism, polling and research, community advocacy, labor organizing, and international relations. Political science is often described as a “pre-law” major, an ideal foundation for students planning to go to law school.
## Human Services Program

### SEMESTER 1

<td>3</td>
<td></td>
<td></td>
<td>ESL-098 or RDG-095 or ELL-103.</td>
</tr>
</tbody>
</table>

- This course meets the General Education requirement for Community & Cultural Contexts (Former Areas 2 and 3).
- PSY-101 is a prerequisite for several courses in the program.

**Total Credits: 15-16**

### Semester 1 Advising Note

- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- LCS and/or AHE-104 must be taken in first semester and is only allowed for those students still with freshman status and little or no college experience; if student is transferring or has prior college experience student should take a career elective in lieu of freshman seminar/LCS at later semester. AHE-104 is recommended for those students interested in community health work in social service agency. Those with prior college experience should take career elective in lieu of LCS or AHE-104 — PSY 233 or PSY 227.
- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College’s CORI officer before beginning the program.

### SEMESTER 2

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tr>
<tr>
<td>PSY-224</td>
<td>Adolescent/Adult Development</td>
<td>3</td>
<td></td>
<td></td>
<td>PSY-101.</td>
</tr>
</tbody>
</table>

**Total Credits: 15**

### Semester 2 Advising Note

- HSV 216 requires a 50-hour pre-practicum experience. Fulfillment of the pre-practicum is required prior to enrollment in HSV-220. A grade of B or better is required in this course to allow for enrollment in further practicum coursework in the program.
### PROGRAMS OF STUDY

#### SEMESTER 3

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Milestone</th>
<th>GenEd</th>

<tr>
<td>GenEd-CW</td>
<td>Creative Work</td>
<td>3</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- ECE-103 must be completed in first semester with a C or better to move to other ECE courses in subsequent semesters. All ECE courses after the first semester require ECE=103 to be completed with this grade requirement.
- HSV-214 requires that the student complete HSV-216 with a B or better. Class ONLY starts in the fall and is a two semester sequence (HSV 220-221). Students missing application and orientation process must wait until the next fall to move forward (deadline end of spring semester). A GPA of 2.25 or above is required as well as multiple other requirements for application and acceptance into placement. HSV Coordinator and Department Chair have further information.
- HSV-218 requires student to have completed HSV-220 in the fall semester with a passing grade and completed portfolio. Students without this requirement completed are not allowed to proceed to HSV-221 and must reapply for readmission to the HSV-220 class in the next fall after following Department procedures for readmission.

</tbody>
</table>

- Apply for graduation

**Semester 4 Advising Note**

- Upon completion of this concentration graduates will be able to:
  - Use formal and informal assessment practices to respond to the needs, desires, and interests of participants receiving information and support from a Human Service organization, enhancing the persons' ability to lead a self determining life.
  - Communicate effectively and demonstrate skills needed to establish collaborative relationships with participants receiving services.
  - Demonstrate knowledge about formal and informal supports available, as well as diverse challenges facing participants, using advocacy strategies to overcome these challenges by mobilizing resources to reach participant goals.
  - Demonstrate knowledge and skill in handling crisis prevention, intervention, and resolution techniques with detailed documentation of the work in a human services agency.
  - Understand the mission and practices of human services organizations, fully participating in the life of the agency as a professional and be able to identify areas of self improvement and professional development needed for future goal attainment.

**Career Outlook**

Graduates of this program qualify for careers in social welfare, mental health, community development, public administration, youth work, work with elderly, family counseling and social service agencies.
## Professional Human Services Work Certificate Program

</tr>
</tbody>
</table>

Career Elective Options:
- PSY-233 Introduction to Psychiatric Rehabilitation, HSV-215 Substance Abuse Counseling, AHE-104 Understanding Human Behavior

**Total Credits:** 9

**Semester 3 Advising Note**
- Career elective choices should fit students human service interests: PSY-233 Psych Rehabilitation for those interested in working with developmentally disable or in mental health care or HSV-215 Substance Abuse Counseling. AHE-104 may be used as a career elective in this program, but is a freshmen seminar and should be taken in the first semester and is only allowed for those students still with freshman status and with little or no college experience; if student is transferring or has prior college experience, student should take PSH-233 or HSV-215.
- Apply for graduation

**Milestone Courses** should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.
PROGRAMS OF STUDY

Professional Human Services Work Certificate Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use assessment practices to respond to the needs of participants and enhance these individuals in leading a life that involves self-empowerment, assertiveness, and strong decision-making skills.
- Communicate effectively and establish collaborative relationships to allow planning, implementation of support services, and interventions with participants, agency supports, and other community resources.
- Demonstrate knowledge of supports available, while understanding the challenges facing participants, assist in gaining resources for aid, advocate by overcoming challenges and providing supports through community and educational resources.
- Demonstrate skill in handling crisis prevention, intervention and resolution techniques to solve problems and keep detailed documentation of the process and outcome of each situation.
- Participate in the life of a human services agency, being familiar with the mission and “best” practices of human services organizations, demonstrating these skills in professional activities.

CAREER OUTLOOK

Students completing the Professional Human Services Work Certificate Program qualify for generalist careers in social welfare, mental health, community development or other similar human service organizations in the community serving families and children, adolescents, elders or other specific populations in need of services through community programming.

CRIMINAL OFFENDER RECORD INFORMATION AND SEX OFFENDER REGISTRY INFORMATION CHECKS

As a prerequisite for a clinical placement in the Professional Human Services Work Certificate Program, all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. These checks are required due to potential unsupervised contact with children, the disabled, or the elderly during a clinical experience. Students found to have certain criminal convictions or pending criminal actions will be presumed ineligible for clinical placement. The College is authorized by the Commonwealth’s Department of Criminal Justice Information Services, pursuant to Massachusetts General Laws, Chapter 6, Sections 167-178B, to access CORI records. Sex Offender checks shall be performed pursuant to Massachusetts General Laws, Chapter 6, Sections 178C-178P. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193.

**Total Credits:** 6

**Semester 2 Spring Advising Note**

- Medical Interpreting Skills Assessment.
- Review graduation requirements with Program Coordinator.
- Complete graduation application.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

## Upon Completion of This Concentration Graduates Will Be Able To:

- Take the certification examination offered by the National Board of Certification for Medical Interpreters.
- Assist the health care team by serving as a certified medical interpreter between the patient or the patient’s family and the health care provider.

## Career Outlook

Graduates of this program qualify for employment in hospitals, clinics, chronic care facilities, and health maintenance organizations as medical interpreters.
Certificate

Health Sciences - Allied Health

Patient Care Technician Certificate Program

**ADMISSION REQUIREMENTS**

| Diploma | High School diploma or GED |
| Session | Attend Mandatory information session |
| ENG-095 Writing Skills II | 3 |

Completion of ENG-095 or higher or placement

Total Credits: 3

**Admission Requirements Advising Note**

- This program is offered for a Fall and Spring start at the Chelsea Campus Only.
- Medical and CORI clearances. Prior to clinical placement this program requires that all students undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information, please contact the College CORI/SORI Officer at 617-228-2193 or visit https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/

**SEMESTER 1**

| AHE-110 Principles of Clinical Practice | 3 |
| AHE-111 Patient Care Skills | 3 Co-requisites: AHE-106 and AHE-110. |
| AHE-106 Nursing Assistant Practicum | 1 Co-requisites: AHE-110 and AHE-111. |
| AHE-104 Understanding Human Behavior for Health Care Professionals or Human Growth and Development | 3 Prerequisite for PSY-213: PSY-101. |
| NHP-180 Medical Terminology | 3 |

Total Credits: 13

**SEMESTER 2**

| AHE-201 Advanced Clinical Skills | 3 AHE-111 or AHE-112. |
| The pre-requisite for AHE-201 is AHE-111 for students in the Patient Care Technician Certificate Program |
| AHE-204 Practicum Patient Care | 3 AHE-111; Co-requisite: AHE-201. |
| AHE-209 Practicum Seminar | 1 Co-requisite: AHE-204. |
| OIM-102 Medical Computer Applications | 3 Chair approval. CIT-110 Applications and Concepts can also satisfy the OIM-102 requirement |
| Elective Elective | 3 |

Total Credits: 13

**Semester 2 Advising Note**

- Attend a resume writing workshop
- Participation in employer panel
- Review graduation requirements with Program Coordinator
- Submit graduation application on-line

\[\text{Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.}\]
\[\text{This course has pre/co- requisites. Advising note or suggestion regarding this course.}\]
\[\text{This course satisfies General Education requirement.}\]

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Perform direct patient care competently.
- Perform basic computer skills.

**CAREER OUTLOOK**

Graduates of this program qualify for employment in hospitals, clinics, chronic care facilities, and the home environment as multi-skilled workers, patient care technicians, patient care associates, medical aides, certified nursing assistants, and home health aides. The program prepares students in Healthcare Provider CPR Certifications. Graduates are eligible to sit for certification exams for State Nurse Aide and Home Health Aide.
Paramedic

The Paramedic is a health care professional who cares for those injured or suddenly taken ill in the pre-hospital setting. BHCC’s Paramedic Studies Program is a sixteen month program that includes classroom, in hospital clinical rotations and a field internship. The program prepares the student to be eligible to sit for the National Registry of Emergency Medical Technician Paramedic Certification examinations.

Paramedic Studies Program

Located at the Bunker Hill Community College’s Chelsea Campus, the 16 month Paramedic Studies Program provides instruction in advanced emergency medical skills.

The program, which follows the National Standard EMT-Paramedic Curriculum, meets and/or exceeds the requirements set forth by the Commonwealth of Massachusetts Office of Emergency Medical Services. BHCC’s experienced instructors utilize state-of-the-art equipment, including a self-contained ambulance simulator and manikins. BHCC is committed to preparing graduates with the knowledge, skills and professional attributes associated with entry-level paramedic positions. The program has been approved by the Massachusetts Office of Emergency Medical Services (OEMS), and is accredited by the Committee on the Accreditation of Educational Programs for the Emergency Medical Services (CoAEMSP), Program #600796, a subsidiary of the Commission on Accreditation of Allied Health Education Programs (CAAHEP), a non-profit, non-governmental agency, who reviews and accredits over 2000 educational programs in nineteen (19) health science occupations. CAAHEP issues accreditation to Paramedic education programs, based on the review and upon its recommendation from the CoAEMSP.

Admission

The Paramedic Certificate and Associate Degree in Paramedic Studies is a selective admissions program.

Please contact Nicholas J. Cardellicchio, Program Director, Department of Emergency Medical Studies, Chelsea Campus, Room 313, Chelsea, MA 02150, (617) - 936-1973, njcardel@bhcc.mass.edu regarding application and entrance requirements. All potential candidates for admission to the program must apply through the college. The Paramedic Studies Certificate program is sixteen months and awards forty-six credits. An Associate Degree in Paramedic Studies is available upon completion of an additional five courses.

Candidates for the Paramedic program must have achieved their EMT certification prior to application, maintain EMT certification throughout the program, submit all required health records/utilizations prior to the start of the program, attend an information session and submit to a CORI/SORI check.

Program Notes

Minimum Grades: A grade of B- (80%) or higher must be earned and maintained for the term of the program. Pre/co-requisites: College Writing; ENG 111 & Human Biology/Lab, BIO 108.

Scope of Practice

The Paramedic is a highly trained individual who provides both in hospital and out of hospital: Patient assessment, Advanced Airway Management, Vascular access, EKG Interpretation and Treatment, Emergency Pharmacology, and Management of Medical and Trauma Emergencies.

Tuition & Fees

Tuition cost is $9,062 for the Certificate and $12,017 for the Associate Degree. Students are responsible for the purchase of texts, equipment, uniforms, certification and exam fees.

GI Bill®

Bunker Hill Community College is an approved institution for veterans’ education benefits. For specific information on how the GI Bill® works, and to apply for benefits please visit the United States Department of Veterans Affairs GI Bill® Site at gibill.va.gov.

Program Goals and Objectives

• Provide individuals with a career preparation associated with Entry-Level and Advanced Practitioner Paramedic care competencies with consideration of the needs and expectations of the program’s communities of interest.
• Provide a curriculum that leads to eligibility for the national credentialing process, entry into the Massachusetts licensure process, and employment in paramedicine
• Promote the development of those intellectual skills that foster critical thinking and problem solving that are necessary for life-long learning
• Provide the development of life-long professional attitudes and values
• Understand and manage self, to function effectively in social and professional environments and to make reasonable judgments on understanding the diversity of the world community
• Locate, understand, evaluate, synthesize, information and data in a technological and data driven society.

The Paramedic Studies Certificate program is sixteen months and awards forty-six credits and sixty one credits for an Associate Degree in Paramedic Studies.

Nationwide Employment Opportunities

National Registry certification allows an individual reciprocity in most of the United States.

Career Opportunities

The United States Bureau of Labor Statistics reports that the number of jobs in 2012 was 239,100. The job growth from 2012-2022 is projected to grow by 23% (faster than the national average of 11%) Projected Employment Change of new Paramedics from 2012-2022 is expected to be 55,300.

Job Opportunities

Municipalities, Fire Departments, private ambulance companies, hospitals and clinics.

Salary Outlook

According to the Journal of Emergency Medical Services (JEMS), the national average salary is $42,618.00 per year (2018).

Related Job Titles

EMT-Paramedic, Paramedic.

**Prerequisites**

- **ENG-111 College Writing I** 3 credits: ENG-095 and RDG-095, ELL-103 or placement. Course must be completed with a C or better.
- **BIO-108 Human Biology/Lab** 4 credits: ENG-095, RDG-095 or ELL-103, and MAT-093. Course must be completed with a C or better.

**Total Credits**: 7

**Admission Requirements Advising Note**

- Submit letter of completion of one year experience as an EMT on company letterhead
- Submit copy of EMT and CPR card
- The more non-core courses taken before applying to the program, the higher your score on the admissions rubric.
- Ten panel drug testing and medical clearances required.
- As a prerequisite for a clinical placement this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit [https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/](https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/)

Total Credits: 3

**Semester 5 Fall Advising Note**
- Successful completion of EMS-208 and EMS-217 with a grade of B- or better.
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co-requisites. ☑️ Advising note or suggestion regarding this course.
- ☑️ This course satisfies General Education requirement.

### Upon Completion of this Concentration Graduates Will be able to:
- After successful completion of the program, the student will receive a Certificate of Completion enabling him or her to apply for and take the National Registry of Emergency Medical Technicians (NREMT) Paramedic written and practical examinations.
- Participants who successfully pass the NREMT certification examination may go onto practice with fire departments, private ambulance services, third service ambulance services, hospital emergency departments, and various clinical settings where advanced emergency care is required.

### Career Outlook

The U.S. Bureau of Labor Statistics predicts that employment of emergency medical technicians (EMTs) and paramedics will grow nine percent between 2008 and 2018, which is about as fast as the average percentage for all occupations (www.BLS.gov). As our population ages and individuals face increased medical concerns, the likelihood of medical emergencies will increase; thus increasing the need for EMTs and paramedics. In addition emergency rooms are frequently overcrowded, which increases the amount of time that the EMTs and paramedics must spend with each patient. This is also likely to increase the number of potential positions. Job prospects are expected to be good since paid employees are needed to replace volunteers who have a high turnover rate.

Choose one course from Creative Work Menu

Total Credits: 15-16

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.
Upon completion of this concentration graduates will be able to:

- After successful completion of the program, the student will receive a Certificate of Completion enabling him or her to apply for and take the National Registry of Emergency Medical Technicians (NREMT) Paramedic written and practical examinations.
- Participants who successfully pass the NREMT certification examination may go onto practice with fire departments, private ambulance services, third service ambulance services, hospital emergency departments, and various clinical settings where advanced emergency care is required.

Career Outlook

The U.S. Bureau of Labor Statistics predicts that employment of emergency medical technicians (EMTs) and paramedics will grow nine percent between 2008 and 2018, which is about as fast as the average percentage for all occupations (www.BLS.gov). As our population ages and individuals face increased medical concerns, the likelihood of medical emergencies will increase; thus increasing the need for EMTs and paramedics. In addition, emergency rooms are frequently overcrowded, which increases the amount of time that the EMTs and paramedics must spend with each patient. This is also likely to increase the number of potential positions. Job prospects are expected to be good since paid employees are needed to replace volunteers who have a high turnover rate.
Associate in Science Degree: Medical Imaging Program

The Medical Imaging Program prepares students in four different Associate in Science Degree options:

- **Full-time Cardiac Sonography Option** – 24 months. p. 72
- **Full-time General Sonography Option** – 24 months. p. 76
- **Full-time Medical Radiography Option** – 21 months. p. 81
- **Part-time Medical Radiography Option** – 35 months. p. 83

**Program accreditations are as follows:**

The Medical Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology (JCERT), 20 North Wacker Drive, Suite 2850, Chicago, IL 60606-3182, Phone: (312) 704-5300; Fax: (312) 704-5304, Email: mail@jrcert.org; URL: www.jrcert.org.

The program prepares students for entry-level positions in the respective fields. Graduates are eligible to apply to take the American Registry of Radiologic Technologists Exam (Medical Radiography) or the American Registry of Diagnostic Medical Sonography Exam (Sonography Options). Medical Radiography graduates are also eligible to apply to take the Massachusetts State Licensing Examination. The program begins in the fall semester, and didactic and clinical education are carefully correlated to provide reinforcement in the clinical setting of skills learned in the classroom. Students in the program must earn a numerical course grade of 80 percent or better in all imaging courses, and a minimum grade of C in all general education courses. Failure to meet clinical objectives or failure to meet the academic standard in any course will result in withdrawal from the program. Students may apply for readmission to the program one time, on a space-available basis. Prior to re-application students must successfully repeat failed course(s).

Readmission is considered on a case-by-case basis. All medical imaging students must undergo a physical examination, complete the necessary immunization forms, including the three (3) dose Hepatitis B immunization series, have CPR certification, carry malpractice and health insurance, and undergo a Criminal Offender Registry Information (CORI) check and a Sex Offender Registry Information (SORI) check. The application process for the Medical Imaging Program is highly competitive and selective. Potential applicants are ranked based on prerequisite grades, Test of Essential Academic Skills V (TEAS V) results in Reading, Math and English/Language, as well as grades earned in any program required non-core courses. The highest ranked students for each A.S. Program will be invited to complete the TEAS Allied Health test. Standby lists will be generated annually for each A.S. Degree option. Stand-by students not obtaining a seat in that year will be required to reapply for future admission to any Medical Imaging Program.

**Prerequisites for all medical imaging options:**

- Attend one MANDATORY information session within one year of application. (Refer to BHCC website for dates).
- Possess a high school diploma or GED certificate.
- Complete the following courses with a grade of C or better:
  - One semester of any three credit College Algebra or statistics course.
  - One semester of college level Anatomy/Physiology I/Lab (must be completed within five years of application unless currently working in related healthcare position).
  - One semester of College Writing I (ENG111) or equivalent with a grade of C or better.

**After all prerequisites are completed:**

- Prospective students must apply online through Admissions during the enrollment period. Approximate application dates for the Fall program are mid-October – mid-February for admission to the program for the next academic year. Check with Admissions for exact timelines.
- All applicants in each option must complete the TEAS Allied Health Test (TEAS). Job shadows will be recommended to accepted students and those on the stand-by list.
- Applicants must score at least 47.6% in reading, 46.7% in math and 47.6% in English/Language on the TEAS test to be considered for the Medical Imaging Programs.
- The Medical Imaging Admissions Committee will evaluate each candidate’s record after completion of the TEAS V test. Admission to the Program will be based on overall ranking of applicants as described previously.
- Stand-by lists will be developed for each option annually. Stand-by students not offered a seat will need to reapply the next year for future consideration.
- Applicants not selected for admission to the Medical Imaging Program must meet with a member of the advising staff for guidance before reapplication.

**Tuition and fees for Medical Imaging students**

- Cardiac Sonography Clinical III is 40 hours per week or five (5) eight hour days per week.

Total Credits: 4
Cardiac Sonography Option (continued)

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate general knowledge and technical skills required to perform cardiac echo examinations as an entry-level cardiac sonographer.
- Demonstrate sufficient knowledge of cardiac sonography to pursue registry status through The American Registry of Diagnostic Medical Sonographers.
- Understand the importance of lifelong continuing education in the field of Cardiac Sonography.

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, HMOs, clinics, doctors’ offices, mobile units, community health agencies, equipment/film companies, and/or as application specialist sales representatives.

<tr>
<td>Total Credits: 6</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Semester 2 Spring Advising Note
- Apply for graduation

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:
- Demonstrate competence in the essential aspects of Mammographic imaging at the entry-level.
- Understand the importance of life-long continuing education in the field of Mammographic imaging.

CAREER OUTLOOK

It is expected that the number of positions in this modality will continue to grow in the near future. Opportunities exist in hospitals, outpatient clinics and free-standing medical imaging facilities.
# Medical Laboratory Assistant Certificate Program

## Admission Requirements

<td></td>
</tr>
</tbody>
</table>

**Admission Requirements Advising Note**

Students are encouraged to meet with the Program Director to discuss the application process and to explore the profession. If you are accepted into the program, you must complete the following steps:

- Complete a CORI Form during the first semester in the Program.
- Complete the first page of a Student Health Form – this form must go to your doctor, and when completed, must be brought to Room E154 at the Charlestown Campus of BHCC. Health clearance is required to participate in clinical internships.

## Semester 1

**Semester 3 Summer Advising Note**

*Note: MLA-222 must be completed with a grade of B- or higher.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co-requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.
Medical Laboratory Assistant Certificate Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Develop an attitude of professionalism and be knowledgeable of the ethical considerations of dealing with patient and laboratory information.
- Correctly perform basic venipuncture techniques using a variety of blood drawing apparatuses.
- Explain the proper method to process and store various specimens used for laboratory testing.
- Describe the routine workflow of the clinical laboratory.
- Describe the importance of and correctly utilize a laboratory information system (LIS).
- Discuss the various types of laboratory equipment that would be best utilized for various testing procedures.
- Describe the roles of laboratory staff.
- Discuss the advantages and disadvantages of instrumentation.
- Discuss the importance of and how to perform maintenance and quality control on instrumentation.
- Perform assigned procedures, demonstrating competency in the performance of the test, understanding the underlying principles of the test, and the determination of appropriate actions necessary in handling and reporting of sensitive data.
- Demonstrate organizational skills in the performance of assigned workload in a timely manner.

CAREER OUTLOOK

A Medical Laboratory Assistant (MLA) is someone who works in a laboratory setting and assists in the processing of patient samples and the preparation of tests that need to be done. They play a key role in aiding the medical technologist and allowing for everything to run as efficiently as possible. They perform phlebotomy, specimen processing, testing preparation for the Medical Technologist to perform the actual testing, maintenance and calibration of instrumentation, and work with the Laboratory Information System (LIS).
Medical Radiography Full-time Option

</tbody>
</table>

Total Credits: 10

Admission Requirements Advising Note
- TEAS scores must be at least 47.6 percent in Reading, 46.7 percent in Math and 47.6 percent in English/language
- Anatomy and Physiology must be completed within ten (10) years of application unless currently working in a related healthcare position
- Approximate application dates for the Fall program are mid-October through mid-February for admission to the program for the next academic year. Check with the Admissions office for exact timelines
- As a prerequisite for a clinical placement this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/

<td></td>
<td>Co-requisite: MIG-122.</td>
</tr>
</tbody>
</table>

Total Credits: 11

Semester 1 Fall Advising Note
- General Education Requirements Quantitative Problem Solving, Scientific Reasoning, Creative Work and Elective satisfied by program.
- Core courses (i.e. MIG prefix) are only offered once per year and must be taken as scheduled.
- If needed for financial aid (i.e. 12 credits for full-time) consider taking SOC-101 or ENG-112. If you have completed them, consider taking an introductory language course of interest, which would be valuable in the healthcare profession. Another reasonable alternative would be an art or music class for your personal enrichment and enjoyment.
- Choose sections that do not conflict with your core courses. Core courses will be demanding, so plan to spend 3-4 hours each day this semester studying outside of class to achieve success as you consider additional courses or work schedules.
- Keep course work for each class organized and readily accessible for review at the end of the program as you prepare for your national certification exam.
**SEMESTER 2 SPRING**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
<th>Milestone</th>

<td></td>
<td></td>
<td>Acceptance to Medical Radiography program.</td>
</tr>
</tbody>
</table>

**Total Credits: 8**

**Semester 1 Fall Advising Note**
- General Education Requirements Quantitative Problem Solving, Scientific Reasoning, Creative Work and Elective satisfied by program
- Core Courses (i.e. MIG prefix) in this program are only offered once per year, and must be taken as scheduled.
- Required general education courses (i.e. ENG-112, SOC-101 and CIT-110) may be taken as scheduled, or when convenient for the individual student, with the exception of BIO-204 which must be completed by the end of Spring Year 2 to prepare the student for success in the clinical setting. They must be completed by the last semester of the program to graduate on time.
- Please remember that this is a part-time program, and that may impact financial aid options. Plan ahead financially for the last two daytime semesters of clinical, which are a mandatory requirement of this program.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Evaluate nursing care provided to patients and families from diverse backgrounds in a variety of settings to ensure that it is compassionate, age and culturally appropriate and based on a patient’s preferences, values and needs.
- Collaborate with members of the interprofessional health care team to manage and coordinate the provision of safe, quality care for patients and families.
- Use current evidence from scientific, peer reviewed sources and clinical expertise when making clinical decisions in the provision of patient-centered care.
- Use evidence-based quality improvement processes to effect change in the delivery of patient-centered care.
- Analyze effective use of strategies to mitigate errors and reduce the risk of harm to patients, self and others in a variety of settings.
- Use evidence-based information and patient care technology to communicate relevant patient information, manage care and mitigate error in the provision of safe, quality patient-centered care.
- Integrate integrity and accountability into practices that uphold established regulatory, legal, and ethical principles while providing patient-centered, standard-based nursing care.
- Use leadership, management and priority-setting skills in the provision and management of safe, quality patient-centered care.

CAREER OUTLOOK

Graduates of this option qualify for employment in hospitals, long-term care facilities, HMOs, clinics, doctors’ offices, and other community health agencies.

Semester 1 Advising Note
- Pre-requisites: ENG-095 or placement.
- These courses are REQUIRED to be taken in this order.
- This certificate program is designed as a one-semester program and it generally cannot be taken on a part time basis.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

 Upon completion of this concentration graduates will be able to:

- Upon completion of the certificate program and after attaining a 75% or better score on the Board of Pharmacy Qualification Exam, the student will be able to apply and be licensed as a Pharmacy Technician in Massachusetts.
- Graduates are prepared to apply and sit for the National Pharmacy Technician Certification Board (PTCB).
- Upon passing the National PTCB Exam graduates will be able to be registered as a Pharmacy Technician in Massachusetts.

Career Outlook

According to the Bureau of Labor and Statistics (BLS), employment of pharmacy technicians is expected to increase by 4 percent for the period 2019-2029.

**Total Credits:** 9

**Semester 2 Advising Note**
- Students must maintain a grade of C or better in all surgical technology courses.
- Apply for graduation

* Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
* This course has pre/co- requisites.
* Advising note or suggestion regarding this course.
* This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Qualify for the CBSPD Central Processing Technician certifying exam.
- Support the operative team during surgical procedures.
- Prepare equipment and supplies for use throughout the hospital.
- Assist in resource allocation and budget preparation for central processing.
- Meet the career outcomes for the certificate program.

**CAREER OUTLOOK**

Graduates of this program qualify as Central Processing Technicians who perform duties in one or more of the functional areas of sterile processing and distribution, materials management, and distribution. Graduates qualify for positions in healthcare facilities and industry. Graduates qualify for advanced responsibilities within the profession, and job prospects are excellent.

Semester 3 Advising Note

- Students must earn a grade of B- or better in all Surgical Technology (SGT) courses for progression in the program.
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. ✔ Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Assist the operative team during the pre-operative, intra-operative, and post-operative phases of surgery.
- Prepare equipment and supplies for use during surgery.
- Function as “first scrub” on most surgical procedures.

CAREER OUTLOOK

Graduates of this program qualify for surgical technologist positions in hospitals. The prospect for jobs is very good at the present time as the cost of health care rises. Graduates of the program qualify to take the national certification exam at the end of the program.

**Semester 4 Advising Note**
- Students who are interested in journalism and media are encouraged to take COM-241, COM-242 and ENG-234.
- Students who are interested in film studies and video production are encouraged to take COM-102 and VMA-262 or VMA-263.
- Semester 4 is typically the Spring Semester.
- Apply for graduation.

**Milestone Courses** should be taken in the order shown. This will help you stay on track and graduate on time.

**This course has pre/co-requisites.** Advising note or suggestion regarding this course.

**This course satisfies General Education requirement.**
Communication Concentration (continued)

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Have an effective transfer path to a four-year college/university.
- Express foundational communication skills, such as public speaking, professional communication, clear argumentation, and critical reasoning.
- Write for a variety of purposes, adapting to varying audiences.
- Develop cultural and ethical competency, by engaging in human rights advocacy and effective intercultural communication.

- Conduct research in the field of communication.
- Earn hands-on skills in the field of communication through coursework and an internship.
- Understand the dynamics of communication in a global context.
- Enter the workforce upon graduation in journalism, media, film studies, video production, or other creative industry.
- Produce and edit video.

**CAREER OUTLOOK**

Students in this program will earn hands-on skills in the field of communication through coursework and an internship. Students are prepared to enter the workforce upon graduation in journalism, media, film studies, video production, or other creative industry. The program is suited for students who wish to pursue careers in the field of: Advertising, Broadcasting, Business, Communication, Education, Film, Journalism, Marketing, Politics, Public Relations, Social Media, and/or Video Production.

- Apply for graduation

---

### UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:
- Demonstrate competence as a writer. Write for a variety of purposes, adapting to various audiences.
- Demonstrate proficiency in critical thinking.
- Demonstrate a basic understanding of a language other than English.
- Demonstrate strong interpersonal communication skills.

### CAREER OUTLOOK
Graduates of this concentration qualify to transfer to four-year institutions that prepare students for careers in teaching, journalism, public relations, and media communications. Students must complete a bachelor's degree and teaching certificate to pursue a teaching career. A bachelor's degree in English is a minimum requirement for entry level work in careers such as publishing, advertising, public relations, and journalism. In order to advance in some fields, graduate work may be required.

<td>4</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Choose one 4-credit AST or BIO or CHM or GIS or ENV or PHY course.

Semester 4 Advising Note
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

Total Credits: 16
Students graduating with an AA in English with the Creative Writing Option will be able to:

- Develop a creative writing portfolio in preparation for transfer to a four-year college or university.
- Collaboratively compose, edit, and publish a creative project.
- Demonstrate competence as a writer, composing for a variety of purposes, and in a variety of genres, adapting to various audiences.
- Demonstrate proficiency in critical thinking.
- Demonstrate a basic understanding of a language other than English.
- Demonstrate strong interpersonal communication skills.

**CAREER OUTLOOK**

Graduates of English with the Creative Writing Option qualify to transfer to four-year institutions that prepare students for careers in writing, editing, teaching English or creative writing, content development, and publishing. These students would be well-equipped to apply for BFA programs in Creative Writing or BA programs in English. (Students must complete a bachelor’s degree and teaching certificate to pursue a teaching career.) A bachelor’s degree in English is a minimum requirement for entry level work in careers such as publishing, content development, and other creative fields. In order to advance in some fields, graduate work may be required. Students interested in eventually pursuing a MFA in Creative Writing would benefit from this Option.
**Global Languages Concentration**

**Total Credits:** 16-17

### Semester 4 Advising Note
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites.
- Advising note or suggestion regarding this course. This course satisfies General Education requirement.
Global Languages Concentration (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- In one global language: Demonstrate intermediate listening and reading skills, basic oral skills, and express their thoughts and ideas in writing in an uncomplicated manner.
- In another global language: Demonstrate basic listening and reading skills, beginner oral skills, and express basic ideas in writing in an uncomplicated matter.
- Have a basic understanding of the world’s literatures.
- Be culturally aware in two cultures.

CAREER OUTLOOK

The Global Languages concentration prepares students to transfer to four-year colleges or universities with a major in language, cultural studies, or literature. The interdisciplinary approach allows students to consider a career in international relations, law, sociology, anthropology, history, education, or in any other discipline within Social Sciences and Humanities. Graduates of this concentration may qualify to transfer using benefits of MassTransfer to a four-year state college or University of Massachusetts. Graduates of this concentration often qualify for careers that require bilingual skills.

**Semester 4 Advising Note**
- Students should consult their intended transfer institution to determine appropriate electives for this program.
- Apply for graduation

*Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

### UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:
- Discuss the interaction of history, culture, literature, economics, and science as studied within a broad liberal arts curriculum
- Develop skills as critical and creative thinkers, readers, and writers
- Construct ideas and arguments with intention, listen actively, and facilitate inclusive dialogue
- Discover interests, skills and values that may inform course selection, career choice and pathway to degree completion
- Demonstrate the ability to navigate a variety of digital tools that facilitate evaluation of information, creation of knowledge and expression of self
- Apply classroom learning to local and global challenges

### CAREER OUTLOOK
Graduates of this concentration qualify for a variety of careers depending upon the chosen major. A bachelor's degree is the usual minimum requirement for entry into most fields. Graduate work may be necessary, as well.

**Total Credits**: 16-17

### Semester 1 Advising Note
- General Education Requirements Creative Work satisfied by program.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students with basic keyboarding skills may replace Piano I with Piano II (MUS-152). Those with intermediate or advanced keyboarding skills may satisfy this requirement with 2 or more credits of Music Electives. See the department Chair for more information.
- Performance Ensemble Elective: Students are required to take four credits of performance ensemble electives and may repeat these electives. Students may be required to audition for performance ensemble electives. See the department Chair for more information.
- Applied Music Elective: Students are required to take four credits of applied music electives and may repeat these electives. Students should register for the section of Applied Music that fits the instrument (or voice) they would like to study. An audition may be required. See the department Chair for more information.

**Semester 4 Advising Note**
- Performance Ensemble Elective: Students are required to take four credits of performance ensemble electives and may repeat these electives. Students may be required to audition for performance ensemble electives. See the department Chair for more information.
- Applied Music Elective: Students are required to take four credits of applied music electives and may repeat these electives. Students should register for the section of Applied Music that fits the instrument (or voice) they would like to study. An audition may be required. See the department Chair for more information.
- Apply for graduation.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Demonstrate foundational music skills suitable for a variety of situations including music notation and terminology, aural skills and sight-reading skills.
- Interpret core elements of a musical work.
- Demonstrate technical skills in various creative activities.
- Discuss the cultural context of music from a variety of styles and eras.
- Exhibit creativity and artistic sensitivity in their musical activity.
- Demonstrate facility in essential professional skills beyond those related to music.

**CAREER OUTLOOK**

The Music concentration provides the core skills that lead to a variety of careers related to music, including performance, music education, music production, composition, and music management. Graduates of this program qualify for entry-level positions in various sectors of the music industry. Additionally, graduates are well-prepared to transfer to bachelor's programs in a variety of specializations within music.

#### Semester 4 Advising Note

- Apply for graduation

⚠️ Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 👍 This course has pre/co- requisites.

✏️ Advising note or suggestion regarding this course. ✏️ This course satisfies General Education requirement.
UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate proficiency in computer operations and software applications unique to a medical setting.
- Demonstrate proficiency in understanding and using medical terminology.
- Use the complete range of Microsoft applications effectively and efficiently.
- Demonstrate proficiency in medical office operations and communication media.

CAREER OUTLOOK

Graduates of this option qualify for job opportunities in physicians’ and dentists’ offices, clinics, HMOs, community health agencies, long-term care facilities, and hospitals. Students also qualify for jobs in large corporations that provide on-site health services, engage in medical research, or produce medical products. Graduates qualify for entry-level positions such as medical receptionists, medical records management specialists, medical office managers, patient service representatives, and medical administrative assistants. Students also may qualify for at-home opportunities as medical transcriptionists.
Medical Laboratory Assistant Certificate Program

ADMISSION REQUIREMENTS

Total Credits: 7

Semester 3 Summer Advising Note

*Note: MLA-222 must be completed with a grade of B- or higher.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.
PROGRAMS OF STUDY

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Develop an attitude of professionalism and be knowledgeable of the ethical considerations of dealing with patient and laboratory information.
- Correctly perform basic venipuncture techniques using a variety of blood drawing apparatuses.
- Explain the proper method to process and store various specimens used for laboratory testing.
- Describe the routine workflow of the clinical laboratory.
- Describe the importance of and correctly utilize a laboratory information system (LIS).
- Discuss the various types of laboratory equipment that would be best utilized for various testing procedures.
- Describe the roles of laboratory staff.
- Discuss the advantages and disadvantages of instrumentation.
- Discuss the importance of and how to perform maintenance and quality control on instrumentation.
- Perform assigned procedures, demonstrating competency in the performance of the test, understanding the underlying principles of the test, and the determination of appropriate actions necessary in handling and reporting of sensitive data.
- Demonstrate organizational skills in the performance of assigned workload in a timely manner.

CAREER OUTLOOK

A Medical Lab Assistant (MLA) is someone who works in a laboratory setting and assists in the processing of patient samples and the preparation of tests that need to be done. They play a key role in aiding the medical technologist and allowing for everything to run as efficiently as possible. They perform phlebotomy, specimen processing, testing preparation for the Medical Technologist to perform the actual testing, maintenance and calibration of instrumentation, and work with the Laboratory Information System (LIS).

### Semester 1 Advising Note
- Students enrolling in this degree program can earn World Studies Emphasis certification simultaneously.
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- Students taking 9 or more credits should take CIT-113

### SEMESTER 2

<table>
<thead>
<tr>

<td>MAT 097 or MAT-098 or placement.</td>
</tr>
</tbody>
</table>

**Total Credits: 19-21**

**Semester 4 Advising Note**
- Apply for graduation

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Analyze the system needs of an organization.
- Make feasible recommendations for computer solutions that meet those needs.

**CAREER OUTLOOK**
Graduates of this concentration can transfer to bachelor's programs at four-year colleges.
**Computer Support Specialist Certificate Program**

**Total Credits:** 16-17

### Semester 4 Advising Note
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

### UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand network protocols and routing.
- Understand commonly used network services - DNS, mail, web, etc. as well as less common network services.
- Perform packet analysis and be able to identify malformed packets.
- Understand differences between various operating systems - which OS an event came from and which OS is vulnerable to a certain attack.
- Define the types of malicious software found in modern networks.

- Explain the threats and countermeasures for physical security and social engineering.
- Perform footprinting, port scans, and enumeration on a network.
- Perform very simple programming in C, HTML, and Perl, specifically oriented towards the needs of network security professionals.
- Identify Microsoft Windows vulnerabilities and to harden systems.
- Identify Linux vulnerabilities and to protect servers.
- Describe and deploy security devices, including routers, firewalls, Intrusion Detection Systems, and honeypots.

- Describe the ethics associated with the use of hacking or penetration testing tools and techniques.

### CAREER OUTLOOK

The option is designed to align with the National Institute of Technology and Standards’ (NITS) National Initiative for Cybersecurity Education Cybersecurity Workforce Framework to ensure consistent, current, and flexible training in the growing technology field of Information Security. Graduates of this option will qualify for positions as entry-level information security professionals.
## Data Analytics Certificate Program

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Design and code complex queries in SQL and PSQL
- Demonstrate the use of procedures, cursors, triggers, collections, and manipulation of tables
- Utilize existing databases, and convert the data into analyzable formats in R and Python
- Demonstrate the use of Pandas and scikit-learn libraries in Python
- Design basic algorithms associated with machine learning such as CART and Regression in R

**CAREER OUTLOOK**

Students who complete this program will be prepared for internships and entry-level data analysis positions in a wide variety of companies and organizations.
## Data Analytics Option

### SEMESTER 1

<table>

This course meets the General Education requirement for Academic Discourse.

*GenEd-SR* Scientific Reasoning 4  
This course meets the General Education requirement for Scientific Reasoning.

Choose one course from the Scientific Reasoning Menu

Total Credits: 17

### Semester 1 Advising Note

Equivalent courses for CIT-113 are CIT-110 Applications and Concepts or CSC-120 Introduction to Computer Science and Object Oriented Programming.

There is a hidden prerequisite for MAT-197 (MAT-194 College Algebra for STEM), but students can place into the course. Students who place into MAT-281 (Calculus I) must replace MAT-197 with an elective.

General Education requirement Quantitative Problem Solving satisfied by program.

- This course meets the General Education requirement for Creative Work.
- Choose one course from General Education Program Menu
- This course meets the General Education requirement for General Education Elective.
- Choose one four credit Science/Lab course (see semester four advising note)

**Total Credits:** 16

**Semester 4 Advising Note**

GenEd-E To satisfy MassTransfer STEM program requirements, students are required to earn seven credits in the Natural/Physical Sciences.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Collect, clean and prepare data from various sources for analysis.
- Utilize R and Python computer languages to generate insight from data.
- Handle data with an ethically conscious approach and understanding.
- Select the correct data visualization to communicate findings and recommendations.
- Select appropriate data visualizations to clearly communicate insights to various stakeholders.

**CAREER OUTLOOK**

Graduates of this option will be qualified to pursue internships or junior data practitioner jobs in the field of data analytics.

**Semester 2 Advising Note**
- Apply for graduation

* Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. ✔ Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Design and code complex queries.
- Find databases, and convert the data into readable and analyzable formats.
- Support Excel functions and databases.
- Support basic data gathering and manipulation with R programming.

**CAREER OUTLOOK**
Graduates of this program qualify for entry-level database and spreadsheet support positions in a wide range of organizations.
Electric Power Utility Program – A Partnership with EVERSOURCE

In partnership with EVERSOURCE and Local 369 UWUA, BHCC offers a two-year accredited Associate in Science Degree with a focus on Electric Power Utility Technology. Most classroom course work takes place at BHCC. Students receive continuous hands-on training at EVERSOURCE labs and during required internships.

Electric Power Utility Technology (EPUT) Program Requirements

Students must apply to the Electric Power Utility program through Enrollment Management and Admissions and complete an Eversource application which may be found at tbcdn.talentbrew.com/company/7774/FULL_v1_0/docs/EPUT-Application-2018-2019.pdf.

This two-year program of study includes approximately 12 weeks paid internship with Eversource for students who maintain a C or higher in all courses.

Students in this program must successfully pass any random drug or alcohol screening tests mandated by EVERSOURCE during the program; successfully complete all appropriate Skills Aptitude Tests administered by EVERSOURCE; and maintain safety skills to EVERSOURCE criteria as per OSHA 1910 and OSHA 1926 directives. Qualified applicants must pass additional physical and mechanical testing.

Graduates of the program in good standing at Eversource will have the opportunity to interview with Eversource for a potential job.

Careers and Salaries

During break, students in the Electric Power Utility program participate in a paid ten to twelve week work experience at Eversource while they complete a for-credit internship course. Students are paid $14 an hour.

After completing this degree option, students receive an associate in science degree and a certificate in Natural Gas Technology. They will have the experience and qualifications needed to launch a career in electric and gas.

The current starting salary range for laborers in Massachusetts is approximately $30 an hour, with additional compensation for overtime.

Tuition Assistance

Eversource offers tuition assistance to enrolled students up to $600 per semester.

For more information visit bhcc.edu/eput.

### Admission Requirements Advising Note

- If you meet the academic requirements for BHCC you will receive an email from Eversource with next steps to continue with the application process. For more info - [https://jobs.eversource.com/student-programs#electric-power-utility](https://jobs.eversource.com/student-programs#electric-power-utility)
- As a prerequisite for internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit [https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/](https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/)

**Semester 2 Advising Note**

- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Use spreadsheet models, analyze and evaluate revenues, expenses and cash flows.
- Understand and utilize collaboration techniques of the Microsoft Office Suite.
- Understand the requirements of securing data and computer systems.

**CAREER OUTLOOK**

Most organizations, across all industry segments have increased utilization of Excel software. As a result, the employment prospects for students completing this certificate program are extremely high. Over 1,500 requests for Excel skills can be found through Boston-area searches of job placement websites.

**Semester 4 Advising Note**
- Apply for graduation.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. 
- This course has pre/co- requisites.
- Advising note or suggestion regarding this course. 
- This course satisfies General Education requirement.
Health Information Networking Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Apply for entry-level networking positions.
- Apply for entry-level network security specialist careers.
- Apply for entry-level network and network security positions in the healthcare industry.
- Prepare to take the Cisco CCNA Certification Examination(s).
- Prepare to take the CompTIA A+ Certification Examination(s).
- Prepare to take the Cisco Network Security Certification Examination.

CAREER OUTLOOK

The Health Information Networking Program helps students prepare for entry-level specialized ICT and networking careers in physician offices, hospitals, healthcare facilities and with third-party contractors. Students also gain the knowledge and skills needed to prepare for entry-level security specialist careers and networking careers in industry and will be prepared to take multiple industry certificate exams.

**Semester 2 Advising Note**
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Describe, remove, and replace select components of desktop and laptop personal computers; upgrade components based on customer needs and perform preventive maintenance and troubleshooting.
- Understand the basics of the most common desktop Office applications.
- Explain, install, and navigate the most common personal computer operating systems; upgrade components based on customer needs and perform preventive maintenance and troubleshooting.
- Demonstrate good communication skills and professional behavior while working with customers.
- Qualify to take the COMPTIA A+ Essentials Certification Examination.
- Qualify to take the NETWORK+ Certification Examination.

**CAREER OUTLOOK**
Graduates completing this certificate may find employment in information support services departments in firms large and small as well as other companies specializing in personal computer maintenance support.

- Choose one course from Scientific Reasoning Menu

- **Elective Career Elective**
  - 3
  - Choose one Computer Media Technology (CMT) or Visual and Media Arts (VMA) course.

**Total Credits:** 16

### Semester 4 Advising Note
- Apply for graduation

**Milestone Courses** should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co-requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

### Upon Completion of This Concentration Graduates Will Be Able To:
- Create game characters.
- Create custom textures for clothing, surfaces and environmental objects.
- Create 3D objects as game constructs.
- Create 3D lakes, rivers, streams, beverages, soft candy products and liquefied solids to name a few.
- Effectively light and shade the game scene.
- Manage the game development process.

### Career Outlook

Students completing this program qualify for entry level positions in local and national gaming and computer simulation companies. The career outlook for computer gaming/simulation opportunities is projected to grow at a rapid rate in the coming years. The inclusion of computer generated graphics in movies, television, educational tutorials and social media have made this career choice very attractive.

</tbody>
</table>

**Total Credits: 6**

**Semester 2 Advising Note**
- ECE-101 and ECE-104 may not be taken unless student has received a C or better in ECE-103 in previous semester. Students without C or better in any ECE course will be barred from practicum until this measure is completed.
- ECE-101 and ECE-104 are courses required to be certified by the Massachusetts Department of Early Education and Care.
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.
Early Childhood Development Certificate Program (continued)

Upon completion of this concentration graduates will be able to:

- Use knowledge of child development and relationships with children and families to understand children as individuals and plan for their unique development by organizing environments which facilitate development in all developmental areas.
- Design and implement developmentally appropriate learning experiences using methods and materials which promote growth and development.
- Work with parents, families, and community leaders to support growth and development of children by engaging each child in meaningful experiences.
- Observe children in their care to analyze and synthesize information about those children so as to improve their work with children, families, and communities.
- Analyze, evaluate and strengthen their work with children by reflecting upon effective practices and collaborating with other professionals in the field.

Career Outlook

Graduates of this program qualify as teacher's aides in the State of Massachusetts. For more information on minimal requirements for employment, contact the Department chair.

Criminal Offender Record Information and Sex Offender Registry Information Checks

As a prerequisite for a clinical placement in the Childhood Development Certificate Program, all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. These checks are required due to potential unsupervised contact with children, the disabled, or the elderly during a clinical experience. Students found to have certain criminal convictions or pending criminal actions will be presumed ineligible for clinical placement. The College is authorized by the Commonwealth’s Department of Criminal Justice Information Services, pursuant to Massachusetts General Laws, Chapter 6, Sections 167-178B, to access CORI records. Sex Offender checks shall be performed pursuant to Massachusetts General Laws, Chapter 6, Sections 178C-178P.

For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193.

**Advising note or suggestion regarding this course.** This course satisfies General Education requirement.
Early Childhood Development Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use knowledge of child development and relationships with children and families to understand children as individuals and plan for their unique development by organizing environments which facilitate development in all developmental areas.
- Design and implement developmentally appropriate learning experiences using methods and materials which promote growth and development.
- Work with parents, families, and community leaders to support growth and development of children by engaging each child in meaningful experiences.
- Observe children in their care and be able to analyze and synthesize information about children so as to improve their own work with children, families, and communities.
- Analyze, evaluate and strengthen their work with children by reflecting upon effective practices and collaborating with other professionals in the field.

CAREER OUTLOOK

Graduates of this program qualify for employment in a variety of settings, including day care centers, preschools, head start programs, family home care and social service organizations. Students also may transfer to four-year colleges or universities in elementary education, human services work, or special needs childcare. Graduates of this program qualify as teachers and/or lead teachers in the state of Massachusetts.
# Early Childhood Development with Child Development Associate Credential Certificate Program

## Admission Requirements

<td>Completed minimum of three ECE courses with C or better</td>
</tr>
</tbody>
</table>

**Admission Requirements Advising Note**

- Must be at least 18 years of age and have U.S. Work Authorization
- Must have completed 120 hours of formal training in Early Childhood Education in subject areas covered by the Early Childhood Development with Child Development Associate Credential Certificate
- Must have completed within the last 3 years 300 hours of professional work experience in a group setting supervised by a professional Early Childhood educator
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/

**Total Credits:** 12

**Semester 1 Advising Note**

- CORI/SORI/fingerprints after acceptance to program, before practicum course can be completed are required of all students in program. Those with concerns about this requirement should see the College’s CORI officer before beginning the program.
- ECE-103 and ECE-106 are courses required to be certified by Massachusetts Department of Early Education and Care (DEEC).
- No other developmental Psychology courses may be substituted for ECE-103. Only ECE-103 is allowed for this degree plan and others will not be counted toward qualifications for certification by Massachusetts DEEC.
- Career electives: ECE-108, ECE-151 through ECE-168, ECE-207, ECE-209, ECE-210, ECE-223, EDU-102 or INT-123

<tr>
<td>ECE-224 CDA Mentoring and Coaching Practicum</td>
<td>3</td>
<td>📐</td>
<td>grade of a C or better in ECE-223.</td>
</tr>
</tbody>
</table>

**Total Credits: 6**

**Semester 3 Advising Note**
- ECE-223 and ECE-224 require that student is working in a classroom for development of portfolio and completion of the credentialing requirements. See requirements at bottom under additional advising notes. Students are required to pay their own credentialing fee at the end of the program upon taking the national test and sitting for other requirements of the CDA Council for Professional Recognition. Fees for this are noted below. Usually, it is recommended that students complete ECE-223 before moving to ECE-224, however, a waiver of this requirement is possible if student is completing program and will be ready to graduate at the end of this third semester.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Use knowledge of child development and relationships with children and families to understand children as individuals and plan for their unique development by organizing environments which facilitate development in all developmental areas.
- Design and implement developmentally appropriate learning experiences using methods and materials which promote growth and development.
- Work with parents, families, and community leaders to support growth and development of children by engaging each child in meaningful experiences.
- Observe children in their care to analyze and synthesize information about those children so as to improve their work with children, families, and communities.
- Analyze, evaluate and strengthen their work with children by reflecting upon effective practices and collaborating with other professionals in the field.

**CAREER OUTLOOK**
Graduates of this program are academically qualified in the State of Massachusetts through the Department of Early Education and Care to be either teacher or lead teacher qualified once work experience is completed as required by the state. For more information contact the Department Chair.

**GENERAL ADVISING NOTES FOR THIS PROGRAM**
- All developmental courses: RDG-90, RDG 095 or ESL-098, ENG-090 and ENG-095 must be taken and completed with a grade of C or higher before beginning the first semester towards a two semester certificate plan.
- Students are encouraged to take fewer courses and go slower if they have life responsibilities with family, work and personal challenges; these part-time students and/or those taking 1, 2 or 3 per semester are encouraged to use a longer route to completion to assure quality work.
- ENG-111 is required at the beginning semester as the program requires much reading and writing and student must be fully prepared for intense writing assignments in ECE courses.
- ECE-103 must be completed in first semester with a C or better to move to other ECE courses in subsequent semesters. All ECE courses after the first semester require ECE-103 to be completed with this grade requirement.
- ECE-103 and ECE-106 are courses required to be certified by Massachusetts Department of Early Education and Care (DEEC).
- No other developmental Psychology courses may be substituted for ECE-103.
- Only ECE-103 is allowed for this degree plan and will not be counted toward qualifications for certification by Massachusetts DEEC.
- The LCS must be taken in first semester and is only allowed for those students with no prior college experience; if the student is transferring or has prior college experience, the student may substitute a previous college course for the LCS through the college course waiver process (see Department Chair or ECE Coordinator for assistance). Recommended LCS for ECE students: LCS-101J Parents as First Teachers.

</tbody>
</table>

**Total Credits: 15-16**

**Semester 1 Advising Note**
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year. If student is not eligible to take EDU-102 due to prior college experience, the Fine Arts elective required in subsequent semester may be taken during this first semester and Career elective substituted in the subsequent semester instead of the Fine Arts noted in this curriculum map.
- The department recommends students take EDU-102, Becoming a Teacher, as their Learning Community Seminar.
- As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College’s CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/

**Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.**

**ADVISORY NOTES:**
- This course has pre/co-requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Describe the interaction of history, culture, literature, economics, and science as studied within a broad liberal arts curriculum.
- Demonstrate a mastery in reading and writing/ literacy skills and the organization of critical thinking and problem solving behaviors.

**CAREER OUTLOOK**
Graduates of this concentration may qualify to transfer to four-year colleges or universities as juniors. Potential teaching careers include teacher aid; early elementary, later elementary, middle school and high school teaching; preschool and kindergarten teaching; and special education teaching. Students must obtain a bachelor’s degree as the minimum requirement for entry into these fields. Graduate work may be necessary, as well.
**Associate in Science**

Total Credits: 18

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co-requisites. ☑️ Advising note or suggestion regarding this course.
- ☑️ This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Use currently accepted biological, chemical and physical concepts to investigate problems and ideas presented in advanced study related to health and medicine.
- Use biological concepts to evaluate their own science related concerns such as personal health or health careers.
- Use laboratory technology, equipment and techniques to investigate scientific problems critically and safely using proper scientific methods.
- Use molecular and cellular laboratory techniques that are commonly used in Biotechnology and Medicine.
- Explain the major concepts of cell structure, function and cellular processes that are key to life.

**CAREER OUTLOOK**

This option will allow students to transfer to four-year colleges and universities to seek a bachelor's degree to pursue a career in the health professions. Students should enroll in this option if they plan to transfer to a four-year college or university to pursue admission to programs in medical, veterinary, pharmacy, physician's assistant or physical therapy professions.
Meeting and Event Planning Certificate Program

**Program Description**

This program is designed to prepare students for entry-level managerial positions and management training programs in hotels, restaurants, corporate offices, and conference centers. Graduates also qualify to transfer all credits to the Associate in Science Degree in Meeting and Event Planning Management.

**Program Outcomes**

- Perform administrative skills in basic business bookkeeping procedure, business cost controls, and planning and coordinating hotel and restaurant operations.
- Demonstrate conceptual skills necessary to understanding the needs of the hotel, conference center, corporate office, and restaurant industry.
- Demonstrate the skills necessary to perform the various functions related to the needs of the meeting and event planning industry.

**Total Credits:** 15

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

### UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Demonstrate practiced an acquired technical skills in the usage of tools and equipment found in a typical bakery or commercial pastry production facility.
- Demonstrate the necessary administrative skills common to basic cost control and planning methods found in a typical commercial pastry shop.
- Demonstrate conceptual skills acquired through course work relative to operating a successful pastry shop or bakery facility.

### CAREER OUTLOOK

Graduates of this program qualify for a variety of entry-level positions in retail bakeries, pastry shops and related pastry production facilities. Students also qualify to transfer most credits to the Associate in Science Degree in Culinary Arts.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.
Paralegal Studies Certificate Program (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Understand the legal process and the nature of law practice
- Construct and evaluate logical arguments in support of specific positions.
- Conduct effective legal research and oversee legal projects.

CAREER OUTLOOK

Paralegals typically find jobs with law firms, corporations, government offices, non-profit entities, banks, health care organizations, bio-tech companies and financial institutions. Areas of specialization include litigation, corporate law, criminal law, regulatory compliance, intellectual property, bankruptcy, labor law, immigration, family law, and real estate.

The number of jobs in the paralegal field is expected to grow much faster than average through 2016, and the position of paralegal is consistently ranked among the best jobs in America. Boston is home to one of the top legal markets in the United States and BHCC’s main campus is minutes away from many courthouses, law schools, law firms, and government offices.

UNAUTHORIZED PRACTICE OF LAW STATEMENT

A Legal Studies graduate may work as a paralegal only under the supervision of an attorney and is not authorized to engage in the practice of law. The ABA (American Bar Association) defines a paralegal or legal assistant as “a person, qualified by education, training or work experience who is employed or retained by a lawyer, law office, corporation, governmental agency or other entity and who performs specifically delegated substantive legal work for which a lawyer is responsible.”

### Semester 4 Advising Note

- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites.
- Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.
Upon completion of this concentration graduates will be able to:

Upon the successful completion of the requirements of this option, graduates will be able to:

- Approach multimedia design as a responsive process of problem identification, ideation, creation and iteration.
- Apply basic skills in video, still images, visual design, typography, web/interactive design, storytelling and social media strategy to produce a portfolio of work that demonstrates their preparedness in industry-standard technical and critical-thinking skills.
- Demonstrate proficiency in software applications for image editing, and layout and content creation.
- Prove content using industry standard procedures for publication of content on electronic devices, websites and print.
- Use social media platforms for social media interaction and public relations and marketing strategy.
- Work within a team.
- Plan and execute projects to meet deadlines and design objectives.
- Practice effective communication and presentation skills necessary to engage in professional practice.

- Engage in creative and analytical discourse in order to communicate concepts to colleagues and clients.
- Produce portfolio content that is suitable for applying to four-year design programs, internships, and entry-level employment.
- Cultivate habits of independent learning and creativity.

Career Outlook

The Integrated Media Design program addresses current demands for cross-disciplinary skills in the contemporary job market. Visual designers, interactive designers, social media specialists and many other professions require people to understand various aspects of content creation in video, web, and visual design, and social media strategy. People with a multimedia portfolio find work in advertising agencies, visual design firms, web design companies, publishing companies, game design companies, pre- and post-production houses, public relations firms, colleges, and many kinds of private, public, and non-profit companies.

Examples of occupations that require cross-disciplinary skills are:

- The visual designer who needs to know web content management, social media, video, and motion graphics.
- The promotions manager who needs to know web architecture, video production and editing, social media strategy, and storytelling skills.
- The communications specialist, or journalist, who needs photography, video, sound and social media strategy.
- The videographer who needs to know social media, typography and web content management.
- Interactive designer who needs to know animation, storyboarding, and content management.

Further, more concentrated study can lead to jobs such as animator, motion graphic designer, art director, advertising account manager, public relations specialist, communications specialist, journalist, multimedia designer, multimedia production artist, multimedia developer, illustrator, videographer, filmmaker, film video editor, sound designer, 3-D artist, web designer, multimedia coordinator, technical artist, multimedia developer, experience designer, game designer, storyboard artist, interface designer, virtual reality specialist, art director/creative director, web designer, broadcast designer, software application designer, interface designer, information designer, product designer, environmental designer, broadcast design, educator, instructional designer, artist, and special effects designer.

**Semester 4 Advising Note**
- Students, please consult with a VMA faculty member before registering.
- Student should select electives based on their specialization in order to strengthen portfolio.
- Consider taking Gen. Ed. courses during Summer.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Develop a portfolio in preparation for transfer to a four-year college or university.
- Adapt the fundamental elements and principles of design to individual aesthetic.
- Demonstrate proficiency in Drawing, painting, and creating works in traditional as well as digital technologies and experimental forms.

*Apply the basic principles of color theory.
Combine conceptual and critical thinking skills as applied to Studio Art.

**CAREER OUTLOOK**

Graduates of this option qualify to transfer to bachelor's degree-granting colleges or universities. Potential entry level careers in the visual arts, which vary according to the chosen major, may include: Fine Arts, Commercial Arts, Graphic/visual Design, Photography, Sculpture/3-D Designer, Illustration, Animation, Filmmaker, Videography, Architecture/Interior Architecture, Fashion Designer, Art Therapy, Art Education, Art Criticism and Theory, Art Historian, Art Critic, Curator, Gallerist/Art Dealer, Video Game Designer, Audio/Visual Artist, Audio Technician, Web Designer, Display Designer, Product Designer, and more. Students of all these tracks receive the same foundational curriculum within a typical four-year art college.
## Associate in Science

### Professional Studies - Visual and Media Arts

## Visual Design Option

### SEMESTER 1

**Total Credits: 15**

### Semester 1 Advising Note
- New degree-seeking students enrolled in 9 credits or more must take a Learning Community Seminar or a Learning Community Cluster within their first year.
- VMA-132, Typography I and VMA-104 Drawing from Observation must be successfully completed to move through the program.
- Consider taking Gen. Ed. Courses during the summer.

### SEMESTER 2

<table>

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 13-14

#### Semester 4 Advising Note
- Students, please consult with a VMA faculty member before registering.
- Consider taking Gen. Ed. Courses during the summer.
- At least one Gen Ed will have to be taken over the semester; the program is 64 credits.
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.
UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Approach visual design as a responsive process of problem identification, ideation, and creation.
- Apply design skills in typography, color, image, form, and materials to print and digital media projects.
- Produce portfolio content that is suitable for applying to four-year design programs, internships, and design-related employment.
- Demonstrate proficiency in software applications for drawing, image editing, and layout.
- Use industry standard procedures to produce files and materials for print and digital production.
- Plan and execute projects to meet deadlines and design objectives.
- Practice effective communication and presentation skills necessary to engage in professional visual design practice.
- Engage in creative and analytical discourse about design in order to communicate concepts to colleagues and clients.
- Cultivate habits of life-long learning and creativity.

CAREER OUTLOOK

Graduates of this program will produce a portfolio of design work demonstrating foundation and entry-level skills and knowledge needed for careers in fields such as: advertising, print and digital book design, editorial design, environmental design, experience design, identity design, illustration, information design, in-house design, interaction design, motion graphics, packaging, print design, product design, typography, UX design, and web design.
## Biological Sciences: Biotechnology Option

### SEMESTER 1

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
<th>Milestone</th>
<th>GenEd</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG-111</td>
<td>College Writing I</td>
<td>3</td>
<td></td>
<td></td>
<td>ENG-095 and RDG-095, ELL-103 or placement.</td>
</tr>
<tr>
<td>MAT-197</td>
<td>Pre-Calculus</td>
<td>4</td>
<td></td>
<td></td>
<td>MAT-194 or placement.</td>
</tr>
<tr>
<td>BIO-195</td>
<td>General Biology I/Lab</td>
<td>4</td>
<td></td>
<td></td>
<td>ENG-095 and RDG-095 or ELL-103 or ESL-098 a</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>MAT-194 or placement.</td>
</tr>
<tr>
<td>BIO-120</td>
<td>Introduction to Biotechnology</td>
<td>4</td>
<td></td>
<td></td>
<td>ENG-095 and RDG-095 or ELL-103 or ESL-098 a</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>MAT-099 or placement.</td>
</tr>
</tbody>
</table>

Students in the Biotechnology option should take BIO-120 in their first semester. Students must also complete BIO-120 before taking BIO-261 in their third semester.

Total Credits: 15

### Semester 1 Advising Note

If student is taking developmental math their first semester, they can supplement their schedule with General Education courses and College Writing I (ENG111). Taking developmental math the first semester will require a student to attend for an extra semester and/or attend a summer session to complete the program.

A student should consider taking one of their General Education courses during the summer session to lighten their academic load in semester two.

**General Education Quantitative Problem Solving and General Education Scientific Reasoning satisfied by Program.**

This is a day program only. The only biotechnology course offered in the evening is BIO-120.

### SEMESTER 2

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
<th>Milestone</th>
<th>GenEd</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG-112</td>

<td>General Education Elective</td>
<td>3</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>BIO-196</td>
<td>General Biology II/Lab</td>
<td>4</td>
<td></td>
<td></td>
<td>BIO-195.</td>
</tr>
<tr>
<td>BIO-207</td>
<td>Cell Biology/Lab</td>
<td>4</td>
<td></td>
<td></td>
<td>MAT-197, BIO-195 and either BIO-196 or BIO-12</td>
</tr>
</tbody>
</table>

**Total Credits: 17**

### Semester 2 Advising Note

- Three General Education menu courses must be completed during semesters 2 and 3, in no particular sequence.
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
### SEMESTER 3

<table>
<thead>
<tr>
<th>Credits</th>
<th>Milestone</th>
<th>GenEd</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td></td>
<td></td>
<td></td>

</table>

**BIO-262 Principles of Molecular Biotechnology**
- BIO-207 and prerequisite or co-requisite BIO-208 and BIO-261.

**Elective Option Elective**
- Elective Options:

**CHM-202 General Chemistry II/Lab**
- CHM-201.  

**Elective Option Elective**
- Elective Options:

### Semester 4 Advising Note
- ENV-211 (Environmental Microbiology) was formally offered as BIO-211. ENV-211 cannot be taken if credits already earned for BIO-211.
- Apply for graduation

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ☑️ This course has pre/co- requisites.
- Advising note or suggestion regarding this course. ☑️ This course satisfies General Education requirement.
UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

• Use currently accepted biological, chemical, and physical concepts to investigate problems and ideas presented in advanced biological study.
• Use biological concepts to evaluate their own science related concerns such as personal health or careers.
• Use laboratory technology, equipment and techniques to investigate scientific problems critically and safely using proper scientific methods.
• Use molecular and cellular laboratory techniques that are commonly used in Biotechnology.
• Explain the major concepts of cell structure, function and cellular processes that are key to life.
• Explain current models, concepts and principles of genetics and inheritance.
• Explain and apply the underlying concepts of current topics and experimental models in molecular biology and Biotechnology.
• Use industry skills and work practices of the biotechnology industry for direct employment.

CAREER OUTLOOK

Students completing this option qualify for entry level positions in a wide range of biotechnology disciplines in industry, police, government and academic labs. These positions require a biotechnology certificate, AS degree or BS degree with 0-2 years of experience. Such positions offer the possibility of merit bonus and promotion and are available locally as well as nationwide.

</tbody>
</table>

**Semester 1 Advising Note**
- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program.
- This option has three tracks: 1. Pre-pharmacy school; 2. Pre-physician's assistant or physical therapy school; 3. Pre-medical or Pre-veterinary school. Course selection will vary based on a student's intended career. Students should learn about the course requirements of specific programs as they choose their electives. Please see each semester's advising notes for correct course registration.
- Students need to complete three General Education courses during semesters 1 and 2. Students do not need to complete General Education courses in any particular order.
- MAT-197 requires a C+ or higher to enroll in CHM-201.
- If a student is not eligible to take (MAT-281) Calculus I, they should take (MAT-197) Precalculus in order to take (CHM-201) General Chemistry I/Lab in their second semester.

- Option elective courses:
  - See semester advising note.

**Total Credits: 15**

#### Semester 3 Advising Note

- Veterinary and pharmacy schools: Most require calculus and calculus-based College Physics (PHY-251 and PHY-252).
- Medical, physician's assistant, physical therapy schools: Most do not require calculus or calculus-based physics and students can instead take General Physics (PHY-201 and PHY-202). However, College Physics (PHY-251 and PHY-252) courses will strengthen your application.
- Electives should be decided based on the medical profession chosen by the student. Students should research specific programs and their course requirements.
- Veterinary and medical schools elective options: Organic Chemistry II (CHM-252), Genetics (BIO-208), Statistics (MAT-181), *Students may choose to take Microbiology (BIO-205).
- Pharmacy programs elective options: Organic Chemistry II (CHM-252), Microbiology (BIO-205), Anatomy & Physiology I (BIO-203), *Students may also choose: Public Speaking and Professional Communication (COM-171), Statistics (MAT-181), and/or Anatomy & Physiology II (BIO-204).
- Physician's Assistant or Physical Therapy programs elective options: Anatomy & Physiology I and II (BIO-203 and BIO-204), Statistics (MAT-181), *Students may choose to take Medical Terminology (NHP-180) and/or Microbiology (BIO-205).
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap

**Total Credits:** 13-15

### Semester 4 Advising Note

- Veterinary and medical schools elective options: Organic Chemistry II (CHM-252), Genetics (BIO-208), Statistics (MAT-181), *Students may choose to take Microbiology (BIO-205).*
- Pharmacy programs elective options: Organic Chemistry II (CHM-252), Microbiology (BIO-205), Anatomy & Physiology I (BIO-203), *Students may also choose: Public Speaking and Professional Communication (COM-171), Statistics (MAT-181), and/or Anatomy & Physiology II (BIO-204).*
- Physician's Assistant or Physical Therapy programs elective options: Anatomy & Physiology I and II (BIO-203 and BIO-204), Statistics (MAT-181), *Students may choose to take Medical Terminology (NHP-180) and/or Microbiology (BIO-205).*
- Apply for graduation.

- **Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.**
  - This course has pre/co-requisites.
  - Advising note or suggestion regarding this course. **This course satisfies General Education requirement.**

### UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use currently accepted biological, chemical and physical concepts to investigate problems and ideas presented in advanced study related to health and medicine.
- Use biological concepts to evaluate their own science related concerns such as personal health or health careers.
- Use laboratory technology, equipment and techniques to investigate scientific problems critically and safely using proper scientific methods.
- Use molecular and cellular laboratory techniques that are commonly used in Biotechnology and Medicine.
- Explain the major concepts of cell structure, function and cellular processes that are key to life.

### CAREER OUTLOOK

This option will allow students to transfer to four-year colleges and universities to seek a bachelor's degree to pursue a career in the health professions. Students should enroll in this option if they plan to transfer to a four-year college or university to pursue admission to programs in medical, veterinary, pharmacy, physician’s assistant or physical therapy professions.

<td>General Physics/Lab</td>
<td>4</td>
<td>Prerequisite for PHY-201: MAT-197.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits: 15-16**

### Semester 3 Advising Note

- It is highly recommended that a student take Organic Chemistry I & II for two of their option electives. However, this will require an extra semester at BHCC to complete unless the student has completed the math prerequisite (MAT-197 or equivalent) to take General Chemistry I (CHM-201) in their first semester.
- If a student elects to take Advanced Lab Techniques in Biotechnology (BIO-261) they should also take Principles of Molecular Biotechnology (BIO-262) to insure transferability. BIO-261 will only be offered in the fall semester and BIO-262 will only be offered in the spring semester.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Students should check with their transferring institution to see if they require algebra or calculus based physics for their biology programs.
- Complete a pre-graduation check with an advisor in LifeMap.

See semester advising note.

| BIO-196 General Biology II/Lab | 4 | BIO-195. |
| CHM-202 General Chemistry II/Lab | 4 | CHM-201. |

Total Credits: 18

Semester 4 Advising Note

BME-250: Depending on the student's intended transfer program/school, Biomedical Engineering III may be substituted with another course. The substitution may also allow for Biomedical Engineering II and Biomedical Engineering III to be completed in the same semester. Biomedical Engineering II is currently offered during only the Spring semester

Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Design and conduct experiments.
- Analyze and interpret data.
- Apply computational tools and scientific concepts to biomedical engineering problems.
- Design systems, components, or processes for solving biomedical engineering problems.
- Function as part of a biomedical engineering team.
- Articulate the professional and ethical responsibilities required of engineers.

CAREER OUTLOOK

Graduates with an associate of science degree will be qualified for direct employment in entry-level research/lab assistant, design and manufacturing positions available in private industries, academic research institutions, and hospitals locally and nationwide.

Program information was omitted in the original version of the 2021-2023 College Catalog, and has been added as an insert to the final catalog as Pages 216a and 216b.

<td>This course meets the General Education requirement for Creative Work (Formerly Area 6)</td>
</tr>
</tbody>
</table>

**Total Credits:** 17

### Semester 1 Advising Note
- General Education Requirements Quantitative Problem Solving and Scientific Reasoning satisfied by program
- Students need to complete three General Education courses and a humanities course. They do not need to be completed in any particular sequence.
- Student must have completed ENG-111 with a C or better or take ENG-111 concurrently with CHM-201. Must have completed MAT-197 with a C+ or better before taking CHM-201 or take MAT-281 concurrently with CHM-201. Students who are not able to take CHM-201 in their first semester will need to take CHM-202 during the summer or take an additional semester for completion of CHM-252 at the end of the program.

### SEMESTER 2

<table>
<thead>
<tr>

<td></td>
<td></td>
<td>MAT-281.</td>
</tr>
</tbody>
</table>

**Total Credits:** 15

### Semester 2 Advising Note
- Meet with an advisor to begin career planning activities.
- Begin exploring transfer options: attend a transfer workshop and the College transfer fair.
- It is recommended that students take the General Education elective or Humanities courses during the summer to lighten their load in the second semester, and/or to take one of their recommended third-semester electives during the summer to lighten their load in the third semester.
- CHM-251 and CHM-252 are not offered during the summer session. All other required science and math courses are offered during the summer. Students wishing to complete the program in four semesters will need to begin their CHM-251/252 sequence in their third semester, and will need to take CHM-202 in the summer if they take CHM-201 in their second semester.
**SEMESTER 3**

</tbody>
</table>

- This course meets the General Education requirement for General Education Elective.
- Choose a course from the Community/Cultural Contexts.

Total Credits: 14-15

**Semester 3 Advising Note**

One of the Concentration electives must be a 4-credit course to satisfy the minimum 60-credit degree requirement.

Concentration Electives:
- BIO-120 Introduction to Biotechnology
- BIO-195 General Biology I
- BIO-196 General Biology II
- CSC-120 Introduction to Computer Science and Object Oriented Programming
- ENR-101 Introduction to Engineering
- HON-200 Honors Seminar
- MAT-181 Statistics I
- MAT-283 Calculus III
- MAT-285 Ordinary Differential Equations
- SCI-221 Scientific Writing

**SEMESTER 4**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
<th>Milestone</th>
<th>GenEd</th>

<td></td>
</tr>
<tr>
<td>Elective-3 Concentration Elective</td>
<td>3-4</td>
<td>[ ]</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 13-15

**Semester 4 Advising Note**

One of the Concentration electives must be a 4-credit course to satisfy the minimum 60-credit degree requirement.

Concentration Electives:
- BIO-120 Introduction to Biotechnology
- BIO-195 General Biology I
- BIO-196 General Biology II
- CSC-120 Introduction to Computer Science and Object Oriented Programming
- ENR-101 Introduction to Engineering
- HON-200 Honors Seminar
- MAT-181 Statistics I
- MAT-283 Calculus III
- MAT-284 Ordinary Differential Equations
- SCI-221 Scientific Writing

**Milestone Courses** should be taken in the order shown. This will help you stay on track and graduate on time. 
- This course has pre/co- requirements.
- Advising note or suggestion regarding this course. 
- This course satisfies General Education requirement.
UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

- Use currently accepted chemical concepts to investigate problems and ideas presented in advanced chemical study.
- Use chemical concepts to evaluate their own science-related concerns such as personal health or careers in science.
- Use laboratory technology, equipment, and techniques critically and safely to investigate scientific problems using proper scientific methods.

CAREER OUTLOOK

Graduates of this concentration should transfer to a four year college or university because entry-level employment opportunities in chemistry such as lab or field technicians usually require a minimum of a bachelor’s degree in chemistry. Professional positions such as engineers, researchers, or college instructors usually require a minimum of a master’s degree.

</tr>
</tbody>
</table>

**Total Credits:** 16-18

**Semester 4 Advising Note**
- Apply for graduation

Computer Science Concentration (continued)

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

Computer Science Concepts -
- Demonstrate a clear understanding of the concepts, terminology, and term definitions associated with Computer Science, including basic computer architecture and organization.

Computer Science Software -
- Demonstrate a clear understanding of the discipline’s specific Integrated Development Environments, software utilities, and computer platforms which can be used in the development of software.

Computer Software Development -
- Design, plan, develop, and produce complete computer software from start to finish with all stages of the development process clearly identified.
- Create software in Object Oriented Languages
- Computer Science Teams -
- Participate in multi-cultural teams and team projects as a contributing member with the requirement to be an active and supportive team member.

Computer Software Quality and Assurance -
- Analyze Worst and Best case for algorithm performance
- Design and implement software test plans, including Unit and Integration testing
- Reporting and Presenting Software Solutions -
- Write formal report of software solutions
- Present software solutions using diverse modalities (PowerPoint, Video, etc.)
- Provide and receive constructive and critical feedback
- Create software Requirements and Design Documents
- Create software program documentation

**CAREER OUTLOOK**

Graduates of this concentration are prepared for well-paying, entry level careers as computer scientists and programmers, and can transfer to bachelor’s programs at four-year college Computer Science programs.

- Department strongly recommends students complete CIT-239 with a B- or better.

**Total Credits:** 16-17

**Semester 3 Advising Note**

- Recommended electives: CIT-287 or CIT-243 or MAT-291.
- Continue preparations for transfer: write essays for transfer institution, collect letters of recommendation, apply for transfer.
- Complete a pre-graduation check with an advisor in LifeMap
- Students planning to transfer to UMASS Boston’s Computer Science program, should plan to take CS-240 (Programming in C) at UMB, and transfer it back to BHCC as an elective.

### SEMESTER 4

<table>

</tbody>
</table>

- Elective Options:

**Total Credits:** 13-16

**Semester 4 Advising Note**

- Recommended electives: CIT-287 or CIT-243 or MAT-291
- Students planning to transfer to UMASS Lowell and UMASS Amherst should take MAT-291 as an elective
- Students planning to transfer to Tufts University should take MAT-283 as an elective
- Apply for graduation
- Students planning to transfer to UMASS Boston’s Computer Science program, should plan to take CS-240 (Programming in C) at UMB, and transfer it back to BHCC as an elective.

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. ☑ This course has pre/co- requisites.
- Advising note or suggestion regarding this course. ☑ This course satisfies General Education requirement.
Computer Science Transfer Option (continued)

UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:

Computer Science Concepts -
● Demonstrate a clear understanding of the concepts, terminology, and term definitions associated with Computer Science, including basic computer architecture and organization.

Computer Science Software -
● Demonstrate a clear understanding of the discipline’s specific Integrated Development Environments, software utilities, and computer platforms which can be used in the development of software.

Computer Software Development -
● Design, plan, develop, and produce complete computer software from start to finish with all stages of the development process clearly identified.
● Create software in Object Oriented Languages

Computer Science Teams -
● Participate in multi-cultural teams and team projects as a contributing member with the requirement to be an active and supportive team member.

Computer Software Quality and Assurance -
● Analyze Worst and Best case for algorithm performance

Design and implement software test plans, including Unit and Integration testing

Reporting and Presenting Software Solutions -
● Write formal report of software solutions

Present software solutions using diverse modalities (PowerPoint, Video, etc.)

Provide and receive constructive and critical feedback

Create software Requirements and Design Documents

Create software program documentation

CAREER OUTLOOK

The CS Transfer Option degree prepares students to transfer to four-year college Computer Science (CS) Programs across the United States and also prepares them for well-paid entry level careers and internships as computer scientists and programmers.

<td></td>
<td></td>
<td>Programming course or Chair approval.</td>
</tr>
</tbody>
</table>

**Total Credits:** 6

### Semester 2 Advising Note

This certificate is intended to be completed in two semesters.

Suggested courses to take:
- CSC-125
- CSC-236
- CSC-239

---

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Tackle large problems by systematically breaking them down into smaller, more manageable problems.
- Use their knowledge, skills, and resources to effectively adapt to change.
- Utilize a foundation in programming practices and principles.
- Utilize skills and competencies required to program basic iOS applications.
- Utilize skills and competencies required to design basic mobile applications on several device platforms.

### CAREER OUTLOOK

This Certificate Program is designed to align with the needs specified by industry partners. This option will have stackable credentials ideal for the working professional who is not seeking a degree, but looking to enhance their existing information technology skills.

</table>

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co-requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Design, implement, and maintain software solutions for realistic problems by applying principles of object oriented programming.
- Write sophisticated and efficient code using the latest object oriented programming languages such as C++ and Java.
- Work in both Unix and Windows environments.

**CAREER OUTLOOK**
Graduates of this certificate qualify as entry-level programmers who can analyze complex problems and design, implement, and run viable solutions using any of the most common object oriented languages.
# Electrical Engineering Transfer Option

<table>
<thead>
<tr>

</tr>
<tr>
<td>ENR-275 Digital Logic Systems/Lab</td>
<td>4</td>
<td></td>
<td></td>
<td>ENR-271; Co-requisite: MAT-283.</td>
</tr>
</tbody>
</table>

**Total Credits: 16**

**Semester 4 Advising Note**
- ENR-272 and ENR-275 are currently offered during only the Spring semester.
- Apply for graduation.

**Upon completion of this concentration graduates will be able to:**
- Design and conduct experiments.
- Analyze and interpret data.
- Apply modern computational tools and lab techniques, along with scientific concepts, to solve engineering problems.
- Design systems, components, and processes for solving problems in electrical engineering.
- Function as part of an engineering team.
- Articulate the professional and ethical responsibilities required of engineers.

**Career Outlook**
Graduates completing a four-year degree will have a strong electrical engineering foundation and be able to select from a variety of high-demand fields for the balance of their training. Such high-demand fields include nanotechnology, high-tech manufacturing, electronic devices, and robotics.

- Only offered in the Spring semester.

ESM-299 Internship in Energy and Sustainability Management or ESM-205 Green Existing Buildings

<table>
<thead>
<tr>
<th>Elective</th>
<th>3</th>
</tr>
</thead>
</table>

Total Credits: 13

Semester 2 Advising Note

- ESM 299 prerequisites: (1) Enrollment in the Energy and Sustainability Management Program; and (2) A minimum of 10 credits of ESM courses with a B or higher, OR (3) Department Chair approval
- Apply for graduation.

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co-requsites.

This course satisfies General Education requirement.

Upon completion of this concentration graduates will be able to:

- Establish competencies to sit for the Leadership in Environmental and Energy Design (LEED) Green Associate exam, a nationally recognized certification.

Career Outlook

Graduates of the ESM program may seek employment in a variety of entry-level positions such as technicians, coordinators, administrators, sales representatives, or specialists in a wide range of industries including renewable energy, construction, facilities management, environmental protection services, energy efficient services, utilities, and industrial operations. In addition to earning BHCC’s ESM Certificate, graduates will qualify to sit for the LEED Green Associate (LEED GA) exam, a nationally recognized certification administered by the US Green Building Council.
## Engineering Transfer Option

### SEMESTER 1

<table>

<td>MAT-181 or MAT-197 or placement.</td>
</tr>
</tbody>
</table>

**Semester 4 Advising Note**
- MAT-281 Calculus I cannot be used as a program elective unless you have also completed MAT-197 Precalculus.
- Successful completion GIS-224 Introduction to Geographic Information Systems course will require access outside of class to Windows computers with ArcGIS for Desktop installed; evaluation licenses will be made available for students to install ArcGIS onto their own Windows computers. ArcGIS for Desktop will also be provided in two public computers on campus for students without personal computers.
- Apply for Graduation
- Any course, other than those listed, must be approved by the program director.

**Total Credits: 16**

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time. This course has pre/co- requisites. Advising note or suggestion regarding this course. This course satisfies General Education requirement.
PROGRAMS OF STUDY

Upon completion of this concentration, graduates will be able to:

- Identify, define, and explore the major concepts of environment processes, problems, and solutions
- Investigate a variety of scientific methods and techniques to study the environment
- Demonstrate effective oral and written communication skills about environmental findings
- Analyze the cultural, ethical, economic, and government policy aspects of current and emerging environmental concerns

Career Outlook

Students majoring in Environmental Science prepare for a variety of entry-level careers in the private, public and non-profit sector involving resource conservation and sustainability. Entry-level careers include environmental monitors, assistants, and technicians. This program will allow students to transfer to four-year colleges and universities to seek a bachelor's degree in environmental science or environmental studies. A bachelor's or graduate degree is required for professional positions in education, outreach, environmental planning, environmental conservation, natural resource management, environmental consulting, environmental engineering, hazardous materials, and occupational health and safety.

Employment of environmental scientists and specialists is projected to grow 8 percent from 2018 to 2028, faster than the average for all occupations. Heightened public interest in the hazards facing the environment, as well as increasing demands placed on the environment by population growth, are expected to spur demand for environmental scientists and specialists.

#### Semester 4 Advising Note
- Apply for graduation

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Demonstrate the connections between the major concepts and theories in the field of physics.
- Analyze and create solutions for problems involving principles of physics.
- Apply mathematical techniques in scientific problem solving.
- Properly report on the findings of a designed experiment.

**CAREER OUTLOOK**
Graduates of this concentration should transfer to a four-year college or university because employment opportunities in physical science such as lab technicians usually require a minimum of a bachelor's degree. Professional positions such as researchers or college instructors usually require a minimum of a master's degree.

Semester 4 Advising Note
- Apply for graduation

Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.

This course has pre/co- requisites. Advising note or suggestion regarding this course.

This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**
- Solve quantitative problems using critical thinking skills and a variety of problem-solving strategies, incorporating technology when suitable.
- Develop complete logical arguments from hypothesis to conclusion, using appropriate mathematical language and notation.
- Interpret and solve problems relevant to other disciplines by applying analytical approaches used to solve abstract problems.
- Construct new mathematical knowledge through independent and collaborative work.

**CAREER OUTLOOK**
Graduates of this concentration should transfer to a four-year college or university, as most entry-level employment opportunities in industry require a minimum of a bachelor’s degree. Professional positions in education and research fields usually require a minimum of a master’s degree.

**CHM-121 Principles of Organic and Biochemistry/lab**
4  
- Must earn a grade of C or better  
- CHM-120.

**Total Credits**: 26

---

### Admissions Requirements Advising Note

- All Medical Laboratory Technician students are required to:
  - undergo a physical examination, complete the necessary immunization forms, including a three (3) dose Hepatitis B immunization series; carry malpractice and health insurance
  - As a prerequisite for a clinical placement or internship this program requires that all students must undergo a Criminal Offender Record Information (CORI) check and a Sex Offender Registry Information (SORI) check. For more information regarding the College's CORI/SORI check process, please contact the College CORI/SORI Officer at 617-228-2193 or visit https://www.bhcc.edu/studentcentral/academicrecords/coriandsorichecks/

**Total Credits: 12**

- Milestone Courses should be taken in the order shown. This will help you stay on track and graduate on time.
- This course has pre/co- requisites. Advising note or suggestion regarding this course.
- This course satisfies General Education requirement.

**UPON COMPLETION OF THIS CONCENTRATION GRADUATES WILL BE ABLE TO:**

- Collect and prepare clinical specimens for analysis.
- Operate laboratory instruments.
- Prepare a variety of diagnostic analyses according to prescribed methodology.
- Relate test results to other patient information to the extent required for understanding the analyses.

**CAREER OUTLOOK**

Graduates of this program are eligible to take the CLT/MLT certification exam administered by the American Society of Clinical Pathology. Graduates are then qualified for employment in hospitals, clinics and health maintenance organizations.
Accounting

**ACC-101 Principles of Accounting I**
3 Credits

After a brief consideration of the meaning and purpose of accounting, this course explores the basic statements of an accounting system: the balance sheet, the income statement and the statement of owner’s equity. Students will examine the accounting cycle with an emphasis on the methods of accumulating and summarizing data generated by business transactions. Students will apply their manual accounting skills to an automated accounting system using general ledger software. Areas of concentration will include adjusting entries, closing process, inventory analysis, merchandising, transactions, cash control procedures, receivables, and payables. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

**ACC-102 Principles of Accounting II**
3 Credits

This course will expand upon the basic concepts and theories that students learned in the Principles of Accounting I course. Students will be expected to apply their knowledge in a managerial decision-making mode. Areas studied include, but are not limited to, the following: long-term assets and liabilities; financial statement analysis; transactions unique to the corporate business structure; bonds payable; planning and controlling using master budgets and cost behavior recognition utilizing cost-volume-profit analysis, as well as gaining exposure to accounting for manufacturers. Prerequisite: Principles of Accounting I (ACC-101).

**ACC-104 Introduction to Accounting Software**
1 Credit

This course introduces students to Accounting Software with an emphasis on specific applications for accounting software. The modules covered include, among other topics: customer and vendor information, bill pay, and banking. It includes recording transactions, payroll and inventory control in a variety of business situations. Prerequisites: Writing Skills II (ENG-095) and Academic Reading Third (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level course.

**ACC-105 Accounting Information Systems**
3 Credits

This course introduces students to Accounting Information Systems. The course focuses upon integrated systems, set up, and applications. The modules covered include, among other topics: general ledger, report writing, invoicing, purchasing, inventory control, accounts receivable, accounts payable, cash disbursements, payroll, and spreadsheet application. Prerequisites: Principles of Accounting I (ACC-101) and Writing Skills II (ENG-095) and Academic Reading Third (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level course.

**ACC-107 Accounting Forensics**
3 Credits

This course introduces students to the auditing process and prepares them to perform forensic audit examination in conformity with pertinent industry standards. Students will learn comprehensive perspectives and skills in regards to occupational fraud and the technicality of fraud examination including searching accounting information, obtaining documentary evidence, interviewing witnesses and potential suspects, and conducting forensic document examination. This course will also provide electronic techniques required to audit. Prerequisite: Principles of Accounting II (ACC-102).

**ACC-108 Intermediate Accounting I**
3 Credits

This course covers, in detail, financial accounting, and generally accepted accounting principles. After a review of the accounting cycle, issues in revenue recognition and the time value of money are discussed. The four main financial statements are studied. Specific accounting issues pertaining to various current assets are covered. Prerequisite: Principles of Accounting II (ACC-102).

**ACC-109 Intermediate Accounting II**
3 Credits

A continuation of Intermediate Accounting I (ACC-201), this course discusses accounting problems for long-term assets, current, and long-term liabilities. Issues in investments leases, employee compensation, and taxes are covered. Accounting for shareholder equity and earnings per share are covered. The preparation of the statement of changes in equity is studied. Prerequisite: Intermediate Accounting I (ACC-201).

**ACC-190 Personal Income Tax**
3 Credits

This course provides a comprehensive explanation of tax principles dealing with individuals and small businesses. The course covers modules in federal and state income tax processes, concepts, and applications as well as other topics. Prerequisite: Principles of Accounting II (ACC-102).

**ACC-191 Tax Business Income Tax**
3 Credits

This course discusses the theoretical tax concepts that are applicable to corporations, partnerships, and trusts. The course covers both effective tax research and planning techniques for these types of entities. Prerequisite: Principles of Accounting II (ACC-102).

**ACC-192 Volunteer Income Tax Assistance**
3 Credits

This VITA internship provides an opportunity for students to gain an understanding of specific tax laws and provides students with the necessary language-switching skills, and decision-making. This course will also provide electronic filing requirements for major tax documents. Prerequisites: Principles of Accounting II (ACC-203), this course discusses accounting problems for long-term assets, current, and long-term liabilities. Issues in investments leases, employee compensation, and taxes are covered. Accounting for shareholder equity and earnings per share are covered. The preparation of the statement of changes in equity is studied. Prerequisite: Intermediate Accounting I (ACC-201).

**ACC-193 Mass Tax Law I**
3 Credits

After an introduction to the Massachusetts General Laws relating to taxation and the organization and role of the Massachusetts Department of Revenue, this course will focus on the Massachusetts statutory provisions relating to miscellaneous excises, the taxation of individuals and corporations, including the administration and enforcement of these provisions by the Massachusetts Department of Revenue. Other areas of study covered in this course include: filing requirements for major tax types; assessment and collection of taxes; examination and abatement. This course is critical for students to gain an understanding of specific taxation laws that pertain to the Commonwealth of Massachusetts.

**ACC-194 Mass Dept of Revenue Internship**
3 Credits

This course enhances the academic experience for students. All internships take place at the Massachusetts Department of Revenue site. Students will engage in activities that improve knowledge of the practical world of taxation and auditing and help them gain professional experience. The internship experience applies resources gained from students’ program’s study to improve the quality of their contributions to the employer. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: Mass Tax Law I (ACC-217) and permission of the Department Chair or Dean.

Allied Health

**AHE-095 Topics in Health Care**
3 Credits

This course increases understanding across a broad spectrum of health care topics using readings and writings as related to the core curriculum.

**AHE-101 Medical Interpreting I**
3 Credits

This course is designed for bilingual students interested in becoming integral members of the health care team in bridging the language and cultural gap between patients and providers. Students will examine issues related to interpreter ethics and the role of the interpreter in a variety of clinical settings. Topics include anatomy and physiology, pathophysiology, diagnoses, and medical treatments. Activities are designed to develop listening, memory, language-switching skills, and decision-making. This course will familiarize students with the cultural dimensions of health and illness in preparation for their being assigned to an internship where they perform live interpreting under the direct supervision of a professional interpreter and mentor. Note: A grade of B- or better in this course is required for progression in the program. Prerequisites: Writing Skills II (ENG-095) and Academic Reading Third (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level course.

**AHE-102 Medical Interpreting II**
2 Credits

A continuation of Medical Interpreting I, this course includes an in depth discussion of cross-cultural communication including values and attitudes toward non-traditional health beliefs. Students will examine issues such as giving bad news to patients, and dealing with difficulties between patients and health care providers. Other topics of discussion include prescription
medicines, measurements for medical dosages, principles and treatments, and medical insurance verbiage. Finally, chronic conditions such as asthma/COPD, HIV and diabetes as well as medical specialties such as mental health and obstetrics/gynecology are discussed. Prerequisite: Medical Interpreting I (AHE-101).

AHE-104 Understanding Human Behavior for Health Care Professionals

This course introduces students to the challenges and responsibilities of healthcare professionals and college students. Discussions center on cross-cultural issues, human growth and development, and psychological and sociological factors involved in the patient healthcare professional relationship.

AHE-106 CNA Practicum Patient Care

This course consists of a clinical practicum of 21 hours at a skilled nursing facility to fulfill the State Nurse Aide Certification requirement. Additional expenses may include supplies, equipment, and/or uniforms. Co-requisites: Principles of Clinical Practice (AHE110) and Patient Care Skills (AHE111).

AHE-110 Principles of Clinical Practice

This course includes topics in the anatomy and physiology of body systems, diseases and conditions, ethics in health care, communications, medical terminology and abbreviations, standard and transmission-based precautions, CPR, and selected clinical skills. Additional expenses may include supplies, equipment, and/or uniforms. The course is open to Allied Health certificate program students only.

AHE-111 Patient Care Skills

This course, taken with CNA Practicum (AHE106) and Principles of Clinical Practice (AHE110), covers the patient care theory and skills required to take the Certified Nurse Aide and Home Health exams. Co-requisites: CNA Practicum (AHE 106) and Principles of Clinical Practice (AHE 110).

AHE-112 Medical Assistant Skills

This course covers the skills and theory necessary for medical assistants in hospitals and clinics. Topics include setting up and assisting for physical and specialty examinations, minor surgical procedures, routine laboratory tests, and related medical terminology and abbreviations. Co-requisite: Principles of Clinical Practice (AHE 110).

AHE-115 Phlebotomy/Medical Lab Theory

This course teaches anatomy and physiology of the circulatory system and the process of collecting blood samples. This course meets the requirements necessary to sit for a phlebotomy certification exams offered by several private certification groups. Certification is the responsibility of the student. Prerequisites: Writing Skills I (ENG090), Foundations of Mathematics (MAT093), and Reading Skills I (RDG090). Co-requisite: Principles of Clinical Practice (AHE110) and Medical Assistant Skills (AHE112).

AHE-117 Communication Skills for Health Care

This course provides the student with the skills to communicate effectively as an Allied Health Professional. The course includes discussions of verbal and non-verbal communication, professional communication and behavior, interviewing techniques, adapting communication to a patient’s ability to understand, patient education, cultural sensitivity, electronic communication, and fundamental writing skills.

AHE-201 Advanced Clinical Skills

This course covers advanced theory and skills for the patient care technician and medical assistant. Students are cross-trained in EKG and Phlebotomy. Prerequisite: Patient Care Skills (AHE-111) or Medical Assisting Skills (AHE-112).

AHE-204 Patient Care Technician

This course consists of a clinical practicum at local health care facilities. Students keep a daily journal and complete a work portfolio. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Patient Care Skills (AHE-111). Co-requisite: Advanced Clinical Skills (AHE-201).

AHE-205 Practicum Medical Assistant

This course consists of a clinical practicum at local health care facilities. Students keep a daily journal and complete a work portfolio. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Medical Assisting Skills (AHE-112). Co-requisite: Advanced Clinical Skills (AHE-201).

AHE-206 Practicum Phlebotomy Technician

This course consists of a clinical practicum at local health care facilities. Students keep a daily journal and complete a work portfolio. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Principles of Clinical Practice (AHE110) and Phlebotomy/Laboratory Theory (AHE115).

AHE-209 Allied Health Practicum Seminar

This seminar is an inter-disciplinary course that provides a broad overview of the medical workplace. Taken concurrently with an Allied Health Practicum, it includes discussions of the internship experience, employment opportunities as well as job search skills. Co-requisite: Practicum Patient Care Assistant (AHE-204) or Practicum Medical Assistant (AHE-205) or Practicum Phlebotomy Technician (AHE-206) or Practicum Laboratory Assistant (AHE-207).

AHE-299 Medical Interpreting Internship

Students will be placed in a 30-hour internship to be completed over the course of the semester at a local healthcare facility under the direct supervision of a professional interpreter and mentor. This internship will consist entirely of active interpreting. Co-requisite: Medical Interpreting II (AHE-102).

ARB-101 Elementary Arabic I

This course is a beginning class in modern standard Arabic. The course begins with exposure to the alphabet, basic vocabulary, and expressions of greetings. The course then focuses on the spoken and written language used in contemporary life in Arab countries. The course works on all skill areas: listening, speaking, reading, and writing. Presenting pertinent grammar in context. This course is not intended for native speakers or students who have studied this language within the last three years.

ARB-102 Elementary Arabic II

A continuation of Elementary Arabic I (ARB101), this course emphasizes conversational skills and sentence structure. The course stresses practical applications of the Arabic language. This course meets the General Education requirement for Creative Work. Prerequisite: Elementary Arabic I (ARB-101).

AST-102 Astronomy/ Lab

This course covers an introductory study of basic astronomy, including the planets, the apparent motions of celestial objects, the seasons, constellations, comets and meteors, stars, galaxies, and the large-scale structure of the universe. The course includes current events in space exploration. The course meets the General Education requirement for Scientific Reasoning. Class meets: 3hrs lecture; 3hrs lab Prerequisites: “A” grade of C or higher in Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and A grade of C or higher in MAT-097 or exemption by placing into higher level courses.

BIO-105 Introduction to Biology

This course will investigate the major biological concepts that connect all forms of life and is designed for students with little or no background in science. Topics will include the process of scientific inquiry, the cell as the basic unit of life, metabolism, cellular reproduction, genetics, evolutionary theory and principles of ecology. Laboratory work will introduce students to the basic investigative techniques used to study life’s processes. There will be no animal dissection in this course. This course will satisfy the General Education requirement for Scientific Reasoning (previous area title: Science & Technology) for all programs and may be used to satisfy the biology prerequisite for Anatomy and Physiology I (BIO-203). This course will not satisfy the general biology requirement of the Associate in Science: Biological Science program. Class meets: 3 hours lecture - 3 hours lab Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESTL-096) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

BIO-108 Human Biology/Lab

**Additional Fee covers the cost of all course materials.** This course introduces students to the basic concepts of biology and how these concepts relate to the structure and function of the human body. Topics include cell structure & function, molecular biology, metabolism, cellular reproduction, and genetics. An introduction to human anatomy and physiology will also be presented. Students will integrate structure and function among all levels of biological organization. This course is specifically designed to provide students with the necessary background in basic biological concepts and molecular biology to be successful in the anatomy & physiology and microbiology prerequisite courses required by allied health programs such as nursing and medical imaging. This course does not substitute for programs that require BIO203 and BIO204. This course will satisfy the General Education requirement for
Scientific Reasoning (previous area title: Science & Technology) for all programs. Course meets 3 hours lecture; 3 hours lab. Note: May be used as a prerequisite for Anatomy & Physiology I/Lab (BIO-203). Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

BIO-111 Food/Nutrition
This course covers a study of plant and animal sources of human food, their nutritional values, and the way they are utilized by the body in health and disease. Topics include the selection of an adequate diet, evaluation of nutrition status, and the basic science of nutrition in infancy and in aging, weight control, alternate food patterns, ethnic foods, and nutrition-related health problems. The department recommends this course for students in Allied Health programs. The course is offered in the Center for Self-Directed Learning only.

BIO-115 Nutrition Science & Lab
This course is a study of plant and animal sources of human food, their nutritional values and how the body in health and disease utilizes them. Topics include chemistry, biology and biochemistry of food, personal nutrition evaluation, nutrition-related health problems and global food and nutrition issues. Laboratory course is designed to introduce students to the diagnostic procedures used by nutritionists and to reinforce learning of nutritional theory. A background in biology or chemistry is strongly recommended. This course will satisfy the General Education requirement for Scientific Reasoning (previous area title: Science & Technology) for all programs. Class meets 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

BIO-120 Introduction to Biotechnology
This course offers an introduction to the field of biotechnology. General principles of biology, recombinant DNA technology, and the applications of biotechnology will be presented. The medical, political, and ethical implications of recombinant DNA technology and the Human Genome Project will be discussed. Work related to recent and future career opportunities in the biotechnology industry will also be outlined. Students will be introduced to industry-specific laboratory techniques and basic investigative techniques and procedures used in research through labs designed to reinforce lecture concepts. Class meets: 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses. **This course is designed for students in the A.S. Biology Sciences program. However, this course is open to any student interested in exploring careers in biotechnology. This course does not satisfy the General Education "Scientific Reasoning" requirement and may not be appropriate as a lab science elective for Associate in Arts degrees.

BIO-195 General Biology I & Lab
This course will examine the cell as the basic unit of life. Topics will include cell chemistry, cell structure and function, metabolism, cellular respiration, photosynthesis, and cell division. The course will culminate in an examination of the genetic and chromosomal basis of inheritance. Laboratory work will provide students with the basic skills necessary to work in advanced biology laboratory courses. This is the first required biology course in the AS Biological Science program. Students planning to enroll in a health science program should enroll in Introduction to Biology (BIO-105) or Human Biology/Lab (BIO-106). Class Meets: 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a grade of C or higher in College Algebra for STEM (MAT-194) or exemption by placing into higher level courses.

BIO-196 General Biology II & Lab
As a continuation of General Biology I/Lab (BIO-195), the course begins with a study of the chemical basis of inheritance and protein synthesis. The course then investigates the mechanisms of adaptive evolution, speciation, phylogeny, and the history of life on earth. The course concludes with a survey of the three domains of life and an introduction to the structure of populations and ecosystems. Laboratory work will continue to develop the student's critical thinking and problem solving skills. Class Meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or higher in General Biology I/Lab (BIO-195).

BIO-203 Anatomy/Physiology I & Lab
This is the first course in a two-semester sequence that will examine the systems of the human body using an integrated approach. Areas of study will include the structure and function of cells, histology, and anatomy and the physiological and anatomical aspects of support and movement systems and the nervous system. Laboratory activities will enhance the students' comprehension of the structure and function of the human body. Course meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or higher in General Biology I/Lab (BIO-195).

BIO-204 Anatomy/Physiology II & Lab
As a continuation of Anatomy/Physiology I (BIO-203), this course will again use an integrated approach to examine the systems not covered in Anatomy/Physiology I. Areas of study will include the endocrine system, the cardiovascular and pulmonary systems, the respiratory system, digestive system, urinary system, and reproductive system. Laboratory activities will enhance the students' comprehension of the structure and function of the human body. Course meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or higher in Anatomy/Physiology I/Lab (BIO-203).

BIO-205 Microbiology & Lab
This course is intended for students entering health care careers and the biotechnology industry. This course will provide a solid foundation of basic physiological and biochemical activities of bacteria, viruses, fungi, and protozoa. The fundamentals of microbial physiology, genetics, and immunology will be presented with emphasis placed on virulence factors and the mechanisms in which these microorganisms establish disease. Microbiology in the workplace will be covered through a discussion of methods of physical and chemical control of microbial growth and enumeration. The use of anti-viral drugs and antibiotics, the host immune response to infection, and the effectiveness of various vaccination strategies will also be discussed. The course will be completed by investigating the importance of human pathogens in patient care and nosocomial infection while looking at several major diseases. Exercises in the laboratory portion of the course deal with aseptic techniques, microbial cultivation and growth characteristics, staining and bacterial identification techniques, differential biochemical tests, identification of unknown bacterial species, and testing effectiveness of antimicrobial agents. Course meets 3 hrs lecture and 3 hrs lab. Prerequisite: Anatomy and Physiology I/Lab (BIO-203) or permission from the Nursing Program.

BIO-206 Cell Biology & Lab
A study of cell structure and function including the following topics: organelles, membrane function, metabolism, genetics, and protozoa. The fundamentals of microbial physiology, genetics, and immunology will be presented with emphasis placed on virulence factors and the mechanisms in which these microorganisms establish disease. Microbiology in the workplace will be covered through a discussion of methods of physical and chemical control of microbial growth and enumeration. The use of anti-viral drugs and antibiotics, the host immune response to infection, and the effectiveness of various vaccination strategies will also be discussed. The course will be completed by investigating the importance of human pathogens in patient care and nosocomial infection while looking at several major diseases. Exercises in the laboratory portion of the course deal with aseptic techniques, microbial cultivation and growth characteristics, staining and bacterial identification techniques, differential biochemical tests, identification of unknown bacterial species, and testing effectiveness of antimicrobial agents. Course meets 3 hrs lecture and 3 hrs lab. Prerequisite: Anatomy and Physiology I/Lab (BIO-203) or admission to the Nursing Program.

BIO-207 Population Ecology & Lab
This course is designed to give students an overview of the science of population biology. The course covers topics related to: distribution and abundance of species; genetic variation; the effects of ecological factors and the mechanisms in which these factors affect species distribution; the role of genetic and chromosomal basis of inheritance, extranuclear inheritance, gene mapping and analysis, control of gene expression in pro- and eukaryotes, Chi square analysis, probability theory, DNA mutation and repair genetics of cancer, and population and human genetics. Experimental work will focus on the theory and practice of current techniques in genetics. Class Meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Precalculus (MAT-197), and General Biology I/Lab (BIO-195) and either Introduction to Biotechnology/Lab (BIO-210) or General Biology II/Lab (BIO-196) or department chair approval.

BIO-208 Genetics and Lab
This course offers a broad understanding of classical, molecular and evolutionary genetics. Highlighted topics will include the molecular and chromosomal basis of inheritance, extranuclear inheritance, gene mapping and analysis, control of gene expression in pro- and eukaryotes, Chi square analysis, probability theory, DNA mutation and repair genetics of cancer, and population and human genetics. Experimental work will focus on the theory and practice of current techniques in genetics. Class Meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or higher in General Biology I/Lab (BIO-195) and Pre/corequisite Cell Biology Lab and Cell (BIO-207) or permission of department chair.

BIO-210 Environmental Microbiology/Lab
Environmental Microbiology introduces students to the diversity of microbial populations and their ecological roles in terrestrial, aquatic and marine environments. The course will also focus on industrial microbiology and the relationships of...
microbes to urban communities. Microbial community ecology and interactions with plants and animals will also be covered. Students will explore how microbial activities sustain natural ecosystems, contribute to environmental quality, and how these functions are harnessed to support and manage artificial systems. Laboratory investigations will introduce students to the standard experimental procedures used to study microbes. The course will satisfy a required program elective for students enrolled in the AS Biological Sciences - Transfer Option. This course will not satisfy the microbiology requirement for healthcare and nursing students. Students in health related programs should enroll in Microbiology & Lab - BIO-205. Prerequisite: C or better in General Biology & Lab - BIO-195. Completion or concurrent enrollment in General Biology II & Lab - BIO-196 recommended. 3 hours lec - 3 hours lab.

**BIO-261**

**Advanced Laboratory Techniques in Biotechnology**

Laboratory activities will emphasize proper laboratory protocol and documentation, inquiry based investigations, formal laboratory report writing, and standard laboratory skills used both in industry and in biotechnology research such as media and buffer preparation, protein purification, cell culture and immunological techniques. The course will also focus on career opportunities and hiring trends in the biotechnology industry and require that students work in teams to achieve a project readiness skill. Upon completion of this course, students will be qualified for entry level employment or internships in the biotechnology field. Depending on the college, both BIO-261 and BIO-262 may need to be completed for credits to transfer. Course meets: 1 hr lecture/2.5 hrs. lab. Prerequisite: Grade of C or higher in Cell Biology and Lab (BIO-207), Genetics and Lab (BIO-208), and Advanced Laboratory Techniques in Biotechnology (BIO-261). Principles of Molecular Biotechnology (BIO-262) must be taken either as a prerequisite or as a co-requisite or departmental approval.

**COURSE DESCRIPTIONS**

**Biomedical Engineering**

**BME-100 Biomedical Engineering I**

A first course in Biomedical Engineering (BME), this course introduces students to preliminary Biomedical Engineering topics. Topics include: the BME profession, morals and ethics, anatomy and physiology, static biomechanics, rehabilitation engineering, static bioinstrumentation, biosensors, biosignal processing, and models of neurons. MATLAB is used for ease in problem solving. Laboratory involves using a virtual instrument (Biopac) to record and analyze signals from the body. Class meets: 3 hrs. lecture; 3 hrs. laboratory. Prerequisites: Grade of C or higher in Calculus I (MAT-281) and a grade of C or higher in General Chemistry I/Lab (CHM-201). Co-requisite: Calculus II (MAT-282).

**BME-200 Biomedical Engineering II**

This course explores the techniques for analysis and modeling of biomedical systems with applications of advanced mathematics including Differential Equations, Difference Equations, State-Variables, and computer-aided methods to study problems at the interface of engineering and biology. Other topics include elements of physiological modeling and the solution of the transient and forced response for a variety of biomechanical and biotechnological systems. Class meets: 3 hrs. lecture. Prerequisites: Grade of C or higher in Biomedical Engineering I (BME-100) and a grade of C or higher in Calculus II (MAT-281). Co-requisite: Calculus III (MAT-283).

**Business**

**BUS-101 Introduction to Business**

This course is a survey of the purpose, role, and responsibility of business in a capitalistic society, including an introduction to the major areas of business such as: Finance, Management, Economics, and Marketing. This course provides a basic foundation for the student who will specialize in some aspect of business in college, and it also provides the opportunity for non-business majors to learn about the business in which they will someday be both producers and consumers. This course will also enable students to explore career options in business, define a career path, and make connections between classroom learning and the larger business community. This course will fulfill the Learning Community Seminar requirement for first time, full-time students, to assist the student in making a successful transition from our unique urban community into an academic environment. The course will aid students in learning insights, skills, and attitudes necessary to develop academic success strategies for personal and career goals achievement. Prerequisites: A grade of C or higher in Academic Reading III (ELL-091), Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

**BUS-106 International Business I**

This course is an introduction to the environments, institutions, systems and operations of multinational business. Students will learn how different economic, legal, political and cultural forces influence the conduct of international business. Students will explore how international competitive strategies, firm operations and organizational structures contribute to business success or failure in the global marketplace. The impact of international trade and investment on economies, businesses and consumers will also be examined. Prerequisites: Macroeconomics (ECO-201) or Microeconomics (ECO-202).

**BUS-111 Globalization**

This course is an exploration of the nature, reasons for and consequences of globalization. Subjects such as global economic integration, cultural convergence, global institutions, multinational corporations and global business will be discussed. Students will learn how understanding of globalization’s key aspects and trends in history, geography, politics, culture, and technology, as well as its impact on labor, standards of living and the environment. This course will also enable students to explore career options in international business, define a career path, and make connections between classroom learning and the larger business community. This course will fulfill the learning community seminar requirement for first time, full-time students, to assist the student in making a successful transition from our unique urban community into an academic environment. The course will aid students in learning insights, skills, and attitudes necessary to develop academic success strategies for personal and career goals achievement. Prerequisites: A grade of C or higher in Academic Reading III (ELL-098) or Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

**BUS-201 Business Law I**

In this introductory study of the law and its application to the individual, students learn to evaluate and analyze legal problems and systems. The course emphasizes business situations. Topics include procedural law, contracts, torts, consumer law, and related areas. Prerequisites: Writing Skills II (ENG-095) and Academic Reading II (ELL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

**BUS-207 Professional Communication**

This course gives students a comprehensive understanding of the use and importance of effective communication in business. Students study types of written, oral, and electronic communication and develop a variety of professional communication skills essential to success in business. The course also addresses ethical and cultural issues associated with business communications. Prerequisite: A Grade of C or higher in College Writing I (ENG-111).
Chemistry

CHM-120 Principles of Inorganic Chemistry & Lab 4 Credits
This course introduces students to the basic concepts of inorganic chemistry. Topics include measurement theory, methods of scientific investigation, atomic theory, nuclear radiation, compound formation, chemical equilibrium, chemical reactions, the mole concept, solution chemistry, acid-base chemistry, and the relevance of chemistry in health professions. Laboratory work will introduce students to basic laboratory techniques, safety regulations, and chemical hygiene. This course does not satisfy the chemistry requirement of the AS Biological Sciences or AS Engineering programs or the AA Chemistry/Physics concentrations. Course meets 3 hrs. lecture; 3 hrs. lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Algebra (MAT-097) or exemption by placing into higher level courses.

CHM-121 Principles of Organic & Chemistry W/Lab 4 Credits
This course serves as an introduction to organic and biochemistry. The naming and reactivity patterns of common organic functional groups will be presented. A study of biochemistry will introduce the student to the chemical structures and reactions of lipids, carbohydrates, proteins, and nucleic acids and their role in metabolism. The standard length three hour laboratory session will serve to reinforce the concepts discussed during lectures and will provide students with practical experience in organic synthesis reactions and organic compound identification methods. This course does not satisfy the Organic Chemistry requirement of the AA Chemistry Concentration. Class meets: 3hrs. lecture 3hrs. lab. Prerequisites: Grade of C or higher in Principles of Inorganic Chemistry & Lab (CHM-120) or grade of C or higher in General Chemistry I (CHM-201).

CHM-201 General Chemistry I & Lab 4 Credits
This course is a rigorous introductory course as part of a two-semester sequence that studies chemical principles. Topics include atomic structure, reaction types and equations, stoichiometry, gas laws, thermochemistry and bonding theory. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisites: Grade of C or better in Precalculus (MAT-197) or higher-level math or exemption by placement testing, and pre/co-requisite College Writing I (ENG-111). It is recommended that students take Calculus I (MAT-281) concurrently with CHM-201. Note: This course is intended for students planning a major or transfer as science or engineering majors. Pre-illness health students or students requiring a one semester overview of chemistry should enroll in Principles of Inorganic Chemistry and Lab (CHM-120).

CHM-202 General Chemistry II & Lab 4 Credits
This course is a continuation of General Chemistry I and Lab (CHM-201). Topics include solids, solutions, kinetics, equilibrium, acid-base and solubility equilibria, and thermodynamics and electrochemistry. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisite: Grade of C or higher in General Chemistry I and Lab (CHM-201).

CHM-251 Organic Chemistry I Lab 4 Credits
This course studies the chemistry of carbon compounds including nomenclature, molecular structure and functional groups. Topics include the reactivity and properties of saturated and unsaturated hydrocarbons, stereochemical relationships and nucleophilic substitution and elimination reactions. Mechanisms are presented as a unifying principle for these reactions. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisites: Grade of C or better in General Chemistry I and Lab (CHM-202) and a grade of C or higher in College Writing II (ENG-112).

CHM-252 Organic Chemistry II Lab 4 Credits
This course is a continuation of Organic Chemistry I lab (CHM-251). Topics include aromatic substitution reactions, carbonyl addition reactions, acid derivatives, amines, and carbohydrates. Both the laboratory and lecture use instrumental methods for the structural analysis of organic compounds. Students are required to purchase approved safety goggles. Course meets: 3 hours lecture; 3 hours lab. Prerequisite: Grade of C or higher in Organic Chemistry I and Lab (CHM-251).

Mandarin Chinese

CHN-101 Elementary Mandarin I 3 Credits
A beginning level course in modern standard Mandarin Chinese, mainly for students with no experience in the language. The goal of the course is to develop in the students through a multi-approach the four basic skills in the Mandarin language: listening, speaking, reading, and writing. The course content is geared to use in real life, and the teaching method emphasizes mutual understanding and appreciation of cultures that differ from one’s own and draws on the experiences and backgrounds of both the instructor and students. After a semester’s study in this course, students are expected to have achieved a general understanding of the speaking and writing systems of the Mandarin language, and be able to communicate, both in oral and writing forms (speaking, listening, reading, and writing), with some simple and daily Mandarin.

CHN-102 Elementary Mandarin II 3 Credits
The course builds on the basic skills learned in Mandarin I. It is designed for students who might be planning to visit China for business, pleasure or for further study, and it will teach students some of the unique cultural practices of the country will be introduced, from the forms of courtesy to the way of asking questions. The objective of the course will be to sharpen students’ oral and written communication skills. We will focus on everyday situations and combine practice in speaking with exercises in writing. The course will stress clarity in writing, and will teach students how to think critically in formulating statements and arguments in the Chinese language. This course meets the General Education requirement for Creative Work. Prerequisite: Grade of C or higher in Elementary Mandarin I (CHN-101) or by permission of instructor.

Computers

CIT-101 Computer Essentials 3 Credits
This introductory course is intended for students with little to no computer experience. Students in developmental mathematics, reading and English as well as English as a Second Language (ESL) should consider this for their first computer course. This course starts with an introduction to the Windows environment and covers operating system topics appropriate for beginners: keyboarding, document processing and productivity skills necessary to function in today’s electronic office environment. The course teaches students other skills necessary to use a personal computer as a tool for academic success. Utilizing the college’s computer laboratories, students get extensive “hands-on” personal computer experience in MS WORD as well as E-Mail, INTERNET, and World Wide Web (WWW) access and use. Students emerge from this course with an understanding of essential computer concepts and terminology, use and application of the INTERNET, keyboarding proficiency, and a high degree of competence with personal computer hardware and software. All Learner Outcomes and Competencies in this course are based on accepted, published ICT Industry Standards. For additional information and/or a course syllabus contact CITDepartment@bhc.edu.

CIT-102 IT Career Exploration 1 Credit
This is a hands-on workshop class that provides students with the tools necessary to explore Information & Communications Technology (ICT) industry career and employment opportunities. Students will engage in activities and assignments designed to assess and evaluate personal values, skills and interests as they relate to the world of work. Students will utilize resources on the College Student portal and beyond to explore careers, research employers and navigate the local job market in the ICT industry. Course assignments and activities will culminate in each student having a thorough understanding of the characteristics that make up a viable career plan that will enhance their gainful employment opportunities. This class is open to anyone with an interest in guided career exploration and a desire to be employed within the field of Information & Communications Technology.

CIT-104 Applications/Concepts 3 Credits
This survey course covers the use and application of modern computer systems. This course includes detailed coverage of fundamental computer concepts, terminology, applications, and theory. Students will get extensive “hands-on” personal computer experience and gain a good working knowledge of MS WINDOWS and MS OFFICE. Upon completion of this course, students will have a grasp of important computer concepts and terminology, an understanding of INTERNET use and applications, a high degree of competence with personal computer hardware and software, as well as an understanding of the effects of information technology on the individual, organizations, and society. All Learner Outcomes and Competencies in this course are based on accepted, published ICT Industry
COURSE DESCRIPTIONS

CIT-112 Information Technology Fundamentals

This is a survey course covering major aspects of the Information Technology (IT) industry and provides students with an overview and introduction to the core aspects of Information Technology including Network and Infrastructure Systems, Information Support and Services, Interactive Media and Programming and Software Development. This course focuses on an understanding and appreciation of the duties of information technology professionals and how each function relates to and interacts with the others. Upon completion of this course students will have the knowledge necessary to make educational and career choices about continued study in IT as well as understanding of the impact of technology on society and organizations of all types. Students taking this course are expected to have completed a course in basic computer terminology, internet navigation and e-mail, operating system and file Management. All Skill area Statements in the course are published and approved by the Massachusetts Department of Education Vocational Technical Education CTE Office. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-113 Information Technology Problem Solving

This course will give students “hands-on” experience in a wide range of modern information technology. Several IT concepts will be introduced that will provide a basis for further study in Information Technology. Students will work on a number of projects that will give perspectives on areas of IT including but not limited to: visual and/or robotic programming, social media, web design and networking. Issues of security, privacy and ethics will also be examined. Students will leave the course with an understanding of the components of modern IT systems and the scope of knowledge needed to become an IT professional. Students are expected to have access to computer with internet access outside of class as there is a major web component to the course. Designed for first-time, full-time Computer Technology students, this course will fulfill the Learning Community Seminar requirement for the Computer Information Technology Department. First year students registering for this course should not take Applications/Concepts (CIT110). This course is not for Computer Science Transfer, Gaming or Web majors. Prerequisites: Academic Reading III (ESL098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-118 Principles of Internet & Info Security

This is a course in Internet and Information Security that introduces students to the major areas related to securing both personal and organizational information in the “Internet Age”. Beginning with an introduction to physical and electronic security, students proceed to explore the legal, ethical and professional issues in information and Internet security. Topics covered include but are not limited to, identity theft, phishing and other email scams, personal and corporate firewalls, spyware and virus scanning software, chat rooms, Internet crimes against children, cyber predators, digital computer forensics, wired and wireless home & organization networks, cyber terrorism, and cyber vandalism. Students gain practical experience in Internet security considerations through a capstone Security Project. Students completing the course also attain the iSAFE.org certification. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving CIT-113) or Introduction to Computer Science & OOP (CSC-120) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-121 Introduction to Computer Forensics

This is an introductory course in Computer Forensics. Forensics Computing, Digital Forensics, or Computer Forensics is the name for a newly emerging body of study and practice that incorporates many areas of expertise. Some of these areas have been called network security, intrusion detection, incident response, infrastructure protection, disaster recovery, continuity planning, software engineering, cyber security, and computer forensics. Taught in the College's hands-on laboratory students will gain an in-depth knowledge of the principles, procedures, and techniques used in digital forensic analysis. Prerequisite: Computer Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Intro to Computer Science & Object Oriented Programming (CSC-120) or permission of the department chair.

CIT-128 Database Design with MS Access

This is a comprehensive course in the use and application of database applications based on the most current version of Microsoft Access. The course covers all aspects of database design including entity relationship modeling, tables, reports, queries, forms and other database objects. All key MS Access functionalities including Internet applications, integration with the Web and other software programs are covered. Students gain a new experience using Structured Query Language (SQL) and Visual Basic for Applications (VBA) in the final component of the course. Microsoft Corporation has approved this course material as courseware for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC ACCESS Certification Examination upon completion of this course. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact ITDepartment@bhcc.mass.edu.

CIT-129 Mobile App Development

This course introduces application development for mobile devices such as Android, Apple, Windows, and web. Students will program apps on multiple devices, using standard development environments commonly used professionally, using a series of skill-based lessons. Prerequisites: Writing Skills (ENG-090) and Reading Skills (RDG-090) or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

CIT-130 Data Visualization

This course in data visualization will teach students an essential skill needed in the business world. Students will learn the foundations of data visualization which uses statistics, computer science, neuroscapes, and psychology to visually present data. The techniques and skills learned in this course will help students’ articulate and present clear evidence of findings in a meaningful and aesthetically pleasing way. This course is geared towards data analytics, but is also open to students in other disciplines looking for a better understanding of data visualization. Students will learn the software Tableau, along with theory which explains how the visual processing works, and techniques which take advantage of the brain’s processing to create effective visualizations. Students will learn how to choose the correct visualization for their data and differentiate between both data and data visualizations. By the end of the course, students will be able to create effective visualizations, data stories and tell a story with data with Tableau.

CIT-131 Introduction to Creating Mobile Apps

This course is designed for individuals with no experience with programming languages or previous programming experience. The course uses a graphical-user interface blocks editor for students to build their own Android based applications. This course will focus on learning about the editor and basic programming concepts, tutorial walk through assignments within the editor, and assessments which require students to build unique apps based on the tutorials so that they can demonstrate their understanding and knowledge of what they have learned. Specific programming concepts covered include design logic, programming conditions, variables, procedures, branching and loops. Specific app functionality covered includes sprite animation, multiple screens, and integration with device sensors, texting, databases, video, and game development. Writing Skills (ENG-090) and Reading Skills (RDG-090) or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

CIT-133 Introduction to Microsoft Office

This introductory course covers the use and application of integrated PC applications software based on the most current version of Microsoft Office. The course initially covers the Windows skills necessary to complete the course. Using the hands-on computer laboratory, the course covers the following applications in depth: Word, Excel, PowerPoint, Access, and Outlook. Students will also integrate this software with Word. Prerequisites: Writing Skills (ENG-090) and Reading Skills (RDG-090) or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

CIT-148 Data Science I

This course focuses on the collection, exploration, analysis, and interpretation of data. Students will learn the foundational tools and techniques used in data science, including statistical and machine learning methods. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact ITDepartment@bhcc.mass.edu.
CIT-162 Cisco Networking I  
This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operation are introduced to provide a foundation for the curriculum. By the end of the course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. Prerequisite: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses or a course syllabus contact CITDepartment@bhcc.edu

CIT-182 PC Hardware & Software  
This course provides an excellent, interactive exposure to personal computers, hardware, and operating systems. Students completing this course will be able to describe the internal components of a personal computer; assemble a system, install an operating system, and troubleshoot using system tools and diagnostic software. They will also be able to connect computers to the Internet, share resources in a networked environment and develop greater

skills and confidence in working with desktop and laptop computers. Students participate in “hands-on” activities and lab-based learning to become familiar with various hardware and software components and industry best practices in maintenance and safety. Topics covered include: laptops and portable devices, wireless connectivity, security, safety and environmental issues. Standalone virtual learning tools supplement classroom instruction and provide opportunities for interactive “hands-on” learning. Prerequisites: Writing Skills II (ENG-090) or Academic Reading III (ESL-099) and Academic Reading III (ESL-098) or Integrated ELL Level 3 (ELL-161) or exemption by placing into higher level courses.

CIT-137 Intro to Big Data with R&R-Studio Studio  
This course provides practical foundation level training to introduce and build core skills in R and R-Studio. This course will provide an introduction to the fundamentals of R programming language. It is designed to provide students who are familiar with Excel and want to work with advanced statistical techniques and analysis to learn the basics of R programming and data analysis. Prerequisite: Writing Skills II (ENG-111). Prerequisites: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science & OOP (CIT-120). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-218 Intermediate Virtual Basic  
Expanding on the principles of object oriented and visual programming contained in Visual Basic (CIT216), this intermediate-level course provides students with additional in-depth use of the Visual Basic language. Students gain experience working with VB arrays and data interfaces, combination controls and functions, menu design and database interfaces. Multiple Classes and Inheritance will be covered as part of the continuing exposure to object oriented programming. The course emphasizes the incorporation of the Information Security Planning functions. Prerequisite: Visual Basic (CIT216) or permission of the instructor and/or department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-219 Information Security & Assurance  
Emphasis in this course in Information Security and Assurance will be placed on understanding the key issues associated with protecting information, the technologies behind securing information and the subsequent detection and response to security incidents. Topics will include inspection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical responses and an overview of the Information Security Planning functions. There will be a “hands-on” lab component required for this course. Students taking this course will be required to sign The White Hat Oath, a Code of Ethics from the International Information Systems Security Certification Consortium, Inc. (www.isc2.org). Prerequisite: Windows Operating Systems (CIT-268). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-220 Directed Study in Digital and Computer Forensics  
Students in this course will be assigned a special Forensics research topic. This could be an aspect of the technical or legal side of digital and computer forensics or cybercrime or an internship, when possible, or a combination of a special research topic and a short term job shadowing assignment. Prerequisite: Advanced Computer Forensics (CIT-221). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-125 Design for Mobile Devices  
This course introduces the central components of user interface design for mobile devices (phones, tablets, and other). Students will learn how to prototype user interface designs using a variety of tools and techniques. Students will design and build interfaces in a variety of environments using standard user interface design techniques. Students will also be able to describe the interface design process.

CIT-135 System Analysis and Design  
This first course in computer information systems development introduces students to the tools and techniques available to the systems analyst and designer. The course covers phases of the systems development cycle with emphasis on analysis and design. A major component of the course includes an understanding of structured analysis and design techniques and the transition from structured analysis to Object Oriented Analysis. The course covers Language (UML) and Entity Relationship Diagrams (ERD). The department strongly suggests that students complete or take concurrently College Writing I (ENG-111). Prerequisites: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or Introduction to Computer Science & Object Oriented Programming (CSC-120) and at least two other CIT courses. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-216 Virtual Basic  
This course covers an introduction to computer programming using Visual Basic. The course provides students with “hands-on” exposure to object-oriented programming techniques and emphasizes programming logic using event-driven components of Visual Basic. Using laboratory case assignments, students plan, design, and create their own Visual Basic applications. They learn how to create a user interface, set control properties, design the logic structures of the project and write the associated Visual Basic code. Topics covered include variables and mathematical operations, decision and looping structures, procedures and functions and single level arrays. Prerequisite: Applications/Concepts (CIT-110), IT Problem Solving (CIT-113) or Introduction to Computer Science & OOP (CIT-120). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

CIT-183 Healthcare IT Concepts I  
This course will provide students with the knowledge and skills to successfully understand the Healthcare IT industry and to adequately prepare for Healthcare IT Hardware/Software Support positions. Topics include privacy, wireless, mobility and security concepts necessary to provide hardware and software support in healthcare environments, including physician offices, clinics, hospitals, and third-party contractors. Students will enhance their CompTIA A+ certification skills and acquire the knowledge and skills needed to implement, deploy, troubleshoot and support healthcare IT systems in clinical settings. Students will also understand healthcare terminology, practical workflow and Healthcare IT operational and regulatory concepts while adhering to security best practices. Hands-on activities, labs, and web-based activities provide a practical understanding of the material. Prerequisite: Applications/Concepts (CIT-110) or CIT-113 or CIT-120 or CSC-120 or exemption by placing into higher level courses or a course syllabus contact CITDepartment@bhcc.edu.

CIT-187 Data Analytics and Predictive Analysis  
Data analytics and predictive analysis encompasses a variety of machine learning techniques to analyze and gather insight from data. The data can then be used either to make predictions of future events, or to classify data into different segments. This course is the follow-up course to Introduction to Big Data with R and R-Studio, and will continue to provide students with skills in the R programming language. It will also continue to grow a student’s understanding of data. Students will learn the difference between supervised and unsupervised modeling, and the basic modeling techniques pertaining to each. The techniques taught in the course include regression, clustering, classification and tree-based methods, along with an introduction to neural networks. Prerequisites: Intro to Big Data with R and R-Studio (CIT-137) and Statistics I (MAT-181).
CIT-221  Advanced Computer Forensics  
This course provides advanced work in computer and digital forensic analysis. Emphasis in this course will be placed on file system forensic research, analysis and reporting, intrusion detection and analysis, and advanced use of computer forensics tools. Topics covered in Introduction to Computer Forensics (CIT-121) will be expanded upon with the latest areas of file system analysis, drive imaging and backup, email and mobile devices forensics and the impact these analyses have upon investigators. Prerequisites: Introduction to Computer Forensics (CIT-121) and Windows Operating Systems (CIT-268).

CIT-223  Special Topics in Digital and Computer Forensics  
This course is designed to cover emerging and changing issues in Computer and digital Forensics. Issues covered in this course could include but will not be limited to testifying as an expert technical witness, mobile device forensics, and new legal issues pertaining to digital evidence. Topics covered will be adjusted as the curriculum needs of the field change. Pre-requisites: Advanced Computer Forensics (CIT-221). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu.

CIT-225  Advanced Python Programming  
This is an advanced course designed for any student interested in learning advanced computer programming concepts in the context of the Python programming language. In this course, students will explore classes, object oriented programming, plotting, sampling and statistical thinking with Python. Python is a powerful tool for solving problems, statistical thinking, graphs, and dynamic programming. Students will complete hands-on individual projects, individual assessments, group projects, and exams to assess student success at achieving the course outcomes. Prerequisite: Python Programming (CIT125) or equivalent experience with Python approval. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu. All prerequisites must be completed with a C or better.

CIT-229  Programming with Android I  
This course introduces the central components of Android programming. Students will learn how to program in Java using the Android Development Tools. Students will learn the basics of Android application development, including developing skills for creating a mobile game including creating animations, sound, and rendering images, using sprite sheets, creating an effective game interface, resource files, working with maps, notifications, and displaying and interacting with the iOS marketplace, what it takes to become an iOS developer, as well as the planning and budgeting required to sustain app development. Prerequisites: Any BHCC programming course or PLA or Chair approval.

CIT-233  Microsoft Office  
This course covers the use and application of integrated PC applications software based on the most current version of Microsoft Office. The applications include basic spreadsheet operations, charting, web queries, multiple sheet workbooks, macro advanced functions, and database features. The course emphasizes applications involving financial decision-making, financial planning and "what-if" analysis as they relate to various business and organizational models. Internet applications of Microsoft Excel and integration of the other Microsoft Office applications are also covered. Microsoft Corporation has approved this course material as courseware for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC Certification Examination upon completion of this course. Prerequisite: Microsoft Office (CIT236) or equivalent experience or permission of the department chair. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu.

CIT-234  Decision Support Using MS Excel  
This comprehensive course covers the use and application of Microsoft Excel using spreadsheet software based on the most current version of Microsoft Excel. The applications include basic spreadsheet operations, charting, web queries, multiple sheet workbooks, macro advanced functions, and database features. The course emphasizes applications involving financial decision-making, financial planning and "what-if" analysis as they relate to various business and organizational models. Internet applications of Microsoft Excel and integration of the other Microsoft Office applications are also covered. Microsoft Corporation has approved this course material as courseware for the Microsoft Business Certification (MBC) Program and students may choose to take the MBC Excel Certification Examination upon completion of this course. Prerequisite: Applications/Concepts (CIT-110) or IT Problem Solving (CIT-113) or equivalent experience or permission of the department chairperson. For additional information and/or a course syllabus contact CITDepartment@bhcc.edu.

CIT-238  Programming for iOS I  
This course introduces the central components of iOS programming for mobile app development. Students will learn the basics of programming using vendor approved IDE and tools in a series of scaffolded, skill based lessons culminating in a mobile app for iOS devices. This is a level I course that introduces programming concepts and structures unique to the product's language, but also addresses the iOS marketplace, what it takes to become an iOS developer, as well as the planning and budgeting required to sustain app development. Prerequisites: Any BHCC programming course or PLA or Chair approval.

CIT-240  Database Programming  
This is an intermediate course in procedural programming, including database management systems. Topics in this course include: anonymous and named blocks, named procedures and functions, cursors, triggers, collections, the creation and manipulation of temporary tables. Students perform mid-to advanced level manipulation of databases required for logical processing and interaction with relational databases. Prerequisite: SQL Programming (CIT236) or permission of department chair. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-243  Android Development for Java Programmers  
This course is for students who are already experienced Java programmers. It discusses not only the intricacies of Android development, but also the Android marketplace, what it takes to become an Android developer, as well as the planning and budgeting required to sustain app development. Prerequisites: Any BHCC programming course or equivalent experience or permission of the course material as courseware for the Java Mobile Developer Certification (CIT239) and Pre-requisites: Advanced Java Programming (CIT22B).

CIT-245  Database Administration  
This course is designed to introduce students to the fundamentals of Relational Database Administration, using the most current versions of the Oracle RDBMS engine. Students will learn the basics of database maintenance including installing and configuring the database, controlling the data dictionary, and managing the database tables including constraints, indexes and user roles. Students gain extensive real-world experience utilizing the DBA tools associated with Oracle. This course will present the material gained in the Database Fundamentals I Oracle Certification Exam #1Z0-031. Students will also be provided with the personal edition of the Oracle software. Prerequisite: SQL Programming (CIT236), equivalent experience or permission of the department chair. For additional information and/or a course syllabus contact CITDepartment@bhcc.mass.edu.

CIT-250  Collaboration, Communication, and Integrating  
This is a course in modern office technology which introduces students to all major areas of personal and organizational collaboration, communication and integration of MS OFFICE.
students learn how to configure routers and switches after advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP and VLANs in IP networks. Students will also develop the knowledge and skills needed to implement a WLAN in a small-to-medium network.

Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

**CIT-268 Windows Operating Systems**

This course provides students with in-depth, hands-on experience with the most commonly used versions of the Windows operating systems. Students gain experience using system file managers, utilities, set-up procedures, and other major components of the operating systems. In addition, the course emphasizes gaining an understanding of device drivers, library files, memory management, multi-tasking requirements, and multi-media considerations.

Upon completion of the course, students have a high degree of competence in the application and use of these Windows operating systems such as Windows, DOS, and Linux. Prerequisites: Computer Applications/Concepts (CIT-110) or IT Problem Solving (CIT-115) or equivalent course or permission of the department chairperson.

For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

**CIT-265 Wireless Technology**

This course introduces students to the fundamentals of planning, installing, maintaining and troubleshooting a network supported by unbound media. It is assumed that students have no prior knowledge of wireless networks and devices. Hence, this course permits students to learn how to apply and support wireless technology in practice. The course is divided into two sections, one that teaches the wireless skills required to take and pass your Certified Wireless Network Administration (CWNA) exam, and the other educates students on how many different wireless devices work.

Prerequisite: CISCO Networking I (CIT-162).

**CIT-264 Networking Security**

The goal of this course is to provide you with a fundamental understanding of network security principles and implementation. You will learn about the technologies used and principles involved in creating a secure computer networking environment. You will learn about the authentication, the types of attacks and malicious codes that may be used against your network, the threats and countermeasures for e-mail, Web applications, remote access, and file and print services. A variety of security topologies are discussed as well as technologies and concepts used for providing secure communications channels, secure internetworking devices, and networking medium. Further, you will learn about intrusion detection systems, firewalls, and physical networking security concepts. In addition, security policies, disaster recovery, and computer forensics are covered. Aside from learning the technologies involved in security, you will get to understand the daily tasks involved with managing and troubleshooting those technologies. You will have a variety of hands-on and case project assignments that reinforce the course content and prepare you for the exam.

Prerequisite: CISCO Networking I (CIT-162).

**CIT-267 CISCO Networking III**

This course describes the architecture, core concepts, operations of routers and switches in larger and more complex networks. Students learn how to configure routers and switches after advanced functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP and VLANs in IP networks. Students will also develop the knowledge and skills needed to implement a WLAN in a small-to-medium network.

Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

**CIT-269 Cisco CCNA Security**

This course equips students with the knowledge and skills needed to prepare for entry-level security specialist careers and prepare for the CCNA Security certification. This course is a hands-on, career-oriented e-learning solution that emphasizes practical experience. CCNA Security aims to develop an in-depth understanding of network security principles and the tools and configurations available. The following tools are covered: Protocol sniffers/analyzers; TCP/IP, there is an ethics requirement for this course and students will be required to sign the White Hat Oath. Students are expected to have access to a computer with internet access outside of class as there is a major web component. Prerequisite: Windows Operating Systems (CIT-268) or Linux Administration/Lab (CIT-270) or permission of the department chairperson.

**CIT-270 Linux Administration/Lab**

This course introduces students to the fundamentals of creating and maintaining a network supported by Linux clients and servers. It is assumed that students already have a grasp of the basic LINUX commands hence the focus will be on system tools and techniques which will include but not be limited to installation, distributed computing, system administrator tools and tasks, file systems, printing, send mail, NIS, NFS, DNS/BIND and setting up a firewall.

Prerequisite: CISCO Networking I (CIT-162). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

**CIT-271 Batch File Programming**

This course teaches students how to create batch files to automate a sequence of commands, to write and use create commands for complex tasks, to batch file subcommands, to halt the execution of a batch file and to write batch files using replaceable parameters and environment variables. Prerequisite: Linux Administration/Lab (CIT-270). Pre/corequisite: Windows Operating Systems (CIT-268). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

**CIT-273 Ethical Hacking**

This course introduces the information technology security specialist to the various methodologies of attacking a network. The student will be introduced to the concepts, principles and techniques, supplemented by “hands-on” exercises, for attacking and disabling a network. These methodologies are presented within the context of properly securing the network. The course will emphasize network attack methodologies with emphasis on student use of network attack techniques and tools and appropriate defenses and counter measures. Students will receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual environment. Students will receive a “hands-on” practical approach in penetration testing measures and ethical hacking.

There is an ethics requirement for this course and students will be required to sign the White Hat Oath. Students are expected to have access to a computer with internet access outside of class as there is a major web component. Prerequisite: Windows Operating Systems (CIT-268) or Linux Administration/Lab (CIT-270) or permission of the department chairperson.

**CIT-274 Information Security Seminar**

This course enables the security specialist to employ the various methodologies, tools and techniques acquired in earlier course curriculum in protecting, hardening and attacking a network in a capstone course. The student will be introduced to projects/problems/or scenarios which will require hands on engagement to address. The course will emphasize problem solving, critical thinking, and use of multiple skills, techniques, and tools because of the complex nature of the projects/problems/scenarios. Students are expected to understand how to computer with internet access outside of class as there is a major web component to the course. Pre/corequisite: Ethical Hacking (CIT-273) or permission of the Department Chair.

**CIT-277 Health Information Networking**

The Health Information Networking course is a technology-focused curriculum primarily designed for students who are looking for career-oriented, entry-level healthcare focused skills that can be applied toward entry-level specialist careers in healthcare networking. The course provides students with the skills to develop an in-depth understanding of principles of practicalities needed for information technology and networking professionals wishing to specialize in healthcare network implementations. Topics include: basic information on healthcare settings, principles of security, mobility and privacy in healthcare, fundamentals of information technology in healthcare, fundamentals of electronic health records systems and electronic medical record implementations. Application of skills and concepts include designing, securing and troubleshooting a health care network. Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhcc.edu

**CIT-279 Cisco CCNA Security**

This course equips students with the knowledge and skills needed to prepare for entry-level security specialist careers and prepare for the CCNA Security certification. This course is a hands-on, career-oriented e-learning solution that emphasizes practical experience. CCNA Security aims to develop an in-depth understanding of network security principles and the tools and configurations available. The following tools are covered: Protocol sniffers/analyzers; TCP/IP, there is an ethics requirement for this course and students will be required to sign the White Hat Oath. Students are expected to have access to a computer with internet access outside of class as there is a major web component. Prerequisite: Windows Operating Systems (CIT-268) or Linux Administration/Lab (CIT-270) or permission of the department chairperson.
and common desktop utilities; Cisco IOS Software; Packet Tracer (PT); and Web-based resources. Prerequisite: CISCO Networking II (CIT-167). For additional information and/or a course syllabus contact CITDepartment@bhc.edu

CIT-282  
MS Windows Administration/ Lab Network  
4 Credits

This course provides students with the necessary knowledge, concepts, and hands-on skills required to manage the most current and industry-accepted version of Microsoft Windows. The course tailors information to requirements necessary to complete the Microsoft Certified Professional (MCP) exam required by industry. Topics include, but are not limited to, installation, managing users and groups, creating and viewing shared resources, and troubleshooting techniques. Course labs challenge students to piece together new and old networks. Students will demonstrate proficiency in Healthcare IT workforce roles integral to the implementation and management of electronic health information systems. Students will demonstrate competencies in health IT professions to assess workflows, select hardware and software, work with vendors, install and test systems, diagnose IT problems, and troubleshoot activities. Virtual labs and web-based simulation will provide a practical understanding of the material. Prerequisite: Healthcare IT Concepts I (CIT-183) or permission of the department chair.

CIT-288  
Healthcare IT Concepts II  
3 Credits

Students will apply concepts from Healthcare IT objectives learned in the Healthcare IT Concepts I course for effective real-world application. Students will achieve the national Healthcare Technician, my Specialty domains via competencies and the national Healthcare Information Management competencies. The course will prepare students to demonstrate proficiency in Healthcare IT workforce roles integral to the implementation and management of electronic health information systems. Students will demonstrate competencies in health IT professions to assess workflows, select hardware and software, work with vendors, install and test systems, diagnose IT problems, and troubleshoot activities. Virtual labs and web-based simulation will provide a practical understanding of the material. Prerequisite: Healthcare IT Concepts I (CIT-183) or permission of the department chair.

CIT-290CSC  
Computer Science Internship  
3 Credits

This course provides students with hands-on experience in Computer Science. The course is an internship associated with a professional career. It provides a solid foundation to understanding the types of jobs available to students with Computer Science skills and what is it like to work in the field. Students will acquire a first-hand perspective of employer's expectations and levels of satisfaction. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them in the pursuit of a career in a computing field. Prerequisites: A grade of C- or higher in C++ Programming (CSC-237) and Advanced Java Programming (CSC-285).

CIT-299N  
Networking Internship  
3 Credits

This course provides students with hands-on experience in networking. The course is divided into three sections, one that teaches the concepts for building and maintaining a networking career, another that introduces guest lecturers from industry, and finally either an internship, job shadowing, or team walk through approach to learning. This course provides a solid foundation to understanding the types of jobs available to students with network administration skills, what it is like to work in the field, and students will acquire a perspective of employer's expectations. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them when they begin their networking career. Prerequisite: Permission of department chairperson.

Computer Media Technology

CMT-101  
Game Development Essentials  
3 Credits

This course will present the principles, concepts, and components of all games and the gaming industry’s processes, methodologies, and principles associated with the design, development, and distribution of computer-based games and computer-based simulations. This course is designed to provide the student with an overall comprehension of all the precepts and building blocks that are essential to every computer-based game and simulation. This course fulfills the Learning Community Seminar requirement for students in Computer Media Technology. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills I (RDG-095), or IntegratedELL Level III (ELL-103) or exemption by placing into higher level courses.

CMT-103  
Managing Game Development  
3 Credits

This course will cover the concepts and application of management tools and philosophies incorporated in today’s game development climate for the purposes of effectively managing game production scenarios. The student will be introduced to the tasks associated with the development of a game or simulation projects and the constraints, effects, and ramifications affecting the project timeline. Additionally, the student will be taught critical project management analysis techniques such as resource allocation, estimating obstacles and opportunities and how to exploit them to the project’s advantage. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills I (RDG-095), or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CMT-111  
HTML5  
3 Credits

The purpose of this course is to teach the student the principles and concepts of designing and creating WEB pages in an HTML5 format. The course is designed to expose the student to the constructs of HTML5 tags and the responsive design techniques for page banners, images, tables, navigation menus, in-page articles, and footer sections that are available with the advent of HTML5. Additionally the course will teach the students the utilization of dynamic graphics, lists, and background image control. Also included will be content created in Photoshop for the purpose of inclusion as a stand-alone image or as a background image in a web site. The course will explore the requirements, tools and controls used in WEB page development by lecture, in-class practical exercises, and homework study exercises. Prerequisites: Writing Skills (ENG-095) and Reading Skills II (RDG-095); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

CMT-113  
JavaScript  
3 Credits

This course teaches students the concepts and practical application of JavaScript programming language as a WEB authoring tool. Students learn to program WEB pages to perform such tasks as a simple page swap, auto-scrolling text, browser detection and control and time and date extraction and conversion. The course explores designing and developing JavaScript functions using iteration loops, conditional statements, switch statements, parameter passing, location redirection, in-line JavaScript and remote access JavaScript utilization. Prerequisites: Computer Applications/Concepts (CIT-110) and HTML5 (CMT-111).
CMT-121 Maya Foundations
This course will present the principles of designing and computer simulation using the same Autodesk Maya techniques and principles as were used in the Sony Pictures feature film “Open Season”. The course will cover the fundamentals of three dimensional (3D) object creation, 3D object shaping, shape texturing, scene and object lighting, and simple animation. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses

3 Credits

CMT-123 Maya Character Modeling
This course will present advanced concepts in the creation of 3D character and object modeling using detailed structures based on polygon modeling design tools such as patch modeling, image planes, planar projections, and curve projections. The course will also cover the NURBS modeling of 3D characters and conversion from NURBS to polygons. These skills are requisite skills of the successful design and implementation of 3D game design and computer simulation projects. Most of these techniques were employed in the Sony Pictures animated short film “The ChubbChubbs”. Prerequisite: Maya Foundations (CMT-121).

3 Credits

CMT-125 Cascading Style Sheets
This course will cover the incorporation of modern web design controls for the formatting, placement, dynamics, interactive functionality, and animation web page content with CSS. CSS is the primary technology in use today in the fast paced world of web design and is used to present web content in a standardized manner that far exceeds the capabilities of the HTML language. CSS is in use in almost every one of the millions of web pages published in today's world and is a multi-browser, multi-language coding technology. CSS is found at all levels of the web design process and lends itself to being incorporated as an in-line component, and embedded component, and a remote component. They are HTML, JavaScript, XML, ASP.net, PHP, and Ruby page written. It is prevalent and used in IE Explorer, Firefox, Mozilla, Opera, and Netscape browsers. CSS can be used to create a myriad of functions from the simple coloring of text content to the dynamics of drop-down expandable menus to the inclusion of drop-down menu content. It is a technology that has rapidly replaced the traditional name-pair attribute coding scheme of the previous web design technology. Pre/co-requisite: HTML5 (CMT-111).

3 Credits

CMT-129 Photoshop for Gaming
This course will cover Adobe Photoshop techniques as used in a 3D production pipeline. Students will learn the creative and technical processes of creating 2D concept art and illustrations for objects, environments, characters, and characters. Students will also learn how to create and use various texture maps such as color, bump, luminosity, secularity, and transparency. In combination, these maps will be used to create sophisticated materials (shaders) that can be applied to 3D models. Upon completion of the course, students will have a solid foundation and understanding of how Photoshop is used in 3D game and film production. Prerequisites: Writing Skills II (ENG-095); Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

3 Credits

CMT-217 3D Modeling & Sculpting
This course will teach the student the processes and techniques of modeling and sculpting 3D characters and objects using Autodesk Mudbox software. The student will be taught the skills required to create production-ready 3D digital artwork for the game, film, television, and design industries. The student will be taught how to paint directly onto high-resolution 3D models, paint multiple material channels, execute texture baking, create accurate normal, displacement, and ambient occlusion maps, render quality results directly in the viewport, and to employ seamless integration with other 3D software applications. Prerequisite: Maya Foundations (CMT-121).

3 Credits

CMT-225 jQuery
This course will provide the student a solid foundation in the use and application of the JavaScript language known as jQuery. jQuery is an advanced form of JavaScript which provides real-time dynamism to websites. This course will also cover blend shaping, skinning techniques, joint constraints and their effect on skinning. These skills are requisite skills for the successful design and implementation of 3D game design and computer simulation projects. Most of these techniques were employed in the Sony Pictures animated short film “The ChubbChubbs”. Prerequisite: Maya Character Modeling (CMT-123).

3 Credits

CMT-228 Web Design With Ajax
This course will provide the student the syntactical and logical requirements constructing pages using the Ajax programming language. The Ajax programming language is a language that will permit the student to create pages that deliver content in a more dynamic fashion by updating only those portions of the site that actually change. Prerequisite: JavaScript (CMT-113).

3 Credits

CMT-231 MEL Scripting in Maya
This course will cover the process of using Maya Embedded Language to manipulate and control characters, objects, and object interactions into a complete animation scenario. MEL scripting incorporates traditional programming constructs such as loops, conditionals, functions, expressions, and nodes. In addition to traditional constructs this course will introduce specific animation and gaming constructs such as particle dynamics control, user input selection dialogs, solid body dynamics, and crowd systems. Prerequisite: Creating 2-D Special Effects (CMT-229).

3 Credits

CMT-232 Game Engines
This course will present the concepts and methods associated with utilizing Game Engines as a finishing tool for developing and delivering computer-based games and simulations. Game Engines bring together the ability to design and render complex environments with the added flexibility to control the game/simulation lighting ambiance, terrains, physics, audio integration, programming, and real-time networking. Prerequisite: MEL Scripting in Maya (CMT-231) or Department Chair approval.

3 Credits

CMT-233 Game Programming
The course will cover the beginning phases of programming content and management component of the entire game development and managed code process. The course will be taught using the C++ programming language and will be developed in the Soft Video Studio.Net Code development environment. The student will learn the fundamentals of C++ programming as they are applied to the creation and control of computer games. Prerequisite: MEL Scripting in Maya (CMT-231).

3 Credits

Node.js
Node.js is a technology that uses the JavaScript run-time engine developed by Google. The V8 engine compiles and executes JavaScript at lightning speeds on both client and server side operations. Node.js will be used to facilitate reading/writing to network connections, reading/writing to the file system, and reading/writing to a database. All of these tasks can be found in web apps and employing Node.js allows them to execute very rapidly.

3 Credits

CMT-241 PHP/MySQL
PHP/MySQL is a web development programming language that is used to provide dynamic interaction between web content pages and databases. PHP technology permits web developers to retrieve and maintain real-time information for presentation across the web delivery medium. The objectives of this course are to teach the student the skills required to effectively design and publish web pages that interact with push/pull actions that interact directly with on-line databases. Prerequisite: JavaScript (CMT-113).

3 Credits

CMT-245 3D Liquids Simulation
This course will instruct the student in the techniques and processes required to simulate computer generated liquids and liquid flows. The student will be taught the techniques used in the generation of large scale simulations such as floods, oceans, and breaking waves. The student
will also be taught the principles and processes for small scale liquid simulations such as water splashes, pouring liquids, animated contained liquids, and molten materials. Additionally the student will study and design realistic interactions, splashes, and redirections that occur between liquids and solid objects. Prerequisite: Creating 3-D Special Effects (CMT-229).

CMT-250 Mobile Web Applications 3 Credits
This course will provide the student with the foundations for creating Mobile Web apps that address the cross-platform design needs of multiple platform mobile devices. Mobile Web apps require a design that considers significant factors, such as size, lighting, device speed, and a touch screen interface for mobile devices. Prerequisite: jQuery (CMT-225).

CMT-299 Web Development Internship 3 Credits
This course provides students with hands-on experience in Web Development. The course is an internship approach to learning. It provides a solid foundation to understanding the types of jobs available to students with Web Development skills interested in to work in the Web Development field. Students will acquire a first-hand perspective of employer’s expectations and levels of satisfaction. Students will become more successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them in the pursuit of a web development career. Prerequisite: Creating 3-D Special Effects (CMT-229).

Communication

COM-101 Film As Art 3 Credits
This course provides an introduction to the appreciation of film as an art form. It covers film techniques, terminology, and criticism, using film from the silent era to the present. Students are exposed to film beyond the American canon, including African American, Asian, Latinx and international works. This course satisfies the College’s General Education Requirement for Creative Work. Pre/co-requisite: College Writing I (ENG-111).

COM-102 American Cinema 3 Credits
This course brings Hollywood film making into clear focus as an art form, as an economic force, and as a system of representation and communication. The course probes the deeper meaning of American movies through encounters with the works of famous directors such as John Ford, Howard Hawks, and Martin Scorsese. This course meets General Education Requirement “Creative Work”. Pre/co-requisite: College Writing I (ENG-111).

COM-110 Introduction to Communication 3 Credits
This course explores students to study communication as a means to transform their lives and the world. Communication becomes a tool for cultural and professional competence, and human rights activism. Students examine how human beings have communicated with one another throughout history, and how gender, immigration, media and culture are interwoven with communication. With love, justice and empathy, students engage in storytelling and collaborate on a human rights project or the community. Students also explore ways to participate in the creative industry and other fields of communication. This course fulfills the Learning Community requirement.

COM-171 Public Speaking and Professional Communication 3 Credits
This course helps students to speak and write in an effective, ethical and professional manner. Students develop their abilities to deliver an effective speech, present for the camera, draft a resume, create and organize professional presentations, and adapt to different speaking contexts. This course covers topics from global classical rhetorics, using multiple world philosophies such as indigenous, western African, Hebrew, Nahua, and/or northern European. Students explore inclusive public speaking excellence and engage workplace ethics, human rights, disability and neurodiversity from a critical studies perspective.

COM-210 Interpersonal Communication 3 Credits
This course focuses on communication in everyday interactions. Students develop verbal and nonverbal communication skills in various interpersonal and intercultural contexts. This course addresses the sense of self and how the self is influenced by others and one’s own communication. It reviews basic aspects of message processes and communication. Throughout the course, students will be encouraged to analyze their own communication behaviors and improve upon their own communication skills. Students explore their everyday interactions with issues of ethics and human rights. Students have dialogue that engages their identities, including disability, race, political affiliation, religion, sexual orientation, and gender. Students have the opportunity to apply interpersonal communication skills to their career interests in the field of communication. Prerequisite COM-110.

COM-241 Introduction to Today's Journalism 3 Credits
This course combines reading and engaging journalism with practice writing news stories. It provides students with a foundation in the art of journalism with an emphasis on critical reading and writing. Students engage local, national, and global news. Topics covered include proofreading and drafting, audience trends, misinformation, data journalism, representation and human rights. Students collaborate and use social media platforms to tell the stories they witness in their daily lives and in their communities. Prerequisite: Reading Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

COM-242 Multimedia Journalism 3 Credits
This is a journalism course where students focus on producing media for the school newspaper, including text, videos, photography, podcasts and social media posts. This is an emerging media course designed for students to get acquainted with doing the projects freelance and staffs regularly publish. Using legacy media and new media, students investigate news, plan out stories, and conduct interviews. Students consider fair representation of human rights and multiple points of view. Students develop portfolios of their work. Prerequisite: Introduction to Today’s Journalism (COM-241).

COM-250 Analyzing Media 3 Credits
This course gives students the opportunity to analyze mass media products, including digital and print media, podcasts, radio, television, visual art and music. Students deconstruct and evaluate media to develop an intellectual comprehension of communication and how various mass media are produced, and how they connect to society and culture. The course engages the process of mass communication and media literacy, including its history and evolution. Through discussions and projects, students engage with multiple views, experiences, and beliefs. Students explore ethical and human rights issues in order to become critical consumers and producers of media and art in our multicultural world. This course uses communication theory and media products for analysis. Prerequisite: ENG-095 and RDG-095 or ELL-103, or placement into ENG-111.

COM-254 Digital Media & Performance 3 Credits
This course uses digital media as a tool to create cutting-edge media and live performance for storytelling and creative expression. Students are exposed to performance studies from a communication perspective and use the theory to construct digital and transformative stories. Students engage performance text and media from diverse content producers. The use of media as a performance device is utilized to develop character, expose memory, reveal interior dialogue, illustrate subtext, and construct stories. Students interested in video, image, spoken word, social media, writing, and music will find opportunities to integrate these multimedia to create performances of their own content. This course culminates in a performance project. Prerequisite: VMA-262 or VMA-263.

COM-299 Internship 3 Credits
This course enhances the academic experience for students. Field placement is in the creative industry, including local media organizations or on campus. The course allows students enrolled in Communication to apply what they have learned to the workplace environment. All internships take place at pre-approved sites. Site experience requires 120-150 hours, as well as a personal project related to the internship. Prerequisites: COM-171.

Criminal Justice

CRJ-101 Introduction to Criminal Justice 3 Credits
This course is an introduction to the purpose and functions of the criminal justice system. This course will provide students with the history and role of the American Criminal Justice System, and a description of the police, courts, and the history of the development of the justice system. The course fulfills the Learning Community Seminar requirement for students in Criminal Justice. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CRJ-102 Juvenile Justice 3 Credits
This course examines youthful offenders, the civil and criminal procedures used in juvenile court, and the history of the development of the juvenile courts and juvenile justice. The course presents an overview of the institutional response to the problems of juvenile delinquency, along with status offenders, gender specific offenders,
special needs offenders and a focus on dependent/neglected and abused children. It emphasizes the police, court, correctional, and child protective agencies that process young offenders. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses. Course name was changed from Delinquency, Adjudication & Correction to Juvenile Justice.

CRJ-103 Criminal Law
This course examines the nature, purpose and development of criminal law from common law to contemporary statutory law. The course will emphasize the principles of criminal liability and elements of crime. Legal analysis, knowledge of concepts and the ability to identify them in complex fact patterns, and the application of legal principles to fact situations in a logical way will be introduced. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CRJ-106 Principles of Security Management
This course covers the organization and administration of security and loss prevention programs in industry, business, and government. The course emphasizes the protection of assets, personnel and facilities, and the concept of risk management. It focuses on physical security methods, the development and implementation of security policies and procedures, and the use of security officers. Prerequisites: Writing Skills II (ENG-095); Academic Reading III (ESL098) or Reading Skills II (RDG-095) or placement.

CRJ-107 Introduction to Corrections
This course provides a historical and philosophical survey of the correctional system. It provides an understanding of corrections as an essential component in the criminal justice system, focusing on punishment, sentencing, probation, community corrections, jails and detention facilities, institutional corrections, inmate, parole, and reentry. The course also gives students an orientation to current correctional concepts and various correctional institutions. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

CRJ-117 Street Law: an Overview of the American Legal System
This course examines the origins of the American Legal System through an analysis of its function, sources, and its varied aspects. This course introduces students to fundamental criminal law and constitutional law principles, and provides a platform for guided discussions of important public policy issues concerning crime, discrimination, healthcare, and immigration. The course uses the latest instructional technology including e-portfolios, case studies, simulated legal exercises, small group exercises and analytical thought problems to develop higher-level thinking skills that prepare students for other course work in criminal justice, law, sociological history, and government.

CRJ-201 Management in Criminal Justice
This course presents the principles of administration and management of criminal justice agencies. It examines organizational structure, responsibilities, and the interrelationships of administrative, line, and staff services in police, security, court, and correctional facilities. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) and Criminal Investigation (CRJ-208) or instructor approval.

CRJ-202 Evidence and Court Procedures
This course examines the structure, organization, and procedures of the American Criminal Court system. The course focuses on case analysis to understand the aspect of criminal prosecution and the role of the key actors in the court. The course addresses concepts of legal analysis and the prospects of reform of the Criminal Court system. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) and Criminal Investigation (CRJ-208) or chair approval.

CRJ-203 Rehabilitation of the Offender
This course provides an examination of community rehabilitation, current programs and services available in the corrections component of the criminal justice system. It emphasizes contemporary practices in corrections such as the community-based release programs, furloughs, halfway houses, and individual treatment services. Alternatives to incarceration are also examined. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-208 Criminal Investigation
This course identifies the fundamentals of criminal investigation within the criminal justice system. The duties and responsibilities of the investigator, both in the field and in the courtroom, are emphasized. The course explores the fundamental components of interviewing and interrogation. Issues concerning rules and chain of custody of evidence will be explored. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-209 Crime Victims
This course examines theories explaining victimization, the measurement and scope of victimization, fear of crime, the experience of victimization, and victims’ interaction with the criminal justice and other systems that have direct contact with victims. It pays particular attention to special victim groups and assesses current victim initiatives such as restitution, mediation, and victim rights legislation. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-211 Criminal Procedure
This course examines the workings of those Amendments to the United States Constitution relate to the field of Criminal Justice and that protect the rights of the people. Students will learn about habeas corpus, search and seizure practices pursuant to the Fourth Amendment; self-incrimination under the Fifth Amendment; right to counsel under the Sixth Amendment; and how the rights protected by these amendments were incorporated by the Fourteenth Amendment and made applicable to both state and federal law enforcement. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-301) and Criminal Law (CRJ-103) or chair approval.

CRJ-212 Community Corrections
This course examines the role of community-based correctional programs in the American Criminal justice system. The course includes therapeutic, support, and supervision programs for offenders. It examines pretrial release, diversion, and community-based, as well as innovative programs. Students must make site visits. Prerequisites: Grade of C or better in Criminal Justice I (CRJ-101) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor approval.

CRJ-214 Negotiation, Mediation, and Conflict Resolution
This course will focus on understanding the skills needed to negotiate, mediate, and resolve conflict in the criminal justice system. These techniques will be learned theoretically from case studies, and practiced so that students can improve these skills to be able to negotiate, mediate, and communicate better to resolve disputes. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-215 Street Drugs and Pharmaceuticals
This course surveys the history, development, trends, and role of the community-based correction program in the American criminal justice system. The course includes therapeutic, support, and supervision programs for offenders. It examines pretrial release, diversion, and community-based, as well as innovative programs. Students must make site visits. Prerequisites: Grade of C or better in Criminal Justice I (CRJ-101) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-218 Information & Electronic Security
This course introduces crimes involving the use of computers, the federal and state laws addressing them, and the preventive and investigative methods used to secure computers and defend and prosecute offenders. Part of information security is the electronics and technology needed to provide protection. Topics include vendor selection, and security systems (biometrics, access control, closed circuit television, etc.) to monitoring programs in light of what works and what doesn’t as well as the cost of drugs to society. Prerequisites: Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor approval.

CRJ-219 Terrorism & Homeland Security
This course will provide a theoretical and empirical understanding and explanation of terrorism as well as the motivation behind terrorist initiatives. A primary emphasis of the
course is on identifying these common features and limitations. It will examine and explain police and governmental responses to reduce or control the incidence of terrorism. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-228 Criminal Investigation II
This course examines the types of analyses conducted on crime scene evidence, their value, and limitations. It covers the evidentiary value of the following types of evidence: glass, soil, hairs and fibers, firearms, tool marks, and questioned documents. This course also covers forensic concepts, methods of collecting samples, and the value of blood distribution patterns, bloodstains and other bodily fluids. Prerequisites: Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor approval.

CRJ-230 American Drug Law
This course explores the problems with drugs, illicit and lawful, and the ways the laws in the United States relate to drugs, their users and distributors. Students learn the manner in which federal and state laws differ in terms of punishment. The course analyzes the dichotomy in the federal treatment of crack cocaine as opposed to powdered cocaine and the attendant impact on communities of color. The course also examines the minimum, mandatory drug sentencing laws and their impact on the criminal justice system. Students also learn about the major worldwide drug smuggling routes through the Balkans, South East Asia, and South and Central America, and the way United States drug policy and other government policies affect individuals. Prerequisites: Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor approval.

CRJ-232 Civil Rights & Civil Liberties
This course explores the concepts of individual rights and liberties in America and the ways they are balanced against the rights and interests of the sovereign. It scrutinizes First Amendment issues of freedom of speech and religion. The course analyzes the Fourteenth Amendment and its impact on state’s rights as they affect individuals, as well as the ever-changing concept of civil rights and liberties as they conflict with “homeland security” and the “war against terrorism”. Prerequisites: Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or instructor approval.

CRJ-245 Cyber Crime: Justice in the Virtual World
This course introduces the student to the issues, trends and problems associated with crimes facilitated by information and communications technology and how these crimes challenge traditional investigative methods. Topics include the history of computer crime, hacking and unauthorized access, embezzlement, the collection and preservation of digital evidence, legal issues in cyberspace, and an overview of cyberterrorism and the threat to critical infrastructure. Students will learn and practice analyzing and interpreting texts, as well as identifying related hate crimes and their impact on society. Prerequisites: a grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CRJ-275 Criminal Justice Capstone
This course provides students with the opportunity to critically examine what they have learned about the criminal justice system while exploring possible educational/career opportunities. The course will examine current events and problems, helping students better understand the issues facing the police, courts, and correctional systems. This course will also help students build professional skills such as research and writing while learning about opportunities such as employment in the field, college transfer, and graduate or law school. Prerequisites: Grade of C or higher in College Writing I (ENG-111) and Introduction to Criminal Justice (CRJ-101) and Criminal Law (CRJ-103) or chair approval.

CSC-125 Python Programming
This is an introductory course designed for anyone interested in learning programming concepts and hands on computational thinking, all in the context of the Python programming language. No prior experience in programming is necessary. Students will use their own problem solving abilities to implement programs in Python. This course will show the student how to use the basic programming constructs including decisions and loops. Further, students will explore unique Python data structures such as dictionaries. Students will also learn how to perform basic debugging techniques. At the end of this course, the student will have learned enough concepts in computer science and programming to be able to write Python programs to solve problems on their own. This course will prepare the student for a mobile app development course. Prerequisite: Applications Programming I (CSC-120) or Maya Foundations (CMT-121) or permission of the Department Chair. All prerequisites must be completed with a C or better. For more information please email CS@bhcc.edu.

CSC-129 Mobile App Development
This course introduces application development for mobile devices such as Android, Apple, Windows, and web. Students will program simple apps on multiple devices, using standard development environments commonly used professionally, using a series of skill-based lessons. Prerequisites: Writing Skills I (ENG-090) and Reading Skills I (RDG-090) or Academic Writing III (ESL-099) and Academic Reading III (ESL-098), or Integrated ELL Level I (ELL-101) or placement.

CSC-131 Introduction to Creating Mobile Apps
This course is designed for individuals with no experience with programming languages or previous experience creating mobile applications. The course uses a graphical-user interface blocks editor for students to build their own Android based mobile apps. The course offers reading about the editor and basic programming concepts, tutorial walk through assignments within the editor, and assessments which require students to build unique apps based on the tutorials so that they can demonstrate their understanding and knowledge of what they have learned. Specific programming concepts covered include design logic, programming conditions, variables, procedures, branches and looping. Specific app functionality covered includes sprite animation, multiple screens, and integration with vectors, and polymorphism. Students will use an object oriented programming language as they design code, debug and implement several programs covering the topics presented. Program will be created to run using the IDE and from the command line. This course fulfills the Learning Community Seminar requirement for students in Architecture, Arts, Science, Computer Engineering areas of study. Other departments may allow this course to be used as a LC seminar for their students. Students should check with the advisor before registering in this course. Prerequisites: Intermediate Algebra (MAT-099) and Writing Skills II (ENG-095) and Reading Skills II (RDG-095), or Integrated ELL Level 3 (ELL-103) or placement. For more information please email CS@bhcc.edu.
CSC-135 
Design for Mobile Devices

This course introduces the central components of user interface design for mobile devices (phones, tablets, and other). Students will learn how to prototype user interface designs using a series of scaffolded, skill based lessons culminating in a mobile application interface design for an application. Prerequisites: Writing Skills I (ENG-090) and Reading Skills I (RDG-090) or Academic Writing III (ESL-099) and Academic Reading III (ESL-098) or Integrated ELL Level I (ELL-011) or placement.

3 Credits

CSC-225 
Advanced Python Programming

This is an advanced course designed for any student interested in learning advanced computer programming concepts in the context of the Python programming language. In this course students will explore classes, object oriented programming, plotting, sampling and statistical thinking, using randomness to solve non-random problems, statistical thinking, graphing, and dynamic programming. Students will complete hands-on individual projects, individual assessments, group projects, and exams to assess student success at achieving the course outcomes. Prerequisite: A grade of C or higher in Python Programming (CSC-125) or equivalent experience with chair approval. For additional information and/or a course syllabus contact CS@bhcc.edu

3 Credits

CSC-229 
Programming With Android I

This course introduces the central components of Android programming. Students will learn how to program in Java using the Android Development Tools using a series of scaffolded, skill based lessons culminating in a mobile application which can be exported and placed on a device. Prerequisites: Information Technology Problem Solving (CTF-113) or Intro to Computer Science I and Object Oriented Programming (CSC-120) or Mobile App Development (CSC-129) or Chair approval.

3 Credits

CSC-236 
SQL Programming

This course introduces students to the fundamentals and functions of Structured Query Language (SQL), including relational database, table creation, updating, and manipulation concepts. Using a live database, students learn SQL basics and then move on to the more sophisticated and challenging aspects of SQL. Students get in-depth knowledge of the language through extensive use of internet based, industry standard SQL programming and certification testing engines. Upon completion of this course, students will have the skills and competencies required to program in SQL and the background necessary to continue to intermediate and advanced courses in database procedural programming and database administration. Prerequisite: Computer Applications/Concepts (CTF-110) or IT Problem Solving (CTF-113) or Introduction to Computer Science and Object Oriented Programming (CSC-120) or Cascading Style Sheets (CMT-125) or permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu

3 Credits

CSC-237 
C++ Programming

In this course, students who already have been exposed to programming and Object Oriented thinking, develop the ability to correctly analyze a variety of problems and generate appropriate algorithmic solutions using the C++ Programming Language. The course emphasizes the principles of top-down structured design and Object Oriented thinking. Topics include but are not limited to branching and looping mechanisms; arrays, functions and function overloading; arguments by reference and by value as well as optional arguments; recursion; pointers, creating libraries and namespaces, structures and classes, Python Programming (CSC-125) or Advanced Operators; file I/O; inheritance and polymorphism. Strong analytical skills are recommended for students enrolling in this course. Prerequisite: A grade of C or higher in Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-013) and College Algebra-STEM (MAT-194) and Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience with permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu

4 Credits

CSC-238 
Programming for iOS I

This course introduces the central components of iOS programming for mobile app development. Students will learn the basics of programming using vendor approved IDE and Tools in a series of scaffolded, skill based lessons culminating in a mobile application for iOS devices. This is first-level course that introduces programming concepts and structures unique to this product’s language, but also addresses the iOS marketplace, what it takes to be an Eng developer, as well as the planning and budgeting required for sustained app development. Prerequisites: Computer Applications/Concepts (CTF-110) or Advanced Python Programming (CSC-225) or Programming With Android I (CSC-229) or SQL Programming (CSC-236) or C++ Programming (CSC-237) or JAVA Programming (CSC-239) or Database Programming (CSC-240) or Android Development for Java Programmers (CSC-243) or Advanced JAVA Programming (CSC-284) or Batch File Programming (CTF-271) or PLA or Chair approval.

3 Credits

CSC-239 
JAVA Programming

In this course, students who already have been exposed to programming and Object Oriented thinking, develop the ability to correctly analyze a variety of problems and generate appropriate algorithmic solutions using the Java Programming Language. The course emphasizes the principles of top-down structured design and Object Oriented thinking. Topics include but are not limited to branching and looping mechanisms; arrays, functions and function overloading, arguments by reference and by value as well as optional arguments; recursion; creating packages, structures and classes, constructors and other methods, file I/O; inheritance and polymorphism. Strong analytical skills are recommended for students enrolling in this course, plus familiarity and experience working with the Internet and basic HTML tags. The course covers creating both Java applications and Java Applets including event handling, animation, and audio. Prerequisite: A grade of C or higher in Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-013) and College Algebra-STEM (MAT-194) and Introduction to Computer Science and Object Oriented Programming (CSC-120) or equivalent experience with permission of the department chairperson. For additional information and/or a course syllabus contact CS@bhcc.edu

4 Credits

CSC-240 
Database Programming

This is an intermediate course in procedural programming for database management systems. Topics in this course include: anonymous and named blocks, named procedures and functions, cursors, triggers, collections and the creation and manipulation of temporary tables. Students perform mid-to advanced level manipulation of databases required for logical processing and user interaction with relational databases. Prerequisite: SQL Programming and/or Integrated ELL Level III (ELL-013) or permission of department chair. For additional information and/or a course syllabus contact CS@bhcc.edu

3 Credits

CSC-242 
Data Structures

This course prepares students to understand the fundamentals of data structures with an emphasis on software engineering. Topics include multidimensional arrays, records, dynamic memory allocation, data compression, algorithms, and other data handling techniques. Prerequisites: Grade C or higher in Java Programming (CSC-239) and Precalculus (MAT-197). For additional information and/or a course syllabus, contact CS@bhcc.edu

3 Credits

CSC-243 
Android Development for Java Programmers

This course is for students who are already experienced Java Programmers. It discusses not only the intricacies of Android app development, but publishing in the Market place and monetizing the apps through fees, in-app advertising, or in-app billing will be discussed. Prerequisite: Grade C or higher in Java Programming (CSC-239) and Precalculus (MAT-197). Pre/corequisite: Android Development with Kotlin Programming (CSC-285)

3 Credits

CSC-244 
Android Development With Kotlin

This course is for students who are already experienced, programmers. Using the Kotlin programming language, students will create and implement various projects in a Mobile development environment. This course discusses the development of a full-stack application front-end to backend, from start to finish. Students will develop an application that may include a database back-end, using the principles of user interface, user experience, user authentication, and best practices of security issues related to mobile applications. This course further discusses the intricacies of Android app development and publishing in the marketplace, managing the app, and connecting the app to the latest platform service providers. Prerequisite: CSC-237 or CSC-239

4 Credits

CSC-284 
Advanced C++/OOP

This course covers intermediate-level programming. Students learn advanced topics of C++, dynamic memory, allocation, pointers, etc., and OOP; function and operator overloading, class design and object abstraction, ADT design, templates, inheritance, and polymorphism. Students learn to analyze a variety of problems and generate appropriate object oriented solutions. The department recommends that students taking this course have no less than a
grade of B in the prerequisite course. Prerequisite: C++ Programming (CSC-237) and College Algebra for STEM (MAT-194) or permission of the department chairperson. For additional information and/or a course syllabus contact C@bhcc.edu.

CSC-285
3 Credits
Advanced Java Programming
This course thoroughly examines many of the sophisticated features of the Java programming language, including interfaces, advanced graphics, some data structures, file I/O techniques, multithreading, advanced JDBC Servlets, and Java Server Pages. Students demonstrate their mastery of the material through a series of graded projects and examinations that challenge at an extremely high level. The course only instructs in the preparation of applications and applets that focus on business-related topics, but also teaches Java in the development of an application that utilizes cross-platform tools. Prerequisites: Java Programming (CSC-239) and Precalculus (MAT-197). For additional information and/or a course syllabus contact C@bhcc.edu.

CSC-287
3 Credits
Survey New Popular Oop for Programmers
This course is for students who already have deep knowledge of an Object-Oriented Language. Advanced Java or Advanced C++. This course will cover in depth three of the most commonly requested OOP in the job market, C++, Visual Basic, .NET and Python languages. The course will cover control structures, classes and objects, advanced data structures, debugging techniques, exception handling, and design patterns. Prerequisite: Grade of C or better in Advanced Java (CSC-228) or Advanced C++ (CSC-287) and Precalculus (MAT-197). For additional information and/or a course syllabus contact C@bhcc.edu.

CSC-299
3 Credits
Computer Science Internship
This course provides students with hands-on experience in the computer science field. The course is an internship approach to learning. It provides a solid foundation to understanding the types of jobs available to students with Computer Science skills and what it is like to work in the field. Students will acquire a first-hand perspective of employer’s expectations and levels of satisfaction. Students will become successful with the interview process since they will have had real world experience and/or understanding of what will be expected of them in the pursuit of a career in a computer science field.

Computed Tomography

CTC-111
3 Credits
Computed Tomography I
This interactive, web-based course presents basic and advanced knowledge of Computed Tomography. It begins with descriptions of the hardware configurations, and progresses to include the computer science of the system, including digital image processing, data acquisition, display, and reconstruction methods. Technical factors affecting image quality, artifact, recognition and reduction, and quality control will be discussed. Multi-slice technology will have particular emphasis. 3D applications, 3D angiography, CT fluoroscopy and other advanced applications will be presented. Radiation safety, dosimetry and contrast agents will also be included in this course. Prerequisite: Acceptance into Computed Tomography Certificate Program.

CTC-211
3 Credits
Computed Tomography II
This interactive, web-based course will present patient care in computed tomography, including administration of contrast agents. Imaging procedures of the head, neck, chest, abdomen, pelvis and musculoskeletal system will be discussed, as well as relevant pathology. Special procedures including but not limited to 3-D studies, biopsies, drainage and aspiration and PET/CT fusion will also be presented. Prerequisite: Computed Tomography I (CTC-111).

CTC-299
3 Credits
Computed Tomography Clinical Internship
This 100-hour clinical internship will enhance the academic experience for students by introducing them to the clinical practice of CT. Students are responsible for providing their own clothing. Clinical placements must be pre-approved by program faculty. Students must comply with the clinical policies, as stated in the Student Manual before attending clinical. Criminal Offender Record Information (CORI) checks will be conducted on all students before placement and the outcome may impact the student’s ability to participate in the internship experience. Health clearance is also required prior to participation. Prerequisite: Computed Tomography I (CTC-111).

Culinary Arts

CUL-101
3 Credits
Culinary Arts Seminar: If You Can’t Stand the Heat
This course introduces students to the challenges and responsibilities encountered by culinary arts students. It provides students with an in depth knowledge of the options available within the culinary arts industry. The course prepares students with skills necessary to prepare a resume, gain interview skills and become familiar with all of the resources that the college has to offer. Topics covered will include: preparing for a career in the food service field, resume preparation, career options and specific skills necessary to create a successful career, and discovering the best uses of resources available to students at BHCC. For Culinary Arts students only.

CUL-108
4 Credits
Basic Baking Skills
This course will teach the fundamentals of bakeshop production. It will introduce the students to a variety of baking techniques and skills. Emphasis will be placed on the different skills needed for immediate employment in the pastry field. Students will be introduced to the math skills necessary to understand the weights and measures, as well as to comprehend conversion skills. Students will become competent in the basics of yeast bread production, quick breads, and basic dessert production. Additional expenses may include supplies, equipment, and/or uniforms.

CUL-111
3 Credits
Food Service Sanitation and Skills
Food Service Sanitation is an introduction to food production practices governed by changing federal and state regulations. Topics to be covered include prevention of food-borne illness through proper handling of potentially hazardous foods, HACCP procedures, legal guidelines, kitchen safety, facility sanitation, and guidelines for safe food preparation, storing, and reheating. Students will also take the National Restaurant Association ServSafe examination.

CUL-113
3 Credits
How Baking Works: the Science of Baking
This course explores the theory and science of baking. Students will learn how different ingredients affect a baked product. Students will explore the changes that take place during the baking process, using recipes and formulas as experiments, and will discuss these outcomes. This course is taught in the bakeshop. Additional expenses may include supplies, equipment, and/or uniforms.

CUL-115
4 Credits
Introduction to Culinary Arts
This course introduces students to the theory behind cooking. The class covers the history of cuisine as well as the terminology, equipment use, cooking techniques, and ordering and receiving procedures. Course instruction emphasizes the techniques and skills needed to work in a commercial kitchen. The course introduces students to basic menu and food presentation. Students become proficient in the use of tools and equipment. Additional expenses may include supplies, equipment, and/or uniforms. Co-requisite: Principles of Baking (CUL-125). This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-116
4 Credits
Basic Culinary Skills
This course will provide students with knowledge in the use of tools, equipment, and knives while learning basic skills and procedures related to the preparation of food and cooking procedures. Students will become familiar with spices, and ingredients and learn basic menu construction and presentation used in a professional food service facility. The course is designed to emphasize proper terminology, equipment use, cooking techniques, use of commercial equipment as well as professional tools. Students will learn correct knife skills and become proficient in their knife skills. Additional expenses may include supplies, equipment, and/or uniforms.

CUL-119
3 Credits
Cake Decorating
This course takes the student through the basics of cake decorating. The students will refine their cake decorating skills. The course introduces the students to the techniques used to decorate tiered cakes, calligraphy, writing with chocolate and gels, as well as working with the different mediums used to decorate special occasion cakes. Students will learn the basic techniques used for royal icing, color flow and rolled fondant. Additional expenses may include supplies, equipment, and/or uniforms. This course is for Culinary Arts students only or by permission of the department chairperson.

CUL-125
4 Credits
Principles of Baking
This production lab course covers the fundamentals of baking. It introduces students to the methods and procedures for producing a variety of baked goods, including yeast products, quick-breads, general desserts, and pastry products. Students follow a standard recipe, do basic conversions, and apply the foundations of math as they pertain to the food service industry. The course places emphasis on their knowledge of weights and measures. The course focuses on the bakeshop and receiving areas of the kitchen.
Additional expenses may include supplies, equipment, and/or uniforms. Co-requisite: Advanced Desserts and Pastries (CUL-145).

CUL-243  Hot and Cold Desserts  4 Credits
This course is designed to introduce students to the production of chilled and frozen desserts. Students will also be introduced to the production of hot desserts, as well as to the presentation of desserts using both hot and cold components. Students will design menus for a bakeshop or pastry operation and develop an understanding of the various management tools required for the operation. Students will learn to analyze and forecast sales. An emphasis is placed on plating and garnishing techniques of dessert production. Students will also be introduced to molecular cooking techniques. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Advanced Desserts (CUL-145).

CUL-245  Food and Beverage Operations  4 Credits
This course acquaints students with current industry technology and sales techniques. It discusses nutrition and food allergy concerns. The course exposes students to all managerial procedures required in the food service industry. Students learn how to interpret a basic financial statement and use current technology as is required in the restaurant industry. The course introduces students to the wines and spirits that might be paired with the various ethnic cuisines. In this course, students provide service for the Advanced and Ethnic Food Production course. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisites: Essentials of Food Production (CUL-215) and Essentials of Dining Service (CUL-225).

CUL-247  Advanced Classical Desserts and Showpiece Cakes  3 Credits
This course takes the students to an advanced level of pastry expertise. The students will continue to refine their cake decorating skills and learn advanced pastry production. The course introduces the students to the techniques used to assemble tiered cakes, as well as the proper cutting and service of tiered cakes. Students will learn cost techniques in the production of chocolate chocolates. Sugar artistry, such as poured, pulled and blown sugar will be demonstrated and applied. Students will also work with pastillage, marzipan, and gum paste. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Advanced Desserts (CUL-145).

CUL-249  Baking for Health  3 Credits
This course will explore the options available for meeting the needs of the customer with dietary restrictions. The student will be introduced to lactose-free, gluten-free, and dairy-free, sugar-free baking. Students will also work with vegan recipes, as well as honey-free and egg-free recipes. Students will also be introduced to the production of pastries using substitute ingredients for health and low fat dessert alternative will be introduced. Additional expenses may include supplies, equipment, and/or uniforms. Prerequisite: Advanced Desserts (CUL-145).

CUL-299  Culinary Arts Internship  3 Credits
The internship allows students the opportunity to gain practical experience in the field of culinary arts. The internship begins after completion of the first academic year and consists of 150 hours of work experience in an approved foodservice facility.
Early Childhood Education

CUL-299P Pastry Arts Internship
This internship allows students the opportunity to gain practical experience in the field of baking and pastry arts. The internship begins after completion of the first academic year and consists of 150 hours of work experience in a bakery or pastry shop approved by your instructor. Prerequisite: Chair Approval.

ECE-101 Guidance and Discipline
This course covers the study of effective communication in guiding behavior. The course emphasizes techniques that help children build positive self-concepts and individual strengths within the context of appropriate limits and discipline. Prerequisite: Child Growth/Development (ECE 103).

ECE-102 Child Growth and Development
This course covers the normal development of children through the age of twelve with emphasis on the physical, cognitive, social, and emotional components of development of the infant, toddler, preschool and school age child. The course meets Department of Early Education and Care guidelines for child growth and development. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095), or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-104 Curriculum in Early Childhood Education
This course is the study of early childhood education programs with emphasis on curriculum development in areas such as art, music, science, literature, math, language arts, and dramatic play. Prerequisite: Child Growth/Development (ECE103).

ECE-106 Program Environments
This course covers the study of setting up and maintaining a program environment with emphasis on health and safety concerns, nutritional components, equipment usage, equipment needs and material usage. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095), or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-108 Infant/Toddler Curriculum Development
This course is the study of the aspects of planning and implementing group care for infants and toddlers, including developmental issues, routines and transitions in care-giving, curriculum activities, environmental designs, equipment and materials, guiding behavior including limit setting and developing security through behavioral management, and working with parents. The course meets Department of Early Education and Care requirements for Infant/Toddler Lead Teacher certification. Prerequisites: Child Growth/Development (ECE 103) and a grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095), or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

ECE-110 Science Concepts & Learning for Children
This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of science for young children. Prerequisites: Child Growth & Development (ECE103) and Curriculum in Early Childhood Education (ECE104) or Child Growth & Development (ECE103) and Introduction and Foundations of Education (EDU101).

ECE-151 Respecting the Infant-Toddler Child
This course will explore the importance of building positive relationships with infants and toddlers through responsive, respectful and reciprocal interactions that follow developmentally appropriate best practices and extend the infant and toddler's learning. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-152 Language and Infant-Toddler Why & How
This course focuses on the development of language and how the brain growth plays an important role in language and how to help children move towards their potentials for optimal growth and development. Students will learn the reasons why this is so critical and how to engage children with language before children can even talk. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-153 Expanding the Infant/Toddler Connections
This course addresses the capacity for rapid learning by the infant-toddler child and explores how this growth is enhanced through daily experiences and supportive relationships. Students will learn ways to expand these connections and to nurture the infant-toddler through curriculum and supportive relationships. Prerequisite: Grade of C or better in Child Growth and Development (ECE 103) or equivalent.

ECE-154 Supervision for Team Building
Early care and education teachers must work closely with each other to meet the demanding needs of young children. Learn ways to build teams from diverse groups of teachers and help them work smoothly together toward shared goals. It is recommended that students be Lead Teacher certified by Department of Early Education and Care before enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-155 Trouble in the House: Handling Conflict In Supervision
Early care and education teachers have to serve the needs of many: children, parents, other teachers and staff, and supervisors. Yet, these caring people are often uncomfortable with conflict and handle it poorly. This course focuses on the development of positive conflict resolution. It is recommended that students be Lead Teacher certified by Department of Early Education and Care before enrolling in course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-156 Helping Adult Learners Move Forward
The early care and education teacher is an adult learner with his/her own personal and professional goals. This module explores the ways for supervisors to help their teachers to grow and develop to meet their goals while strengthening the program at the same time. It is recommended that students be Lead Teacher certified by Department of Early Education and Care before enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-157 What/How of Emergent Curriculum and the Project Approach of ECE
Emergent curriculum and the project approach go beyond the traditional way of planning program activities and curriculum for young children in the classroom. Using the newest understandings about how children learn into program curriculum, this module examines the what’s and how’s of emergent curriculum. Recommended: Curriculum in Early Childhood Education (ECE 104) prior to enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-158 Project Planning Emergent
Figuring out children’s interests requires observation and reflection. Teachers must be attentive to what is happening around children and what they are interested in, curious about. Where to begin the project approach is all about the skills of observing the children around the classroom. Recommended: Curriculum in Early Childhood Education (ECE 104) prior to enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-159 Project Planning-Pushing Beyond Beginnings
Considering how long a project should last is tricky. How to keep the children interested and how to end the project are also essential ingredients of a successful project. How does a classroom “document” the learning that children have obtained? Recommended: Curriculum in Early Childhood Education (ECE104) prior to enrolling in the course. Prerequisite: Grade of C or better in Child Growth and Development (ECE103) or equivalent.

ECE-160 Language and Literacy: Why So Important
Language development is a critical skill needed by every young child. This module will focus on the emergence of language skills, brain development and the need for stimulation from the people and environments interacting with the child. Ways to evaluate the needs of young children and counter challenges with strong literacy environments will be addressed. Grade of C or better in ECE103 Child Growth & Development or equivalent. Recommended: ECE 104.

ECE-161 Reading, Writing, Listening, Speaking Pushing It Beyond the Basics
Language development begins with listening skills and moves through speaking, pre-reading and pre-writing skills. This module will consider these areas of need and ways to help children grow and develop in their skills in all areas. Prerequisites: Students must have a grade of C or better in ECE 103 Child Growth & Development or equivalent prior to enrolling in the courses in this series. It is recommended that students will have taken ECE 104 prior to taking these courses for a better understanding of the material.
ECO-162 1 Credit
Dual Language Learners The Challenges
Because language development is so critical to growth and development of the young child, those children who are dual language learners need particular attention to help them reach their potential for strong development in all areas. Ways to address these concerns in the classroom will be a focus. Prerequisites: Students must have a grade of C or better in ECO 103 Child Growth & Development or equivalent prior to enrolling in the courses in this series. It is recommended that students will have taken ECO 104 prior to taking these courses for a better understanding of the material.

ECO-163 1 Credit
Science and Nature With Young Children In Supervision
Children learn science concepts by playing the easiest place for that to occur is in the natural environment. Emphasis of this module will be on the ways children learn science and the match between young children’s curiosity and science learning. Prerequisite: Grade of C or better in Child Growth and Development (ECO-103) or equivalent. Recommended: ECO 104 prior to taking these courses for better understanding of material.

ECO-164 1 Credit
Using Nature and Science to Plan In Supervision
Science can be scary to many teachers and children. Figure out what to do and how to understand ways to pique children’s interests requires observation and reflection. Teachers must be attentive to what is happening around children and what they are excited by, frightened of, and curious about. Where to begin with nature study and science learning is all about the skills of observing the children around the classroom. Prerequisite: Grade of C or better in Child Growth and Development (ECO-103) or equivalent. Recommended: Curriculum in ECO (ECO104) prior to taking these courses for better understanding of material.

ECO-165 1 Credit
Pushing the Plan Beyond the Simple In Supervision
Considering what projects to plan and how long a project should last is tricky. How to keep the children engaged and how to develop the project are also essential ingredients of a successful project. How do we help children “document” their ideas and go beyond the simple to more complex thinking and activity? Prerequisites: Grade of C or better in Child Growth and Development (ECO103) or equivalent. Recommended: Curriculum in ECO (ECO104) prior to taking these courses for better understanding of material.

ECO-166 1 Credit
The Law, the Realities, Identification & Care
Children with special needs, diverse abilities and atypical behavior require additional consideration when including them into traditional and typical classrooms. This course is clearly stated as to what is required for children to be included as they move to public school. But, what is the responsibility of those in programs for younger children? How does the teacher meet these requirements and help with identification and care of all children? Prerequisites: Students must have a grade of C or better in ECO 103 Child Growth & Development or equivalent prior to enrolling in the courses in this series. Prior to enrollment it is recommended that students will have taken ECO 111- Young Children with Special Needs or equivalent for a deeper understanding of the material of this course material.

ECO-167 1 Credit
Observation & Then Curriculum
Figuring out children’s needs and the ways in which they learn requires observation and reflection. Teachers must be attentive to what is happening around children and what they are excited by, frightened of, and curious about. Parents and family members must be consulted to see how to best meet the needs of all children. Prerequisites: Students must have a grade of C or better in Child Growth & Development (ECO 103) or equivalent prior to enrolling in the courses in this series. Prior to enrollment it is recommended that students will have taken Young Children with Special Needs (ECO 111) or equivalent for a deeper understanding of the material of this course material.

ECO-168 1 Credit
Observations and Then Relational Connection
Children with special needs have social and emotional needs just like all other children. Their needs for relational skill development are sometimes quite challenging. How do we handle this in our classrooms? How to help other children to be accepting and helpful? Prerequisites: Students must have a grade of C or better in Child Growth & Development (ECO 103) or equivalent prior to enrolling in the courses in this series. Prior to enrollment it is recommended that students will have taken Young Children with Special Needs (ECO 111) or equivalent for a deeper understanding of the material of this course.

ECO-202 3 Credits
Issues in Early Childhood Education
This course is a study of early childhood education programs. The course includes the history of childcare, regulation, types of programs, and current trends and issues in early care and education. The needs of children and families and components of quality programs with emphasis on social, political, and economic influences on professional issues and career opportunities in the field are covered. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading I (LSL-098) or Reading Skills II (RGG-095) or Integrated ESL Level II (ELL-095) or exemption by placing into higher level courses.

ECO-207 3 Credits
Literacy Development and Learning for Children
This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of literacy development for young children. Prerequisites: Child Growth/Development (ECO-103) or its equivalent; and Curriculum in Early Childhood Education (ECO-104) or Child Growth/Development (ECO-103) and Introduction and Foundations of Education (EDU-201).

ECO-208 3 Credits
Exceptional Learners: Intro to Special Education
This course will be a study of children with physical, social, emotional, and/or intellectual differences, with emphasis on techniques for inclusion of children into early childhood programs and elementary school programs. This course offers an introduction to a broad range of developmental disabilities and related topics, including categories of cognitive, physical, emotional, and learning delays. The inclusion of children and adults into educational and community environments will be highlighted. Topics include the history of special education, the impact of the family, current and future trends, early intervention, transition, and the laws which govern the integration of children and adults in society. Prerequisite: Child Growth and Development (ECO-103) with a grade of C or higher.

ECO-209 3 Credits
Math Concepts & Learning for Children
This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of math for young children. Prerequisites: Child Growth and Development (ECO-103) or its equivalent, and Curriculum in Early Childhood Education (ECO-104) or Child Growth & Development (ECO-103) and Introduction and Foundations of Education (EDU-201).

ECO-210 3 Credits
Science Concepts & Learning for Children
This course is a study of concept development and learning in early childhood education programs with emphasis on curriculum development in the area of science for young children. Prerequisites: Child Growth and Development (ECO-103); and Curriculum in Early Childhood Education (ECO-103) and Introduction and Foundations of Education (EDU-201).

ECO-211 3 Credits
Young Children With Special Needs
This course covers the study of children with physical, social, emotional and/or cognitive disabilities with emphasis on techniques for mainstreaming and inclusion of these children into existing early childhood programs. Prerequisites: Child Growth/Development (ECO103) plus three (3) ECO or EDE courses.

ECO-212 3 Credits
Families/Community in Early Childhood Education
This course is the study of the relationship of parents and communities to early childhood programs. The course emphasizes parental needs for early care and education, parenting skills and need for communication with parents, challenges of dealing with diverse populations and multiple family structures using an anti-bias approach which respects diversity and encourages collaborative efforts in caring for children. Prerequisites: Child Growth and Development (ECO-103) plus three (3) ECO or EDE courses.

ECO-213 3 Credits
Child Care Administration I
This course covers the study of program management in early childhood education, including planning, implementing, and evaluating programs. The course emphasizes financial, legal, personnel, and program aspects of program administration. It meets Department of Care and Education and Certification requirement. Prerequisite: Lead Teacher qualifications or permission of department chair prior to enrollment.

ECO-215 3 Credits
Supervisor in Early Childhood Education
This course covers the study of child-care management with an emphasis on staffing and personnel functions within an early care and education program. Areas of study include organizational development, staffing, personnel practices, leadership, and mentoring. The course meets Department of Early Education and Care Director II certification requirements. Prerequisite: Lead Teacher qualifications or Chair approval prior to enrollment.
ECE-221 Practicum/Early Childhood Education II

This practicum experience in an early childhood setting must be completed during the final semesters of study. The department assigns an early childhood education classroom with a supervising teacher and a creation of portfolio. Acceptance into the Early Childhood Education program does not assure permission to enroll in the course or a placement assignment. For complete course requirements and application procedures, contact the department chair. Prerequisites: Permission of department chair. Students must participate in a weekly on-campus seminar as well as engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher and the creation of a portfolio. Acceptance into the Early Childhood Education program does not assure permission to enroll in the course or a placement assignment. For complete course requirements and application procedures, contact the department chair. Students must also clear a CORI report before enrolling in the practicum.

ECE-223 CDA Professional Portfolio & Practicum

The CDA (The Child Development Associate National Credentialing Program) Professional Portfolio/Practicum course will provide a practicum experience in an early childhood setting and assist each student in developing their CDA Portfolio as it relates to the 13 CDA Functional Areas specific to the program the student is working at (family child care, infant/toddler or preschool care). Students will participate in a weekly on-campus seminar as well as engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher; Students will complete 150 hours of a supervised practicum in a licensed early childhood center. This course emphasizes the development of a CDA Professional Portfolio and Practicum (ECE-223).

ECE-224 CDA Professional Portfolio & Practicum

The CDA (The Child Development Associate National Credentialing Program) Professional Portfolio/Practicum course will provide a practicum experience in an early childhood setting and assist each student in developing their reflective CDA Professional Portfolio as it relates to the 13 CDA Functional Areas specific to the program the student is working at (family child care, infant/toddler or preschool care). Students will participate in a weekly on-campus seminar as well as engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher. Students will complete 150 hours of a supervised practicum in a licensed early childhood center. This course will expand the scope and level of each student's work capability as they develop their CDA competency in 13 functional areas to prepare for earning their CDA credential. ECE 224 is required for students who have less than 300 hours of documented time in an early childhood center to be eligible for their CDA credential. Prerequisites: A grade of C or higher in CDA Professional Portfolio and Practicum (ECE-223).

ECE-237 Observation/Recording Behavior

This course is the study of observing and recording behavior of children with emphasis on child study in all areas of development using a variety of observational tools and recording techniques with children from birth to age twelve. Prerequisite: Child Growth and Development (ECE-103).

ECE-240 Practicum in Early Childhood Education I

This practicum experience in an early childhood setting must be completed during the final two semesters of study. The department assigns and approves student placement settings. Students must participate in a weekly on-campus seminar as well as engaging in a minimum of 12 hours a week in an Early Childhood Education classroom with a supervising teacher and a creation of portfolio. Acceptance into the Early Childhood Development program does not assure permission to enroll in the course or a placement assignment. For complete course requirements and application procedures, contact the department chair. Prerequisites: Permission of department chair. Students must receive a grade of C or higher in Child Growth and Development (ECE-103) and Guidance and Discipline (ECE-101) and Curriculum in Early Childhood Education (ECE-104) and Program Environments (ECE-106). Students must also clear a CORI report before enrolling in the practicum.

ECE-241 Practicum in Early Childhood Education II

This course exposes students to various environmental issues including pollution control, natural resource use, and climate change. Prerequisites: Grade of C or better in one of the following: ENV-105 or ENV-110 or ENV-111 or ENV-113 or ENV-120 or ECO-201 or ECO-202 or permission.

ECE-242 Practicum in Instruction

This course exposes students to various techniques of learning through the experience of tutoring. Faculty develops supervised tutoring placements in specified subject areas. The placements may be in the classroom, computer lab, Tutoring and Academic Support Center, the Center for Self-Directed Learning, and/or other areas on campus. Students must participate in a weekly on-campus seminar, in addition to two hours of tutoring per credit, per week. The seminar relates the field experience to students' objectives through discussions of learning styles, modes of instruction, cross-cultural awareness, tutoring techniques, and study habits. Students gain experience in tutoring, the evaluation process, and management of instructional operations. Prerequisite: Introduction and Foundations of Education (EEDU-201).
challenging academic content, and campus- and/or community-based learning. Students participate in group work and connect the content to their own lives, using language in multiple ways. Students successfully completing Level 2 will produce, revise and edit written and oral assignments that demonstrate readiness for Level 3 as determined by departmental assessment processes. Students will demonstrate emerging skill with incorporating sources to develop ideas with purpose, focus and clarity of language. Prerequisite: ELL 101 or Placement. Depending on program of study, this course may meet General Education requirement for Creative Work or General Education Elective.

ELL-102 Integrated ELL Level 2 6 Credits
This course develops integrated critical reading, writing, listening and speaking skills in English through immersion in a selected theme, challenging academic content and campus- and/or community-based learning. Students participate in group work and connect the content to their own lives, using language in multiple ways. Students successfully completing Level 2 will produce, revise and edit written and oral assignments that demonstrate readiness for College English as determined by departmental assessment processes. Students will demonstrate increasing skill with incorporating sources to develop ideas with purpose, focus and clarity of language. Prerequisite: ELL 101 or Placement. Depending on program of study, this course may meet General Education requirement for Creative Work or General Education Elective.

ELL-103 Integrated ELL Level 3 6 Credits
This course develops integrated critical reading, writing, listening and speaking skills in English through immersion in a selected theme, challenging academic content and campus- and/or community-based learning. Students participate in group work and connect the content to their own lives, using language in multiple ways. Students successfully completing Level 3 will produce, revise and edit written and oral assignments that demonstrate readiness for College English as determined by departmental assessment processes. Students will demonstrate proficiency with incorporating sources to develop ideas with purpose, focus and clarity of language. Prerequisite: ELL 102 or Placement. Depending on program of study, this course may meet General Education requirement for Creative Work or General Education Elective.

Emergency Medical Responder

EMR-101 Emergency Medical Responder 4 Credits
Through lectures, discussions, and hands-on practical experiences, this course is designed to provide the student with the knowledge and skills necessary to function as an Emergency Medical Responder in emergency situations. The course will prepare the student to serve as an essential link in the emergency medical services (EMS) system. The course content covers knowledge and psychomotor skills necessary to make appropriate decisions and provide immediate care in response to medical emergencies. The course includes Cardio Pulmonary Resuscitation (CPR) for the Professional Rescuer with Automated External Defibrillation (AED) and advanced first aid skills. Students that successfully complete the practical and knowledge-based exams are eligible for the Emergency Medical Responder (First Responder) certification card which is valid for two years. This is a 40-week course, meeting for 56 minutes each Monday through Thursday. Additional practical skill sessions may be scheduled as needed.

Paramedics

EMS-205 Principles of Paramedicine I 10 Credits
This course is the first of nine courses designed for Emergency Medical Technicians, Basic or Advanced, with at least one year of experience desiring to obtain Paramedic Certification/Licensure. Areas of study will include, Introduction to Advanced Pre-hospital Care & Well Being of the Paramedic, EMS Systems, Roles and Responsibilities, Illness and Injury Prevention, Stress Management, Anatomy & Physiology, Documentation, Communication, Therapeutic Communications, Medical/Legal Aspects and Ethical Considerations, Basic and Advanced Airway Management & Ventilation, Vascular Form Capnography, Assessment, Trauma & Medical Physical Examination Techniques, Obstetric & Gynecological Emergencies, Pathophysiology of Shock and Anaphylaxis, Access and Mathematics for Medications. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skilled preceptor. The student must demonstrate and maintain current licensure/certification as an Emergency Medical Technician (EMT). Adherence to the attendance policy and a minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Human Biology/Lab (BIO-108) or equivalent and College Writing I (ENG-111). Co-requisite: Paramedic Clinical Rotation I (EMS-209).

EMS-206 Principles of Paramedicine II 10 Credits
This course builds upon the knowledge and skills learned in Principles of Paramedicine I. Topics: Pharmacology, Introduction to Rhythm Interpretation, Introduction to 12 Lead ECG, Advanced Cardiac Life Support (ACLS), Management of Cardiac Emergencies, Medical Emergencies, Pulmonology, Neurology, Stroke Management, Endocrinology, Metabolic Emergencies, Anaphylaxis, Gastrointestinal Emergencies, Urological and Renal Emergencies, Toxicology, Substance Abuse, Hematological Emergencies, Infectious Diseases, and Behavioral Emergencies. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skilled preceptor. Adherence to the attendance policy and minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Principles of Paramedicine I (EMS-205) and Paramedic Clinical Rotation I (EMS-214). Co-requisite: Paramedic Clinical Rotation II (EMS-215).

EMS-207 Principles of Paramedicine III 4 Credits
This course builds upon the knowledge and skills learned in Principles of Paramedicine I & II. Topics: Pediatrics, Assessment of the Pediatric Patient, Pediatric Advanced Life Support (PALS), Geriatrics, Traumatic Systems and Mechanisms of Injury, Hemorrhage and Shock, Head and Facial Trauma, Thoracic Trauma, Abdominal Trauma, and Musculoskeletal Trauma. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skilled preceptor. Adherence to the attendance policy and minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Principles of Paramedicine II (EMS-206) and Paramedic Clinical Rotation II (EMS-215). Co-requisite: Paramedic Clinical Rotation III (EMS-216).

EMS-208 Principles of Paramedicine IV 4 Credits
This course builds upon the knowledge and skills learned in Principles of Paramedicine I, II, III. Topics: International Trauma Life Support (ITLS), Hazardous Materials, Responding to Terrorist Acts, Rescue Awareness, Medical Incident Command, Abuse & Assault, Crime Scene Response, EMS Stress Management, Ambulance Operations and Acute Interventions for Chronic
Care Patients. Students will demonstrate knowledge and perform manipulative skills under the supervision of the course instructor, program director, medical director, and/or skills preceptor. Adherence to attendance policy and a minimum final course grade of B- must be achieved in order to advance in the program. Prerequisites: Principles of Paramedicine I (EMS-201) and Paramedic Clinical Rotation III (EMS-216). Co-requisite: Paramedic Clinical Rotation IV (EMS-217).  
EMS-214  Paramedic Clinical Rotation I  
Work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and skills learned in Principles of Paramedicine I (EMS-201). Students will complete a minimum of 150 hours in this clinical practicum. Students will integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include, emergency divisions, respiratory therapy, anesthesia, surgical units, and labor and delivery. Students will be required to document all clinical time and complete program requirements for patient assessments, intubations, medication administrations, IV Bolus, infusions, vital signs, and cannulations. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Prerequisites: Principles of Paramedicine II (EMS-206) and Paramedic Clinical Rotation II (EMS-215). Co-requisite: Principles of Paramedicine III (EMS-207).  
EMS-217  Paramedic Clinical Rotation IV  
This course is a continuation of Paramedic Clinical Rotation III (EMS-216). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205) and Principles of Paramedicine II (EMS-206). Students will complete a minimum of 150 hours in this clinical practicum. Students will continue to integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students are required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the Medical Director. Prerequisites: Principles of Paramedicine III (EMS-207) and Paramedic Clinical Rotation III (EMS-216). Co-requisite: Principles of Paramedicine IV (EMS-208).  
EMS-218  Paramedic Field Internship  
Students will apply theory and acquired clinical skills while performing pre-hospital treatment under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students are required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Prerequisites: Principles of Paramedicine I (EMS-205) and Paramedic Clinical Rotation I (EMS-214). Co-requisite: Principles of Paramedicine II (EMS-206).  
EMS-219  Paramedic Clinical Rotation II  
This course is a continuation of Paramedic Clinical Rotation I (EMS-214). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205), Principles of Paramedicine II (EMS-206), and Paramedic Clinical Rotation III (EMS-216). Co-requisite: Principles of Paramedicine II (EMS-206), and Principles of Paramedicine III (EMS-207). Students will continue to integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students are required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Prerequisites: Principles of Paramedicine II (EMS-206) and Paramedic Clinical Rotation II (EMS-215). Co-requisite: Principles of Paramedicine III (EMS-207).  
EMS-221  Paramedic Clinical Rotation III  
This course is a continuation of Paramedic Clinical Rotation II (EMS-215). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205), Principles of Paramedicine II (EMS-206), and Principles of Paramedicine III (EMS-207). Students will continue to integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatric. Students are required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Prerequisites: Principles of Paramedicine II (EMS-206), and Principles of Paramedicine III (EMS-207). Students will continue to integrate instruction with clinical experience under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students are required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Prerequisites: Principles of Paramedicine II (EMS-206) and Paramedic Clinical Rotation II (EMS-215). Co-requisite: Principles of Paramedicine III (EMS-207).  
EMS-222  Paramedic Clinical Rotation IV  
This course is a continuation of Paramedic Clinical Rotation III (EMS-216). It is a work-based learning experience conducted in a hospital/clinical setting that enables the paramedic student to apply specialized occupational theory, concepts, and learning skills in Principles of Paramedicine I (EMS-205), Principles of Paramedicine II (EMS-206), Principles of Paramedicine III (EMS-207), and Principles of Paramedicine IV (EMS-208). Students will complete 50 hours in this clinical practicum. Students will be required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the Medical Director. Prerequisites: Principles of Paramedicine III (EMS-207) and Paramedic Clinical Rotation III (EMS-216). Co-requisite: Principles of Paramedicine IV (EMS-208).  
EMS-223  Paramedic Field Internship  
Students will apply theory and acquired clinical skills while performing pre-hospital treatment under the supervision of a preceptor. Clinical rotations will be conducted in a variety of medical-related facilities to include: emergency divisions, intensive care/critical units, psychiatric, and pediatrics. Students are required to document all clinical time and complete program requirements for ECG interpretations including 12 lead, Advanced Cardiac Life Support (ACLS), patient assessments in psychiatric, pediatrics, geriatrics. Adherence to the program requirements, attendance policy, and receipt of satisfactory clinical evaluations must be achieved in order to advance in the program. Students are required to take and pass a terminal skill competency practical conducted by the Program Director and/or the medical director. Students will complete a minimum of 150 hours during this internship. Students must meet the minimum patient contacts set forth by the Massachusetts Office of Emergency Medical Services and/or the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP). Adherence to the program requirements, attendance policy, and receipt of satisfactory field internship evaluations, and a final overall course grade of B- must be achieved in order to be eligible to sit for the National Registry of Emergency Medical Technicians, Paramedic written and practical exam. Prerequisites: Principles of Paramedicine IV (EMS-208) and Paramedic Clinical Rotation IV (EMS-217) and permission of the Paramedic program director and/or medical director.  

Emergency Medical Technician  
EMT-103  Emergency Medical Technician  
7 Credits  
This course covers the rendering of emergency care to the sick and injured promptly and efficiently. It conforms to the EMT-B national standard curriculum, as adopted by the Commonwealth of Massachusetts, and is a prerequisite for taking the state EMT Exam. Students are responsible for taking the certification examination for EMT. Additional expenses may include supplies, equipment, and/or uniforms.  

English  
ENG-090  Writing Skills I  
3 Credits  
The first part of a two-semester basic writing sequence, this course develops writing skills needed to begin work in the college setting. The course places primary emphasis on the development of good sentence writing skills through frequent practice. Such practice may take the form of writing journals, paragraphs, and short essays. Faculty provide attention to difficulties with grammar, punctuation, and spelling primarily on an individual basis. The course does not satisfy any part of the College Writing requirement for graduation. Placement is determined by assessment testing or faculty referral. Upon completion of Writing Skills I (ENG090) with a grade of C or better, students enroll in Writing Skills II (ENG095).  
ENG-095  Writing Skills II  
3 Credits  
This course develops language skills needed to communicate effectively in college study, in the professions, and in the business world. The course includes sentence formation, applied grammar, spelling, mechanics, and paragraph development. Note: Students must pass the Basic Writing Competency Exam in order to receive a passing grade for this course. The course does not satisfy the college writing requirement for graduation. Prerequisite: Grade of C or higher in Writing Skills I (ENG-090) or Academic Writing I (ESL-099) or Integrated ELL Level I (ELL-101) or exemption by placing into higher level course.  
ENG-111  College Writing I  
3 Credits  
This course emphasizes writing as a process, from planning and drafting through revising and editing. Using personal experience, readings, and other sources, students write unified, coherent, well-developed essays and practice paraphrasing, summarizing, and using sources responsibly. To be eligible to take College Writing II (ENG112), students must earn a grade of C or better for this course. The course meets General Education requirement “Academic Discourse”. Prerequisite: A grade of C or higher in Writing Skills I (ENG-090) or Academic Writing I (ESL-099) and Academic Reading III (ESL-098) or Reading Skills II (RDG-093) or integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.  
ENG-112  College Writing II  
3 Credits  
This course focuses on the research paper, the longer essay, argumentation, critical writing, and editing. The course satisfies the College’s General Education requirement for Research Writing. Prerequisite: Grade of C or higher in College Writing I (ENG-111).
ENG-115
Writing Tutor Seminar
The course prepares skilled writers to work as peer tutors in the college’s Writing Place. It provides advanced instruction in writing theory, peer tutoring practice, grammar and composition, with special emphasis on the writing process. Along with class time, students will spend 3 hours tutoring in the Writing Place each week beginning in Week 4. Throughout the semester, students develop strategies, problem-solving skills and greater understanding of composition theory and practice. Prerequisites: Grade of B+ or better in ENG 111 or course equivalent, professor recommendation, interview and permission of ENG 115 instructor.

ENG-202
Creative Writing Workshop
This course introduces students to the writing of poetry, short stories, plays, and autobiographies. The course includes some model readings, but the main work is student writings in all four genres. The course satisfies the College’s General Education requirement for “Creative Writing.” Prerequisite: Skills II (ENG-095) or Integrated ELL Level 3 (ELL-103) or placement in College Writing I (ENG-111).

ENG-231
Introduction to Fiction Writing
Everyone tells stories, but what makes a story “good”? Why are there some we want to hear over and over, tirelessly, even though we know what will happen in the end? In this class, students will look at solid story structure, the elements that make up a “good” compelling story, and ways to tell the tales we have to tell in the best possible way to capture an audience. Students will participate as both writers and critical readers in examining creative work of their own, their peers and of established authors. This course satisfies the College’s General Education requirement for “Creative Work.” Pre/co-requisite: College Writing I (ENG-111).

ENG-232
Introduction to Poetry Writing
This course offers a thorough, hands-on exploration of the principles of writing poetry with emphasis on the elements of craft, voice, form, and analysis of the techniques, structures and absence of established poets. Through extensive reading and writing exercises, students will be able to develop a deeper understanding of the historical and global context of the craft, how it resonates within contemporary culture, while strengthening their own poetic voice. By the end of the course, students will have produced a body of work that expresses his/her ideas or ideals in an original and coherent manner. The course satisfies the College’s General Education requirement for “Creative Work.” Pre/co-requisite: College Writing I (ENG-111).

ENG-233
Intro to Creative Nonfiction Writing
This course offers an in-depth exploration of a unique and broadly-defined creative writing genre. By reading published works and writing original essays and memoir-style pieces, students will form to employ literary techniques ascribed to poetry and fiction in works of nonfiction. This course gives students experience with various sub-genres of creative nonfiction (narrative nonfiction, researched journalism, memoir) and also addresses the creative challenges unique to a genre whose name implies inventive truth-telling. Students will address the puzzling question of how to add vibrancy to true stories without changing their essential truths. Through the reading and writing of this course requires, students will develop their voices, deeper cultural competencies, and create a series of polished nonfiction works. This course meets the General Education requirement for Creative Writing. Pre/co-requisite: College Writing I (ENG-111).

ENG-234
Literary Publishing
This is an experiential learning course in which students take on the roles of writers, editors, administrators, and designers in order to publish a college literary magazine. Students will critically address all aspects of magazine production. Activities include writing and developing creative content; selecting manuscripts and artwork for publication; editing, designing and formatting magazine pages and covers; corresponding with contributors; magazine proofreading, producing, promoting; and coordinating a public reception. This course meets the General Education requirement for Creative Work. Pre/co-requisite: College Writing I (ENG-111).

Engineering

ENR-101
Introduction to Engineering/Lab
This course provides an overview of the engineering profession. Topics to be discussed include fields of study within engineering; the engineering profession, including engineering ethics; and engineering design and problem-solving. Emphasis is on team-building and a teamwork approach to engineering projects. Course meets 3 hrs. lecture - 3 hrs. lab. Prerequisite: A grade of C or higher in College Algebra for STEM (MAT-194) or exemption by placing into higher level course.

ENR-260
Engineering Statics
This course will apply the laws of Newtonian mechanics to help students attain the basic engineering science concepts that serve as the building block for further courses in engineering analysis and design. The course applies the equations of mechanics to the general engineering sciences, including solid, fluid mechanics, and materials, thereby contributing to the success of students as practicing engineers after graduation. Course meets: 3 hour lecture. Prerequisite: Grade of C or higher in College Physics I/Lab (PHY-251). Pre/co-requisite: Grade of C or higher in Calculus II (MAT-282).

ENR-265
Engineering Dynamics
The course covers Kinematics and Kinetics of particles and rigid bodies, with the application of Newton’s Second Law and the principles of work-energy and impulse. The course enables students to distinguish statics problems from dynamics problems and to identify inertial effects. The course also enables students who are interested in Engineering Mechanics or related disciplines to comprehend the vast applications of the principles of dynamics ranging from structural design of vehicles, electro-mechanical devices such as motors and movable tools, biomedical devices such as artificial hearts and bladders, to predictions of the motions of satellites, spacecraft, etc. Course meets 3 hours lecture. Prerequisite: Grade of C or higher in Engineering Statics (ENR-260). Co-requisite: Ordinary Differential Equations (MAT-285).

ENR-270
Strength of Materials
The course extends the equilibrium analysis covered in statics to deformable bodies, especially to various members that make up structures and machines. Students will learn the three fundamental concepts in this course, i.e. Equilibrium, Force-Temperature-Deformation Behavior of Materials, and Geometry of Deformation. The course includes the following concepts: stress and strain, stress transformation, temperature stresses, stress and deformation in bodies under axial, shearling, flexural, torsional and combined loads, shear and bending moment diagrams, and Euler’s columns. Course meets: 3 hour lecture. Prerequisite: Grade of C or higher in Engineering Statics (ENR-260). Co-requisite: Ordinary Differential Equations (MAT-285).

ENR-271
Circuit Analysis and Design I/Lab
This is the first course of a two-course sequence in circuit analysis required for all Electrical Engineering Transfer Option students. An introductory course of electric circuits is presented, and circuits under continuous current are resolved. Basic circuit components (resistance, capacitance, inductance, and operational amplifiers) are introduced, and RL, RC, and RLC circuit responses are analyzed as a function of different circuit conditions. This course is a laboratory component that is complementary to the theory. Course meets: 3 hours lecture, 3 hours lab. Prerequisites: Grade of C+ or higher in Calculus II (MAT-282) and College Physics I/Lab (PHY-251) and Introduction to Engineering/Lab (ENR-101). Co-requisite: College Physics II/Lab (PHY-252).

ENR-272
Circuit Analysis and Design II/Lab
This is a required course for the Electrical Engineering Transfer Option, and the second course in a two-course sequence covering circuit design. This course presents the basic tools to analyze frequency-dependent circuits using phasors, Laplace transformations, and Fourier analysis. Sinusoidal steady state, frequency response, and filters are also analyzed in detail. Course meets: 3 hours lecture, 3 hours lab. Prerequisite: Grade of C+ or better in Circuit Analysis and Design I/Lab (ENR-271). Pre/co-requisite: Ordinary Differential Equations (MAT-285).

ENR-275
Digital Logic Systems/Lab
This is a required course for the Electrical Engineering Transfer Option. This course provides the fundamentals of logic and number theory, combinational logic applied to circuits, sequential logic involved with register-level circuits, and register-level logic related to data-path and control circuits. Course meets: 3 hours lecture, 3 hours lab. Prerequisite: Grade of C+ or higher in Circuit Analysis and Design I/Lab (ENR271). Co-requisite: Calculus III (MAT-283).
Environmental Science

**ENV-105 Environmental Science/Lab**  
This course is an introduction to the physical, chemical, and biological processes of the natural world. Emphasis is placed on the science of environmental processes, problems, and solutions. Case studies will address air, land, and water pollution will be integrated throughout the course. The laboratory will introduce basic field techniques, internet research, laboratory skills, report writing, and data analyses. This course will lay the foundation for understanding the key concepts required for Environmental Science majors. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level I (ELL-093) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**ENV-110 Sustainable Resource Conservation**  
This course is an introduction to fundamental concepts of sustainability and resource conservation as related to environmental policy and environmental management. Through lectures, laboratories, and dialogue, students will develop literacy in sustainability topics including environmental values and ethics; natural resource economics; environmental policies and regulations; and the interrelated processes that define and govern the Earth system. Ecosystem resources and management, biodiversity and wildlife conservation, and the science of water conservation and quality, air quality, climate change and climate action planning. This course meets the General Education Requirement Scientific & Technological Literacies and Environmental Policy and Planning. This course meets 3 hours lecture; 3 hours lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**ENV-111 Survey of Renewable Energy**  
This course investigates the potential of renewable energy technologies to help solve environmental and economic problems within society. The investigation includes solar energy, wind power, hydropower, geothermal, fuel cells, biomass, ocean wave power, and alternative transportation options. Also addressed are conventional energy sources including oil, coal, natural gas, and nuclear energy. Consideration will be given to related issues such as energy use, energy efficiency, emissions and other environmental impacts, financing incentives, and the regulatory and market forces affecting the alternative energy industry. Students will learn how to assess the viability of incorporating renewable energy technologies, such as solar or wind power, for residential and commercial applications. This course satisfies the General Education requirement for Scientific Reasoning (previous area title Science and Technology) for all programs. Class meets: 3 hrs lecture; 3 hrs lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**ENV-113 Introduction to Oceanography/Lab**  
This course integrates the physical, chemical, geological, and biological characteristics of the world’s oceans with emphasis on the New England coast and Boston Harbor. Topics include plate tectonics and the evolution of ocean basins, ocean sediments, coastal processes and landforms, physical and chemical properties of sea-water, animal and marine ecosystems, and oceanic circulation, the origins and dynamics of waves and tides, the coastal ocean, marine life, ocean productivity and resources, marine pollution, and cutting-edge marine technologies. Laboratory activities and online activities provide hands-on experiences or simulations of real-world oceanographic issues using oceanographic materials and techniques in the laboratory and in the field. This course meets 3 hrs lecture; 3 hrs lab. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**ENV-115 Earth Science**  
A study of the materials, principles, and processes that define and govern the Earth system. This course covers the fundamentals of geology: rocks, minerals, the rock cycle, geologic time, plate tectonics, earthquakes, volcanoes, geologic structures, weathering and erosion, hydrologic cycle, groundwater, glaciers and geologic hazards. Laboratory activities include mineral and rock identification, interpretation of geologic maps and cross-sections, field geology, and other fundamentals of geology. This course satisfies the General Education requirement for Scientific Reasoning (previous area title Science and Technology) for all programs. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103); and a C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**ENV-120 Tropical Field Studies**  
This course is an investigation of the ecology, conservation, and diversity of tropical ecosystems. As part of a study-abroad student team, students will learn and participate in scientific field research methods on location in a tropical country. By participating in a variety of trips, and activities students will also investigate the interrelationships of local culture, ecotourism, and conservation. Students will be required to complete a self-designed scientific field research project and then present their findings at a community services project while in the country of study. Past studies have occurred in Costa Rica and Nicaragua but future trips are not limited to these two tropical countries. Course requires additional travel fees and purchase of personal field supplies. This course will satisfy the General Education requirement for Scientific Reasoning (previous area title Science & Technology) for all programs. Study-abroad scholarships are available for qualified students. Class meets: 3 hours lecture – 3 hours lab. Prerequisite: Submission of study-abroad application and approval of the Biology & Chemistry Department. No previous science background required.

**ENV-221 Environmental Policy, Law, and Management**  
This course covers the basic concepts in policy, the major environmental laws in the U.S., how policies are made, international conventions, and management approaches. Topics will include environmental policy and politics; policy-making stakeholders and their role; major international agreements; enforcement; community-based planning; sustainability goals; and green plans. Linkages will be made to environmental topics and the management of food and agricultural production, biodiversity and development, pollution control, land-use, climate change, and sustainability goals. This is a central class for those interested in working in environmental policy and management. Prerequisite: ENV 105 or GDV 101 or GEO 101 or permission of instructor.

**ENV-250 Global Environmental Change**  
Global Environmental change draws from various scientific disciplines to explore the causes of, consequences of, and solutions to global-scale environmental issues affecting our planet and societies. The focus of this course is a study of Earth as a complex system and the role that natural and human influences play (and have played) in changing the Earth system. This course should be comfortable solving problems using computation, using computers or datasets to generate data, and visually interpreting the representing data. Prerequisite: ENGL 111, Completion of Quantitative Problem Solving requirement (MAT 174 or MAT 181 or MAT 191), or permission of instructor.

**EPU-101 DC Circuit Theory & Lab**  
This course provides an introduction to the nature of electricity in general, including coverage of direct current electrical theory and laboratory practices. Topics covered include static electricity, the Bohr Atom, Ohm’s Law, Kirchhoff’s Law, network theorems, and magnetism. Course meets: 3 hrs lecture; 3 hrs lab. Pre/co-requisites: Topics of Algebra/Trigonometry (MAT-193) or exemption by placing into higher level course.

**EPU-104 AC Circuit Theory/Lab**  
This course provides in-depth coverage of alternating current electrical theory. Topics covered include inductance, transformers, capacitance, reactance, impedance, and resonance. The complex frequency domain is introduced. Course meets: 3 hrs lecture/3 hrs lab. Prerequisite: DC Circuit Theory/Lab (EPU-101).

**EPU-151 Fundamentals of Single Phase and Polyphase Metering**  
This course introduces students to the fundamentals of Single Phase & Polyphase Metering, such as terminology and basic principles of meters. Students review basic math specific to metering, and gain knowledge of basic electricity and magnetism principles.
Students will be introduced to meter testing equipment, meter diagrams and standards, and learn technical data and how to read watt-hour and demand meter schematics. They will also learn about power factor analyzers, high amperage current transformer cabinets, meter demand theory and demand registers. Students are introduced to various instrument transformers, their design, application and troubleshooting. They learn about high voltage metering equipment and how to safely install the equipment. In addition all students will learn how to connect electrical secondary services up to 600 volts from the pole to the house working off a ladder. Prerequisite: Admission to the Electric Power Utility Program.

**EPU-203 4 Credits**

**Intro to Underground Operations**

This course introduces students to the basic operation of underground systems. Through classroom instruction and extensive hands-on experience, students will become familiar with the underground network electrical system and the various job responsibilities of underground personnel. Students will learn how to use the power formula to determine wire sizes. Correct manhole entry/exit procedures will be demonstrated. Safety issues including emergency rescue procedures will be covered. The sizing, installing and splicing of underground wire will be taught. An equipment orientation will be performed to provide students with a basic understanding of all underground equipment. Note: This course covers many of the same topics as Underground and Substation Operations (EPU-153), but in greater detail and with more depth and hands-on practice. Prerequisite: Acceptance into Electric Power Utility Technology Program.

**EPU-205 4 Credits**

**Introduction to Substation Operations**

This course introduces students to electric substations. Through classroom instruction and extensive "hands-on" experience students will learn about the basic purpose and operation of substations as key parts of power distribution systems. Students will learn the various job responsibilities of substation personnel. Safety procedures including vault entry/exit and rescue procedures will be discussed and demonstrated. Students will learn how to read and interpret substation prints. Substation equipment orientation will be provided to students with an understanding of substation equipment. Students will become familiar with the dispatch center and its functions. Note: This course covers many of the same topics as Underground and Substation Operations (EPU-153), but in greater detail and with more depth and hands-on practice. Prerequisite: Acceptance into Electric Power Utility Technology Program.

**EPU-207 4 Credits**

**Introduction to Overhead Linework**

This course introduces students to the basic fundamentals of overhead linework, and installation techniques. During this intensive training period students will learn to become comfortable working with the tools and equipment needed to build an overhead distribution system. Students will be introduced to and become familiar with important sections of safety in the utility industry including the effects of electric shock, fire, and burns. Basic hand tools will be assigned and students will learn how to care for and use the equipment. Students will also be trained in CPR/AED and OSHA 10. Students will be trained in the use of company derricks and buckets. For those students who express a desire to learn to climb utility poles, instruction will be provided. Prerequisite: Acceptance into the Electric Power Utility Technology Program.

**EPU-251 3 Credits**

**Electric Power/Utility Tech Internship**

This course will cover a variety of topics that consist of practical work experience in the NSTAR workforce environment involving working on line trucks and learning and performing all of the tasks of an overhead line worker. The course will also cover the instruction and practical exercise of soft skills in today’s work environment. Soft skills are those skills used every day in the workplace to enable one to perform assigned tasks easier to accomplish through teamwork and collaboration in a multi-cultural environment. Soft skills are increasingly being incorporated in job descriptions throughout the workforce as companies and institutions seek to employ students that have had successfully incorporated soft skills as part of their curriculum. Prerequisites: College Writing I (ENG111), Fundamentals of Single Phase and Polyphase Metering (EPU151), Underground & Substation Operations (EPU153), and Group Dynamics (PSY107).

**EPU-257 3 Credits**

**Power and Distribution Systems**

This course introduces the basic concepts of electrical power systems. Subject areas include electrical power generation, transmission, and distribution. Distribution system layout, distribution transformers, transmission line fault calculations and transmission line protection will also be covered. Prerequisite: AC Circuit Theory (EPU-104).

**ESL-074 3 Credits**

**Listening Comprehension & Discourse**

In this low-intermediate course, students develop academic listening skills and participate in small group and whole class discussions based on articles, lectures, and multi-media sources. Students will learn grammar and vocabulary in the context of the materials used for listening, speaking, reading, and writing activities. Students must earn a C or better in order to pass the course. Prerequisite: Placement into ESL level I.

**ESL-075 3 Credits**

**Grammar Structures & Editing**

This low-intermediate course focuses on improving grammar and editing skills through weekly grammar lessons, writing assignments, class discussions and assessments. Students will develop their ability to compose grammatically correct and comprehensible sentences and short writings. Students receive individual feedback that targets their needs. Students must earn a C or better in order to pass the course. Prerequisite: Placement into ESL level I.

**ESL-078 3 Credits**

**Academic Reading I**

In this low-intermediate course, students learn pre-reading skills, organizational styles, academic vocabulary, dictionary use, referents, critical reading, basic verb tenses and parts of speech, and how to summarize, paraphrase, and identify main ideas and supporting details. Students will learn to complete homework assignments in basic MLA format. Students must earn a C or better in order to pass the course. Prerequisite: Placement into ESL level I.

**ESL-079 3 Credits**

**Academic Writing I**

In this low-intermediate course, students learn to write paragraphs and short essays through an academic writing process in a variety of rhetorical styles using an academic format. Students will write from personal experience and respond to reading by paraphrasing and quoting. Students will learn to write different sentence types, using conjunctions and subordinating conjunctions and grammar will be taught, and students will apply their knowledge by revising and editing their paragraphs. Students must pass the ESL075 Writing Competency Exam and earn a C or better in order to pass the course. Prerequisite: Placement into ESL Level I.

**ESL-084 3 Credits**

**Academic Listening & Note-Taking**

This high-intermediate course focuses on listening and note-taking skills. Students develop a system for note-taking and learn how to use their notes to answer comprehension questions as well as to complete writing assignments. All listening and note-taking activities include reading and writing exercises. Students learn grammar in the context of the materials used for listening activities and student generated writing. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

**ESL-087 3 Credits**

**Contemporary Issues & Conversations**

In this high-intermediate course, students practice and demonstrate effective speaking functions in small-group and whole-class discussions of academic reading materials. Students develop a method for delivering an oral presentation to a large group. All speaking activities are organized around reading and writing exercises. Students learn grammar and build their level-appropriate academic vocabulary in the context of speaking, in the context of the reading materials, and in the context of student generated writing. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

**ESL-088 3 Credits**

**Academic Reading II**

In this high-intermediate course, students increase their level-appropriate vocabulary and develop their reading skills and strategies as they analyze, discuss, and write about longer readings. Students are also introduced to critical thinking skills such as drawing inferences, understanding idioms and figures of speech, and recognizing purpose and perspective. Students learn grammar in the context of the reading materials and in student generated writing. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

**ESL-089 3 Credits**

**Academic Writing II**

In this high-intermediate course, students develop their writing skills with a focus on the process of college writing from planning and drafting to revising and editing. Students demonstrate their critical thinking skills by writing paragraphs and essays from their personal experience and from readings of moderate complexity. Students practice correct grammar and mechanics in the context of the readings and their own writing. Students must pass the ESL089 Writing Competency Exam and earn a grade of C or better in order to pass the course. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL074, ESL075, ESL078, and ESL079, or placement.

**ESL-096 3 Credits**

**Lecture Comprehension & Academic Vocabulary**

In this advanced course, students develop an academic note-taking system as they listen to lectures and authentic sources. Students practice using their notes to answer comprehension questions, write summaries of sources, and
compose responses to critical thinking questions. Students learn advanced skills, academic vocabulary, and grammar in the context of advanced level readings, websites, and lectures. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

ESL-097 Academic Discussions & Presentations
This advanced course focuses on the communication skills necessary in an academic setting. Students develop and on understanding and analyzing main ideas and supporting details of articles, improve a method for detecting the oral presentation to a large group using effective delivery, visual aids, and other supports. Students practice comprehensible pronunciation along with stress and intonation patterns. All speaking activities are organized around academic reading materials which students will write about and discuss in small groups. Students must earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

ESL-098 Academic Reading III
This advanced course focuses on the critical and analytical reading skills necessary for success in college level materials. Students demonstrate comprehension of level-appropriate readings through class discussions, writing assignments, and other assessments. Students also develop critical (higher order) thinking skills by interacting with the readings and by summarizing, paraphrasing, questioning, responding to, and evaluating readings. Students do extensive work on understanding and analyzing main ideas and supporting details of articles and essays. Students learn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

ESL-099 Academic Writing III
This advanced course focuses on the academic writing skills necessary for success in college level materials. Students develop their abilities with sentence structure, paragraph writing, and essay writing through extensive practice with multiple drafting, revising, editing, and proofreading. Students write from personal experience, answer essay questions from readings of substantial complexity, and write essays as a result of direct sources. Students learn grammar in the context of the readings and student generated writing. Students must pass the ESL099 Writing Competency Exam and earn a C or better in order to pass the course. Prerequisites: Grade of C or better in ESL086, ESL087, ESL088, and ESL089 or placement.

Environmental Sustainability

ESM-105 Green Buildings
This course provides a framework for making practical design and construction decisions that are environmentally responsible by focusing on LEED (Leadership in Energy and Environmental Design) building standards. After completing the course, students will have the ability to sit for the LEED Green Associate Exam. Topics include trends in green building, costs and benefits of green buildings, third party certifications and rating systems, site selection and orientation, sustainable landscapes, storm water management, water efficiency, energy demand, energy efficiency, renewable energy in buildings, ongoing building performance, waste management, building materials, and indoor air quality. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) and Foundations of Math (MAT-093) or exemption by placing into higher level courses.

ESM-115 Sustainable Facilities Management
This course highlights the responsibilities, policies, and practices involved with managing the built environment to achieve sustainable goals. Students will gain an understanding of facilities operation, maintenance, architectural blueprint interpretation, health & safety awareness, and occupant engagement. Students will learn how to select and assess energy usage of HVAC systems, electrical systems, lighting systems, and heating systems. Course content will center on facilities management as a process, and its relationship to other functions within an organizational setting. Students will explore the most current strategies and issues in the industry including sustainability, productivity, green buildings, as well as human and environmental factors. This course will utilize a combination of classroom techniques (presentations, discussion, team projects, case studies, and guest speakers) to give the students a full understanding of the issues and complexities of sustainable facilities management. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) and Foundations of Math (MAT-093) or exemption by placing into higher level courses.

ESM-205 Green Existing Buildings: Operation and Maintenance
This course is designed for ESM students and professionals who are looking to gain project experience on existing Leadership in Energy and Environmental Design (LEED) projects. This course is for students interested in finding building operations and maintenance in existing buildings. Students will learn the requirements and calculations required for the following LEED credits: Sustainable Sites, Water Efficiency, Energy & Atmosphere, Materials & Resources, and Indoor Environmental Quality. Students will become familiar with existing building systems and standards for the ESM program may not be eligible to participate in the internship.

ESM-211 Project Management and Finance for Energy
This course examines the theory and practice of Project Management as applied to renewable energy and energy efficiency projects. The course also explores financial considerations for sustainable energy projects, as well as a variety of funding mechanisms. Special focus is applied to project life-cycles, planning, controlling, and coordinating efforts of multiple individuals and/or working groups. Students will gain an understanding of financial measures of project performance, budgeting, feasibility, and explore various funding mechanisms including government incentives, specialized loans, and performance contracts through case studies. Prerequisite: Survey of Renewable Energy/Lab (ENV-111).

ESM-299 Energy & Sustainability Internship
This course provides relevant field and/or research experience integrating theory and practice while providing opportunities to develop skills, explore career options, and network with professionals and/ or researchers in the sustainability management fields. Prerequisites: Enrollment in the Energy and Sustainability Internship Program. This course is an introduction to present value techniques, capital budgeting principles, asset valuation, the determination and efficiency of financial markets, the financial decisions of firms, and international finance. This course is open to all majors.

Finance

FIN-106 Introduction to Corporate Finance
This course is an introduction to corporate finance. The objective of the course is to introduce concepts and techniques of finance. This course covers an introduction to present value techniques, capital budgeting principles, asset valuation, the determination and efficiency of financial markets, the financial decisions of firms, and international finance. This course is open to all majors.

FIN-111 Personal Finance
An overview of personal financial planning, this course covers the following topics: the intelligent use of consumer credit, budgeting, banking, the time value of money, investments, insurance, retirement, and other long-term planning and their tax ramifications. It is intended for students at all levels and for all programs of study.

FIN-210 Financial Management
This course uses the tools of financial analysis such as ratios, budgets, forecasting techniques, present value concepts, and cash flow. The course also explores short, intermediate, and long-term sources and uses of cash. Prerequisite: Principles of Accounting II (ACC-102).

FIN-211 Money and Banking
This course covers an economic analysis of financial institutions and markets in the world economy. It covers institutional and economic factors in the determination of the money supply.
The course includes the commercial banking system and the money and capital markets. Current policy issues are debated. Prerequisites: Macroeconomics (ECO-201) and Microeconomics (ECO-202).

FIN-214 3 Credits
Mutual Fund Industry
This course introduces the myriad aspects of the mutual fund business including the way mutual funds are structured, regulated, marketed, and distributed. In addition, the course explores shareholder serving systems and technology. Prerequisites: Principles of Accounting II (ACC-102) and Investments (FIN-111).

Fire Science
FPS-107 3 Credits
Fire Company Officership
This course examines the scope and functions of the fire company officer. Topics include the role of the fire service, departmental organization, administrative and management procedures, training, public relations, tactics and strategy, and fire prevention.

FPS-111 3 Credits
Fire Service, This Century and the Next, What Should We Expect?
This course provides the student with the history of the fire service and its culture. The student will research the ways that the fire service has changed over the past century and how it is expected to change in the next century. Topics will include the history of the fire service, changes in the fire service past and future, the evolution of equipment in the fire service, firefighter deaths and statistics as they pertain to the National Fallen Firefighters Foundation and its 16 Firefighter Life Safety Initiatives, as well as a field trip to the National Fire Protection Association (NFPA) and the role of the state training centers and a field trip to the Massachusetts Firefighting Academy in Stow, MA. These topics will be discussed with particular focus on the National Fire Administration’s Fire and Emergency Services Higher Education (FESHE) Professional Development Model and its explanation of how education, training, experience and individual development is needed for a successful job in the fire service. This course incorporates the learning outcomes of BHCC’s Learning Community Seminar and fulfills the Seminar’s requirements for first-time college students.

FPS-119 3 Credits
Principles of Fire and Emergency Services Safety and Survival
This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior change throughout the emergency services. Prerequisites: Grade of C or higher in Intermediate French III (FRE-202) or Intermediate French IV (FRE-203) or French V (FRE-204) or Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-123 3 Credits
Principles of Emergency Services
This course provides an overview to fire protection and emergency services; career opportunities in fire protection and related fields; culture and history of emergency services; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; fire service nomenclature; specific fire protection functions; basic chemistry and physics; introduction to fire protection systems; introduction to fire strategy and tactics; and life safety initiatives. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-125 3 Credits
Hazardous Materials Chemistry
This course provides an overview of basic chemistry relating to the categories of hazardous materials including recognition, identification, reactivity, and health hazards encountered by emergency service. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-127 3 Credits
Fire Protection Hydraulics and Water Supply
This course provides a foundation of theoretical knowledge in order to understand the principles of the use of water in fire protection and to apply hydraulic principles to analyze and to solve water supply problems. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-133 3 Credits
Fire Protection Systems
This course provides information relating to the characteristics of design and operation of fire alarm systems, water-based fire suppression systems, special hazard fire suppression systems, water supply for fire protection and portable fire extinguishers. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-135 3 Credits
Fire Behavior and Combustion
This course explores the theories and fundamentals of how and why fires start, spread, and are controlled. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-139 3 Credits
Fire Prevention Services Safety and Survival
This course provides fundamental knowledge relating to the field of fire prevention. Topics include: the history and philosophy of fire prevention; the organization and operation of a fire prevention bureau; the use and application of codes and standards; plans review; fire inspections; fire and life safety education; and fire investigation. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-221 3 Credits
Strategy and Tactics
This course provides the principles of fire ground control through utilization of personnel, equipment, and strategically located fire fighting agents. Prerequisites: Principles of Emergency Services (FPS-123) and a grade of C or better in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

FPS-233 3 Credits
Building Construction for Fire Protection
This course provides the components of building construction related to firefighter and life safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at emergencies. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses and Principles of Emergency Services (FPS-123).

French
FRE-101 3 Credits
Elementary French I
This course introduces students to the sounds and structures of French with emphasis on the acquisition of a limited but useful vocabulary and is offered for students with little or no previous knowledge of French. The course is not intended for native speakers or for students who have studied this language within the last three years.

FRE-102 3 Credits
Elementary French II
This course covers a continuation of Elementary French I (FRE-101) and places emphasis on speaking and writing skills. This course satisfies General Education requirement “Creative Work”. Prerequisite: Elementary French I (FRE-101) or one year of high school French.

FRE-201 3 Credits
Intermediate French I
This course is a review of basic French language skills with emphasis on conversational skills and graded reading selections for the acquisition of a broad, active vocabulary. Prerequisite: Elementary French II (FRE-102) or two years of high school French.

FRE-202 3 Credits
Intermediate French II
This course is a continuation of Intermediate French I with emphasis on self-expression through speaking and writing. Prerequisite: Intermediate French I (FRE-201) or three years of high school French.

Geography
GEO-101 3 Credits
World Regional Geography
This course examines the physical and human geographical context of major social, cultural, economic, and political issues in selected regions of the world, including but not limited to the following concerns: globalization, urbanization, environmental and climate studies, demographics, geopolitics, colonialism, plate tectonics, earth hazards and develops a mastery of maps and other visual aids as means of learning and communication. Regions covered include the Americas, Sub-Saharan Africa, Europe, the Russian Domain, North Africa/SW Asia, Central Asia, East Asia, South Asia, Southeast Asia, Australia, and Oceania. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills I (ENG-090) or Academic Writing III (ESL-099) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.
German

GER-101 Elementary German I

This course teaches students to read, speak, and write elementary German including mastery of approximately five hundred basic vocabulary words. The course covers the basic structure of the language. The course is offered in alternate years.

GER-102 Elementary German II

This course builds upon the skills learned in Elementary German I (GER101) by advancing the language structures, word forms, and vocabulary. The course meets General Education requirement for Creative Work. Prerequisite: Elementary German I (GER-101). This course is offered in alternate years.

Geographic Info Systems

GIS-224 Intro to Geographic Information Systems

Geographic Information Systems (GIS) are a powerful way to access, map, and analyze geographic information. This course introduces the concepts of GIS and geospatial analysis of databases. Through a series of lectures, hands-on computer-based exercises, and web enhanced modules, students will learn the essential elements of a GIS: hardware requirements; GIS software, data acquisition, data structures, spatial databases, methods of data analysis and spatial modeling, and applications of GIS. This course is designed as a core requirement for the A.S. Environmental Science program but can also be used as a stand-alone course to complement a wide range of academic disciplines to map resources and other mapping related functions of planning and management. Prerequisite: Statistics I (MAT-181) or Precalculus (MAT-197) or exemption by placing into higher level course.

Government

GOV-101 Government/Politics in US

This course provides an overview of the foundations, processes, and institutions of the United States federal government. Topics covered include the Constitution, federalism, civil liberties, civil rights, public opinion, the media, political participation, campaigns, elections, public policy, and the organization and functions of the three branches. Special emphasis is placed on the various channels of citizen influence. This course meets the General Education requirement for Community & Cultural Contexts. Prerequisites: Grade of C or better in Academic Reading III (ESL098) or Reading Skills II (RDG095); and Writing Skills I (ENG090) or Academic Writing III (ESL099) or exemption by placement testing.

GOV-211 Comparative Governments

This course will discuss governments and politics in a global setting. Students will consider political and social institutions in a variety of countries and then analyze issues of power and economic development in the context of globalization. Prerequisite: at least 9 college-level credits.

GOV-220 Introduction to International Relations

This course introduces students to the major theoretical debates in International Relations and situates the field within the context of the discipline, Political Science. It focuses on significant ideas, processes and institutions which explain the interrelationships between the various actors in the international system, looking specifically at nation states and supranational and international organizations. Special attention is given to research methodologies and to questions of ideology, conflict, trade, finance, human rights, identity, based differences (ethnicity, gender, etc.), and the dynamics of globalization. Prerequisite: Grade of C or better in College Writing I (ENG111). Prerequisite: ENG 111.

Gas Utility

GUT-101 Introduction to the Utility Industry

This lab course presents an introductory examination of the history, concepts and applied techniques of the natural gas and associated utilities including communications (fiber optics), electric, steam, gas, and water and sewer. Special focus will be placed on providing the background and context for students to understand the evolution of the utility industry. The lab portion of the course will provide students with the knowledge and skills required to demonstrate the competency required to obtain eight Basic Operator Qualifications used in the winter interseason two week work experience and the summer internship. Students will be introduced to heavy equipment, specialized tools and materials used in the utility industry. Prerequisites: Acceptance into the Gas Utility Technology Degree Option Program.

GUT-102 Gas Utility Technology I

This lab course further defines the tools, challenges, processes, and safety measures used in the natural gas utility industry and explores the components that make up the complex transmission and processing methods. The lab portion of the course will be a hands-on learning experience focused on teaching students about specific task operator qualifications (OQ’s) that are necessary to work in the natural gas industry in order to ensure safety and quality. Students may earn between 8-15 additional task specific OQ’s which will allow them to take on more responsibility in the field. Prerequisites: Grade of C or higher in Introduction to the Utility Industry (GUT-101).

GUT-103 Gas Utility Technology II

This lab course creates a deeper understanding of the natural gas industry and discusses the future of natural gas as an energy source both domestically and globally. This course explores environmental concerns (i.e. with land, air, and water) that could be affected due to pollution by byproducts of the tracking process. The lab portion of the course further explores specific operator qualifications. Students will be immersed in best practice discussions with subject matter experts and exposed to some of the more challenging tasks within the industry. Prerequisite: Grade of C or higher in Gas Utility Technology I (GUT-101).

GUT-104 Utility Industry Regulations, Ethics, and Safety Standards

This course will provide students with an introduction to local, state and federal regulations governing the utilities industry. Emphasis will be placed on regulatory compliance, safety standards, and, business ethics. Special focus will be placed on Pipeline and Hazardous Material Safety (PHMSA) regulations governing the transportation of hazardous materials and spill response; Occupational Safety and Health Administration’s (OSHA) regulations; FERC and First Aid requirements and training; Manual for Uniform Traffic Control Devices (MUTCD); Massachusetts Department of Public Utilities’ regulations, and local permitting requirements. Prerequisite: Gas Utility Technology I (GUT-102). Corequisite: Gas Utility Technology II (GUT-103).

GUT-105 Leadership for the Utility Professional

This lab course introduces the traits required for effective leadership and advancement to foreman in the utility industry. It begins with an introduction to customer service, transitions to a more in depth exploration of safety and compliance issues, quality workmanship, and reliability standards. Students are then introduced to global economics, geopolitics, and the environment. The course continues to explore tracking, hydraulic fracturing, horizontal drilling, and the development of a worldwide natural gas infrastructure. Students will also be introduced to additional tools and technology utilized in the natural gas pipeline replacement, rehabilitation, and maintenance industry. The lab portion further explores specific operator qualifications. Students will be immersed in best practice discussions with subject matter experts and exposed to some of the more challenging tasks within the industry. Students have an opportunity to earn an additional 8-15 Operator Qualifications (OQ’s). Prerequisites: Grade of C or higher in Gas Utility Technology II (GUT-103) and Utility Industry Regulations, Ethics and Safety Standards (GUT-104).

GUT-299 Gas Utility Technology Summer Internship

This course enhances the academic experience for students enrolled in the Gas Utility Technology Degree Option Program. All internships take place at Feeeny Brothers Excavation, LLC or another utility company. Students engage in activities that improve knowledge of the practical world of work and help them gain professional experience. The internship experience applies resources gained from students’ study in the classroom and lab components. This is accomplished while in a supervised on-the-job (OJT) training environment with assigned mentors. A faculty coordinator supervises and grades all courses. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: A grade of C or higher in Gas Utility Technology I (GUT-102) and permission of Department Chair.

History

HIS-102 History of Modern Europe in Global Cont Renaissance

This history course is a survey of the major intellectual, social, economic, artistic and political developments within the European continent, and beyond, since the 16th century. It will cover the processes of state-building, colonization and decolonization to better understand the roots of contemporary institutional and ideological problems. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG095) and Academic Writing III (ESL099) or Writing Skills II (ENG093) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.
COURSE DESCRIPTIONS

HIS-103 Ancient, Classical & Medieval History
A multi-disciplinary survey of the historic evolution of the European continent from its roots in the ancient world through the Classical and Medieval periods. Artistic, ideological, economic, social and political questions are examined in order to understand the foundation of the ideas and institutions of the modern world. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Academic Writing III (ENG-095) or Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-111 History of Pre-Modern World
This course examines similarities and differences among the major world civilizations before the modern era. Topics include traditions of government, art, decoration and philosophy; technology, family structure, and everyday life. The course satisfies General Education requirement for Community and Cultural Contexts”. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-112 Modern World History
This course offers a study of the major world civilizations through the modern period from approximately 1500 to the present. This will include analysis of the defining characteristics of various world regions and their interactions in the acceleration of global civilization. Communities and contexts will be examined in light of the modernizing revolutions in science, philosophy, politics and technology; religion, colonization and decolonization, world wars, and the creation of the interconnected modern world system. No previous history course is required. This course fulfills the requirements for the General Education Area “Community and Cultural Contexts”. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) and Academic Writing III (ENG-095) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-117 Women in U.S. History
This class will explore women’s roles in American history. It will provide a chronology of the progress of their role from chattel to citizens. Cultural phenomena including gender identity, economics, government and law, and mass media will be examined in relation to their impact on women. This course will provide students with valuable insight into the women’s movement and provide them with a working definition of feminism and its goals. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-121 Found. of Historical Thinking & Analysis
This course introduces foundational methods, approaches, and conceptual frameworks for doing history. Students practice constructing historical narratives and explanations grounded in analyzing primary sources, critically reading secondary works, and communicating historical knowledge to various audiences. Students evaluate evidence from primary sources and contextualize it using secondary works. Students analyze how social power shapes and reflects the construction of archives, evidence, narratives, and public history education. Students reflect on their own perspective as a historian, and consider their distinctive intellectual assets and specific forms of community accountability. Students consider some ways of knowing the characteristics of the discipline of history, and analyze secondary works by historians to identify various approaches to gathering evidence and using primary sources. Students assess gaps in historical narratives and archives; read scholarly works that have used creative approaches to gather evidence toward rectifying historical silences; and put their historical imagination into practice by creating signature work. Prerequisites: College Writing I (ENG-111) and Modern World History (HIS-112).

HIS-151 US History: Colonization through the Civil War
This course traces the growth and development of America from colonial beginnings through the Civil War. The course devotes major attention to the people, critical issues, and significant forces that determined the course of events that shaped our civilization. This course fulfills General Education Standard “Community and Cultural Contexts”. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-152 US History: Reconstruction to Present
This course covers the rise of the United States from the turmoil of the Civil War to superpower status. The course examines the cultural, economic, diplomatic, and military forces that have given the nation its shape. The course meets General Education requirement for Community and Cultural Contexts. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-200 The American Civil Rights Move
This course examines the roots of American civil rights movement from the Brown v. Board of Education decision through the era’s signature work. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

HIS-230 American Civil Rights Move
This course examines the start of the modern American civil rights movement from the Brown v. Topeka decision to the movement’s liberation movement. The evolution and impact of major organizations such as the SNCC, SCLC, CORE, NAACP and others will be studied. The course will also critique the impact of national figures such as Martin Luther King Jr., Malcolm X, James Farmer, Huey Newton and others as well as the impact of the movement on white students and the anti-war movement. Lastly, it will examine the impact of contemporary movements on today’s America, such as the Black Lives Matter movement and others. Prerequisites: A grade of C or higher in College Writing I (ENG-111) and a history course (HIS-102, HIS-112, HIS-151 or HIS-152) or by permission of the instructor.

HIS-231 African American History
This course offers an intensive study of how African Americans shaped and contributed to American history. The course focuses on the experiences of African Americans in the social, economic, and political history of the United States from the era of Reconstruction to the present. Topics include the lives of African Americans during Reconstruction, the Great Migration, the Harlem Renaissance, responses to anti-black racism, the rise of the modern civil rights movement, and the evolving complexities of black identity. The course provides a critical examination of the varied patterns of African Americans’ perspectives on American society and conditions in the late nineteenth, and twenty-first centuries. Students consider landmark contributions in African American historiography. Students produce a research paper, review essays, or similar senior project in history aligned with the course topics. Prerequisite: Grade of C or better in College Writing I (ENG-111) and a history course (HIS-102, HIS-112, HIS-151 or 152) or by permission. To request permission, email: history@bhcc.edu

HIS-232 Asian American History
This course offers a sweeping overview of the themes and issues that have animated the history of Asian-descended peoples in the United States. Through explorations of immigration, assimilation, empire, labor organizing, transnational political and economic forces, political ideologies, community organizing, racial identity formation, various types of intergroup solidarity, and more, students will get a well-rounded sense of Asian American history which will better prepare them to live in our diverse, multicultural world. Given our location, specific attention will be paid to local Asian American history and communities here in Greater Boston. Students in the course will conduct original historical research and produce papers and/or multimedia representations of their research. Students will critically engage historiography and secondary literature relevant to the study of Asian American history. Prerequisite: College Writing (ENG-111).

Honors

HON-200 Honors Seminar
This interdisciplinary seminar treats a selected theme through perspectives available from the humanities, social, and natural sciences. Presenters and topics differ each semester depending on current student interests and faculty availability. The course is required for all students enrolled in the honors program. Students who are not enrolled in the honors program may be admitted with permission of the instructor. The course meets General Education Requirement for General Education Elective.

Hospitality

HRT-105 Hospitality Seminar
This course provides students with an in-depth, experiential understanding of the options available within the hospitality industry. Topics covered include industry specific areas such as hotels, resorts, cruises, tours, convention and visitors’ bureaus and travel agencies with particular focus on the skills and abilities that each individual needs to create a successful career. Guest speakers and site visits are an integral part of this course.

HRT-109 Hospitality Marketing Management
This course examines the market environment in which a firm operates. The course covers communications principles and their application to sales goals. It considers effective utilization of tools and techniques of merchandising in hotels and restaurants. Prerequisite: Principles of Management and Service in Hospitality (HRT-121).
HRT-112
Food & Beverage for Hospitality Prof
This course covers the operations of dining and lounge services as they relate to the tasks of effective use of dining space, job assignments, and labor cost control. The course also covers these elements in relationship to optimum staffing, scheduling and productivity analysis. In addition, students discuss and practice issues in training personnel, and quality guest services. A special emphasis is placed on brand recognition, company philosophy, marketing, sales, and beginning hospitality accounting to include basic financial statements.

HRT-117
Hospitality Law
This course examines the common and statutory law of the hospitality and tourism industry. The legal aspects of hotel and restaurant operations, employment law, tort liability, civil rights law and Americans with Disabilities Act compliance are also addressed.

HRT-119
Basics of Meeting Management
This course covers applied knowledge and skills that students need to plan professional meetings and events. The course takes students through the step-by-step process that exposes them to the decisions, problems, and concerns of planning effective meetings and programs that constitute a professional conference. The class format requires students to undertake a team project based on a variety of typical professional specifications.

HRT-121
Principles of Management and Service in Hospitality
This course introduces the principles of sound business management, focusing specifically on the unique needs of service industries. Students will understand the business structures and strategies used in hospitality. Particular focus will be paid to communication skills, managing people, and ensuring quality service within the hospitality and travel industries.

HRT-122
Managing Groups
This course introduces students to group sales, support and tour management. Students will learn the skills necessary to handle the management of large groups of people over different modes of travel and to different destinations. Prerequisite: Basics of Meeting Management (HRT-119).

HRT-125
Principles of Hospitality Finance and Accounting
This course encompasses basic accounting principles within the unique context of the hotel industry and financial management strategies of tourism-based businesses. Emphasis is placed on how to administer accounting procedures to minimize cost and maintain a full range of customer services. Topics include: cash flow cycle, accounting principles and procedures, elements of financial statements, maintaining financial statements, and analysis of financial records. Prerequisite: Principles of Accounting I (ACC101).

HRT-131
Front Office Operations
This course covers the responsibilities of management including principles of front-office procedures, accounting fundamentals and supervisory and communication skills as they relate to the various support departments that impact the guest cycle. It includes training on front desk software.

HRT-133
Culinary Theory in Hospitality
Students gain knowledge in the use of tools and equipment while learning basic procedures related to preparation and cooking. Students learn basic menu construction and presentation used in the development of full menus utilized in a quantity food production facility. The course emphasizes cooking techniques, terminology, equipment use, and commercial kitchen operation, as well as proficiencies in knife skills and uses of various culinary tools. Additional expenses may include supplies, equipment, and/or uniforms.

HRT-151
Casino Operations Management
This course provides the student with an overview of casino operations. It covers forms of gaming, gambling, destinations, and organization of a Casino Resort. The course offers students insight into the various career paths available within this unique and thriving industry.

HRT-210
Hotel/Rest/Tour Field Exp Internship
This course integrates classroom study with practical work experience. Under the guidance of a site supervisor and a faculty member, the experience helps students to shape career goals and to gain valuable work experience. Prerequisite: Principles of Management and Service in Hospitality (HRT-112).

HRT-223
Event Planning
This course covers applied knowledge and skills that students need to plan professional and non-profit events. The course takes students through the step-by-step process and the decisions, problems, and concerns of planning special events. The class format requires students to undertake a team project based on a variety of typical professional specifications. The specific needs of producing social functions, concerts, corporate events and sporting events are discussed in detail. The needs and goals of various fund-raising programs are also explored. Prerequisite: Basics of Meeting Management (HRT-119).

HRT-229
Corporate Travel Management
This course discusses the budget-driven needs of corporate travel purchasers and the convenience-based needs of the corporate traveler. The goal of the course is to use knowledge acquired in previous courses to control the travel spending of a corporation. This changes the focus from service, which is stressed in almost every other Hospitality course, to cost control. The role of the effective Travel Manager, who is challenged to balance these two competing needs in a corporate travel department, is studied.

HRT-231
Advanced Lodging Operations
This course continues to explore the functions of hotel management including Food and Beverage, Engineering, Housekeeping, Security and other “back of the house” issues. Students will complete their understanding of management technique and the lodging environment. Prerequisite: Front Office Operations with Technology Component (HRT131).

Human Services

HSV-101
Intro Human Services W/Field Practice
This introductory course covers the historical aspects of human services, the requirements and skills of the human services worker, administration and funding of agencies, and the dynamics of work in the profession with a 15 contact hour (per semester) service learning requirement at a human service organization. Prerequisites: Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ELSL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-093) or exemption by placing into higher level courses.

HSV-112
Addiction
This course investigates the biological, psychological, and emotional forces involved in professional requirements and reviews the major classes of psychoactive drugs by examining drug action, uses, and limitations. Social problems and the role of human services in prevention and intervention play an integral role in this course. Prerequisites: Principles of Psychology (PSY-101) and grade of C or higher in Academic Reading III (ELSL-098) or Reading Skills II (RDG-095) and Writing Skills II (ENG-095); or Integrated ELL Level III (ELL-093) or exemption by placing into higher level courses.

HSV-214
Ethics in Human Services
This course provides students with the knowledge and skills required to identify ethical issues and to resolve ethical dilemmas when confronted with conflicting ethical issues that occur within the context of professional human service work at all levels of practice. Prerequisites: College Writing I (ENG-111) and Introduction to Human Services w/Field Practice (HSV-110) and Addiction (HSV-112).

HSV-215
Introduction to Substance Abuse Counseling
This course provides an introduction to human services and addictions, including the types of clients served, the duties of human service personnel, philosophy and dynamics of additions treatment and an overview of state and community resources. Case studies are used to examine the development, identification, dynamics and recovery of addicts. Prerequisites: Addiction (HSV-112) and Counseling (PSY-215).

HSV-216
Pre-Practicum Prep With Field Experience
This course is designed to provide an orientation to practicum experiences in the human services program. Students will review the process for setting up a placement, understanding professional requirements for an interview, and complete a series of critical thinking and reflective assignments. A placement experience in a human service agency is required by the course following a CORI background check. A grade of B or higher is required in this course to allow for enrollment in further practicum coursework in the program. Prerequisites: College Writing I (ENG-111). Pre/corequisites: Introduction to Human Services with Field Practice (HSV-101) and Addiction (HSV-112) and Counseling (PSY-215) and Adolescent and Adult Development (PSY-224).
HUM-120 Self, Culture and Society 3 Credits

This course uses a critical lens to examine the interrelationship among self, culture and society by integrating academic knowledge with personal experiences. Students engage in inclusive dialogue, create knowledge using diverse forms of media, personalize and map future goals, and explore career pathways. This course is designed to cultivate community among classmates and provide opportunities for mentorship by faculty, peers, and advisors. Students reflect on their role in creating a more just society that advances equity and values community cultural wealth. Each course section examines self, culture and society through a specific academic theme. Students choose a section based on their interests. This course satisfied the General Education Elective requirement.

INTERDISCIPLINARY

INT-101 Introduction to Yoga Studies 3 Credits

This course explores yoga, a diverse form of artistic human expression through an interdisciplinary perspective-from its origins to present day therapeutic applications for the mind, body, and spirit. Students will also examine multi-cultural beliefs on healing and healing traditions. Through writing assignments, students will reflect critically on their own practice and on topics introduced in the readings/discussions. The course will include an in-class yoga practice that will allow students to integrate course concepts with their yoga practice “on and off the mat” as students will apply yogic principles to their lives through self-reflection, civic engagement and service. This course is geared to students with no prior yoga experience. Students need to wear clothing that allows for freedom of movement as there will be a physical practice in each class meeting. This course meets the General Education Elective Area. Prerequisites: A grade of C or higher in Writing Skills I (ENG-095) and Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

INT-110 American Culture 3 Credits

This interdisciplinary course focuses on the historical evolution of American beliefs and values and is designed for students from other cultures. Students study the way these values have shaped U.S. contemporary institutions such as education, business, the government, and the family. The course examines extensive cross-cultural comparisons with the students’ native cultures. Materials include film, music, and short works of literature. The course satisfies the College’s General Education requirement for “Creative Work.” Prerequisite: Academic Reading I (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

INT-123 Parenting Across Cultures 3 Credits

This is an interdisciplinary course that compares and contrasts various parenting methodologies as they express a culture’s underlying values and system of beliefs. We will look at the effects of parenting styles on child development and the parent-child relationship. Students will examine the way in which they were parented and will reflect on how they intend to parent their own children. Cross-cultural comparisons will be made with classmates from other cultures and backgrounds. Special attention will be given to parenting in bi-cultural families, and the issues that ensue when there are contrasting parenting styles in one family. Competing parenting styles in non-traditional cultures like the U.S. will also be examined. Prerequisites: A grade of C or better in Academic Reading II (ESL098) and Academic Writing III (ESL099) or Reading Skills II (RDG095) and Writing Skills II (ENG095), or exemption from writing and reading requirements by placement testing.

INT-299 Parenting Across Cultures 3 Credits

Learn and Earn Business Internship Interdisciplinary internship course.

INT-299B Learn and Earn Biotech Internship Interdisciplinary internship course.

INT-299CSC Learn & Earn Computer Science Intern Interdisciplinary internship course.

INT-299CU Learn and Earn Culinary Internship Interdisciplinary internship course.

INT-299E Learn and Earn Engineering Internship Interdisciplinary internship course.

INT-299G Learn and Earn Graphic Internship Interdisciplinary internship course.

INT-299H Learn and Earn Hospitality Internship Interdisciplinary internship course.

INT-299HO Learn and Earn Hospitality Internship Interdisciplinary internship course.

INT-299IT Learn and Earn Info Tech Internship Interdisciplinary internship course.

INT-299MC Learn and Earn Media Internship Interdisciplinary internship course.

INT-299O Learn and Earn OIM Internship Interdisciplinary internship course.

INT-299P Learn and Earn Paralegal Internship Interdisciplinary internship course.

ITALIAN

ITAL-101 Elementary Italian I 3 Credits

This course introduces students to the sounds and structures of Italian with emphasis on the acquisition of a limited but practical vocabulary and is designed for students with little or no previous knowledge of Italian.
ITL-102 Elementary Italian II
This course is a continuation of Elementary Italian I (ITL101), emphasizing speaking and reading skills. The course satisfies General Education requirement "Creative Work". Prerequisite: Elementary Italian I (ITL-101) or one year of high school Italian. This course is offered in alternate years.

ITL-201 Intermediate Italian I
A review of basic language skills with increasing emphasis on conversational and readings skills. Prerequisite: Elementary Italian II or two years of high school Italian.

ITL-202 Intermediate Italian II
A continuation of Intermediate Italian (ITL201) with greater emphasis through speaking, reading, and writing. Prerequisite: Intermediate Italian I (ITL201) or three years of high school Italian.

Japanese

JPN-101 Elementary Japanese I
This course is an introduction to the sounds and structures of the Japanese language with emphasis on the acquisition of a limited but useful vocabulary. The course is designed for students who want to learn essential Japanese as quickly and as effectively as possible. Students read and write Hiragana and look into the world of Japan. This course is not intended for native speakers or students who have studied this language within the last three years.

JPN-102 Elementary Japanese II
This course covers a continuation of the study of basic structures of the Japanese language. The course stresses additional useful vocabulary through reading, writing, and conversation. The course covers material that allows students to learn essential Japanese as quickly and as effectively as possible. The course emphasizes encouraging and helping students to obtain the ability to use the Japanese language in practical situations. It emphasizes student ease in interacting and communicating in an uncomplicated but adult language. Students read Kana and some basic KANJI. The course meets General Education requirement for Creative Work. Prerequisite: Elementary Japanese I (JPN-101).

JPN-201 Intermediate Japanese I
This course offers instruction in intermediate Japanese. Students will learn how to communicate and express various ideas. Students will learn how to form long and detailed sentences with emphasis on conversational skills. In addition, they will learn how to read and write some basic Kanji. Various aspects of Japanese culture and customs will be introduced and discussed throughout the semester. Prerequisite: Elementary Japanese I (JPN102) or equivalent.

JPN-202 Intermediate Japanese II
This course turns to the basics of Japanese syntax in order to lead the student to the acquisition of increased proficiency in the modern Japanese language. The course is designed to help learners consolidate their understanding of syntactical structures through lessons that focus on how to talk about topics relevant to daily life. This will increase students' comprehension skills, and it will lead to stronger skills in reading and writing. Students at this stage are expected to become familiar with different forms of verbs (tense and aspect, etc.), tenses, expressions, conditional clauses and other topics that prepare them to have a solid grasp of context and speaker intent. Students also learn more KANJI. Prerequisite: Intermediate Japanese I (JPN201) or equivalent.

Literature

LIT-201 Introduction to Literature
This course develops students’ ability to interpret, analyze, evaluate, and respond to ideas about literature. Students explore the nature, structure, and form of poetry, short stories, and drama. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-203 Literature in America I
This course traces the physical, moral, and psychological development of an emerging nation through its literature. The course examines themes of sin, guilt, justice, and equality in the historical movement of the nation from colonial settlement to westward expansion. The course includes works representative of the ethnic and racial diversity of American culture. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-204 Literature in America II
This course analyzes the crises of the nation from the Civil War through the twentieth century, as shown through its literature. The course examines the themes of progress, materialism, alienation, and corruption against the yardstick of opportunity, heroism, and individualism, which represent the traditional American dream. The course includes works representative of the ethnic and racial diversity of American culture. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-205 English Literature I
This course examines major themes, techniques, and genres in English literature from Beowulf to Samuel Johnson. Students read and discuss such authors as Chaucer, Spencer, Shakespeare, Donne, Milton, Addison, Gray, and Johnson. The list may vary. This course meets General Education Humanities Requirement Area 6. Pre/corequisite: College Writing I (ENG-111).

LIT-206 English Literature II
This course continues the survey of English literature by studying themes, techniques, and genres from the Romantic poets to the modern writers such as J. Joyce, Lawrence, and Eliot. The list may vary. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-207 Literature and Society
This course explores the role of literature as a mirror of the values and conflicts of a changing society. It also examines stereotypes associated with minorities and illustrates the role of literature in alerting society to social and moral injustice. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-211 Masterpieces of World Literature I
This course considers the landmarks of literature, from ancient times to the eighteenth century, which have shaped, reflected or criticized Western thought. The faculty select readings from Homer, Greek Drama, the Bible, Dante, Medieval Romance, and Shakespeare. Faculty may couple these readings with their contemporary versions or transformations by such twentieth century writers as Sartre, O’Neill, MacLeish, Stoppard, and J oyce. The list may vary. The course satisfies General Education requirement “Creative Work”. Pre/corequisite: College Writing I (ENG-111).

LIT-212 Masterpieces of World Literature II
This course continues the examination of the great works of the humanist tradition. Faculty select readings from the eighteenth century to the twentieth century from Moliere, Swift, Voltaire, Chekhov, Ibsen, Tolstoy, Coetzea, Emerson, Dostoevsky, Maupassant, Turgenev, Zola, Kafka, Singer, Bellow, Mishima, Orwell and Eliot. The list may vary. The course also includes an international studies module of the contemporary literature of Africa, Asia, and Latin America. The course satisfies General Education requirement “Creative Work”. Pre/corequisite: College Writing I (ENG-111).

LIT-217 Children’s Literature I
This course introduces students to children’s literature in all its forms, from fables to fairy tales, from realistic fiction to fantasy, from nonsense to narrative poetry. The course covers works both classic and contemporary. The course satisfies General Education requirement “Creative Work”. Pre/corequisite: College Writing I (ENG-111).

LIT-218 Children’s Literature II
As follow-up to Children’s Literature I (LIT-217), this course focuses on one of the most significant themes in literature, particularly in works written for children and young adults: the search for identity. The course examines full-length works, classics, contemporary novels and works of fantasy that explore this theme. Discussion topics may include hero-worship, self-reliance, society’s view of the child, the impact of environment, and peer pressure. The course closely examines narrative techniques, especially point of view. The department recommends that students complete Children’s Literature I (LIT-217) prior to taking this course. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-219 African Literature
This survey course of contemporary African literature exposes students to the diversity of the themes, styles and modes of expression peculiar to the enormous continent of Africa. Students study the oral tradition as it is reflected in folktales, stories, and poems. In addition to reading essays and articles about social and historical conditions that faculty members of the continent, students read numerous short stories and at least three novels, each reflecting the culture of a different region of the continent. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-220 Contemporary African American Literature
The course will survey literature by African American authors from the last half of the twentieth century to the present day. We will examine poems, essays, novels and lyrics to...
explore the Civil Rights Era, Black Feminism, Hip Hop, LGBTQ issues, and the growing number of authors across the African diaspora who write about the African/African American experience. Among those we will explore are the oral tradition; the positive and negative effects of the Black arts movement; the re-envisioning of slave narratives and modern imagination; intersections of race and sexuality; and cross cultural identities. Students will also explore Boston as a living site for the development of African American literature by visiting museums, landmarks, and attending readings by local African American authors. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-221 Latin American Literature 3 Credits
This course examines the uniqueness of the Latin American experience as expressed in its literature. The course gives particular attention to those works that reflect the social, political, ethnic, or cultural values of Latin America. The course also examines the impact of Latin American themes and literary techniques on contemporary world literature. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-223 Immigrant Experience in Literature 3 Credits
The course explores the experience and contributions of the many ethnic groups who have shaped American culture. Short stories, novels, plays, essays, and poems present the bi-cultural American story told both by those whose roots have been long established in this country and by those who have more recently arrived. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-224 Middle East Literature 3 Credits
This course examines the literature of the Middle East and provides students with an understanding of the impact of religion, tradition, and politics on the lives of people. Students read, analyze, and discuss a variety of letters, historical documents, short stories, and novels in an effort to understand Middle East cultures in their dimensions. The course fulfills a requirement for World Studies Emphasis certification. The course satisfies the General Education requirement "Creative Work." Pre/co-requisite: College Writing I (ENG-111).

LIT-225 Introduction to Dramatic Literature 3 Credits
This course examines selected plays in an historical context to provide students with a basic awareness of theater development from ancient Greek drama to contemporary plays. The selection may vary from semester to semester. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-227 African American Literature 3 Credits
This course is an introduction to the study of African American literature from slave narratives to classical twentieth century novels to contemporary poetry and short stories. The course satisfies the General Education requirement "Creative Work." Pre/corequisite: College Writing I (ENG-111).

LIT-229 Sophocles & Shakespeare 3 Credits
Through an exploration of plays by Sophocles and Shakespeare and critical readings based on the plays, the course will focus on themes that include prophecy and free will; speaking the truth to power; defining evil; and, finally, confronting evil. This is an Honors course, which counts as an Honors course requirement for students in the Commonwealth Honors Program. Prerequisite: College Writing I (ENG-111) with a grade of B or higher or permission of the instructor.

LIT-230 Asian American Literature 3 Credits
This course examines the experiences of Asian American women and men living in the Americas. Although Asian Americans have lived in the U.S. since the 1700s, their stories have remained largely untold in mainstream American literature, the media, and the dominant society. Therefore, the purpose of this course is to examine these histories through literature and film. The course explores similarities and differences of women and men who have come from various parts of Asia and immigrate to the Americas and the challenges Asian American women and men face. Topics the course addresses include national origin, class, sexuality, and language. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

LIT-231 Mystery and Detective Fiction 3 Credits
This course will introduce students to the art of mystery and detective fiction, surveying the short story and novel form from its Edgar Allan Poe roots through contemporary developments in the genre. It will include works by well-known mystery writers such as Arthur Conan Doyle, Raymond Chandler, Agatha Christie, Sara Paretsky, and Walter Mosley as well as literary authors whose work shares elements of the mystery genre. This course meets the General Education requirement for Creative Work. Pre/corequisite: College Writing I (ENG-111).

MAM-111 Mammography Principles I 3 Credits
This interactive, web-based course presents the concepts of equipment design, technical factors and compares analog to digital mammography equipment and techniques. Quality assurance and special patient situations, as well as interventional procedures will also be discussed. Prerequisite: Acceptance into Mammography Certificate Program.

MAM-211 Mammography Clinical Internship 3 Credits
This interactive, web-based course presents the Mammography Principles II concepts of equipment design, technical factors and compares analog to digital mammography equipment and techniques. Quality assurance and special patient situations, as well as interventional procedures will also be discussed. Prerequisite: Mammography Principles I (MAC-111).

MAC-299 Mammography Clinical Internship 3 Credits
This 100-hour clinical introduction will enhance the academic experience for students by introducing them to the clinical practice of mammography. Students are responsible for providing their own clinical site. Clinical sites must be pre-approved by program faculty. Students must comply with the Clinical Policies, as stated in the Student Manual before attending clinical. Criminal Offender Record Information (C.O.R.I.) checks will be conducted on all students before placement, and the outcome may impact the student’s ability to participate in the internship experience. Health clearance is also required prior to participation. Prerequisite: Mammography Principles I (MAC-111).

MAN-105 Principles of Marketing 3 Credits
This course is a study of the basic principles of marketing and the application of these principles in today’s changing competitive environment. The focus of this course is on the behavior of the consumer market and the product, pricing, promotion and distribution decisions employed to create consumer satisfaction. Prerequisites: Academic Reading III (ESL-091), Academic Reading Skills II (RDG-095) and Academic Writing III (ESL-099) or Writing Skills I (ENG-090) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.
MAN-106 International Marketing
This course covers the study of marketing strategies adapted to fit the special requirements of international marketing structures, as well as the effect of cultural, political, and legal environments. Students examine the marketing forces that play an important role in deciding the feasibility of internationalizing a product. Prerequisite: Principles of Marketing (MAN-105).

MAN-107 Introduction to Entrepreneurship
This is an introductory course for those interested in starting or running their own business. Students will study the history and role of entrepreneurship in industrializing societies and the factors that contribute to its success. Students will be exposed to the skills and behaviors which lead to success. Prerequisites: Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-111 Principles of Management
The skills and functions, theories and principles of management are studied in respect to the social-cultural environment within which a firm operates. An emphasis on decision-making, organizational structure and systems design provides a framework for examining the application of management concepts in the modern business world and the evaluation of organization problems and issues. Prerequisites: Introduction to Business (BUS-101) for Business Concentration, Management and Finance options only. A grade of C or higher in Academic Reading III (ESL-098), Academic Reading III (ESL-099) or Reading Skills II (RDG-095) and Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-112 Organizational Behavior/Design
Organizational behavior and design, social systems and contemporary management issues are explored and experienced, with an emphasis on the interrelationship of culture, organizational structure and policies upon individual, group and organizational performance. Topics include: leadership styles, learning, motivation, group structure, decision-making, group dynamics, and problem solving. Concepts and issues of power, conflict, change and organizational processes that impact interpersonal or social settings, group interactions or the workplace environment are examined. Satisfies the General Education Elective requirement. Prerequisite: Academic Reading I (ESL-096) and Academic Reading III (ESL-099) or Reading Skills II (RDG-095) and Writing Skills I (ENG-090); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MAN-201 Management Seminar
Engaged in diagnosing business issues and managerial problems posed through actual real life case studies, students conduct strategic analysis in a variety of individual and competitive situations. Teams identify strategic issues; propose workable plans of action; explain, present and defend their assessments; where applicable, drawing upon prior course study/life experiences and library and Internet research to convert a sound industry/business analysis into a sound, realistic, action agenda supported by evidence. Note: This course is a Capstone course and should be taken in the student’s final semester. Prerequisite: Principles of Management (MAN-111) and Principles of Marketing (MAN-105).

MAN-204 Entrepreneurship and Innovation
In this course, students develop the skills and creativity to cultivate and market innovative ventures. This course uses an experiential approach to provide students with a foundation for innovative thinking and to prepare them for entrepreneurial projects. The class examines entrepreneurial theories, practices and thought processes. In critical thinking exercises, students examine the differences between entrepreneurship and innovation. Through case study reviews and other activities, the class evaluates the viability of new business enterprises and develops strategies to market them successfully. Prerequisite: Introduction to Entrepreneurship (MAN-107) or instructor approval.

MAN-207 Small Business Management
Starting and managing a small business requires strong leadership capabilities and unique business and management skills. The purpose of this course is to introduce students to the issues small business owners must understand to become a successful start-up or to manage an existing business successfully. The practitioner-oriented course focuses on helping students understand their leadership capabilities and to compare their capabilities with the necessary requirements. Students will prepare a business plan to help understand the importance of effective planning and conduct a field study that involves surveying successful small business owners to understand how these owners successfully manage their businesses. Prerequisite: Principles of Accounting (ACC-102) or Accounting Information Systems (ACC-105), Principles of Management (MAN-111) and Principles of Marketing (MAN-105) or permission of instructor.

MAN-215 Project Management
This course examines concepts and applied techniques for cost-effective management of both long-term development programs and smaller short-term projects. Special focus on planning, controlling, and coordinating efforts of multiple individuals and/or working groups, such as those found in large scale software and engineering programs, and in critical research and development projects. Case studies and classroom simulations are used extensively to teach students how to integrate analytical/technological tools and organizational design and supervisor approaches. Prerequisites: Application/Concepts (CIT-110) and Foundations of Algebra (MAT-097) and Principles of Management (MAN-111). Students enrolled in the Gas Utility Technology degree must complete IT Problem Solving (CIT-113) and Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) and Pre/corequisite: Leadership for the Utility Professional (CIT-110).

MAN-299 Business Internship
This course enhances the academic experience for students. All internships take place at pre-approved sites. Students engage in activities that improve knowledge of the practical world of work and help them gain professional experience. The internship experience applies resources gained from students' study to improve the quality of their contributions to the employer. A faculty coordinator supervises and grades all courses. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: Permission of the department chair.

Math

MAT-093 Foundations of Mathematics
Topics include solving applied problems with whole numbers, decimals and fractions; ratios and proportions; rates; percentages and applications in sales tax, interest, commissions, and discounts; determining numerical averages and medians; exponents and square roots; measurement; and geometry. Technology is incorporated to facilitate problem solving. This course does not satisfy degree requirements. Course requires an additional lab hour. Upon completion of this course with a grade of C or higher, students enroll in Foundations of Algebra (MAT-097).

MAT-097 Foundations of Algebra
This course is a continuation of Foundations of Math (MAT-093). Topics include algebraic expressions, solving and graphing linear equations and inequalities, exponents and scientific notation, introduction to polynomials, and systems of linear equations and their graphs. Technology is incorporated to facilitate problem solving. This course does not satisfy degree requirements. Prerequisite: Grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level course. Course may require an additional lab hour.

MAT-098 Pre-Statistics
This is a substitute for Foundations of Algebra (MAT-097) for non-STEM students who will be taking Statistics I (MAT-181) for their program requirements. Students will be able to summarize and analyze data distributions both numerically and graphically. They will explore the concepts of slope, intercepts, inequalities, correlation and regression will be discussed. The concept of probability and probability distributions will be introduced for both discrete and continuous variables. This course does not satisfy degree requirements. Prerequisite: Grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level course.

MAT-099 Intermediate Algebra
This course is a continuation of Foundations of Algebra (MAT-097). Topics include the solving of polynomial arithmetic, introduction to functions, factoring, roots and radicals, rational expressions, absolute value inequalities, quadratic equations and the quadratic formula, and solving applied problems. This course does not satisfy degree requirements. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or exemption by placing into higher level course. Course may require an additional lab hour.

MAT-106 Topics in Career Math
This course applies basic arithmetic techniques to the following business topics: percentage, trade and cash discounts, merchandising, depreciation, simple and compound interest, and present value. The course covers additional topics that facult choose from taxes, payroll, statistics, insurance, notes and drafts, installment buying, checking accounts, inventories, costing out, and the metric system. This course is appropriate only for Associate in Science students in Culinary Arts. Prerequisite: Grade of C or higher in Foundations of Mathematics (MAT-093) or exemption by placing into higher level course.
MAT-133 Introduction to Metric System
This course enables students to recognize and use metric terms, roughly measure using body parts, and use estimation within the metric system.
3 Credits

MAT-171 Finite Mathematics
Set theory, coordinate systems and graphs, matrices and linear systems, linear programming, and probability are considered in this course. Applications to business and the social sciences are emphasized. This course meets General Education requirement for Quantitative Problem Solving. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.
3 Credits

MAT-172 Contemporary Math I
This course covers varied mathematical topics that have applications in contemporary society. Topics include mathematical logic (inductive/deductive reasoning, truth tables, statements, inverse, converse, contrapositive), the real number system, modular arithmetic, numeral systems (base n), number theory (primes, GCF, LCM, Euclidean Division), and patterns and sequences. The course encourages students to interpret, analyze, and evaluate from a mathematical perspective and will incorporate the use of technology or digital media as appropriate. The course meets the General Education requirement for Quantitative Problem Solving. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.
3 Credits

MAT-174 Quantitative Reasoning
This course is designed for students in non-STEM programs of study and fulfills the General Education Requirement for Quantitative Problem Solving. Topics include descriptive statistics, probability, growth phenomena (linear, exponential, and logarithmic), and financial mathematics. There is an emphasis on applications using technology. Spreadsheet software will be integrated into the course and a scientific calculator is required. Prerequisite: A grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.
3 Credits

MAT-181 Statistics I
This course covers statistical concepts and methods. Topics include data organization, averages and variation; elementary probability; binomial, normal, and t-distributions; estimation and hypothesis testing; and linear correlation and regression. The course meets the General Education requirement for Quantitative Problem Solving. Prerequisite: Grade of C or higher in Foundations of Algebra (MAT-097) or Pre-Statistics (MAT-098) or exemption by placing into higher level course.
3 Credits

MAT-193 Topics in Algebra/Trigonometry
This course provides an intensive one-semester survey of topics in algebra and trigonometry. Topics include powers of ten, formulas, graphs, simultaneous equations, logarithms, right triangle trigonometry, vectors, sine waves, and complex numbers. Topics are illustrated by applications from electronics and other fields. Use of scientific calculator is required. Prerequisite: Placement or grade of C or higher in Fundamentals of Algebra (MAT-097) or exemption by placing into higher level course.
3 Credits

MAT-194 College Algebra for STEM
This course is designed for science, technology, engineering, computer science, and mathematics students and provides a solid preparation for Precalculus. The course will focus on functions and their graphs (polynomial, absolute value, rational, radical, piecewise, exponential and logarithmic functions, algebra of functions, analyzing functions, and related applications). Additional topics include: equations and inequalities, complex numbers, conic sections, systems of equations, partial fractions, linear programming, and an introduction to matrices. Technology and digital media resources will be incorporated. Prerequisite: Intermediate Algebra (MAT-099) with a grade of C or higher or exemption by placing into higher level course. The course meets the General Education requirement for Quantitative Problem Solving.
4 Credits

MAT-197 Precalculus
This course covers the following topics: functions and their graphs, polynomial functions, rational and radical functions, exponential and logarithmic functions, elements of trigonometry and trigonometric functions, analytic trigonometry, and sequence and series notation. A graphing calculator is required. Prerequisite: A grade of C or higher in College Algebra-(STEM) (MAT-194) or exemption by placing into higher level course.
4 Credits

MAT-197 Linear Algebra
This course will include linear systems of equations, matrix operations, determinants, linear dependency, vector spaces, linear transformations, eigenvalues and eigenvectors. Proofs by mathematical induction and contradiction will be incorporated. Emphasis will be placed on mathematical structure and axiomatic reasoning aided by the use of computer software. Material on linear systems will be incorporated. Prerequisite: Grade of C or higher in Calculus II (MAT-282).
4 Credits

MIG-101 Introduction to Ultrasound
This course provides introductory exposure to the field of diagnostic medical sonography. The history and development of the modality as well as relevant medical terminology and vocabulary will be presented. Other topics discussed include caring for patients across cultural lines, the role of a sonographer in the medical field, and the prevention of repetitive strain injuries. Prerequisite: Acceptance into the Ultrasound program or the General Sonography program.
2 Credits

MIG-105 Ultrasound Physics and Instrumentation
This course provides students with the theory of ultrasound physics and instrumentation. Topics will include the characteristics of sound waves and the way in which ultrasound is utilized in imaging. Propagation of sound, attenuation and acoustic impedance as well as reflection and scattering will be discussed. Ultrasound equipment components, including color Doppler will be examined. Prerequisite: Acceptance into the Cardiac Sonography Program or the General Sonography program.
3 Credits

MIG-106 Introduction to Cardiac Scanning
This course prepares the adult echo student for future clinical placement. Emphasis in this course will be placed upon orienting the student to the cardiac ultrasound and related ultrasound systems. Topics covered will include cardiac anatomy, and standard imaging planes and acoustic views utilized in Cardiac Ultrasound. The student will begin to practice necessary scanning skills for placement into Cardiac Sonography Clinical I. Prerequisite: Acceptance into the...
Cardiac Sonography Program. Corequisites: Introduction to Ultrasound (MIG-101) and Ultrasound Physics and Instrumentation (MIG-105) and Patient Care in Medical Imaging (MIG-109).

**MIG-107**
2 Credits
*Introduction to Medical Radiography*

This course covers introductory exposure to the fields of medical radiography and ultrasound. The course covers the history of development of the two modalities, as well as an introduction to radiation protection. The importance of communication between the radiographer and the patient, and the role of the radiographer will be stressed. Other topics will include legal and ethical issues in radiography and medical terminology. 

**MIG-109**
4 Credits
*Patient Care for Medical Imaging*

This lab course covers organization and standards of the medical establishment; basic patient care procedures including vital signs, safety, immobility, body mechanics, and medical asepsis; CPR, and basic EKG; oxygen administration, and venipuncture skills. The importance of communication between the radiographer and the patient will be stressed. Simulated laboratory sessions offer students an opportunity to return demonstrated techniques. Co-requisite: Introduction to Medical Radiography (MIG107) or Intro to Ultrasound (MIG101).

**MIG-111**
3 Credits
*Imaging Technology I*

This course covers topics in physics of special significance in radiography. Specific areas include Newton's Laws, and the concepts of mass, force, energy, work, and power. It includes the study of Einstein's energy equation, the Heisenberg Principle, and quantum concepts. A computer component introduces students to the principles and background of computers. Co-requisite: Acceptance to Medical Radiography Program, Cardiac Sonography or General Sonography Program, or completion of MIG-101.

**MIG-112**
3 Credits
*Echo I*

This course covers a comprehensive study of adult echocardiography. It begins with an introduction to cardiac embryology, M-mode, two-dimensional and Doppler, and color Doppler technique. The course also covers transducer orientation and ultrasound appearance of the normal heart and abnormal echo findings in such conditions as valvular heart disease, pericardial disease, and cardiac tumors. Prerequisite: Introduction to Ultrasound (MIG101).

**MIG-115**
4 Credits
*Interpretation I*

This course covers an integrated approach to the echocardiography technique. Students view the Mayo Clinic tapes and discuss the basic anatomy, transducer positions, and patient preparation that are necessary in the performance of these examinations. Students practice their skill in a hands-on setting and relate this experience to the didactic material presented in their echo classes and on the Mayo tapes. Students discuss pathologic processes to further enhance their understanding of the echo presentation of various valve and heart diseases. Prerequisite: Patient Care for Medical Imaging (MIG109).

**MIG-119**
3 Credits
*Echo II*

This course is a continuation of the material introduced in Echo I and Interpretation I. The focus of this course will be on left ventricular function in both systole and diastole. Other topics covered in detail will include cardiomyopathies, and coronary artery disease. A strong emphasis will be placed on cardiovascular physiology as it relates to the disease entities discussed. Sonographic technique, including Doppler will be covered as it relates to the evaluation and diagnosis of cardiac diseases. Prerequisite: MIG-112 & MIG-115. Co-requisite: MIG-205

**MIG-120**
3 Credits
*Radiologic Imaging I*

Using lecture and lab sessions, this course presents an introduction to the basic elements necessary for the production of the radiographic image. Course content will include but not be limited to: the role of the radiologic technologist on the healthcare team, the function of the PACS in today's digital department, digital image receptors, CR, indirect and direct DRL, analog imaging systems, latent image formation, processing, filtration and beam reducers, and technique. Prerequisite: Introduction to Medical Radiography (MIG 107).

**MIG-122**
3 Credits
*Positioning I*

This course covers basic principles of patient positioning as applied to medical radiography. The course provides both lecture and lab experiences to help students achieve competency in radiographic examination of the chest, abdomen, and upper and lower extremities. Co-requisite: Full-Time Medical Radiography Clinical I (MIG124F) or Part-Time Medical Radiography Clinical I (MIG124P).

**MIG-124P**
2 Credits
*Full Time Medical Radiography Clinical I*

This course introduces students to the hospital and its radiology department. The course centers activities on observation and assisting with various basic radiographic procedures. Students begin to develop competency in the performance of radiographic examinations of the chest, abdomen, and upper extremities. Additional expenses may include supplies, equipment, online tracking software, and/or uniforms. Course meets two (2) days/week with 16 hours of clinical practice weekly.

**MIG-124F**
2 Credits
*Part Time Medical Radiography Clinical I*

This course introduces students to the hospital and its radiology department. The course centers activities on observation and assisting with various basic radiographic procedures. Students begin to develop competency in the performance of radiographic examinations of the chest, abdomen, and upper extremities. Additional expenses may include supplies, equipment, online tracking software, and/or uniforms. Course meets two (2) evenings/week with 8 hours of clinical practice weekly.

**MIG-126**
3 Credits
*Positioning II*

Using lecture and lab sessions, this course helps students achieve competency in the performance of radiographic examinations of the vertebral column and pelvic girdle. In addition, students study the principle of contrast agent administration in conjunction with radiographic examination of the urinary system, upper and lower gastrointestinal tract and gall bladder. Prerequisite: Positioning I (MIG122). Co-requisite: Full Time Medical Radiography Clinical II (MIG128F) or Part Time Medical Radiography Clinical II (MIG128P).

**MIG-128**
1 Credit
*Part Time Medical Radiography Clinical II*

This course covers a continuation of the clinical experience. Students assist in and observe an increasing number of different radiographic examinations as studied in Positioning I (MIG122). Additional expenses may include supplies, equipment and/or uniforms. Course meets two (2) days/week, with 16 hours of clinical practice weekly. Prerequisite: Full-Time Medical Radiography Clinical I (MIG124F).

**MIG-131**
4 Credits
*Imaging Informatics I*

This introductory hybrid course presents major concepts of state-of-the-art imaging informatics and Picture Archiving and Communication Systems (PACS) administration. Topics presented include but are not limited to: DICOM, DICOM associations, ACR guidelines, the PACS system components, functions and required infrastructure, modality integration, security, and HIPAA compliance. The integration of the PACS system with the Hospital Information (HIS) and Radiology Information (RIS) Systems, and the perspective of various stakeholders of the imaging informatics/PACS enterprise environment will be a major focus of this course, with a particular emphasis on the responsibilities of the PACS administrator. Upon completion of this course the student will have the basic knowledge, skills and competencies necessary to administer a PACS system at a fundamental level. Co-requisite: Intro to Diagnostic Imaging and PACS (MIG161).

**MIG-133**
4 Credits
*Imaging Informatics II*

This hybrid course covers the more complex aspects of Imaging Informatics/Picture Archiving & Communication Systems and proceeds to advanced topics including but not limited to: Data management and image display, teleradiology, PACS system security, clinical PACS acceptance, implementation, monitoring and evaluation, common pitfalls and challenges, loading of software onto client servers, archive backup, disaster recovery, DICOM-based Medical Imaging Informatics, the Electronic Health Record, Computer Aided Diagnosis and integration with PACS, training considerations for staff, and new directions in PACS and Imaging Informatics. This course continues to focus on the duties of PACS administration professionals and covers in more depth the relation to and interaction with the Hospital Information (HIS) and Radiology Information (RIS) Systems as well as PACS Internet applications. Upon completion of this course students will have the knowledge, skills and competencies necessary to administer PACS systems. Prerequisite: a grade of C or better in Imaging Informatics I (MIG131).

**MIG-161**
4 Credits
*Intro to Diagnostic Imaging and PACS*

Designed for students with previous experience in Medical Imaging or Computer Science who wish to pursue a career in PACS administration,
this course introduces the students to the history of medical imaging with a focus on state-of-the-art diagnostic imaging, the DIOMC standard, and the clinical relevance of PACS to the members of the Radiology Department, referring physicians, the overall delivery of healthcare. For additional information and/or syllabus contact CITDepartment@bhec.mass.edu. Prerequisite: Admission to PACS certificate program.

**MIG-201** Echo III

This continuation course of Echo I and II covers advanced cardiac interpretation and echo features of coronary artery disease and valvular heart disease. Students discuss a basics overview of pediatric echo and congenital heart disease. The course reviews related echo material before placement in the clinical sites. Prerequisite: Echo II (MIG119).

**MIG-203** Interpretation II

This continuation course of Interpretation I covers an integrated approach to the echocardiography technique. Students review the Mayo Clinic tapes and discuss the development of skills necessary to exercise independent judgment and discretion in the performance of echocardiographic examinations. Students review and critique weekly case studies. The class uses group demonstrations to highlight the student's knowledge base in the interpretation of normal and abnormal echo features. Prerequisite: Interpretation I (MIG115).

**MIG-205** Vascular Ultrasound

This course covers an introduction to the fundamentals of vascular ultrasound. It includes hemodynamic principles and real-time spectral analysis, and duplex visualization of the cerebrovascular system. Content includes carotid, venous and transluminal Doppler techniques. Additional topics include physiological testing of the arterial system. Prerequisite: MIG 105

**MIG-207** Ultrasound Physics and Instrumentation for the Cardiac Sonographer

This course is a continuation of Ultrasound Physics and Instrumentation and is designed for the cardiac sonographer student to integrate their knowledge of ultrasound physics and instrumentation with clinical practice of actually producing a high-quality diagnostic image. Image quality will be stressed throughout this course through the use of hands-on applications in the ultrasound lab. Additional topics discussed will include: spectral display, image artifacts, bioeffects and safety, as well as discussions relating to 3D ultrasound and contrast agents. Prerequisites: Ultrasound Physics and Instrumentation (MIG105) and Echo II (MIG119).

**MIG-211** Cardiac Sonography Clinical I

This course covers the development of students' skills in the performance of echocardiograms at the clinical sites. Under supervision of their clinical instructor and the BHCC clinical coordinator, students gain knowledge through scanning patients in the clinical setting. Students' performances are evaluated through clinical competencies in each related echo area. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week. Prerequisite: Echo II (MIG119). Co-requisite: Echo III (MIG201).

**MIG-213** Cardiac Sonography Clinical II

This course covers a continuation of clinical practical experience in echocardiography and further refines students' skill in the performance of echocardiograms. Under supervision of their clinical instructor and the BHCC clinical coordinator, students enhance their interpretive skills and continue hands-on experience at the clinical sites. Students' performances are evaluated through clinical competencies in each related echo area. Additional expenses may include supplies, equipment, and/or uniforms. Course meets four (4) days/week. Prerequisite: Medical Radiography Clinical I (MIG211). Co-requisite: Echo IV (MIG215).

**MIG-215** Echo IV/Interpretation

This course covers a continuation of Echo I, II, and III, and deals with advanced echo technique and interpretation. The course covers related procedures such as angio, thalium, muga studies, EKG, and coronary artery sonography. Students compile a folder of exams, videos, and related medical findings to present in class. The class focuses on: Students coordinate the multi-facets of an examination including the interpersonal relationships and professional or ethical situations that may arise. Prerequisite: Interpretation II (MIG203).

**MIG-216** Advanced Interpretation Seminar

This is an interactive course that provides the cardiac sonographer student an opportunity to enhance their cardiac sonography interpretation skills through the use of slides, videos, and CD Rom material of actual case studies. A review of cardiovascular principles and instrumentation will occur and the student will participate in mock registry question segments through the use of ARDM's registry preparation material. Prerequisites: Cardiac Sonography Clinical I (MIG211) and Cardiac Sonography Clinical II (MIG203). Co-requisite: Echo IV/Interpretation (MIG215).

**MIG-217** Cardiac Sonography Clinical III

This course covers a continuation of clinical practical experience in echocardiography. Under supervision of the clinical instructor and the BHCC clinical coordinator, students enhance their skills in performing echocardiograms. Faculty evaluate students' performances through clinical competencies in each related echo area. Students gain competency in the performance of echocardiograms. Students also obtain related experience in examinations such as stress echo and transesophageal. Additional expenses may include supplies, equipment, and/or uniforms. Course meets five (5) days/week. Prerequisite: Cardiac Sonography Clinical II (MIG213).

**MIG-220** Positioning III

This course applies the fundamentals of Positioning I and II to advanced level radiographic examinations. Lecture and lab sessions cover anatomy and radiography of the skull, facial bones, and sinuses, TMJ, mastoids, and other advanced skull exams. The course provides an introduction to advanced exams including arthograms and myelograms. Prerequisite: Positioning II (MIG126).

**MIG-222F** Full-Time Medical Radiography Clinical III

This course allows students to expand upon skills developed during earlier clinical experience. Students assume more direct responsibility for specific radiographic examination. Additional expenses may include supplies, equipment, and/or uniforms. Course meets four (4) days/week with 32 hours of clinical practice weekly. Prerequisite: Full-time Medical Radiography Clinical II (MIG128F).

**MIG-222P** Part-Time Medical Radiography Clinical III

This course allows students to expand upon skills developed during earlier clinical experience. Students assume more direct responsibility for specific radiographic examinations. Additional expenses may include supplies, equipment, and/or uniforms. Course meets two (2) evenings/week, with 8 hours of clinical practice weekly. Prerequisite: Part-Time Medical Radiography Clinical II (MIG128P).

**MIG-224** Radiologic Technology II

Using lecture and lab sessions, this course provides an introduction to the x-ray circuit in form and function. Topics include, but are not limited to, characteristics of x-rays, wave-particle duality, x-ray production, target interactions, photon interactions with matter, and conventional fluoroscopy, and electronic imaging units. Prerequisite: Imaging Technology I (MIG111).

**MIG-226** Radiologic Imaging II

Using lecture and lab sessions, this course covers the concepts of quality assurance, quality control and film critique. Additional topics include but are not limited to: advance digital concepts, cardiovascular and interventional techniques, computers in imaging, and special radiographic procedures. Prerequisite: Radiographic Imaging I (MIG120).

**MIG-227** Pharmacology of Radiology

This course is designed to provide basic concepts of pharmacology to the medical radiography student. Content includes chemical, generic and trade names for select drugs; pharmacokinetic and pharmacodynamic principles of select drugs; classification of drugs; action, effects, uses and side effects of select drugs on imaging procedures; categories of contrast agents; pharmacology of barium and iodine compounds; dose calculations for adult and pediatric patients; and the legal and ethical status of the radiographer's role in drug administration; and the radiographer's professional liability concerning drug administration. This course has a web-based component. Prerequisites: Patient Care for Medical Imaging (MIG109) and Anatomy and Physiology I/ Lab (BIO204).

**MIG-228** Full-Time Medical Radiography Clinical V

This course allows students to develop additional experience in the materials covered in Positioning I, Positioning II, and Positioning III, and to further expand their clinical skills. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week with 24 hours of clinical practice weekly. Prerequisite: Full-time Medical Radiography Clinical III (MIG222F).

**MIG-228P** Part-Time Medical Radiography Clinical V

This course allows students to develop additional experience in the materials covered in Positioning I, Positioning II, and Positioning III, and to further expand their clinical skills. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week with 36 hours of clinical practice weekly. Prerequisite: Part-Time Medical Radiography Clinical III (MIG222P).
MIG-230 Radiation Protection 3 Credits
This course covers an overview of the effects of ionizing radiation on the human body and the protective measures available to minimize those effects. The course examines the effects that produce somatic as well as genetic changes. This course stresses methods of limiting and monitoring radiation exposure to personnel, patients, and the general population. Students gain a personal frame of reference regarding the importance of this issue today. Prerequisite: Radiologic Imaging II (MIG226) for day option only. Co-requisite: Radiologic Imaging II (MIG226) for evening option.

MIG-234 CT/CTA Section Anatomy 2 Credits
This course introduces students to CT (Computed Axial Tomography) history, the development of CT equipment configuration, and the basic scanning protocols. The course exposes students to cross-sectional anatomy, which is necessary for proficiency in the areas of CT, Ultrasound, and MRI. Prerequisite: Anatomy/Physiology I (L/LAB 203).

MIG-236F FT Medical Radiography Clinical V 3 Credits
This final phase of medical radiography instruction allows students an opportunity to review and assess clinical skills acquired during their training. At the end of this rotation students are clinically proficient in general radiography. Additional expenses may include supplies, equipment, and/or uniforms. Course meets three (3) days/week with 24 clinical hours of practice weekly. Prerequisite: Full-Time Medical Radiography Clinical IV (MIG228F).

MIG-236P PT Medical Radiography Clinical V 5 Credits
This final phase of medical radiography instruction allows students an opportunity to review and assess clinical skills acquired during their training. At the end of this rotation students are clinically proficient in general radiography. Additional expenses may include supplies, equipment, and/or uniforms. Course meets five (5) days/week with 40 clinical hours of practice weekly. Prerequisite: Part-Time Medical Radiography Clinical IV (MIG228P).

MIG-238 Advanced Medical Radiography Seminar 2 Credits
The focus of this capstone course is the transition from student technologist to entry-level technician. A variety of learning activities, including case studies and a research project, will be utilized to promote critical thinking. The course will also focus on professional development, credentialing, lifelong learning, and cultural competence in the workplace. A review module will prepare students for success on the American Registry of Radiologic Technologists Examination. Additional expenses will include certification mock exam software. Prerequisites: Radiologic Technology II (MIG224) and Radiologic Imaging II (MIG226).

MIG-251 Advanced PACS Seminar 3 Credits
This capstone seminar explores the day-to-day responsibilities of a PACS administrator. Topics discussed include the responsibilities of the position, the expectations of various stakeholders in healthcare delivery, and the impact of PACS on the delivery of healthcare. The issues of maintenance, considerations for purchase of a system, frequently asked questions, and the process of rolling out a new system are also explored. Co-requisite: PACS Administration I (CT1141). Prerequisite: Intro to Diagnostic Imaging and PACS (MIG161).

MIG-261 Sectional Anatomy 3 Credits
This interactive, web-based course is designed to provide an in-depth look at sectional anatomy, and its particular relevance to the fields of CT and MR. Prerequisites: Anatomy/Physiology I (L/LAB 203), Anatomy/Physiology II (L/LAB 204), or current ARRT, NMTCB or ARDMS registry status.

MIG-299 PACS Administration Internship 3 Credits
This course enhances the academic experience for students. All internships take place at pre-approved sites. The course allows students to apply learned skills in the actual medical environment. Students must complete weekly didactic work in addition to the clinical hours. Students must comply with the Internship requirements, as stated in the Internship Handbook, before registering for the course. Criminal Offender Record Information (CORI) checks will be conducted on all students before placement. The course may impact the student’s eligibility to participate in the internship experience. Admission to the PACS Certificate Program does not guarantee internship placement. Prerequisite: Acceptance in PACS Administration Certificate.

MIG-299B PACS Business Internship 3 Credits
This 100-hour internship enhances the academic experience for students. All business internships take place at pre-approved industry sites with mentoring by industry representatives. Professionals with clinical experience will benefit from the industry perspective of relevant training for imaging informatics, including daily challenges such as the identification of customer needs, collaboration with healthcare stakeholders in designing appropriate PACS systems, implementation concerns and actual issues, as well as the evaluation of customer satisfaction. This 100-hour business internship will also enable students to explore career options in the business sector of imaging informatics. Students are responsible for providing their own transportation to and from the business internship site. Students must comply with all corporate policies, as directed by the industry mentor at the site, as well as BHCC policies. Prerequisite: Admission to the Imaging Informatics Online Certificate Program.

MTL-101 Medical Laboratory Assistant 1 Credit
Medical Terminology Clinical Lab Prof
This course explores the roots of all medical terminology as it pertains to clinical laboratory professionals. Prerequisite: Admission to the Program.

MTL-121 MTL: Phlebotomy & Specimen Processing 4 Credits
This course explores the nature and scope of phlebotomy and specimen processing. The primary focus will be on the role of proper collection and handling of patient samples. Students will learn the necessary procedures for proper specimen processing, set up, and waived testing procedures. Prerequisite: Admission to the Program.

MTL-222 MTL II: Clinical Laboratory Techniques 4 Credits
This course is designed for the Medical Laboratory Assistant (MLA or CLA). This course consists of the clinical laboratory techniques needed to develop skills with the use of a microscope, instrumentation management including quality control and maintenance, proper pipetting skills, laboratory information system (LIS) and how to support clinical laboratory staff. Prerequisite: Medical Terminology and MLA I with a grade of B- or better.

MLA-223 MLA III: Clinical Practicum 4 Credits
Students acquire knowledge and experience of laboratory practices and procedures for one of the college’s clinical laboratory affiliates. The practicum prepares the student in an actual clinical work environment. Rotation order from departments is subject to affiliation laboratory schedules. Prerequisites: Successful completion of MLA I and MLA II with a grade of B- or better.

Medical Lab Technician

MLT-101 Introduction to Medical Lab Science and Urinalysis 4 Credits
This course explores the nature and scope of work in the clinical laboratory. The primary focus will be the role of the laboratory in the healthcare system, duties of the Medical Laboratory Technician and professional conduct, safety in the laboratory, laboratory mathematics and quality control. The laboratory will include exercises that reflect each of the major clinical laboratory sub-disciplines: Clinical Chemistry, Diagnostic Microbiology, Hematology, and Blood Banking. Additional laboratory exercises will focus on routine urinalysis as well as normal and abnormal physiological functions of the renal system. A phlebotomy unit will teach the fundamental skills required to collect blood specimens for testing.

Class meets: 3 hrs. lecture; 3hrs. lab Prerequisite: Admission to the Medical Laboratory Technician program.

MLT-211 Hematology & Hemostasis 4 Credits
This course consists exploring the theory and practice of routine hematology. Topics include the collection and handling of clinical specimens, the origin, development, and function of human blood cells in health and disease, hemostasis, and coagulation, automation, and quality control. Routine hematology and coagulation testing will be emphasized. Class meets 3hrs. lecture; 3hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101), Medical Microbiology & Lab (MLT-212 ), Immunology and Serology (MLT-213), Immunohematology (MLT-241), and Clinical Chemistry (MLT-242).

MLT-212 Medical Microbiology & Lab 4 Credits
This course is a comprehensive study of both theory and practical aspects of clinical microbiology. Emphasis will be placed on the collection and handling of clinical specimens as well as the primary isolation and identification of the most frequently encountered bacteria pathogenic to humans. Other topics discussed include antimicrobial chemotherapy and host resistance. Other organisms examined include fungi and parasites. This course is open only to admitted MLS students. Class meets 3 hrs. lecture; 3 hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101) and Immunology and Serology (MLT-213).

MLT-213 Immunology & Serology 4 Credits
This course introduces the theoretical principles of immunology which involve the structure, function, and interactions of the immune system. The serological techniques useful in the diagnosis of many diseases will be reviewed and performed. Class meets: 3hrs. lecture; 3hrs. lab. Prerequisites: Admission to program.
MLT-241
Immunohematology
This course consists of the study of the genetic basis and immunological interaction of the major blood group antigens and antibodies. Topics will include compatibility testing, antibody screening and identification techniques, blood donation, transfusion therapy, record keeping, and quality control techniques. Class meets: 3 hrs. lecture; 3 hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101) and Immunology and Serology (MLT-213).

MLT-242
Clinical Chemistry
The primary focus of the course is the biochemical analysis of blood and body fluids in health and disease. Topics include routine manual and automated testing methods, electrophoresis, molecular techniques, safety practices and quality control. Class hours: 3 hrs. lecture; 3 hrs. lab. Prerequisites: A grade of B- or higher in Introduction to Medical Laboratory Science and Urinalysis (MLT-101) and Immunology and Serology (MLT-213).

MLT-251
Clinical Laboratory Sciences Practicum
This course consists of practicum experiences at one of the college’s clinical affiliates in which the student acquires knowledge and experiences in laboratory practices and procedures. Prerequisites: A grade of B- or higher in Immunohematology (MLT-241) and Clinical Chemistry (MLT-242).

MRC-111
MR Concepts I
This interactive, web-based course begins with MR screening and safety, legal and ethical principles, patient assessment, monitoring and management and interpersonal communications. Other content includes infection control, MR instrumentation, fundamental principles, data manipulation and sequence parameters and options. Prerequisite: Acceptance into MR Certificate Program.

MRC-211
MR Concepts II
This interactive, web-based course presents MR imaging procedures of the head and neck, spine, thorax, abdomen, pelvis and musculoskeletal system, including protocol considerations, contrast, and patient positioning. Other content includes but is not limited to sequence parameters, image quality, quality assurance, and quality control. Prerequisite: MR Concept I (MRC111).

MRC-299
MR Clinical Internship
This 100-hour clinical introduction will enhance the academic experience for students by introducing them to the clinical practice of MR. Students are responsible for providing their own clinical site. Clinical sites must be pre-approved by the program faculty. Students must comply with the clinical policies, as stated in the Internship Handbook, before attending clinical. Criminal Offender Record Information (CORI) check will be conducted on all students before placement, and the outcome may impact the student’s ability to participate in the internship experience. Health clearance is also required prior to participation. Prerequisite: MR Concepts I (MRC111).

Music

MUS-101
Music Fundamentals
This course serves as an introduction to reading and making music. Topics include pitches, rhythms, scales, intervals, chords, and other music terminology. This course also introduces ear training, performance skills, and critical thinking about music. No prior musical experience is required. This course satisfies General Education requirement “Creative Work”. Prerequisites: Grade of C or higher in Academic Reading II (ESL-088) and Academic Writing II (ESL-090) or Integrated Writing Skills I (ENG-090) or Integrated Writing Skills II (ENG-095) or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

MUS-105
Music Theory and Aural Skills I
In this course, students develop an understanding of how music works. Through analysis, composition, and other exercises, students learn the theory of music, with particular emphasis on chord progressions and their relationship to melody and song structure. Additionally, in the laboratory component of this course, students will develop their musicianship skills through the sight-reading of melodies, rhythms, and chords, as well as recognizing them by ear. This course is designed for music majors, but is open to any student with introductory music reading ability. Prerequisite: Music Fundamentals (MUS-101) or permission of the department chair.

MUS-106
Music Theory and Aural Skills II
This course continues the development of analytical and practical music skills begun in Music Theory and Aural Skills I. Through the examination and composition of music, students explore more advanced theoretical elements, including chromatic harmony and musical form. In the laboratory component of this course, students will continue to develop their sight-reading and dictation abilities. Prerequisite: Music Theory and Aural Skill (MUS-105) or permission of the department chair.

MUS-113
Jazz Ensemble
This course focuses on the rehearsal and performance of jazz and related styles of music. Students develop their music reading and improvisation ability, in addition to general performance skills associated with the small jazz ensemble. This course is designed for students with previous experience in music. An audition is required. This course may be repeated for credit. Prerequisite: Audition.

MUS-116
Popular Music Ensemble
This ensemble rehearses and performs a variety of modern popular music, including rock, R&B, pop, hip hop, country, and other styles. Students will develop their instrumental or vocal ability, musicianship, and other performance skills. This course is designed for students with previous experience in music. No prior musical experience is required. This course may be repeated for credit. Prerequisite: Audition.

MUS-120
College Choir
The College Choir rehearses and performs a diverse repertoire of vocal music, from classical to pop and other styles from around the world. In this course, students will develop their singing ability, musicianship, and general performance skills. This course is open to singers of all skill levels and experience, but an audition is required. This course may be repeated for credit. Prerequisite: Audition.

MUS-130
Music Appreciation
An introduction to listening to and discussing music, this course draws on music from a variety of styles, eras, and nations. Through a broad exploration of music’s evolution through history, this course examines the core components of music and their connection to society and culture. No prior musical experience is required. This course satisfies General Education requirement “Creative Work”. It is not an eligible Music Elective for students in the Music Concentration. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MUS-133
Music History I
This course is a survey of the history of music from antiquity through the Classical period (around 1800). While focusing on the development of the Western world, this course aims to relate course topics to music of all time periods, cultures, and styles. Students will develop an understanding of the evolution of music through the centuries, as well as the culture, politics, technology, and human drama that shaped that music. This course is designed for music majors, but is open to any students with rudimentary knowledge of music. Prerequisites: Music Fundamentals (MUS-101) or permission of department chair and a grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MUS-134
Music History II
This course continues the survey of the history of music covering the Romantic period (around 1800) through the present. While focusing on Western art music this course aims to connect the music covered in class to the music of other cultures, eras, and styles. Students will examine the development of music through the emergence of the modern world, as well as the culture, politics, technology, and human drama that shaped it. This course is designed for music majors, but is open to any students with rudimentary knowledge of music. Prerequisites: Music History I (MUS-133) or permission of department chair and a grade of C or higher in Writing Skills II (ENG-095) and Academic Reading III (ESL-098) or Reading Skills II (RDG-095); or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

MUS-141
Rock & Roll History
This course is a survey of rock music and its history. This course covers the various styles of rock, from its early roots to the music of the present, in addition to other closely-related styles of music. Students will examine the musical aspects of the genre and its major figures, as well as the social, economic, political, and technological factors that shaped its development. No prior musical experience is required. This course meets the General Education requirement for Creative Work. Prerequisites: A grade C or higher in Academic Reading II (ESL-088) and Academic Writing II (ESL-088); Writing Skills I (ENG-090) and Reading Skills I (RDG-090); or Integrated ELL Level I (ELL-101) or exemption by placing into higher level courses.

MLT-241
Magnetic Resonance (MR)
This course consists of practicum experiences at one of the college’s clinical affiliates in which the student acquires knowledge and experiences in laboratory practices and procedures. Prerequisites: A grade of B- or higher in Immunohematology (MLT-241) and Clinical Chemistry (MLT-242).
MUS-144 3 Credits
World Music
Formerly MUS-161, this course serves as an introduction to the diverse musical traditions of the world. Students will explore the music of a variety of cultures and regions, and come to understand how it is shaped by social customs, geography, history, and cross-cultural interaction. No prior musical experience is required. This course satisfies General Education requirement "Creative Work". Prerequisites: A grade of C or higher in Academic Reading II (ESL-088) and Academic Writing II (ESL-089) or Reading Skills I (RDG-090) and Writing Skills I (ENG-090) or Integrated ELL Level 1 (ELL-101) or exemption by placement testing.

MUS-147 3 Credits
Music in the United States
A survey of musical traditions in the United States, this course covers the development of folk, popular, and art music from the Colonial period to the present. Students will explore how social, technical, musical, social, political, and economic factors have affected the development of American music. No prior musical experience is required. This course meets the General Education requirement for Creative Work. Prerequisites: A grade of C or higher in Writing Skills II (ENG-095) and Academic Reading II (ESL-089) or Reading Skills II (RDG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses

MUS-151 2 Credits
Piano I
This course provides group keyboard instruction for the beginner. Students develop introductory keyboard technique, musicianship skills, and sight-reading ability through the performance of simple pieces from a variety of musical styles. This course is open to all students regardless of prior experience. Prerequisites: None.

MUS-152 2 Credits
Piano II
A continuation of Piano I (MUS151), this course provides further instruction in keyboard skills. Students continue to develop technical and musicianship proficiency through the performance of elementary and intermediate repertoire. Prerequisites: Piano I (MUS151) or chair approval.

MUS-156 2 Credits
Beginning Guitar
This course provides group instruction in guitar for the beginner. In playing music from a variety of styles, students will learn foundational techniques, including chord shapes, strumming, picking, scales, and basic music reading. This course is open to all students, regardless of prior experience.

MUS-162 2 Credits
Beginning Voice
This course provides group vocal instruction for singers of all skill levels. Students develop their vocal technique, musicality, and performance ability while singing a variety of musical styles. This course is open to all students, regardless of prior vocal experience.

MUS-171 3 Credits
Intro to Music Technology
This course serves as an introduction to the use of technology in the creation of music. Using digital audio software, students learn the basics of sound manipulation, including sequencing, editing, synthesis, and mixing. Additional course topics include the properties of sound, basic recording technology, and music notation software. This course is designed for both music majors and non-majors.

MUS-180 3 Credits
Introduction to the Music Business
This course provides an overview of the modern music industry, gained through discussion, hands-on projects, and guest presentations from music business professionals. Course content includes the recording industry, copyright, publishing, promotion, and entrepreneurship, with special attention given to the role of the internet in the music business. This course also examines the diverse career options available in music. This course fulfills the Learning Community Seminar requirement for first-year, full-time students.

MUS-195 1 Credit
Applied Music I
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195A 1 Credit
Applied Music I: Voice
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195B 1 Credit
Applied Music I: Guitar
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195C 1 Credit
Applied Music I: Keyboards
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195D 1 Credit
Applied Music I: Percussion
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195E 1 Credit
Applied Music I: Brass
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195F 1 Credit
Applied Music I: Strings
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195H 1 Credit
Applied Music I: Woodwinds
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195I 1 Credit
Applied Music I: Composition
This course provides individual instruction in Music Composition. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-195J 1 Credit
Applied Music I: Bass
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of department chair.

MUS-195K 1 Credit
Applied Music I: Specialized Studies
This course provides individual instruction in voice or a musical instrument. Course topics include technique, performance practice, and repertoire appropriate for the skill level of the student. Where applicable, students are required to provide their own instrument. This course is open to all students, but requires an audition for placement. Prerequisite: Audition and consent of instructor or department chair.

MUS-208 3 Credits
Songwriting
This course serves as an introduction to popular songwriting. Through writing original songs and examining a wide variety of popular music, students will examine concepts such as melody, lyrics, chord progressions, and structure. Prerequisite: Music Fundamentals (MUS 101) or permission of the instructor.
MUS-295 Applied Music II: Brass
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295 Applied Music II: Strings
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295 Applied Music II: Woodwinds
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295 Applied Music II: Conducting
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295 Applied Music II: Composition
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-295 Applied Music II: Bass
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of department chair.

MUS-295X Applied Music II: Specialized Studies
This course provides individual instruction in voice or a musical instrument for students with well-developed performance skills. Course topics include advanced technique, performance practice, and repertoire appropriate for the skill level of the student. This course requires students to perform in a public recital. Where applicable, students are required to provide their own instrument. This course is designed for music majors, but is open to all students who demonstrate the requisite performance ability in an audition. Prerequisite: Audition and consent of instructor or department chair.

MUS-XXX Introduction to Music Technology
This course serves as an introduction to the use of digital audio software. Students learn the basics of sound manipulation, including sequencing, editing, synthesis, and mixing. Additional course topics include the properties of sound, basic recording technology, and music notation software. This course is designed for both music majors and non-majors.

Medical Coding

NHP-180 Medical Terminology
This course provides instruction in the development of basic medical terminology. Competency in medical terminology promotes effective communication among members of the healthcare team.

Nursing

NUR-095 Success in Nursing
This introductory course focuses on assisting students to adapt to the upcoming challenges in the nursing curriculum. The course emphasizes test-taking skills, study skills, critical thinking, learning styles, and therapeutic nurse-patient communication and beginning nursing concepts. The course is designed for nursing students accepted to the nursing program in the fall semester and those students planning to apply to the Nursing Program. Course meets 3 hrs. lecture.

NUR-099 Nursing Pathways
This course is designed for students who are seeking readmission to the nursing program. This course will assist students in analyzing their study skills, and designing a path for successful completion of the nursing program. Topics include time management, stress reduction, adapting study skills, and test-taking techniques and practice. Students are encouraged to use introspection and critical thinking as they
formulate a plan that will enable them to complete the nursing program and take the licensure exam after graduation. Computer software and small group work for problem solving in using multiple-choice questions will be utilized.

**NUR-120 Foundation of Patient Centered Care**

This course provides an introduction to nursing and roles of the nurse as well as professional related care concepts. Emphasis is placed on the knowledge, skills and attitudes needed to provide safe, quality care. It provides the framework for preparing students to perform a basic health assessment on adult patients including older adults. The theoretical foundation for basic assessment and skills is presented, and the student is given an opportunity to demonstrate these skills in the laboratory and clinical setting. An introduction to the nursing profession and its role. Prerequisites: Acceptance into the nursing program, Anatomy/Physiology II BIO-204 and Foundations of Patient-Centered Care NUR-120.

**NUR-220 Patient-Centered Care of Adults & Families**

This course focuses on patient-centered care of adults with complex health alterations as well as an integrated family approach to mothers, newborns, and children. Emphasis is placed on helping adult patients cope with alterations in body functions. Additional focus is placed on normal growth and development, common pediatric conditions, and the child-bearing family. Concepts of quality improvement, leadership, professionalism, evidence based practice.

Informatics, teamwork and collaboration will be integrated throughout the course. Clinical experience provides an opportunity to apply theoretical nursing concepts and implement safe care to patients across the lifespan. Additional expenses may include supplies, equipment, and/or uniforms. Course meets: 6 hours lecture; 1.5 hours simulation lab; 10.5 hours clinical practice in selected health care facilities. Prerequisites: Microbiology/Lab BIO-205, Human Growth & Development PSY-213, Patient Centered Care of Adults and Mental Health Concepts NUR-150.

**NUR-250 Patient-Centered Care of Adults with Multisystem Disorders and Transition to Practice**

This course focuses on advanced concepts of nursing care of adult patients with complex, multisystem alterations in health. Complex clinical skills, as well as concepts of patient-centered care, safety, quality improvement, professionalism and leadership, are integrated throughout the course. Focus on time management and organizational skills while managing the care of patients with multiple needs and collaborating with the interprofessional team. Emphasis is placed on the applied concepts of clinical reasoning and critical thinking. Students are required to: Participate in the daily clinical experience. Prerequisites: Patient Centered Care of Adults & Families NUR-220.

**OIM-102 Medical Computer Applications**

This course uses Microsoft Word, Access, and Excel to cover applications commonly used in the medical office. Students learn the correct form for business letters, merge documents, memorandums, tables, business reports, electronic forms, and medical documents. Emphasis is placed on accurate proofreading of documents for format and content. Note: For Allied Health Students or by permission of department chairperson.

**OIM-103 Microsoft Word I**

(Formerly OIM 101) This course uses Microsoft Word and covers applications, including but not limited to font and paragraph settings, page setup, table format, headers and footers, page numbering in sections, footnotes, citations, bibliographies, mail merge and envelopes, spell check and thesaurus, and electronic forms. Students create documents commonly used within academic and business settings. Students develop correct keyboarding technique in order to meet the industry standard for speed and accuracy. Note: An exemption exam for students with previous keyboarding experience is available through the Center for Self-Directed Learning each semester by contacting the Prior Learning Coordinator.

**OIM-104 OIM Career Exploration**

This online course provides students with the tools needed to evaluate their career goals and to explore strategies for securing employment within the office and/or medical office job market. Students will complete modules that engage them in activities designed to evaluate values, skills, and interests as related to their prospective careers. Students will use the resources on the BHCC portal and elsewhere to explore individual and team projects that use Internet research and library resources. Based on research related to office and information management issues, they develop written and oral presentation skills. Time management, listening, note-taking, and test-taking skills are emphasized. Security issues, legal and ethical issues, and cultural diversity are covered. Current students, alumni, and business personnel will provide perspectives on how to succeed in academia and in the business world. This course will fulfill the Learning Community Seminar requirement for Office and Information Management students. Prerequisites: Writing Skills II (ENG-093) or placement, Pre/co-requisite: MS Word (OIM-103) or Document Generation 1 (OIM 101).

**OIM-105 Skills for Administrative Success**

(Formerly OIM-199) Students explore career opportunities in related office administration fields. This course includes critical thinking and teamwork projects to help students develop the ability to give and receive constructive criticism in a supportive environment. Students complete individual and team projects that use Internet research and library resources. Based on research related to office and information management issues, they develop written and oral presentation skills. Time management, listening, note-taking, and test-taking skills are emphasized. Security issues, legal and ethical issues, and cultural diversity are covered. Current students, alumni, and business personnel will provide perspectives on how to succeed in academia and in the business world. This course will fulfill the Learning Community Seminar requirement for Office and Information Management students. Prerequisites: Writing Skills II (ENG-093) or placement, Pre/co-requisite: MS Word (OIM-103) or Document Generation 1 (OIM 101).
OIM-106
3 Credits
Records and Information Management
This course provides an introduction to records and information management (RIM) including alphabetic, subject and geographic filing guidelines as the components of the records management lifecycle, and associated regulatory, privacy, compliance and risk issues. Paper-based systems and electronic file systems will be included. Students will complete hands-on projects using a records management online learning platform as well as use of the Moodie online platform, which is required. Business research using Internet Explorer is integrated with PowerPoint presentations and team assignments to tie together all the various professional skills using a qualitative approach. Pre/co-requisite: Applications/Concepts (CT110) or Introduction to Microsoft Office (CT133).

OIM-110
3 Credits
Document Generation II
This course assists students in using Word to create common business documents such as business letters, memorandums, reports with footnotes and endnotes, bibliographies, tables of contents, tables, on-line forms, resumes and newsletters using current industry standards. Students learn to use accelerator keys, macros, templates, bullets and numbering, leaders, merging, sorting, hyperlinks, section breaks, styles, formulas, clip art, WordArt, and column layout. Diagnostic and speed-building exercises are used to improve keyboarding accuracy and speed. A minimal speed of 30 words per minute is strongly recommended. Students acquire skills that are recommended for preparation for MOUS (Microsoft Office User Specialist) certification. Prerequisites: Grade of C or better in Keyboarding: Document Generation I (OIM-101) and Applications/Concepts (CT110) or department chair approval.

OIM-112
3 Credits
Microsoft Word II
This course covers intermediate and advanced Microsoft Word applications to create common business documents such as letters, memorandums, tables, reports, desktop publishing flyers, and electronic forms. Students learn to use accelerator keys, macros, templates, bullets, and numbering, leaders, merging, sorting, section breaks, styles, formulas, clip art, WordArt, and column layout. Diagnostic, and speed building exercises are used to improve keyboarding accuracy and speed. A minimal speed of 40 words per minute is strongly recommended. Students acquire skills that prepare them for MOUS (Microsoft Office User Specialist) certification. Prerequisites: Grade of C or better in MS Word I (OIM-103) or Keyboarding: Document Generation I (OIM-101) and Applications/Concepts (CT110) or permission of the department chairperson.

OIM-115
3 Credits
Administrative Technology and Procedures
This course introduces administrative skills vital for employment in business and industry, including telecommunication, mail and copy services, travel, meeting, and conference arrangements; teleworkers/virtual assistants; customer service; and application techniques. The class develops problem solving, critical thinking, organizational skills, and interpersonal skills while emphasizing work ethics, teamwork, and cultural diversity. To enhance these skills, students work individually and in teams to conduct library and Internet research and give presentations in class. Personnel from area corporations may participate in class discussions. Pre/co-requisites: MS Word I (OIM-103), Document Generation I (OIM-101) and Applications/Concepts (CT110).

OIM-121
1 Credit
OIM Practicum
This field experience takes place after students have completed the coursework required for the administrative support specialist certificate. Students work for 65 hours within a work environment related to their career goals, abilities, and skills. Students complete the OIM Career Exploration course prior to the practicum and participate in a weekly seminar during the field experience. Prerequisites: Completion of the practicum or permission of department chair. Students must meet with the Internship Coordinator during the semester prior to completing the practicum.

OIM-130
3 Credits
Business Correspondence/Editing
This course teaches English fundamentals and emphasizes proofreading and editing skills for business documents. Students compose, edit, and produce business letters and memorandums that are commonly written by administrative assistants. This course utilizes current word processing software. Prerequisite: Writing Skills II (ENG-095) or ENG-091-ELL Level III (ELL-103) or exemption by placing into higher level courses and Pre/co-requisite: Keyboarding: Document Generation I (OIM-101).

OIM-132
3 Credits
Administrative Business Communication I
(Formerly OIM130) This course will develop the skills needed to create documents that are used within office and medical office environments. Writing assignments will include email and memorandums, and letters. Projects utilizing Outlook for email and electronic calendar activities will be completed. Students create PowerPoint presentations based on research related to office procedures and office functions. Students will also learn to prepare agendas, implement and conduct business meetings, and develop skills in taking minutes at meetings. Individualized review of fundamental English skills will be based on pre-test results. Proofreading and editing skills both manually and digitally will be included. Prerequisite: Writing Skills II (ENG-095) or MS Word I (OIM-103) or Document Generation I (OIM-101). Note: An exemption exam for OIM 132 is available through the Center for Self-Directed Learning for students with previous keyboarding experience by contacting the Prior Learning Coordinator.

OIM-170
3 Credits
Medical Office Procedures
This course includes Windows, word processing, medical office procedures, and computerized medical management software. Students create documents commonly used in a medical office as well as job application materials, using templates, macros, and/or merged documents. Concepts covered include interpersonal communications, telecommunications, billing and collections, reimbursement procedures, records management, scheduling, diagnostic and procedure codes, schedule and patient appointment, generating commonly used reports. Note: For Allied Health students or by permission of department chair. Prerequisite: Document Generation I (OIM-101), MS Word I (OIM-103), or Medical Computer Application (OIM-102; formerly OIM-142), or any computer applications course or by permission of the department chair.

OIM-200
3 Credits
Introduction to Physicians’ Billing
This course presents the “Revenue Cycle” concept to students, which encompasses registration practices and the impact this process has on the billing function. The use of health care delivery systems and the history of the delivery of medical care are presented. The variety of prospective reimbursement systems on data collection, billing, and submission processes are defined and discussed. The principles of ICD and CPT coding, the management of data, and the constantly changing regulations of CMS and other external regulators is reviewed. Technicalities of managing all aspects of claims submission and denial are examined. The course is offered only in the evening. Pre/co-requisite: Medical Terminology (NHP180).

OIM-230
3 Credits
Administrative Business Communication II
(Formerly OIM230) The course covers human relations skills, diversity, cultural sensitivity, and global awareness. To enhance these skills, students use Internet research to investigate topics related to the office administration field. It includes human relation skills, diversity, cultural sensitivity, and global awareness. This course is offered only in the evening. Pre/co-requisites: Records and Information Management (OIM106), Document Generation II (OIM120), Administrative Technology and Procedures (OIM115), Business Correspondence and Editing (OIM130).

OIM-232
3 Credits
Administrative Business Communication II
(Formerly OIM230) The course covers human relations skills, non-verbal communication, diversity, cultural sensitivity, and global awareness. Meeting and event planning as well as telephone techniques are included. Students research business-related topics and utilize formal reports and work in groups to develop PowerPoint presentations. Resumes, cover letters, and mock interviews are included to prepare students for their careers. Students continue individualized review of English skills as needed. This course is offered only in the evening. A CORI check may be required to participate in the Office and Information Management Internship. Prerequisite: A grade of C or better in Business Correspondence (OIM130) or Business Correspondence I (OIM132). Pre/corequisites: Records and Information Management (OIM106), Document Generation (OIM110), MS Word II (OIM112), or Document Generation I (OIM101) and Technology and Procedures (OIM115), or permission of department chairperson.
**COURSE DESCRIPTIONS**

**Office Information Management Internship**

This field experience takes place during the spring semester of the second year and provides specific occupational preparation for office careers. Students work in an off-campus work environment related to their career goals, abilities, and skills. Students participate in seminars prior to internship and during the field experience. This course is offered spring semester only. Prerequisite: Administrative Business Communication II (OM232 - formerly OM2330) and permission of the department chairperson or designee. Note: Administrative Business Communication II (OM232) is offered fall semester only and must be taken the fall semester prior to internship.

**Philosophy**

**PHL-101 Introduction to Philosophy**

This course has three principal goals: to expand capacities for deep thinking; to develop skills for understanding and expressing complex ideas; and to pursue some profound human questions. Students will encounter a selection of philosophical texts that address enduring philosophical questions. These texts will reflect the chronological, geographical, and social diversity of philosophical inquiry. Students will practice skills for reflective, critical, creative, and integrative thinking, and will demonstrate those skills in understanding and responding to texts, engaging in critical dialogue with peers, inquiring into philosophical questions, and developing and expressing their own philosophical perspectives. This course meets the General Education Requirement for Creative Work. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

**PHL-102 Ethics**

In this course, students will explore ideas about right and wrong. Students will engage with theories in moral philosophy, addressing concepts including rights, responsibilities, consequences, power, harm, equity, and liberation. Students will consider current issues in applied ethics, which will vary, but may include privacy, taxation, parenting, reparation, sexual consent, and/or mass incarceration. Students will practice skills including inclusive interpersonal communication and analysis of observable actions in relation to ethical principles. Students will reflect on and discuss their personal philosophy of right and wrong. The course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: Grade of C or higher in Academic Reading III (ESL-098) and Academic Writing III (ESL-099) or Reading Skills I (RDG-090) and Writing Skills I (ENG-095) or C or higher in Integrated ELL Level I (ELL-101) or exemption by placement testing.

**PHL-290 Special Topics in Philosophy**

This course engages students in deeply exploring and contributing to selected topics in philosophy. Students will study works of philosophy; dialogue and exchange ideas with peers; connect philosophical themes to lived experience and contemporary events; and produce seminar papers on future work developing and expressing their own philosophical ideas. Course topics vary; the topic will be announced at the time of registration. Prerequisites: ENG 111 and at least 6 additional college-level credits. Students who have not completed the prerequisites may email philosophy@bhcc.edu to request permission to enroll in the course.

**Physics**

**PHY-191 Introduction to Physics/ Lab**

This course provides the background for the study of electronics and other technical areas. Topics include classical mechanics, the conservation laws, and electrostatics. This course is Electric Power Utility Program students and Gas Utility Technology degree students only. Class meets: 3 hrs. lecture; 3 hrs. Lab. Prerequisite: A grade of C or better in Topics in Algebra/Trigonometry (MAT193).

**PHY-201 General Physics I/ Lab**

This introductory course covers the principles of physics, using a problem-solving approach. Laws of motion, forces, work and energy, momentum and harmonic motion will be covered. For the biology student this course will provide him or her with an enhanced understanding of the physical aspects of living systems. Laboratory work will reinforce the understanding of physical concepts and promote the development of problem solving skills. This course satisfies the physics requirement of the AS Biological Science program. This course does not satisfy the physics requirement of the AA Chemical Science or Physics/Engineering concentrations or the AS Engineering program. Class meets 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or better in Precalculus (MAT127).

**PHY-202 General Physics II/ Lab**

This continuation course of General Physics I (PHY201) covers the following topics: waves and sound, elasticity, fluids, heat, electricity, magnetism, electromagnetic radiation, light and optics and modern physics. As in General Physics I, this course will continue to relate principles of physics to living systems. Laboratory work will further develop the student’s skills in data collecting and analysis. This course satisfies the physics requirement of the AS Biological Science program. This course does not satisfy the physics requirement of the AA Chemical Science or Physics/Engineering concentrations or the physics requirement of the AS Engineering program. Class meets 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or better in General Physics I (PHY201).

**PHY-251 College Physics I/ Lab**

This course is an introduction to some of the fundamental principles and concepts of physics, using a problem-solving approach. The topics considered include the basic equations of motion, Newton’s laws and their applications, work, energy, momentum, rotational kinematics and dynamics, conservation laws, laws of universal gravitation, and simple harmonic and oscillatory motion. Course meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: Grade of C or better in Calculus (MAT281).

**PHY-252 College Physics II/ Lab**

In the first half of the course, this continuation of College Physics I (PHY251) reviews the following topics: basic topics in electricity and magnetism, electromagnetic radiation, the nature of light, and optics. In the second half of the course, students will encounter an introduction to some basic ideas in modern physics. It also covers these additional topics: atomic structure, quantization, and nuclear physics. Course meets: 3 hrs. lecture; 3 hrs. lab. Prerequisite: College Physics I (Lab) (PHY251). Pre/co-requisite: Grade of C or better in Calculus II (MAT282).

**Paralegal Studies**

**PLG-101 Introduction to Law**

This course provides students with an understanding of the paralegal field. The course assists students to become familiar with all aspects of the legal system. The course emphasizes the role of the paralegal and the way that role complements that of the lawyer. The course explores the role of law in our society, the judicial system, contract law, tort law, equity, and criminal law. Prerequisites: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

**PLG-102 Legal Research & Writing**

This course covers an introduction to legal writing and proper use of legal terminology in developing and drafting a format for the legal memorandum, prepared documents, and, in particular, formulating research skills. Prerequisite: Introduction to Law (PLG101).

**PLG-103 Litigation**

Litigation is a core function of many law firms. Students will learn the rules and requirements necessary to provide effective litigation support in a law office. Topics include the organization and jurisdiction of federal and state courts, the preparation of pleadings, motions, interrogatories, judicial notice, preparation and admission of evidence, subpoenas, depositions and trial notebooks, interviewing clients, trial examinations, and the appellate procedures, the rules of evidence, and the preparation of cases for hearing or trial. The roles of arbitration, mediation, and negotiation will also be covered. Prerequisites: Introduction to Law (PLG101).

**PLG-104 Legal Ethics**

This course presents the major areas of legal ethics placing special and comprehensive emphasis on how the rules affect paralegals. It aids students in understanding how the legal profession is regulated generally and the impact that paralegals’ conduct has on the lawyers who employ them. Through case studies, geared specifically toward paralegals, demonstrations of the rules are introduced and applied. Prerequisite: Introduction to Law (PLG101).

**PLG-105 Practical Legal Writing**

This course is intended to be a continuation of Legal Research and Writing (PLG102). The course provides students the opportunity to improve their writing skills for all aspects of working in a legal environment, including legal correspondence, legal memorandums, case briefs, and a variety of court documents. The course covers the structure and jurisdiction of the Federal and Massachusetts Court Systems. Prerequisites: Introduction to Law (PLG101), Legal Research & Writing (PLG102), and College English (ENG111).

**PLG-201 Family Law**

This course covers the laws concerning family relationship, marriage, cohabitation, adoption, divorce, child custody, support, alimony, and the effects of wills and probate. Prerequisite: Introduction to Law (PLG101).
PLG-202

Business Organizations

Choosing the proper form of business organization can mean the difference between success and failure. Many attorneys are involved in advising their commercial clients regarding the appropriate form of business. This course covers the rules and requirements to establish sole proprietorships, partnerships, limited partnerships, limited liability companies, limited liability partnerships, business trusts, corporations and joint ventures. Practical considerations include the preparation and management of the documents necessary for the organization and maintenance of each business entity. Corporate materials are reviewed, as are corporate characteristics, formation procedures, financial structure, meetings, dividends, share ownership, amendments, dissolution, and Massachusetts incorporation procedures. Prerequisite: Introduction to Law (PLG101).

PLG-203

Real Estate Law

This course thoroughly investigates the theory and practice of real estate transactions from the perspectives of both the buyer and the seller. The topics include examination of titles, estates in land, restrictions, easements, covenants, options, deeds, mortgages, and foreclosure proceedings. Prerequisites: Academic Reading III (ESL-098) or Intermediate ESL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PLG-204

Wills, Estates and Trusts

This course covers the initial investigation and preparation of estates and trusts in detail. Topics include the causes and effects of trusts, wills and probate; litigation and procedural laws. Prerequisites: Academic Reading III (ESL-098) or Intermediate ESL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

PLG-299

Paralegal Internship

An internship in Paralegal Studies is a hands-on learning experience at law firms, public agency, corporations, or other law related organizations, under the direct supervision of a legal professional. It is intended to provide students the opportunity to gain practical experience in their field of study. Students perform 150 hours of internship service over the course of 1-2 days per week a the college or at selected health care facilities. Prerequisite: Practical Nursing I (PNP 111), Drug Calculation (PMT103). Course meets 6 hours of lecture/lab 1-2 days per week and 6 hours of clinical practice at the college or at selected health care facilities. Prerequisite: acceptance into the Practical Nursing Certificate Program, MAT097, ENG111, BIO203, or BIO204.

PMT-105

Pharmacology for the Surgical Technologist II

This course is the second in a two-course sequence designed to provide the student with a basic foundation in pharmacology. This course is oriented to providing the student with information regarding commonly used pre-operative and post-operative medications. This class is a lecture class and meets one hour per week for 15 weeks. Calculations involving fractions and decimals will be reviewed. Students will be introduced to common medical terminology and weights and measures used routinely in the measurement and administration of medications. Use and understanding of the metric system will be emphasized. Prerequisite: admission into the Surgical Technology Program

PMT-109

Pharmacy Practice for Pharmacy Technicians I

This course provides the student with a perspective in a pharmacy. Calculations related to prescription processing and patient care in the role of the LPN is built. Concepts of Health care delivery throughout the age-related continuum of care are introduced such as patient-centered care, communication, leadership, and professionalism. Basic nursing interventions and the concepts of system-based and evidence-based practice are introduced and interwoven with the importance of safety, quality improvement and cultural diversity. Students acquire physical assessment skills and learn the basics of informatics and technology which are transferred to the clinical setting where teamwork and interdisciplinary collaboration are practiced and encouraged. Additional expenses may include supplies, equipment and uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 6 hours of clinical practice at the college or at selected health care facilities. Prerequisite: acceptance into the Practical Nursing Certificate Program, MAT097, ENG111, BIO203, or BIO204.

PMT-111

Pharmacy Practice for Pharmacy Technicians II

This course provides the student with the knowledge to be able to begin participation in prescription/order processing in a pharmacy. The course includes an introduction to drug formulation, pharmacy operations, third party billing and inventory control that are essential to working in a pharmacy. Calculations related to routine prescription processing and pharmacy management including calculation of daysupply, refill adjustment and inventory control are emphasized. A general introduction to biopharmaceutics and drug action will be provided. Prerequisite: Pharmacy Practice for Pharmacy Technicians I (PMT111).

PMT-113

Pharmacy Practice for Pharmacy Technicians III

This course provides the student with a basic introduction to the pharmacology of drugs in common use. The course will be taught by examining body systems, e.g. gastrointestinal, and will include discussion of the drugs commonly used in treating diseases affecting the system. Drugs will be discussed by grouping them into general classes and with important differences among group members being highlighted. The dosage, routes of administration, generic and trade names, common adverse reactions and important drug interactions will be emphasized. Calculation of patient dosage and patient days supply will be used when appropriate. Prerequisite: Pharmacy Practice for Pharmacy Technicians II (PMT112).

PMT-299

Pharmacy Practicum/Seminar

This course combines group discussion in a seminar setting with an internship program based in a live pharmacy setting. The practicum and seminar are designed to give the student practical experience in the basic roles the technician fulfills in the pharmacy and to complete their preparation for transition to the workplace. The experience component encompasses the steps from customer service to prescription processing and prescription production. The shared learning experience in the weekly seminar will be used as a problem-solving group discussion and to prepare the student to apply and compete for work. Prerequisites: PMT-113 and Chair Approval.

Practical Nursing

PNP-111

Practical Nursing I

The course provides the student with the fundamental concepts and skills upon which the role of the LPN is built. Concepts of Health care delivery throughout the age-related continuum of care are introduced such as patient-centered care, communication, leadership, and professionalism. Basic nursing interventions and the concepts of system-based and evidence-based practice are introduced and interwoven with the importance of safety, quality improvement and cultural diversity. Students acquire physical assessment skills and learn the basics of informatics and technology which are transferred to the clinical setting where teamwork and interdisciplinary collaboration are practiced and encouraged. Additional expenses may include supplies, equipment and uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 6 hours of clinical practice at the college or at selected health care facilities. Prerequisite: acceptance into the Practical Nursing Certificate Program, MAT097, ENG111, BIO203, or BIO204.

PNP-112

Practical Nursing II

This course builds on all the semester I courses and concepts with particular attention to individuals with more complex health care needs and with problems related to their health status. Principles of Nutrition and Pharmacology are applied in relation to health and the disease process. Teaching is an integral component of each unit of study. Subjective and objective data are influenced by culture, age and previous experiences of the patient and is a building block for critical thinking. The nursing process is utilized as the critical thinking tool in assessing this data for the purpose of planning and implementing holistic individualized nursing care. Applications of the concepts of caring and therapeutic nurse-patient relationships are stressed. During the clinical experience, the student will be accountable for providing competent, ethical and legal care in the role of the Practical Nurse. Additional expenses may include supplies, equipment and uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 19 hours of clinical practice per week a the college or at selected health care facilities. Prerequisite: Practical Nursing I (PNP 111), Drug Calculation (NUR 100) and Principles of Psychology (PSY 101).
**PNP-113 Practical Nursing III**

The student synthesizes and integrates cultural sensitivity and health education to provide safe and effective care and advocate for patients throughout the lifespan. The student outlines and implements a plan of care related to the challenges of the pediatric/MCH/geriatric patient, integrating the concepts of Erikson’s developmental stages, and extends care to family and community. Knowledge of medications and nursing implications of administration are expectations in the clinical setting. Legal and ethical principles are taught and adhered to within the scope of practice of the LPN. The leadership role of the practical nurse is defined and practiced in the long-term care setting where patient outcomes are predictably defined. Additional expenses may include supplies, equipment, uniforms. Course meets 6 hours of lecture/lab 1-2 days per week and 18 hours of clinical practice per week at the college or at selected health care facilities. Prerequisite: Practical Nursing II (PNP 112).

**Portuguese**

**POR-101 Elementary Portuguese I**

This course covers an introduction to the sounds and structures of the Portuguese language. The video-based, self-paced course emphasizes both Portuguese and Brazilian culture.

**POR-102 Elementary Portuguese II**

This continuation course of Elementary Portuguese I (POR 101) places greater emphasis on reading skills. The video-based, self-paced course stresses more complex Portuguese structures. The course meets General Education Humanities Requirement Area 6. Prerequisite: Elementary Portuguese I (POR 101) or one year of high school Portuguese.

**Political Science**

**PSC-101 Government/Politics in US**

This course provides an overview of the foundations, processes, and institutions of the United States federal government. Topics covered include the Constitution, federalism, civil liberties, civil rights, public opinion, the media, political participation, campaigns, elections, public policy, and the organization and functions of the three branches. Special emphasis is placed on the various channels of citizen influence. Prerequisites: A grade of C or higher in Basic Reading (ESL-099) or Reading Skills II (RDG-099) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses. This course meets the General Education requirement for Community & Cultural Contexts.

**PSC-150 Introduction to Political Theory**

This course introduces students to political theory through analyzing works of political and moral philosophy. Students investigate the theoretical foundations of various governing systems and apply philosophical frameworks to contemporary topics. Theorists considered will include but not be limited to: Plato, Aristotle, Machiavelli, Hobbes, Locke, Rousseau, and Marx. While the course provides a foundation for understanding canonical Anglo American and European traditions, it includes political theorists from Africa, Asia, and Latin America, including postcolonial & feminist theorists. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-099) or exemption by placing into higher level course. The course meets the General Education requirement for Community & Cultural Contexts.

**PSC-210 State/Local Politics**

This course acquaints students with the structures and functions of state and local government in the United States with special emphasis on fiscal and social policy within the context of political organization, state constitutions, and intergovernmental dynamics. This course meets the General Education requirement for Community and Cultural Contexts. Prerequisites: A grade of C or higher in Academic Reading III (ESL-098) or Reading Skills II (RDG-099) or exemption by placing into higher level courses.

**PSC-211 Introduction to Comparative Politics**

This course offers a cross-national analysis of the domestic politics and political institutions of various nation states, utilizing both qualitative and quantitative tools. Special emphasis is given to the impact of ideology, democratization, and economic development. Prerequisite: A grade of C or higher in College Writing I (ENG-111). This course meets the General Education requirement for Community & Cultural Contexts.

**PSC-220 Introduction to International Relations**

This course introduces students to the major theoretical debates in International Relations and situates the field within the context of the discipline, Political Science. It focuses on significant ideas, processes and institutions which explain the interrelations between the various actors in the international system, looking specifically at nation states and supranational and international organizations. Special attention is given to research methodologies and to questions of ideology, conflict, trade, finance, human rights, identity based differences (ethnicity, gender, etc.), and the dynamics of globalization. Prerequisite: A grade of C or higher in College Writing I (ENG-111). The course meets the General Education requirement for Community & Cultural Contexts.

**Psychology**

**PSY-101 Principles of Psychology**

This introductory psychology course covers a survey of information and theory. Topics include the brain and behavior, research methods, learning, consciousness, motivation, emotion, human growth and development, personality, abnormal behavior, and psychotherapy, social cognition and understanding. The course meets Community and Cultural Context requirement. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level course.

**PSY-105 Psychology of Social Relations**

This course covers the complex interrelationship between the individual and society. Topics include attitude formation, prejudice, conflict, frustration, competition, cultural and interpersonal difficulties involving identity formation, and alienation versus integration.

**PSY-107 Group Dynamics**

Through class exercises and observation, this course explores the relationship between the theory and experience of effective groups. It examines comparisons of individual and group performance, group goals, problem solving, decision-making, conformity, norms, cohesiveness, and leadership. The course meets General Education requirement Community and Cultural Contexts.

**PSY-131 Psychology of Popular Culture**

This course is designed to facilitate the development of critical thinking, reading, and writing skills through the psychological study of popular culture. Issues of social psychology, cross-cultural communication, identity development, creativity, violence, and psychological health will be analyzed in a variety of domains of popular culture. Psychological theory and analysis will be applied to youth culture, consumer culture, political campaigns, contemporary music and visual arts, tourism, stand-up comedy, advertising, and the internet. This course meets General Education "Individual and Society" Requirement Area 2.

**PSY-141 Social Aspects of Aging**

This course will provide a survey of major topics in the psychology of aging. Students will investigate the domains of memory, cognition and intelligence, the social and cultural environment, sensation and perception, language, emotion, spirituality, personality, health behavior, and the living environment. Students will look for common themes across domains, such as change and maintenance of identity with age. Students will learn research methods for studies of aging and will have an understanding of the aging brain.

**PSY-201 Learning and Memory**

This course is an introduction to current views of behavioral change, learning, and remembering. The focus will be on concepts, theoretical issues, and applications of current research in the fields of behavioral and cognitive psychology. Prerequisite: Grade of C or better in Principles of Psychology (PSY 101).

**PSY-203 Psychology of Personal Adjustment**

This course explores the development and expression of the personality through an examination of processes by which the self-concept is formed. The course surveys the theories of behavioral scientists that have contributed to the study of adjustment. Scientific study of the effects of stress and stress management techniques are included in this curriculum. The course prepares students for advanced study in psychology and places emphasis on critical thinking skills, especially as applied to scientific research. Prerequisite: Grade of C or higher in Principles of Psychology (PSY 101) or permission of instructor.

**PSY-209 Child Psychology**

This course examines the normal physical, cognitive and socio-emotional development of children from conception to age twelve. This course is to be used for meeting the requirements of the A.A. Psychology Concentration or for elective credit in other programs. However, this course may not be used to meet program requirements for degrees or certificates in the ECDev, EDU, or HSV programs. Students may not receive credit for both PSY 209 and

---

*Course Descriptions*

---

2021–2023 Bunker Hill Community College Catalog 291
and ECE103 to meet requirements for degrees or certificates for college graduation. Prerequisite: Grade of C or better in Principles of Psychology (PSY101).

PSY-213 Human Growth and Development
This course examines the theories of the biological, social, and psychological development of human beings throughout the life span. This course may be taken either as a prerequisite course for the pre-nursing program, or as an elective by non-Psychology majors. The course does not satisfy the requirements of the A.A. Psychology Concentration program. Prerequisite: A grade of C or better in Principles of Psychology (PSY101).

PSY-215 Counseling
This course explores theories and practices in counseling individuals and groups. It explores various theoretical approaches to counseling, and provides practical exercises in counseling. This course is restricted to those students enrolled in the Human Services, Education, Early Childhood Development, Psychology, or Sociology programs or by permission of the department chair of Education, Early Childhood Development, and Human Services or the department chair of Behavioral Sciences. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-219 Social Psychology
This course covers the complex interrelationship between the individual, small groups, and the greater society. Topics include attitude formation and change, social conflict, prejudice, frustration, and cooperation versus competition and aggression. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-223 Personality
This course covers distinctive patterns of behavior, including the thoughts and emotions that characterize individuals' adaptation to life. It examines four major approaches to the study of personality: psychoanalytic, behavioral, trait dispositional, and humanistic. Students study varying degrees of emphasis on processes or forces impinging on individuals' interaction with their environment. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-224 Adolescent & Adult Development
In this course, students study adolescents and adults in the areas of physical, intellectual and social changes, and their emotional growth and development during life stages of adolescence and adulthood. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101).

PSY-227 Abnormal Psychology
This advanced course for the serious student of psychology covers the history of mental illness and its treatment, modern classification, diagnosis, the theoretical causes of disorders, and treatments. The range of psychopathology extends from the disorder-free person to adjustment reactions, anxiety disorders, personality disorders, and borderline disorders, to psychosis and major disorders. Prerequisite: A grade of C or higher in Principles of Psychology (PSY101) or permission of instructor.

PSY-233 Intro to Psychiatric Rehabilitation
This course provides an overview of the underlying core values, principles and methods of psychosocial rehabilitation. Course topics include understanding the experience of mentally ill persons and their paths to recovery; a brief historical background on the emergence of psychosocial rehabilitation as an alternative to traditional models of diagnosis and treatment; the principles of psychosocial rehabilitation and their application to assessment and rehabilitation planning and intervention, practitioner competencies, different program settings; and the role of the family in psychosocial rehabilitation. Prerequisite: Introduction to Psychology (PSY101).

PSY-235 Introduction to Behavioral Research
This course is an introduction to the ways of discovering, describing, and making warranted assertions about aspects of people and social life. The major objectives are 1) to help students develop the skills and knowledge necessary to become intelligent critics of research in the behavioral and social sciences, and 2) to give them a rudimentary understanding of the design and evaluation of scientific research. Statistical material is treated in a conceptual manner. Prerequisite: Principles of Psychology (PSY101).

Reading

RDG-090 Reading Skills I
This course develops basic reading skills necessary for success with college-level material. The course will focus on improving comprehension and vocabulary. In particular, students will improve their ability to recognize and articulate main ideas, supporting details, and patterns of organization. Students will also improve vocabulary skills using context clues and the dictionary. Note: Students must meet exit-level requirements or pass a departmental reading final in order to earn a passing grade of C in this course.

RDG-095 Reading Skills II
This course develops advanced reading skills necessary for success with college-level material. The course will focus on achieving college-level comprehension skills and vocabulary. In particular, students will recognize and articulate main ideas, supporting details, and patterns of organization. Students will develop critical reading and thinking skills and improve vocabulary. In addition, students will improve note-taking and test-taking skills. Note: Students must meet exit-level requirements or pass a departmental reading final in order to earn a passing grade of C in this course. Prerequisite: Grade of C or better in Reading Skills (RDG-090) or placement by examination.

Religious Studies

REL-111 World Religions
This course helps students to inquire into, analyze, and contextualize practices and beliefs of religions in all regions of the world. Students analyze different religious traditions in relation to one another, contemplate the diversity of practices and beliefs even within a single religious tradition, consider how various religions engage significant human questions, and encounter religion as a living, evolving process. Students locate religions and their development within social, geographical, and political contexts. Students develop information literacy and communication tools to inquire into and discuss beliefs and practices with respect, curiosity, engagement, and intercultural competency. This course fulfills the General Education requirement “Community and Cultural Contexts.” Prerequisites: Writing Skills II (ENG-095) and Reading Skills II (RDG-095) or Integrated ELL Level 3 (ELL-103) or exemption from requirements due to placement testing.
Surgical Technology

SGT-106 Surgical Technology I 5 Credits
This course is an introduction to the profession of surgical technology. The foundation and theory of the practice of Surgical Technology are presented to the student in conjunction with hands on experience in surgical technology, standard precautions, surgical equipment and instrumentation, and the care of the surgical patient. The introduction to the clinical setting is presented in the lab. The surgical conscience is defined and developed as well as standards of professionalism. Prerequisite: admission into the Surgical Technology Program.

SGT-107 Surgical Technology II 8 Credits
This course focuses on the introduction of surgical specialties. During clinical placement students participate in the corresponding surgical interventions as they apply to each specialty. Prerequisites: Basic Anatomy/Physiology Lab (CHM107) or Human Biology Lab (BIO108) and Surgical Technology I (SGT105).

SGT-108 Surgical Technology III 3 Credits
This course provides a direct focus on performance in the clinical setting. Students participate as independent members of the surgical team, demonstrating beginning-level competence of advanced skills and anticipation of surgical needs. Classroom discussions will include legal, ethical, moral issues, or incidents, emergencies, and understanding the surgical patient’s reaction to stress and illness. Prerequisite: Surgical Technology II (SGT106), PMS 103, and Human Growth and Development (PSY 213).

SGT-109 Central Processing I 2 Credits
This course covers an introduction to the profession of Central Processing. It introduces principles of microbiology, technical functions, and functional areas as applied to Central Processing. The course covers the process of infection and disease transmission. It also covers manual and mechanical decontamination and disinfection. Course meets: 2 hrs. lecture.

SGT-109A Central Processing I Clinical 2 Credits
During clinical practice at local medical centers, students participate in corresponding central processing functions. A minimum of 90 hours of clinical is required. People working in central processing can apply for prior learning assessment credits.

SGT-110 Central Processing II 2 Credits
This course introduces high- and low-temperature sterilization, sterile packaging and storage. The chemistry of Sterilization is presented. Quality control, risk management regulations and recommendations and recommended practices are discussed. National management and principles of purchasing are also introduced. Course meets 2 hrs lecture. Prerequisites: a grade of C or higher in Central Processing I (SGT109) and Foundations of Mathematics (MAT093), and Reading Skills I (RDG-090) or Integrated Reading I (ENG-090), or Integrated ELL Level I (ELL-101) for placement.

SGT-110A Central Processing II Clinical 2 Credits
During clinical experience, students participate in applications of theory to actual practice. A minimum of 90 hrs of clinical is required. Prerequisites: Central Processing I (SGT109) and Central Processing Clinical (SGT111) with a grade of C or better.

SGT-111 Central Processing Clinical 2 Credits
This course is clinically focused, with students focusing on clinical skills acquisition. Students develop both depth and breadth of experience during clinical rotation. Course meets the first night to discuss clinical placement. 6 hrs clinical. Prerequisite: Central Processing I (SGT109) with a grade of C or better. People working in Central Processing can apply for Prior Learning Assessment credits.

SGT-115 Asepsis for Surgical Technology 2 Credits
This course covers the principles and practices of surgical asepsis that must be maintained in the operating room. This course will cover a brief introduction to microbiology with emphasis on infection control in the surgical setting. The course will culminate in the development and refinement of the importance of antisepsis and the role of the surgical technologist as it applies to these principles. Prerequisites: admission into the Surgical Technology Program.

SGT-116 Surgical Seminar 4 Credits
This course provides students with an opportunity to advance their knowledge of surgical procedures during the use of case studies. The seminar will be an online course that focuses on discussion of surgical specialties, complications, new technologies and the role of the surgical technologist as they advance from student to employee. Prerequisites: Surgical Technology II (SGT106) and Human Growth and Development (PSY 213).

Sociology

SOC-101 Principles of Sociology 3 Credits
This course covers an introduction to the concepts and theories of society and social institutions. The course covers community and Cultural Context requirement. Prerequisite: Academic Reading III (ESL-098) or Integrated ELL Level III (ELL-103) or Reading Skills II (RDG-095) or exemption by placing into higher level course.

SOC-109 Cultural Anthropology 3 Credits
This course demonstrates the way that the basic concepts and techniques developed by cultural anthropologists help us understand various cultures and intercultural relations. Through ethnographic readings and films, students learn about kinship, gender, ethnicity, religion, and social control. The course meets 3 hrs lecture and 2 hrs lab each week. Prerequisites: Grade of C or better in Principles of Psychology (PSY101) or Principles of Psychology (PSY111) and Foundations of Mathematics (MAT093) and Reading Skills I (RDG-090) or Integrated Reading I (ENG-090), or Integrated ELL Level I (ELL-101) for placement.

SOC-110 Physical Anthropology 3 Credits
Presented in four basic sections, this course covers an introduction to the field of physical anthropology, genetics, human evolution, and evolution of behavior. Module topics include the background of physical anthropology; man in the natural world; practical genetics; classification within the human species; homo sapiens; homo erectus; the Australopithecines; evolution review; what was before man; evolution of behavior; and where do we go from here? This course is offered through the Center for Self-Directed Learning only.

SOC-203 Social Problems 3 Credits
This course critically examines contemporary social problems by applying national and global sociological perspectives to the issues of poverty, race and ethnic inequalities, sexual orientation, and the environment. Students explore the systemic causes of social problems. How does a social problem become defined? What are the causes of various social problems? What can be done about them? Students may be expected to participate in service-learning projects in order to apply course materials to real world efforts to solve social problems. Prerequisites: Grade of C or better in Principles of Sociology (SOC101).

SOC-204 Sociology of Organizations 3 Credits
This course will explore how social institutions are created and maintained. Their impact on individual and social lives will be analyzed. Concepts like bureaucracy, power, conflict, functionalism, and stratification will be discussed in detail. Some of the organizations to be focused upon include: education, government, economic organizations, health care, social services, sports, religion, the family, and communication/media. This course will empower students with concepts and skills that will help them to better understand how social structures work and interact with each other. An open systems approach will be used in this course. Prerequisites: Grade of C or better in Principles of Sociology (SOC101) and College Writing I (ENG111).

SOC-205 Urban Sociology 3 Credits
This course covers the problems of social issues of contemporary urban life. It covers individuals’ responses to cultural, racial, political, institutional, educational, economic, and other challenges of city life. Prerequisite: Principles of Sociology (SOC101).

SOC-206 Juvenile Delinquency 3 Credits
This course examines the nature and types of juvenile behavior that violate the law. Students study issues such as socialization, deviant roles, social processes, the special attributes of youth, and historical attitudes toward childhood and adolescence. Topics include family juvenile court, correctional institutions, causes of delinquency, the female delinquent, and prevention and treatment of delinquency.

SOC-207 Criminology 3 Credits
This course examines various aspects of crime from the perspective of the sociologist. The course emphasizes social structure/social process theories of social disorganization and crime causation. Other topics include the history of criminology, the nature and extent of crime, the measurement of crime, criminal typologies, public order crime, victims, and victimization. Prerequisite: Principles of Psychology (PSY101) or Principles of Sociology (SOC101).

SOC-211 The Family 3 Credits
This course examines psychological and sociological factors related to the dynamics of family life. The course covers the process of the growth and adjustment of each family member as the family structure changes. Students discuss the historical, contemporary, and future family. Prerequisite: one introductory Behavioral Science course.
SOC-225 Sociology of Homosexuality
This survey course examines issues dealing with homosexuality from the perspective of the sociologist. The course emphasizes the essentialist/constructionist debate; facts and myths about homosexuality; the influence of prejudice and discrimination on the lives of gay men, lesbians and their families; and the homosexual culture/community/lifestyle. Other topics include coming out issues, development of gay and lesbian identities, the needs of a gay family member, gay history, gay spirituality, the AIDS crisis, and the gay liberation movement and its impact on contemporary culture.

SOC-227 The Sociology of Race and Ethnicity
This course explores issues of race and ethnicity as they exist in contemporary American society. We will look at the definition of race and ethnicity, how these definitions have evolved over time, and what they mean today. The impact of hate groups on American life and culture will be explored through the concept of difference and the ideas of superiority and inferiority. Core topics to be discussed include racial prejudice and racism, ethnic identity and multiculturalism, and Eurocentrism. This course satisfies the General Education requirement for Community and Cultural Contexts (previous area 2: Individual and Society) for all programs. Prerequisite: Grade of C or better in Principles of Sociology (SOC101), Principles of Psychology (PSY101), or Cultural Anthropology (SOC109).

SOC-229 Sociology of Film
This course deciphers the explicit and implicit message contained in films that has to do with the origin and structure of culture and society from the past to the present. The course covers the idea that, like all art forms, films are created in a social context and express a particular point of view through the characters, themes, motifs, and visual styles they embody.

SONography

SON-113 Cross Sectional Anatomy
This course focuses on detailed cross-sectional anatomy as it relates to sonographic imaging. This study of serial sectional anatomy helps sonographic students gain knowledge of the human body needed for the practical application of ultrasound. In class scanning will occur on a routine basis. Prerequisite: Admission to General Sonography Program. Co-requisite: Anatomy/Physiology/Lab II (BIO204).

SON-115 Abdominal Ultrasound
This course familiarizes the student with interpretation of normal and abnormal sonographic findings of the abdominal cavity. Related scanning techniques and associated Color Flow and Doppler are described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to abdominal sonography will be covered. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisite: General Sonography Clinical I (SON121).

SON-119 Subspecialty Sonography and Neurosonography
This hybrid course will familiarize the student with interpretation of normal and abnormal sonographic findings of subspecialty exams. This course will also have a hybrid and in-class component for an introduction to neurosonography. Related scanning techniques and associated Color Flow and Doppler are described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to subspecialty sonography and neurosonography will be covered. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisite: General Sonography Clinical I (SON121).

SON-121 General Sonography Clinical I
This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: Cross-Sectional Anatomy (SON113). Co-requisites: Abdominal Ultrasound (SON115), Ultrasound Scanning and Pathology (SON117), and Subspecialty Sonography/Neurosonography (SON119).

SON-123 General Sonography Clinical II
This course is a continuation of General Sonography Clinical I. Abnormal sonographic findings as they relate to second and third trimesters will be covered. Related scanning techniques including gestational dating will be discussed. Abnormal sonographic findings as they relate to gynecology and the first trimester will be covered. Related scanning techniques and associated Color Flow and Doppler will be described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to gynecology and the first trimester will be covered. Prerequisite: General Sonography Clinical II (SON123). Co-requisite: General Sonography Clinical III (SON223).

SON-213 Ultrasound Physics and Instrumentation for the General Sonographer
This hybrid course presents the physics of Ultrasound to the performance and instrumentation used in the general sonographer practice. A review of the basic laws and instruments are also discussed as they relate to the specific topics of the Doppler effect and Sonographic artifacts, harmonics, contrast agents, bioeffects and safety are covered as well. Review from Ultrasound instrumentation I is covered in the form of online weekly registry review tests. Prerequisite: Ultrasound Instrumentation I (MIG105). Co-requisite: General Sonography Clinical III (SON223).

SON-215 Advanced General Sonography I
This hybrid course is a combination of classroom teaching and online learning experience. Course topics include a review of abdominal and subspecialty sonography. Interesting sonographic cases will be presented for review. Articles from the Journal of Ultrasound in Medicine and the Journal of Diagnostic Medical Sonography will be reviewed and discussed. Related practice exams will be taken online on a regular basis. Prerequisite: Abdominal Ultrasound (SON115). Co-requisite: General Sonography Clinical III (SON223).

SON-217 Advanced General Sonography II
This hybrid course is a combination of classroom teaching and online learning experience. Course topics include a review of obstetrical and gynecological sonography as well as physics and instrumentation. Interesting sonographic cases will be presented for review. Articles from the Journal of Ultrasound in Medicine and the Journal of Diagnostic Medical Sonography will be reviewed and discussed. Registry practice exams will be taken online on a regular basis. Prerequisite: Advanced General Sonography (SON215). Co-requisite: General Sonography Clinical IV (SON225).

SON-219 Obstetrical/Gynecological Sonography I
This course familiarizes the student with interpretation of normal sonographic findings of gynecological and first, second, and third trimester sonography. All measurement techniques including gestational dating will be discussed. Abnormal sonographic findings as they relate to gynecology and the first trimester will be covered. Related scanning techniques and associated Color Flow and Doppler will be described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to gynecology and the first trimester will be covered. Prerequisite: Obstetrical/Gynecological Sonography I (SON219). Co-requisite: General Sonography Clinical II (SON123).

SON-221 Obstetrical and Gynecological II
This course is a continuation of Obstetrical/Gynecological Sonography I. Abnormal sonographic findings as they relate to second and third trimesters will be covered. Fetal anomalies as well as maternal disease will be discussed. Related scanning techniques and associated color Flow and Doppler will be described. Sonographic/medical terminology, pathophysiology, clinical presentation and associated laboratory findings as they relate to the second and third trimesters will be covered. Prerequisite: Obstetrical/Gynecological Sonography I (SON219). Co-requisite: General Sonography Clinical IV (SON225).

SON-223 General Sonography Clinical III
This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: General Sonography Clinical II (SON123). Co-requisites: Obstetrical and Gynecological Sonography I (SON119), Advanced General Sonography (SON215), and Diagnostic Instrumentation (SON213).
SON-225  
General Sonography Clinical IV  
This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: General Sonography Clinical III (SON223). Corequisites: Obstetrical and Gynecology Sonography II (SON221) and Advanced General Sonography (SON217).

SON-227  
General Sonography Clinical V  
This course is the hands-on application of ultrasound in the hospital setting. Scanning skills are developed during this clinical. Students will be performing supervised ultrasounds and present daily cases to sonographers and/or physicians. Students will become acquainted with the responsibilities needed to work in the ultrasound setting. Clinical will take place 3 days a week. Prerequisite: General Sonography Clinical IV (SON224).

Sport Management  
SPM-101  
Principles of Sport Management  
This course examines the issues of management and organizational behavior within the context of the sports industry. Students will gain a comprehensive view of the procedures and operations of sport organizations and enterprises and will examine processes such as budgeting, marketing, event management, and labor relations that are necessary for the successful administration of these organizations. The Principles of Sport Management course is designed for individuals with interests in careers that require management skills and knowledge of the sports industry. Pre/co-require: Introduction to Business (BUS101).

SPM-201  
Psychology of Sport  
This course is the study of the interaction between psychological variables and performance in sports and physical activity. This course is designed to help students both learn and apply the research practical as well as theoretical information as it relates to the psychology of sport. The course includes topics such as optimal performance, correlation, motivation, co-action effect, self-actualization, psycho-behavioral techniques, self-efficacy, and the general health benefits of sport participation. This introductory course is ideal for students who wish to work with athletes in some capacity, pursue a career in sports management, or plan on working with individuals in the health and fitness industry. Prerequisite: Principles of Psychology (PSY101).

SPM-211  
Sport Facility and Event Management  
This course provides students with an understanding of the complexity involved in major sport events and facilities in relation to their social, cultural, and physical environment. Topics include the analysis of goals and resources, the development of revenue streams, design and planning, scheduling and operations, staff management, and the implementation of programming. Risk management and security issues reflective of today’s environment will be discussed. Prerequisite: Principles of Sport Management (SPM101).

SPM-213  
Sport Law and Ethics  
This course is designed to introduce students to the legal, business, and policy issues and disputes that arise in the world of amateur and professional sports. Discussion of sports law incorporates the roles, rules and activities of the NCAA and questions involving amateurism, eligibility, sex discrimination and antitrust. Discussion of professional sports includes professional sports leagues, labor relations, contractual questions and representation. Issues important to both areas include violence in sports, drug testing, criminal, tort issues, and sponsorship endorsements. Prerequisite: Principles of Sport Management (SPM101).

SPM-215  
Sport Marketing and Promotion  
This course takes an in-depth look at fundamental marketing practices as applied to various sport venues and provides a detailed analysis of sport as a product, sport consumer markets, and sport product markets. Students will become familiar with marketing strategies applied to specific segments of the sport industry including amateur, college, professional and recreational markets. Students will participate in organizing marketing, promotional, and public relations campaigns applied to the sport industry. Legal issues and other challenges facing the sport industry will also be examined. Prerequisite: Principles of Sport Management (SPM101).

SPM-217  
Seminar in Sport Management  
Through case discussion, lecture, videos, guest speakers, and field research, this course provides the student with a series of concepts, framework, analytical techniques, and management decision-making skills to enable him/her to anticipate and critically examine and evaluate some of the problems, issues, and opportunities facing a sport business enterprise. This course should be taken in the student's final semester. Prerequisite: Principles of Sport Management (SPM101).

SPM-299  
Sport Management Internship  
This course enhances the academic experience for students. All internships take place at pre-approved sites. Students engage in activities that improve knowledge of the practical world of work and help them gain professional experience. The internship experience applies resources gained from studies' students to improve the quality of their contributions to the employer. A faculty coordinator supervises and grades all courses. Students are responsible for following all guidelines in the BHCC Internship Handbook. Prerequisite: Department Chair approval.

Spanish  
SPN-101  
Elementary Spanish I  
This course, for students with little or no previous knowledge of Spanish, covers an introduction to the sounds and structures of Spanish and the development of basic skills needed for understanding and speaking Spanish. The course is not intended for native speakers or for students who have studied this language within the last three years.

SPN-102  
Elementary Spanish II  
This continuation course of Elementary Spanish I (SPN101) emphasizes conversational skills and simple readings. The course satisfies General Education requirement “Creative Work”. Prerequisite: Elementary Spanish I (SPN101) or one year of high school Spanish.

SPN-110  
Lat Id-Media Cul & Myths  
This course will explore the agenda behind the manipulation of the Latinx experience in the media, how this contributes to the perpetuation of stereotypes, and how these myths affect the notions of self-identity. Examples of songs, T.V. shows, literary fiction, and other cultural manifestations will be incorporated into the course in order to examine the bias and flaws embedded in literature, the media, institutionalized discourses, and other sources of information. Through class discussion, writing, and research students will acquire a better understanding of the Latinx experience in the United States. This course is taught in English.

SPN-201  
Intermediate Spanish I  
This course covers a review of basic language skills and emphasizes conversational and reading skills. Prerequisite: Elementary Spanish I (SPN102) or two years of high school Spanish or permission of instructor.

SPN-202  
Intermediate Spanish II  
This continuation course of Intermediate Spanish I (SPN201), emphasizes self-expression through speaking, reading, and writing. Prerequisite: Intermediate Spanish I (SPN201) or three years of high school Spanish or permission of instructor.

SPN-280  
Spanish for Heritage Speakers  
SPN 280 is a course especially tailored toward heritage or native speakers of Spanish with active or passive knowledge of the language. The main purpose of the course is to build upon the language knowledge that students bring to the classroom and advance their proficiency of Spanish for multiple contexts. Special attention is given to building vocabulary, acquiring and effectively using learning strategies, and strengthening composition skills in Spanish to be used in formal settings. Cultural projects and readings will reinforce learners understanding of the multiple issues related to the Hispanic cultures, including the USA. This course meets the General Education requirement for Creative Work. Prerequisite: being a heritage or native speaker of Spanish, that is having active or passive knowledge of the language OR special permission by the instructor.

Theatre  
THE-107  
Acting I  
This course covers a total approach to the actor's art and stresses the use of body and voice. It includes improvisation, theater games, and sensory exercises with eventual involvement in scene study and character development. This course meets General Education requirement for Creative Work.

THE-108  
Acting II  
This scene study class covers intensive work with imagery and improvisation to heighten actors' abilities to perform roles dynamically. The course focuses on students' discovering their strengths as they learn to trust their impulses and create characters that are vulnerable and compelling. Each participant works on two scenes. Prerequisite: Acting I (THE107).
The-109 Play Production Workshop 3 Credits
This course covers practical training in acting, costuming, makeup, lighting, and stage management related to the production performed by the class. All students work as crewmembers and are encouraged to audition for roles in the play. Students may repeat this course three times, earning one credit for each repetition. Prerequisite: Acting I (THE-107)

Thr-107 Acting I 3 Credits
This course covers a total approach to the actor’s art and stresses the uses of body and voice. It includes improvisation, theater games, and sensory exercises with eventual involvement in scene study and character development. This course meets General Education requirement for Creative Work.

Thr-108 Acting II 3 Credits
This scene study class covers intensive work with imagery and improvisation to heighten actors' flexibility for the stage. Prerequisites: Writing Skills I (ENG-090) and Writing Skills II (ENG-095); or exemption by placement testing.

The-109 Play Production Workshop 3 Credits
This course covers practical training in acting, costuming, makeup, lighting, and stage management related to the production performed by each class. All students work as crewmembers and are encouraged to audition for roles in the play. Students may repeat this course three times, earning one credit for each repetition. Prerequisite: Acting I (THE-107).

Thr-111 Improvisation 3 Credits
This course explores improvisation both as an art and also as the basis for developing roles for stage and on-camera work. Students develop spontaneity, narrative skills, the ability to work off a partner, and to make strong choices on stage. Students work with the repertoire of comedy improvisation groups, with more dramatic and narrative improvisation groups, and with more dramatic and naturalistic improvisation situations. This course meets the General Education requirement for Creative Work. Prerequisites: Integrated ELL Level I (ELL-101) or Reading Skills I (RDG090) and Writing Skills I (ENG090) or exemption by placement testing.

Thr-113 Voice and Movement 3 Credits
This course frees the body and voice from habitual tensions and patterns and opens and expands the possibilities for vocal and physical expressiveness. Voice training focuses on the cultivation of a flexible and expressive voice and the development of interpretive skills. Movement focuses on body awareness, control, and flexibility for the stage.

Thr-115 Playwriting 3 Credits
This course introduces students to various approaches to writing for the stage. Components of playwriting, which include narrative, structure, plot, character, dialogue, and setting, as well as the concept of “theatre”, will be explored. Through reading and discussion of short works by a selection of playwrights, students will garner a sense of the development of playwriting while also being exposed to various playwriting genres. During the semester, students will create short works for the stage. Weekly writing exercises will be shared and discussed in class. This course meets the General Education requirement for Creative Work. Co-requisite: College Writing I (ENG-111)

Test

Tst-101 Test Registration 3 Credits
This course is used to test various functions of the registrar's office including grading, waitlist, registration, withdrawal, schedule adjustment, and enrollment verifications. December 19 2011 4:53 PM Deborah A. Boyer

Tst-102 Test Registration II 3 Credits
This course is used to test various functions of the registrar's office including grading, waitlist, registration, withdrawal, schedule adjustment, and enrollment verifications. December 19 2011 4:53 PM Deborah A. Boyer

Visual Media Arts

Vma-100 3 Credits
Vma Freshman Seminar
This interdisciplinary course builds a connection to the aesthetic, historical and intellectual aspects of an artist community and creative work while helping students navigate through some of the logistical hurdles of the first year experience. Students participate in a variety of group activities, discussions and presentations with faculty and visiting artists. Field trips include local galleries/studios. A journal/sketchbook is required. The course is required for all Visual and Media Arts majors. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

Vma-101 Visual Design: Composition and Color 3 Credits
This course introduces the student to elements and principals of design that are fundamental to all fields of visual art. Within the context of 2-dimensional problem solving, students will develop a working vocabulary of visual elements including line, form, space, and color, in order to experience the expression of principles of composition such as balance, rhythm, emphasis, and proportion. Students will experience working with a variety of mediums and begin to develop skills in both visual thinking and craftsmanship. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

Vma-102 Elements of Form 3 Credits
This course introduces the student to the fundamental elements and principles of design within the context of 3-dimensional form and time, both essential to the understanding of 2D and sequential art and design. Working with a variety of materials students will explore the fundamentals of scale, volume, space and light in 3 dimensions. Through exploring sequence and visual narrative, students will be introduced to the fundamentals of visual experience in time. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

Vma-103 Audio for Media 3 Credits
This introductory lab, students will gain basic knowledge and skills for producing audio for broadcast and visual media. Through hands-on projects, students will learn how to record, edit, and mix sound, using standard audio equipment and digital audio editing software. Topics will include the science of sound, audio for video, audio and the internet, and the technical aesthetic aspects of audio craft. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

Vma-104 Drawing from Observation 3 Credits
This introductory studio course examines the basic vocabulary, principles, and skills of drawing. Using a wide range of media, students work primarily from observation to develop techniques of objective drawing. While concentrating on formal visual elements such as line, shape, value, texture and limited color, students study principles of figure/ground, scale, positive and negative space, proportion, perspective, volume, light, composition and pictorial unity. Through drawing, discussion, critique, and research, students will explore mark making as an expressive endeavor. This course meets the General Education requirement for Creative Work. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) or exemption by placing into higher level courses.

Vma-105 Digital Imaging With Photoshop 3 Credits
The Adobe Photoshop workspace reflects the technical basis of the digital image. Understanding the structure of this important application enables the student to systematically build confidence and skill in its use, and also apply its principles in related applications. This course surveys the breadth and depth of the Photoshop workspace and toolset through lecture presentations and lab exercises. An overview of the digital imaging workflow will be presented, with emphasis on image processing. Students must have basic computer literacy. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

Vma-106 Digital Imaging for Artists and Designers 3 Credits
In this course students will learn the Adobe Photoshop and conceptual skills necessary to create digital illustrations, collage and mixed media work comprised of photography, scanned images, found materials and student artwork. Students will learn the technical aspects of digital imaging such as scanning, image resolution, color reproduction, nondestructive editing, and image retouching and manipulation. These will be applied to projects where students explore principles of color and composition, meaning, expression, representation, sequence and narrative.

Vma-110 Introduction to Mass Media 3 Credits
Mass media helps shape the power dynamics in society and politics. This introductory course is the study of social, cultural, economic, ethical and political issues from personal, local, historical and global perspectives. Students will explore various kinds of media and their uses such as news, advertising, public relations, entertainment, social media and work with. Through discussions and projects, students will engage with multiple views, experiences, and beliefs in order to become critical consumers and
producers media in our multicultural world. The course meets General Education Requirement for Community and Cultural Contexts. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-112  3 Credits
Art History: Prehistoric to Medieval

This course is a broad, multicultural survey of art and architecture from the Prehistoric to the Medieval periods. Through formal analysis students will learn to use visual language to express aspects of design such as style, composition, perspective and materials. Students will explore how global, social, political, and cultural events influence, and are influenced by, artists and the production of art. By engaging with works of art through discussion, writing, museum visits, and making projects, students will explore the process of human creative endeavor, and will construct a narrative about artistic expression as it relates to society and their own experience. This course meets the General Education Requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-113  3 Credits
Art History: Renaissance-Contemporary

This course is a broad multicultural survey of art and architecture from the Early Renaissance through contemporary times. Through formal analysis students will learn to use visual language to express aspects of design such as style, composition, perspective and materials. Students will explore how global, social, political, and cultural events influence, and are influenced by, artists and the production of art. By engaging with works of art through discussion, writing, museum visits, and making projects, students will explore the process of human creative endeavor, and will construct a narrative about artistic expression as it relates to society and their own experience. This course meets the General Education Requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-114  3 Credits
History of Graphic Design

This course critically investigates and explores graphic design and visual communication history, major movements and pivotal artists and designers. This course requires participation of students in lecture and presentation, writing and studio projects, which will build critical thinking and visual skills. The course provides a necessary historical basis for students in the Visual Design Option in the Visual & Media Arts Program. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-115  3 Credits
The Moving Image

This course critically investigates and explores the history and technical development of the moving image, major technological and influential works, artists, technical advances, and movements in film, television, and digital presentations. This course builds critical thinking and visual skills. The course provides a necessary historical basis for students in the Integrated Media Design Option in the Visual & Media Arts Department. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-118  3 Credits
Elements of Time

This course is a time-based foundation studio course that focuses on critical thinking skills in the form of time and experience. The conceptual and experimental approach of this course enables students to develop the basic vocabulary, concepts, tools and principles used by artist and designers who create time-based multimedia projects. Students will critically evaluate and utilize time as narrative and an essential element through projects in audio, video, installation and live performance. These assignments will culminate in a self-directed project that promotes inquiry and can shape the viewers’ perceptions of artifacts, light, movement, time and space. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-122  3 Credits
Painting for General Education

This introductory studio course examines the basic vocabulary, skills and principles of painting from observation. The course emphasizes drawing, composition, color, value, and paint quality. Through working with various tools and materials, discussion, critique, and research, students will explore how the combined elements of visual design can produce the illusion of volume, space, light and movement in order to depict observed and imagined subject matter, and be used to express ideas and emotion. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-123  3 Credits
Water Color I

An introduction to the medium of watercolor paint, this course demonstrates and explores basic techniques such as wet-on-dry, wet-on-wet, and washes. Students draw from observation and learn to manipulate value, tone, and color. Class time includes one-on-one instruction and group critiques. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-124  3 Credits
Printmaking I

This course is an introduction to a variety of printmaking processes including woodcut, monoprint, engraving, and dry point. Students will experiment with tools, materials and techniques in a studio environment. Through drawing, research, discussion, and critique, students will develop their own visual ideas and use printmaking as means of expression. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-125  3 Credits
Introduction to Adobe Suite

This is an introductory course in Adobe Illustrator, Photoshop, and InDesign, the industry-standard applications for graphic design. Through in-class and independent projects, students will learn the basic functionality of these for digital illustrations. Photoshop for editing images, and InDesign for layout and design. Students will be introduced to the basic functionality and vocabulary needed to continue building skills independently. Please note: This course cannot be used for credit in the VMA Visual Design Option.

VMA-129  3 Credits
Visual Design with HTML & CSS

Visual Design students will learn typography, layout and design in the context of interactive media, using HTML and CSS as visual design tools. Through a variety of onscreen projects, students will build on typesetting and layout skills and practice the principals of interactive design. Projects will focus on web typography, fluid design, functional style, navigation, and kinetic typography on screen. Prerequisite: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-130  3 Credits
Social Media Strategy

In this course, students will explore techniques and strategies of social media marketing and public relations that can be used to promote a company, and individual or a product. Through case studies and exercises students will learn how to identify business objectives and how a marketing campaign is created. Students will learn to reach an audience through an integrated marketing approach that uses social media, online video, podcasts, mobile apps, blogs, news releases, viral marketing, marketing, print and other current media channels. Care for objectives are identified and explored. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-132  3 Credits
Typography I, Form, Style, & Hierarchy

Typography is the art and technique of arranging letterforms for practical and expressive communication. This foundation course introduces students to the anatomy and classification of type, and to the basic principals of type classification, legibility, information hierarchy and grid systems. By completing a variety of projects, students will build skills in typesetting and layout, expressive typography, conceptual thinking and Adobe InDesign and Adobe Illustrator. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses. Students must earn a grade of C or higher to advance to Typography II.

VMA-133  3 Credits
Typography II: Layout, Typesetting, and Systems

In this course students will continue to build on typographic foundation principles, strengthening their skills through projects of moderate complexity. Projects involve information design and design of long-form content for print and digital books, magazines and other publication formats. Students will learn to develop consistent type and navigation systems, and explore the relationship between type and image. There will be an emphasis on working through the design process from sketch, revision, and final presentation. Software used: Adobe Illustrator, InDesign, and some Adobe Photoshop. Prerequisite: A C or higher in Typography I: Form, Style and Hierarchy (VMA-132).

VMA-135  3 Credits
Digital Illustration

In this course students will learn digital drawing skills to create projects in Adobe Illustrator and other software that communicate concepts and information. There will be an emphasis on developing visual research, sketching and rendering practices in order to create illustrations, data graphics and logotypes using vector drawing techniques. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103) and Foundations of Mathematics (MAT-093).
VMA-140 Media in Motion
In this studio/critique class, students will learn to combine typography, image, audio, and short animations sequenced using software and traditional methods. Skills and principles learned in this course may be applied to television projects. The course includes a large emphasis on the process of designing desktop publishing systems. The course may be taken for credit or non-credit. Prerequisite: Grade of C or better in Typography I (VMA-132).

VMA-141 Elements of Video Production
This course gives students an overview of the theoretical, aesthetic, and practical elements of digital video production, pre-production, and post-production. Through a series of creative exercises, lectures, and classroom critiques, students will gain an understanding of the fundamental skills required in planning, scripting, directing, shooting, lighting, and editing digital video productions for a variety of purposes and audiences. The course provides a special emphasis on understanding and using visual storytelling techniques to relate information and emotion. Recommended prerequisite: Digital Imaging with Photoshop (VMA-105). Prerequisites: Writing Skills II (ENG-095) and Foundations of Mathematics (MAT-093).

VMA-151 Introduction to Audio Technology
This course will provide the student with the basic knowledge and skills required for audio production. Through lectures and hands-on lab work, students will learn the technical and aesthetic aspects of recording, editing, mixing, and production. This course is designed for students new to audio as well as those who are familiar with the basics of digital production. The course will also serve as an introduction to digital audio editing software.

VMA-161 Introduction to Digital Photography
In this rigorous course, students investigate basic technical issues of photographic workflow and form and practice the use of digital cameras and software. Through shooting assignments and lab exercises, students use an array of technical, aesthetic, and compositional principles to create work that documents and interprets the world around them. Examples of current and historic photography will be examined. Students must have a digital camera or computer software. This course meets the General Education requirement for Creative Work. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

VMA-205 Inventive Drawing
Through various methods of visual thinking and ideation, students will learn to develop ideas and concepts, and will experiment with a variety of digital, traditional, or organic tools, drawing methods and mediums. During the course, students will develop individual creative insight, learn to generate ideas through brainstorming and creative thinking, skills that are useful in effective design, animation, illustration, drawing, painting, story-telling and many other forms of visual communication. Prerequisite VMAT-104.

VMA-207 Figure Drawing
Students draw from the model as a means of understanding form, shape, and line, gaining experience with a variety of drawing media. Prerequisite: Figure Drawing (VMA-104).

VMA-221 Multimedia & Theory
This course introduces students to the fundamentals of painting with heavy body paints and mediums. Working from observation students will continue to develop their skill as painters of spontaneous and transparent paintings as they relate to the medium of watercolor paint. Prerequisite: Watercolor I (VMA-123) or permission of instructor.

VMA-222 Watercolor II
Focusing on developing one's personal sense of aesthetics and style, this course explores various techniques used in watercolor. The course places emphasis on creating cohesive, well-composed paintings, while it develops an understanding of the evocative properties of spontaneity and transparency that paint allows. Prerequisite: Watercolor I (VMA-123) or permission of instructor.

VMA-223 Figure Drawing
This course further develops the techniques of drypoint, engraving, woodcut, and monotype while focusing on thematic development and content. The course explores the more complex methods of color printing. It encourages experimentation in a self-motivated workshop environment. Class time includes one-on-one instruction and group critiques. Prerequisite: Figure Drawing (VMA-124) or permission of instructor.

VMA-225 Painting Concepts
This studio course provides intermediate instruction to students that possess the basic painting skill set framed by VMA-221. Through observational painting, students will continue to increase their facility with heavy body paints while learning advanced techniques and employing digital media as a painting medium. This course will again serve as an introduction to portraiture and figure painting while providing a framework for students to begin experimenting with personal aesthetics (style). They will carry on the discussion of artist's intention, ideas, and concepts through various exercises, lectures, and classroom critiques. Prerequisite: Painting Concepts (VMA-125). This course is a prerequisite for VMA-242 Video Production.

VMA-241 Advanced Video Production
This course focuses on development of the skills and concepts necessary for digital video production. Students learn the advanced use of the HDV digital camcorder microphones, the field audio mixer and lighting techniques. The course uses images and materials acquired in the course in its co-requisite class, Video Production (VMA-242), in order to complete a final project for both courses. Topics covered include fiction and non-fiction production techniques, including research, script development and interviewing. Discussion of theoretical issues in applied media aesthetics will be an integral and essential part of the class. Prerequisite: Elements of Video Production (VMA-141) or permission of instructor. Co-requisite: Video Production (VMA-242).

VMA-242 Video Post-Production
This course delivers an intensive workshop in digital nonlinear post-production software, theory and techniques. Students work in depth with Final Cut Pro and will also explore other aspects of the Final Cut Studio package, including Live Text. The course also provides a solid foundation in the theory and aesthetics of film and video editing by examining the history and development of the editing process. The course uses images and materials acquired in its co-requisite course, Advanced Video Production (VMA-241), in order to complete a Final Project covering both courses. Prerequisite: Video Production (VMA-141) or permission of instructor. Co-requisite: Advanced Video Production (VMA-241).

VMA-243 Projects in Video Production
The approach and content of this course focuses on producing a work of professional quality for
use as a portfolio presentation of student achievement. Drawing on skills they have acquired in previous production courses, students will write, shoot, and edit a high-quality video product, including audio sweetening, digital composite effects, and graphics, modeling their activities on a real-world production atmosphere. Actual production activities depend on project production schedule and needs. Prerequisites: Advanced Video Production (VMA241) and Video Post Production (VMA242) or permission of instructor.

**VMA-244 Media Project Planning**

This course is an intensive survey of all aspects of pre-production planning for video and multimedia productions. Special emphasis is given to the process of writing for the media, including idea development, preparation of proposals, treatments, storyboards and scripts that define projects. Prerequisites: Elements of Video Production (VMA141).

**VMA-252 Audio Studio Production**

This course will cover basic techniques for multi-track studio recording. Topics will include microphone techniques and placement, tracking and overdubbing, mixing and digital editing, and use of outboard equipment. Use of ProTools software in a recording environment is emphasized. Prerequisite: Introduction to Audio Technology (VMA151).

**VMA-261 Digital Photography Techniques**

This course examines professional practices in digital photography. Emphasis is on the continuity of the digital workflow and the production of fine prints. Technical issues of acquisition, image processing, out-put, and archiving will be addressed. Works derived from topical shooting assignments and student-defined projects. Students must have a digital camera with manual exposure control, and preferably one with RAW capture capability. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**VMA-262 Video Techniques Lab**

In this digital filmmaking course, students will learn the technical elements of visual storytelling through demonstration and hands-on practice. Students will build a vocabulary of camera, lens, lighting, and composition skills through working on a variety of projects. Working in groups, students will experience various roles with a film crew. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**VMA-263 Video Concepts Lab**

In this combination lab and critique class, digital filmmakers will focus on the pre and post production elements of visual storytelling. Through calls discussion and a variety of projects, students will explore aspects of structure, narrative, and style and build skills in conceptualization, scripting, storyboarding and editing techniques. Post-production topics include digital editing software and current methods for output and distribution. Screenings, readings, sand discussions of film and video work will challenge students to advance their personal vision and storytelling abilities. Prerequisites: Writing Skills II (ENG-095) or Integrated ELL Level III (ELL-103); and Foundations of Mathematics (MAT-093) or exemption by placing into higher level courses.

**VMA-271 Design for the World Wide Web**

This course addresses the unique design issues involved in creating web pages. Students learn to develop graphics and media, to integrate content and media elements, and to create visually attractive communicative, and effective pages for electronic delivery. The course gives special attention to software applications used in the creation of web page design and graphics. Prerequisite: Digital Imaging with Photoshop (VMA105).

**VMA-273 Motion Graphics & Compositing**

This course will familiarize students with the aesthetic and technical requirements of using digital methods to combine video, photo, graphics, text and other visual and audio elements. Through lecture, demonstration and hands-on projects, students will learn behavior-based animation, transfer modes, particle dynamics and simulation design, stylized title animation, chroma key techniques, DVD motion menu design, 3D features, key framing, audio and integration with various editing software. Prerequisite: Digital Imaging with Photoshop (VMA105) or permission of instructor. Recommended: Advanced Video Production (VMA241) and Video Post Production (VMA242).

**VMA-274 DVD Authoring**

This course provides students the technical and aesthetic skills needed to design and author professional DVDs. Through lectures and hands-on exercises, students will learn the stages of the DVD authoring process, including initial planning and storyboarding, menus and buttons, design and navigation, and burning and replication. Prerequisites: Digital Imaging with Photoshop (VMA105) and Elements of Video Production (VMA141). Recommended prerequisite: Advanced Video Production (VMA241) and Video Post-Production (VMA242).

**VMA-275 Interactive Design I**

In this studio intensive course, students will build on the foundations of visual design, typography and image with the principles of interactivity and user experience, in order to create responsive designs that work on both handheld and desktop devices. Prerequisites: Grade of C or better in VMA 132 Typography I.

**VMA-276 Interactive Design II**

This is a practical class teaching interactive visual design from conception to completion. Students start by coming up with an idea for and examining the needs of their design projects, then define the target audience and behavior, page layouts, project planning/site maps, and technical skills. Students will produce a resume and self-marketing materials. They will learn presentation techniques and participate in portfolio review. Prerequisite: Grade of C or better in Visual Design I (VMA232), Pre-Co-requisite: Visual Design Lab II (VMA233).

**VMA-299G Visual Design Internship**

This course provides students with practical experience in a professional setting and preparation for a successful career in the visual design field. Designation of the internship site will be based on student academic and career goals. The internship includes in-class learning and weekly meetings with the instructor and/or the representative of the designated business or agency. Prerequisite: Grade of C or better in Visual Design I (VMA232) and permission from the department.

**VMA-299M Media Communication Internship**

This internship course is dedicated to field experience in a professional job situation and is recommended as a final semester course. Students arrange for placement at an internship site with the departmental supervisor in the semester prior to the actual internship. The experience requires 120-150 hours, as well as a personal project related to the internship. Prerequisite: Advanced Video Production (VMA241) or permission of department chair.

GLOSSARY OF ACADEMIC TERMS

Articulation agreement
A formal agreement between Bunker Hill Community College and a four-year college or university which eases students’ transition to that institution.

Academic advisor
College staff member responsible for providing guidance in course and/or program-related issues.

Academic calendar
A calendar of important dates associated with the college, such as semester start and end dates, holidays and deadlines.

Academic course load
The number of credit hours in which a student is enrolled during the semester.

Academic term (semester)
Fall, spring and summer weeks when classes are in session. The fall and spring semesters are approximately 16 weeks long. The summer semester usually has three sessions varying in length from five to twelve weeks. An online winter session that is approximately three weeks long is also offered.

Academic year
Fall, spring, and summer semesters, generally from early September to mid-August.

Accreditation
Certification by an independent educational board that college or university’s practices and policies meet or exceed official standards.

Academic Innovation & Distance Education (AIDE)
The AIDE office supports teaching, learning and online programs and resources. AIDE partners with faculty, staff, and students to support Moodle, the College’s Learning Management System where instructors post course materials, and other digital learning tools including virtual meeting platform WebEx, ePortfolio, Panopto, and more.

Ace Mentor program
The ACE Mentor program provides students enrolled in Learning Community courses assistance in making a successful transition to college by focusing on academic achievement, engagement, and cultural competency.

Add a course
To register for a wide range of courses. Students develop their own schedule and follow the course syllabus that outlines all assignments due dates.

Audit
To take a course under an agreement which does not result in a final grade of A, B, C, etc... Generally involves regular attendance and participation, but limits graded activities, such as exams; requires full payment of tuition.

Board of trustees
An appointed board that oversees and is responsible for the policies and fiscal affairs of a college.

Bridge session
An eight week semester that runs during the summer for a few three-credit courses and all four-credit courses.

Bursar
College official responsible for the billing and collecting of tuition and fees.

Career planning
The planning process in which students in collaboration with staff design a plan for employment that matches their interests and professional goals.

Career program
A specialized degree designed to equip a student with the skills and educational background needed for employment in a specific field, such as business administration, criminal justice, etc...

Certificate program
An academic program of study in a specific field intended for occupational training, upgrading, or retraining, generally 30 credits or less in duration. A certificate is awarded upon successful completion of the program.

Commencement
Graduation ceremony.

Community education and lifelong learning programs
Courses offered by this department within the Division of Workforce and Economic Development are non-credit and taken by students for career and educational advancement and/or for personal enrichment. The department also offers approved continuing education units (CEUs) for professional advancement or to maintain licensure.

Co-requisite
A course requirement that is taken concurrently with another course.

Course cluster
Two or more courses grouped together around a common academic theme. Instructors teaching in a cluster situation work as a team to ensure cluster objectives are met.

Course delivery
The modality used to impart course content.

Credit course
An academic course numbered 100 or above in the college catalog which may be applied toward completion of a degree or certificate. (See also Developmental Course).

Credit hour
A standard measure of the amount of instructional time required to successfully complete a course. For example, ENGL11, College Writing I, is a 3 credit hour course, which means that it meets for 3 hours each week for one semester.

CSDL (Center for Self-Directed Learning)
An academic center at which students can register for a wide range of courses. Students can learn at their own pace through a variety of instructional media/materials.

Curriculum
A set of courses focused in a particular field, e.g. accounting, criminal justice, early childhood.

Dean
A member of the administrative staff responsible for supervision and management of a particular division of the college.

Degree program
At Bunker Hill Community College, an Associate in Arts or Associate in Science program of study requiring 60 credits or more for completion.

Developmental course
A basic skill development course numbered below 100 in the college catalog which carries college credit but does not count toward the requirements for graduation.

Division
The Academic Departments and Services at the College are organized into nine divisions that are supervised and managed by a Dean. Examples of Divisions at BHCC are: Division of Academic Support and College Pathway Programs; Division of Health Sciences; Division of Science, Engineering and Mathematics Programs; Division of Student Affairs; etc.

Drop a course
To cancel registration in a course. It may be accomplished only during the schedule adjustment period as specified on the academic calendar and is processed through Admissions and Enrollment Services.

Education plan
A student’s map or guide that delineates the courses they need to take to earn their degree or certificate and when those courses will be taken and in what format.

Education planning
The planning process in which students in collaboration with staff create an educational pathway that facilitates their persistence and success.

Elective
A course in a program of study which may be selected from a variety of courses in the designated discipline and is numbered above 100.

ePortfolio
This is a vehicle for students to track their academic journeys through college by sharing their accomplishments and reflecting on their learning in ways that are both personally and publicly meaningful.

Faculty
An employee of the College who delivers academic instruction.

Fees
Charges by the College for specific services to students.

Financial aid
Funding from various sources provided to students to assist in defraying expenses of college (See Financial Aid section of this catalog).

Financial planning
A set of resources and tools designed to help students make sound financial decisions that are in line with their personalized plan.

Free Application for Federal Student Aid (FAFSA)
A required standardized application that includes detailed financial data and is used to determine eligibility for all financial aid programs.

Full-time (student)
Student registered for 12 or more credits in the fall or spring semester or six (6) credits in the summer.

GED
General Educational Development (high school equivalency diploma).

General Education
A common core of courses required of all students that provides for the acquisition of core skills and knowledge necessary in a literate citizenry.
Good academic standing
A student is considered making satisfactory progress in good academic standing if G.P.A. is 2.0 or higher and has completed 66 percent of his/her credits attempted.

G.P.A. (Cumulative G.P.A.)
Grade Point Average, used to compute student academic standing.

Guest student
A student admitted and enrolled at another college or university planning to take a course(s) at BHCC.

HiSET
High School Equivalency Test.

Hybrid course
Courses that combine traditional classroom instruction with online learning to deliver academic content that is the same as received in a pure classroom setting.

Internship
A program designed to give a student real world experience in their intended career before graduation.

Integrated support services
Identifies and directs students to people, resources, and services that meet their unique needs to promote success and individual growth.

IP grade (in progress)
A grade conferred by a faculty member giving a student a period of time after the end of the semester to complete all of the required coursework to earn a passing grade.

Learn and Earn program
Paid internships at companies located in the greater Boston area.

Learning Community Cluster
Enrolls the same group of students in two or more courses centered on common academic themes enabling students to learn and study together.

Learning Community Seminar
A course designed to assist first time students make a successful transition to college.

Learning Contract
An independent learning agreement between a student and a faculty member under the auspices of a Dean that allows a student to enroll in and complete a course that is not offered in any other format in a semester.

LifeMap
An education, career and transfer planning program and process that is dedicated to promoting student success in their education, career and personal goals. Components of LifeMap include career planning, academic planning, support network and transfer planning.

Major/program of study
The degree or certificate program a student is officially enrolled in.

Matriculation
Formal application to and acceptance in a degree or certificate program.

Mid-semester warning grade
Official notice to a student by faculty that at the half-way point of the semester a student is in danger of not passing a course(s) with a grade of C or better.

Mid-term
The point midway through an academic term.

Moodle
Online platform where online courses are hosted.

NA grade (never attended)
An administrative withdrawal designation conferred by faculty to students enrolled in a course(s) and who do not attend one class during the first two weeks of the semester.

Non-credit course
A course that is non-credit bearing and cannot be used to satisfy an academic requirement for any degree or certificate program.

OneCard
Student ID which also serves as the means of student financial aid refunds.

Online degree program
Degree programs that allow students the ability to fulfill all of the requirements by completing online courses.

Open admission
A program through which students may earn college-level learning acquired through non-collegiate experiences such as employment, military training, community service, and volunteer activities.

Placement test
A test which determines a student’s level of learning in a subject, typically English or Mathematics, before they begin a college program.

Planned courses
The formal process of determining the order and semester courses have to be taken in to earn a degree or certificate.

Prerequisite
Skill or course required for entry into a course or program of study.

Probation
Formal notice that a student is not in good academic standing and imposes limits on the number of credits a student may register for in a semester.

Re-admission
The process by which students who return to the College to re-enroll in a degree or certificate program after an absence of at least one semester.

Satellite campus
Location besides a college’s main campus where classes are held and courses are facilitated.

Satisfactory academic progress (S.A.P.)
Minimum grade point average and course completion rate that must be earned by a student to be considered in good academic standing.

Schedule adjustment (add/drop)
A short period of time after a semester begins that allows students to change their course enrollment and/or course schedules.

Selective program admission
Some programs are competitive and have specific requirements that must be met before a student may submit an application for admission. These programs are competitive and acceptance is not guaranteed.

Self-directed learning
An approach to learning that requires students to take the lead in determining how they will learn subject matter and work to autonomously acquire that knowledge.

Selfservice
Online portal where students may register for classes, pay tuition and fees, access their financial aid information and more.

Staff
An employee of the College who does not teach or facilitate academic instruction.

Student Central
BHCC’s one-stop center for student services, including financial aid, student payment and academic records.

Success coach
A Success Coach is an advisor assigned to a Learning Communities course to assist students. Success coaches collaborate with faculty and ACE mentors to engage students in academic content and to work with students to identify pathways that encompass academic, career, and personal goals.

Support Network
The staff who collaborate with students and provides services needed to help students achieve their academic, career and personal goals.

Suspension
Students on probation who after taking a reduced course load, continue to not meet the grade and completion rate threshold to be in good academic standing. These students may be required to take a semester off.

Synchronous course
Courses that meet at a specific date and time each week at the same on-campus or virtual location.

To be announced (TBA)
An instructor and/or a room has yet to be assigned for a course.

Transfer guidelines
Informal documents suggesting courses to be taken at Bunker Hill Community College for most effective transfer to a four-year college or university.

Transfer planning
The planning process in which students in collaboration with staff design a plan for transfer to a four-year college or university in alignment with education and career goals.

Transfer program
A degree program designed for students who plan to continue their academic careers beyond the associate degree level through transfer to a four-year college or university.

Transcript
Permanent record of students’ academic grades; available through Admissions and Enrollment Services.

Tuition
Charges by the College to a student for registration in credit courses.

Web course
A course that is completely online and provides the same academic content that is delivered in a traditional classroom course.

Withdrawal from college
The formal process of notifying the College of the decision to discontinue attending all classes.

Withdrawal from a course
The formal process of notifying the college of the decision to discontinue attending a Course.

Affirmative Action and Equal Opportunity Policy: Bunker Hill Community College is an affirmative action/equal opportunity institution and does not discriminate on the basis of race, creed, religion, color, sex, sexual orientation, gender identity, age, disability, genetic information, maternity leave, and national origin in its education programs or employment pursuant to Massachusetts General Laws, Chapter 151B and 151C, Titles VI and VII, Civil Rights Act of 1964, Title IX, Education Amendments of 1972, Section 504, Rehabilitation Act of 1973, Americans with Disabilities Act, and regulations promulgated thereunder, 34 C.F.R. Part 100 (Title VI), Part 106 (Title IX) and Part 104 (Section 504). All inquiries concerning application of the above should be directed to Nahomi Carlisle, Esq., Associate Vice President, Chief Equity and Compliance Officer, Affirmative Action Officer, and Section 504/ADA Coordinator.
