

## SELECTIVE SERVICE REGISTRATION COMPLIANCE INFORMATION

Most male students must register with Selective Service to get federal financial aid. With only a few exceptions, the registration requirement applies to all male U.S. citizens and male aliens residing in the United States who are 18 through 25 years of age. When you completed your FAFSA and it was processed through the Department of Education your information did not meet the selective service registration data match to show you are already registered and you did not choose to have your registration processed automatically through the FAFSA (question 22).

If you are a male age 18 through 25 you can still register yourself online @ [www.sss.gov](http://www.sss.gov). You must submit documentation of your online registration to the financial aid office before we can award any financial aid.

If you are already registered you must submit documentation to the financial aid office that you are registered. If you no longer have your original registration confirmation you can print confirmation of your registration @ [www.sss.gov](http://www.sss.gov).

If you were required to register and did not do so, you may be ineligible for financial aid. You must request a Status Information Letter from the selective service administration. To obtain this letter you can call 1-847-688-6888 or go online @ [www.sss.gov](http://www.sss.gov). You may also obtain a paper copy of the request form at our office which can be mailed to the Selective Service Administration.

Other information regarding selective service requirements and exceptions is available online @ [www.sss.gov](http://www.sss.gov).

If you have passed your 26<sup>th</sup> birthday and entered the United States for the first time after your 26<sup>th</sup> birthday, you need to submit documentation of your entry date to our office to waive the registration requirement. The most common forms of documentation are a passport or I-94. Green cards are not acceptable.
