I. Introduction

Bunker Hill Community College recognizes the importance of creating a safe, healthy, and well-informed community. The college takes all matters relating to drug and alcohol abuse seriously per the student code of conduct, as well as any city, state, or federal ordinance pertaining to these areas over the campus. We also recognize the importance of educating our population of students, faculty, staff, and guests on available on-campus/off-campus drug and alcohol prevention and support programs.

A. Purpose

The use of illicit drugs and alcohol at the College workplace, on College property or at College activities impairs the safety and health of students, inhibits the personal and academic growth of students and undermines the public’s confidence in the College. Only in an environment free of substance abuse can the College fulfill its mission of developing the professional, social, cultural and intellectual potential of each member of its community.

Moreover, it shall be the policy of Bunker Hill Community College that all shall refrain from the use of alcohol and other drugs while on campus or at any College related event or activity. This substance abuse policy shall be provided annually to every student of the College. Every two years, the College shall evaluate the effectiveness of this policy and shall make any necessary amendments to enhance and to improve the environment of the College.

B. Prohibited Conduct

The students of Bunker Hill Community College shall not unlawfully manufacture, distribute, dispense, possess or use controlled substances or alcohol on College property, in conjunction with any College activity or in the College workplace. Any individual who violates this prohibition is subject to disciplinary action in accordance with the College’s Behavior Policies. Disciplinary action may include expulsion from the College, mandatory participation in an alcohol/drug abuse assistance program or referral to an external rehabilitation program as well as referral of the matter.
for prosecution to an appropriate law enforcement agency. Any student who is employed in any capacity by the College, as a condition of such employment, will abide by this policy. Student employees will notify the College’s Associate Vice President of Human Resources within five (5) days of being convicted of violating a criminal drug statute in the workplace. The College will notify a grantor agency within 10 days that a student employee has been convicted of a drug-related offense.

C. Substance Abuse Prevention and Awareness Program

Nikki Pollard, LICSW Senior Academic Counselor specializes in Health and Wellness Education and is available to assist students with any alcohol or other drug related matter. Materials are available upon request to educate any interested student, faculty or staff person. These materials increase student awareness of specific substances and aim to prevent alcohol and other drug abuse. The Senior Academic Counselors can offer support and make referrals to appropriate related external resources.

Students can go to the Dean of Students webpage to find resources to help evaluate their use of alcohol and marijuana through Alcohol eCHECKUP TO GO and Marijuana eCHECKUP TO GO by visiting https://www.bhcc.edu/dos/resources/alcoholotherdruguse/. These tools provide personalized feedback to students as well as information about how to access to treatment resources.

II. Health Risks Associated with Drug and Alcohol Use

The use of drugs and alcohol, even infrequently, may have an adverse effect on health. Excessive use of alcohol is associated with liver damage, hypertension, brain damage and a weakened immune system. Cocaine or crack use may be fatal, depending upon the cardiovascular response of the user. This drug is highly addictive and withdrawal may result in depression symptoms. Tranquilizers and sedatives are also known to be addictive, even at low dosages. The intravenous use of drugs carries the additional risk of infection due to shared needles. HIV and Hepatitis are examples of infectious diseases that may be transmitted through the use of shared needles. Use of any drug in conjunction with alcohol can be extremely dangerous and may result in coma, overdose or fatality. A Senior Academic Counselor can educate and inform you about the effects that specific substances have upon your health.

III. Penalties, Criminal and Legal Sanctions Associated with Drug and Alcohol Abuse

The Office of the Dean of Students maintains a complete list of the legal sanctions associated with alcohol and drug abuse. In general, severe sanctions may be imposed upon an individual who manufactures, distributes or possesses controlled substances such as marijuana, cocaine, crack or prescription drugs. The penalties may be enhanced for offenses occurring on or near the College. These penalties include fines and imprisonment. The illegal purchasing of alcohol, the illegal possession of alcohol or the providing of alcohol to minors are all offenses that are punishable by fines and/or imprisonment.
