# Medical Imaging Program Pinning Ceremony

May 17, 2018

Bunker Hill Community College  
Charlestown Campus  
Health & Wellness Center Gymnasium

## Pinning Ceremony

The Pinning Ceremony is a time-honored imaging school tradition, dating back to the beginning of the 20th century. Traditionally, imaging students have conducted a Pinning Ceremony to mark the passage of the student technologist to clinical practice.

The pin of each college or university is unique, and only graduates of that school may wear the pin as a statement that they have completed the program. The design of Bunker Hill Community College's pin depicts the caduceus, the symbol of healthcare, in gold-plate with a red stone.

We welcome you to our Pinning Ceremony to celebrate the success of our students!

## The Imaging Technologist's Pledge

I solemnly pledge that I will cheerfully and willingly assist the Physician in all diagnostic and therapeutic imaging procedures to the best of my ability.

I will procure the best possible images in all examinations.

I will take care to maintain a professional attitude in my relationship with all patients.

I will regard as strictly confidential all information regarding each patient coming for examination or treatment.

I will not discuss patients nor their affairs outside of the department.

I will not divulge to the patient the results of any examination.

I will do all in my power to live up to and improve the highest traditions of my profession.

So help me, God.
